WEINSTEIN’S OBJECTIONS TO AND MOTION TO STRIKE
DR. ISABEL HUANG’S CORRESPONDENCE SUBMITTED BY COPELAND –
IN SUPPORT OF COPELAND’S DECEMBER 29, 2025 FILINGS:
EMERGENCY MOTION FOR INTERIM RELIEF AND
REPLACEMENT OF MEDICAL EQUIPMENT
AND
MOTION FOR ADA ACCOMMODATIONS

TO THE HONORABLE JUDGE OF SAID COURT:

COME NOW, Plaintiffs/Counter-Defendants Weinstein Management Co., Inc. and WMCI Dallas X, LLC (hereinafter referred to collectively as “Weinstein”) and make and file this their Objections to and Motion to Strike Dr. Isabel Huang’s Correspondence Submitted by Copeland – in Support of Copeland’s December 29, 2025 Filings: Emergency Motion for Interim Relief and Replacement of Medical Equipment and Motion for ADA Accommodations, and in support thereof would respectfully show unto the Court as follows:

I.

RELEVANT BACKGROUND INFORMATION
REGARDING DR. ISABEL HUANG

Dr. Isabel Huang is a medical doctor, who specializes in physical medicine and rehabilitation, and is affiliated with UTSW.

Dr. Huang is not:

- A specialist in internal medicine;
- A medical toxicologist;
- A psychiatrist;
- A psychologist;
- A neuropsychologist;
- A neurologist;
- An endocrinologist;
- A gastroenterologist;
- An immunologist;
- A rheumatologist;
- An allergist;
- A pulmonologist; or
- A cardiologist.

Dr. Huang is also not:

- A mold assessment specialist;
- A mold remediation specialist; or
- A property valuation expert.

In short, Dr. Huang lacks the necessary expertise to opine on any matter that falls outside her limited areas of medical practice and therefore, Dr. Huang's opinions and recommendations should be wholly disregarded - pursuant to Tex. R. Evid. 702 and 703 (and interpreting case law: *Broders v. Heise*, 924 S.W.2d 148 (Tex.1996)*Arlington Memorial Hosp. Inc. v. Baird*, 991 S.W.2d 918, 921 (Tex.App. – Fort Worth, writ denied); *Pace v. Sadler*, 996

S.W.2d 685, 689-690 (Tex.App. – Beaumont 1991, writ denied) *Lesser v. St. Elizabeth Hosp.*, 804 S.W.2d 657 (Tex.App. – Beaumont 1991, writ denied); *Gladewater Municipal Hospital v. Daniel*, 694 S.W.2d 619, 620 (Tex.App. – Texarkana 1985, no writ); *Kieswetter v. Center Pavilion Hosp.*, 662 S.W.2d 24, 27 (Tex.App. – Houston [1st Dist.] 1983, no writ); *Fontenot Enterprises, Inc. d/b/a Hope Rehabilitation v. Kronick*, 2006 Tex. App. LEXIS 8580 (Tex. App. – Houston [14th Dist.] 2006, no writ); *Reyes v. Jebo=s Inc.*, 2005 Tex. App. LEXIS 3344 (Tex. App. – San Antonio 2005, no writ); *Bowles v. Bourdon*, 219 S.W.2d 779 (Tex. 1949); *Tinghui v. Billingsley*, No. 05-08-00436-CV, 2005 Tex. App. LEXIS 684 (Tex. App. - Dallas 2009, no pet. h.).

Additionally, and problematically -

Per the December 21, 2025 correspondence submitted by Copeland (but not submitted until December 29), Copeland has been “under” Dr. Huang’s care since October 8, 2024. However, Dr. Huang’s correspondence provides no information as to what that actually means, to include: what particular objective testing, and evaluations have been performed by Dr. Huang and /or what actual treatment Dr. Huang provides -to include as related to ordering use of durable medical equipment, prescribing medications, ordering and monitoring adjunct therapeutic care [occupational, physical, and/or speech] and, any involvement with and oversight concerning treatment of any of Copeland’s alleged medical conditions.

Further, the December 21, 2025 correspondence makes no mention of any particular recent testing, exam and/or evaluation that she (Dr. Huang) personally has conducted of Copeland -at any particular point in time – but most notably since December 4, 2025 (the point of reference date set out in the correspondence). As such, the correspondence is conspicuously silent as to any matter which would indicate any recent objective medical testing and/or observations by Dr. Huang.

Significantly: Though Copeland now relies upon the December 21, 2025 correspondence in support of filings she made on December 29, 2025, Copeland never identified this physician in disclosures, and has refused to produce this physician's medical records (either through disclosures or Request for Production). **Tellingly:** When Weinstein sought to obtain the records for Dr. Huang through subpoena and Deposition on Written Questions, Copeland took the position that she had filed a Motion to Quash such (though the Motion to Quash filed by Copeland did not specifically address these records) – and as a result, Weinstein agreed to request that the records service refrain from continued efforts to obtain the records, until after the issue could be resolved through hearing. Copeland did not request a hearing on her Motion to Quash; Weinstein did. On December 4, 2025, the Motion to Quash was heard and the Court ordered the records service could proceed with obtaining the records, but that Copeland would be provided the records first (after which a process was to be followed with respect to protecting and/or releasing the records, as reflected in the Order signed by Judge Chupp on December 5, 2025). As of the date of these Objections, Weinstein has not obtained or been provided any of Dr. Huang's records, and Copeland should have produced these records weeks (if not months) ago – in response to Rule 194 Disclosures and/or in Response to Request for Production.

Finally, Copeland was requested, on December 1, 2025, to provide a date that she would be available for Dr. Huang's deposition, and to date, has failed to respond to this request. See attached as **Exhibits "A" through "C"** – Copeland's Initial Disclosures, and correspondence sent to Copeland by the undersigned counsel regarding identification of persons with knowledge of relevant facts (specifically referring to medical providers) and request for Dr. Huang's deposition.

As has been Copeland's practice and routine (both pre litigation and in the midst of this litigation)– she takes a "sword and shield" approach to her alleged disabilities and/or underlying

medical conditions – relying on such conditions to attempt to obtain whatever particular requested relief she asserts she is “entitled” to receive, while preventing Weinstein from obtaining information as to those very matters. As such, Weinstein does not have a fair and full opportunity to evaluate the claims asserted and/or cannot fully and critically analyze the veracity of Copeland’s claims. This type of litigation conduct is improper: “A plaintiff cannot use one hand to seek affirmative relief in court and with the other lower an iron curtain of silence against otherwise pertinent and proper questions which may have a bearing upon his right to maintain his action.” *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding).

Dr. Huang’s December 21, 2025 is yet another example of Copeland’s litigation approach in this regard- and Copeland’s use of Dr. Huang’s correspondence should be prohibited – pursuant to Tex. R. Civ. P. 193, 194 and 215 (and as contemplated by *Remington Arms Co. v. Caldwell*, 850 S.W.2d 167, 170 (Tex. 1993), *Patton v. Saint Joseph’s Hospital*, 887 S.W.2d 233, 239 (Tex.App. – Fort Worth 1994, writ denied; and *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding)).

II.

OBJECTIONS TO DR. HUANG’S CORRESPONDENCE

Copeland has provided the Huang December 21, 2025 correspondence in an attempt to: 1) manipulate the litigation process (whether in District court or Justice court- as she has filed this correspondence in the District Court case (141st Judicial District Court) and in the two JP court

cases in which she has sued Weinstein – and in which she attempts to avoid her obligations as a litigant – though notably in those two JP court cases she is represented by counsel, John Douglas) and 2) to bolster and/or support her requested relief for significant Plaintiff personal injury damages/monies to be awarded to her – **pre trial, this includes:**

A) Requesting payment (by Weinstein) of \$18,000 a month for the duration of the case (to fund her self determined entitled lifestyle, termed by her as “interim housing”) and for which amount she incredulously claims to be “conservative”, in a circumstance where neither Weinstein nor this Court is required to provide this relief to Copeland; Weinstein is not required by contract, statute or state and/or federal law to pay for “housing” for Copeland, and this Court is not required to do so – or to enter an Order directing Weinstein to do this under the guise of an “ADA accommodation); and in a circumstance where no finding of liability has been made against Weinstein as to any pending counter claim asserted by Copeland (and cannot be made, until the jury hears all the evidence and makes its decision); and;

B) Requesting a payment of \$20,000 for alleged replacement of medical items (items that which, if they existed at all on September 22, 2025, were never secured by Copeland once she knew her apartment would be going through remediation starting on September 22, 2025 [ie if these items actually existed, she left such items in her apartment; as such, if those items were actually medically necessary – she should have removed them before the remediation was scheduled to take place], and for which it has not been proven (ie established by the jury) that Weinstein is liable to reimburse Copeland for any particular piece of property – medical or otherwise. Further, egregiously – Copeland has taken the position – and perhaps convinced Dr. Huang to do so as well- that the items which were removed from the apartment and which are

being stored off site (by Reign Restorations) have not been cleaned or returned (ie that Weinstein has refused to do either/both) – as if Copeland had provided authorization for either- which she has not; steadfastly stating since the property was removed that she does not want it cleaned by Reign Restorations (claiming this would be spoliation, and even filings various injunctive type pleadings to prohibit Weinstein from permitting this to occur, and filing such, before and after Weinstein’s counsel has repeatedly assured Copeland that no cleaning has taken place and none will take place, absent her authorization); and moreover, Copeland has never provided any location to which the property can be returned (though she has been asked to do so since September 27). Further, Copeland wholly failed to cooperate with attempts to identify medically necessary items and arrange for their return to her (as Judge Chupp had indicated, on October 2, at the TRO hearing, should be done, if it was possible to do so- and which counsel for Weinstein started initiating as early as October 3). Since October 3, 2025, counsel for Weinstein has engaged in repeated attempts to work with Copeland as to identification of alleged necessary medical items (and/or sentimental items) – as again was directed by Judge Chupp, and has continued to follow up with Copeland as to her preference with respect to the numerous items that still remain on Weinstein’s property – in two store rooms and the balcony of the apartment that Copeland had leased – and these communications by counsel were as recent as December 4, 2025, with no response by Copeland.

In short, Copeland has purportedly procured this correspondence from Dr. Huang to assist her in manipulation of the litigation process, to attempt to provide her not “equal” access to the Court (for which she has never been denied) but preferential treatment, while depriving Weinstein of its right to zealously prosecute and/or defend its positions (and prepare for trial), and in an attempt to obtain an award of pre trial, personal injury damages for which she is not entitled (and pursuant to which no legal premise – statutory, contract or common law provides for, and in a

circumstance where no liability finding has been made against Weinstein, by the fact finder). All of this is improper, an affront to the judicial system and an abuse of process.

Copeland has referred to this correspondence in her December 29, 2025 pleadings – as Dr. Huang “verifying” that certain circumstances exist and/or certain recommendations should be followed- however, the correspondence is not actually verified, in any manner. Dr. Huang has not signed an Affidavit and/or an Unsworn Declaration – and in fact, the correspondence does not bear the actual handwritten signature of Dr. Huang -it is a typed name only.

Therefore, it is impossible to verify the veracity of this correspondence and/or its authenticity -from the document alone. As such, Weinstein request that if the Court is ever inclined to consider this correspondence for any purpose, that the following be ordered: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

Weinstein lodges the following objections to the Dr. Huang Correspondence:

OBJECTIONS GENERALLY – TO THE SUBSTANCE/CONTENTS AND LACK OF QUALIFICATIONS/EXPERTISE

- Weinstein object that the correspondence is not properly authenticated and/or cannot be verified for veracity; the correspondence is not signed by Dr. Huang (a typed named is all that appears; and a prior piece of correspondence used by Copeland on other pleadings, while heavily redacted – was purportedly written to support a “Disability Application” – for which Weinstein has no information on the status of the “disability application” but it appears to have not been approved (or not yet approved), at this point (if it had been approved, Copeland has never provided this and certainly if she had any document which confirmed that she has been assessed by any agency to be “disabled” – she would have produced this by now) – **but** that prior correspondence contained Dr. Huang’s handwritten signature-

therefore, this unsigned correspondence is not consistent with what appears to be Dr. Huang's practice of providing patient assistive correspondence.

- Weinstein object that the correspondence is hearsay and/or is hearsay within hearsay.
- Weinstein object that the correspondence is based upon speculation and/or the self serving statements made to Dr. Huang by Copeland, and further object that the statements contained in the correspondence are largely conclusory and non specific;
- Weinstein object that the manner in which the correspondence is written, further calls into question, the veracity or completeness of the correspondence: there appears to be a redaction which was made – fourth paragraph from the bottom of page 1, starting with “These episodes...” – the word “I” appears on the second line -but nothing else – as though there was more there – but has been redacted.

Similarly, the correspondence is dated December 21, 2025 (but references a December 8 date- of unknown significance); if the correspondence contains Dr. Huang's actual impressions, concerns and recommendations that she came to/developed on December 8, 2025- and those matters require “immediate” action – this December 21, 2025 dates calls into question the veracity of any comment made by Dr. Huang – as to any matter deemed to be an “immediate” concern; as certainly, Dr. Huang would not wait until December 21 to make these matters known – when she thought by December 8 – these were needing immediate attention. The correspondence is, therefore, further objectionable because it is internally inconsistent, and makes the entire document unreliable for any purpose.

- Weinstein object Dr. Huang is not qualified to provide opinions as to any matter other than the care she has actually provided. As such, Weinstein objects that there is no information to indicate Dr. Huang has any expertise in the following areas (and as such, her opinions and/or recommendations in any and/or pertaining to any of these areas lack proper foundation and/or expertise):
 - Internal medicine;
 - Medical toxicology (to include as related to exposure to mold);
 - Psychiatry;
 - Psychology;
 - Neuropsychology;
 - Neurology;
 - Endocrinology;

- Gastroenterology;
 - Immunology;
 - Allergy medicine;
 - Rheumatology;
 - Pulmonology;
 - Cardiology;
 - Mold assessment;
 - Mold remediation; or
 - Property valuation expert.
- Weinstein object that the correspondence provides no information as to objective medical testing, studies, evaluation and/or examination performed by Dr. Huang and instead references only comments/complaints made by Copeland (making repeated use of the word “reportedly” when referencing not only chronology of events but also Copeland’s alleged response/reaction to participation in the December 4, 2025 hearing) and has such, the correspondence is based upon nothing but speculation, conjecture and information provided by the most biased witness/person in the case- Copeland and as such, is not based upon reliable and/or even accurate information and, therefore, lacks proper foundation;
 - Weinstein object that the various medical conditions identified, at the beginning of the correspondence as diagnosed conditions, are not explained, and that there is no information provided as to what these conditions are, what they effect as to Copeland (physiologically), how the conditions are being managed and/or treated (prescribed medications, prescribed therapies, use of durable medical equipment) and/or the manner in which any particular identified medical condition has any actual objective causal connection to any particular matter: where and/or how Copeland is living, the status of Copeland’s personal property, Copeland’s ability to participate in litigation activities (**noting that with all of the alleged conditions – Copeland has filed numerous counter claims in the 141st Judicial District litigation, filed two different JP Court cases (Precinct 3) against Weinstein, is engaged in pro se litigation against her prior counsel – Beth Janicek and Koons Fuller, has sued the Amicus, Kelly Decker and Ms. Decker’s law firm, has filed federal court litigation against the entirety of Tarrant County and various judges----** and throughout all of these litigated matters – has filed pleadings, Motions, served discovery, served numerous subpoenas, and has participated in

court proceedings- at times, insisting to do so in person; as such, Dr. Huang's reference to the various medical conditions is conclusory, and the implication of any adverse effect on Copeland's ability to "litigate" in any particular case – is disingenuous (at best) and not supported by Copeland's "real life" activity-making the information unreliable and lacking in foundation;

- Weinstein objects that on its face, this correspondence makes clear that Dr. Huang is basing her conclusions on matters that were only reported by Copeland, in relation to her "current" report- see page 1 of the correspondence, mid way down, where Dr. Huang starts the portion of the correspondence by stating "Ms. Copeland is currently reporting the following" – followed by 6 bullet points/conditions – demonstrating none of what is included in the bullet point information is actually derived from Dr. Huang's observations/interactions and/or based upon her medical knowledge/judgment – but instead is based upon what Copeland "reported", and as such, the correspondence lacks reliable and proper foundation.
- Weinstein object that the correspondence seems to indicate that Dr. Huang has not actually seen/evaluated Copeland in the last several months – to include after the December 4 hearing – as such, any opinion she would proffer is not based upon reliable foundation; alternatively, if Dr. Huang saw Copeland on December 8, her correspondence is wholly devoid of any information as to what type of assessment/exam she conducted, treatment provided and/or recommended – and therefore, the correspondence remains lacking in reliable foundation (ie the opinions espoused by Dr. Huang then appear to be based on nothing other than Copeland's subjective, self serving statements);
- Weinstein object that Dr. Huang's correspondence is incomplete in that it references certain matters/circumstances without providing full information – which is likely because her source for all the information contained in the correspondence is: Copeland – whose rendition of circumstances is not necessarily accurate, complete and/or reliable; this is applicable to not only Copeland's alleged "flare up" and effects of same, but also comments made as to Copeland's personal property items and Copeland's ability to participate in litigation related activities.

OBJECTIONS TO ALLEGED EFFECT OF DECEMBER 4, 2025 HEARING

- Weinstein object that the information contained in Dr. Huang's correspondence as to the impact of Copeland's participation in the December 4, 2025 hearing on Copeland's underlying alleged conditions has on her – whether as related to in person participation in hearings, and litigation proceedings or as related to her ability to operate/function in the litigation activities – is inconsistent with and wholly not supported by what Copeland actually does and/or is doing – and as such, Dr. Huang's correspondence, in that regard, is again wholly unreliable (and only showcases that her entire rendition of information is unilaterally provided by Copeland – without Dr. Huang either considering various other factors/matters-

and/or perhaps only being provided certain information by Copeland which Copeland believes will inure to her benefit) and as such, Dr. Huang's correspondence should be disregarded.

The following are examples (though not exhaustive) of the inconsistency of what Dr. Huang asserts is Copeland's status, following the December hearing – as opposed to what Copeland is actually doing or able to do, since the December 4, 2025 hearing:

--Dr. Huang references that since the December 4, 2025 hearing (hearings on Copeland's filings), Copeland suffered "physical strain and environmental exposures" which "reportedly triggered a several flare up that has significantly worsened her symptoms of pain, weakness and fatigue" -- [note – Dr. Huang does not provide any information as to what constitutes a "flare up" and for that reason, Weinstein also objects to the vague and ambiguous/non specific nature of this comment- for which her entire correspondence seeks to address]; however, if this were true – it would seem that Copeland would have actually been seen by a healthcare provider that day (and again, it appears that she was not seen by Dr. Huang, that day) – but instead, that day and on the days thereafter, the following occurred:

--On December 4, 2025, Copeland attended the hearing in the 141st Judicial District Court- these were *in person* hearings; **Copeland scheduled her Special Exceptions, the first of the two matters scheduled, as an in person hearing** (in other words- regardless of whatever underlying conditions or sensitivities she claims to have – **she requested for that hearing to be in person** (after which the undersigned counsel set Copeland's Motion to Quash regarding the ordered records for the same date, and in person). Copeland did not require any assistive devices- visual, auditory, processing, communication and/or mobility. Copeland was properly groomed and appropriately dressed (for court appearance, wearing a well fitting pant suit, which was appropriate for the setting). Copeland walked into the court room unassisted (by person or device) and set up at Defendant's table. Copeland did not wear a mask (which is notable because Dr. Huang asserts that "environmental exposures" are problematic) [Copeland had also taken a photograph of herself at the apartment at issue – on September 26- sitting directly in front of the area for which mold remediation was required and wore no mask]. Copeland argued her positions – and attempted to convince/persuade the Court to entertain other matters which were not the subject of hearing that day. She did not request a break during the hearing, at any point. She did not get up to stretch. She did not seek to re position herself from her seated position at counsel table and she did not require assistance exiting the courtroom.

--On December 4 (after the hearing), Copeland prepared an Order for appointment of counsel (Texas A& M law school Civil Rights Clinic) [a matter that was not

heard that day] and submitted it to the Court (it would seem that Copeland at least also would have contacted the clinic that day prior to submitting the Order, but perhaps not) and sent lengthy emails to the 141st Judicial District Court staff, and opposing counsel – arguing to have that Order signed; she also sent a lengthy email correspondence to opposing counsel regarding request for housing and other matters and emails regarding other matters she contended the Court had ordered (which it did not) and this culminated in Copeland preparing and submitting a lengthy 7 page Order for matters, again, not heard. It does not appear that there was any actual “flare up” that day.

--Between December 5 and December 29: Copeland prepared and filed eleven additional pleadings in the litigation pending in the 141st Judicial District, many of which were lengthy and contained lengthy exhibits; there has been apparently no “flare up” during those times;

--On December 9, 2025 – Copeland appeared (via zoom) at the trial in JP Court Precinct 3- for a “repair and remedy” lawsuit she had filed against Weinstein (ownership entity) – and when her attorney, John Douglas, failed to appear – she opted to proceed- by herself [on zoom]- for a trial that lasted approximately one hour, during which she did not request a break (notably- Dr. Huang’s correspondence does not address that proceeding at all); there apparently was no “flare up” that day;

--On December 10, 2025, Copeland filed a (pro se – and thus, improper as it was in violation of the Order Declaring Copeland as a Vexatious Litigant) Notice of Appeal from the judgement in the JP Court, Precinct #3 repair and remedy case (clearly demonstrating that she was aware of the upcoming deadline by which to perfect appeal to the County court); there was apparently no “flare up” that day;

--On December 15, 2025, Copeland filed a Status Update and ADA Request, in the JP Court, Precinct #3 repair and remedy case – in which she presented photographs – she had taken on December 10, 2025 (when she unlawfully entered the apartment- in violation of the two Orders issued by the 141st Judicial District court, forbidding such conduct)- and which she claimed assisted her in her claims against Weinstein and showed that Weinsteins’ counsel had not properly represented the status of the remediation (noting – the photographs were actually helpful to Weinstein, to demonstrate that the status was as portrayed on December 9 at the repair and remedy trial); however, significantly- in order to prepare her Status Update and ADA Request, by obtaining the information and /or photographs attached to same, Copeland had to do the following:

--She traveled to Weinstein’s apartment complex;

--She walked up a flight of stairs to Apartment 2145;

--Despite her complaints (made on December 10 to the JP Court, Precinct #3,

that remediation is “ongoing” , this establishes that Copeland – for the third time, violated a Court Order to willingly expose herself to “mold” that she contends is “harmful”;

--She walked throughout the apartment, inclusive of containment areas and large fans/cords;

--She inspected the apartment for dust/debris;

--She examined the progress of the work undertaken by that date;

--She took an extensive number of photographs of the apartment;

--She printed and prepared the photographs, along with the pleadings, to be filed on December 15, 2025.

All of the above took considerable physical efforts, required cognitive and processing abilities and was performed and pleadings thereafter, filed – within a time frame that Copeland anticipated would be beneficial to the re- hearing of the repair and remedy case- which at that time had been scheduled to be conducted on December 17, 2025. There was apparently no “flare up” as of or on December 10, 2025, nor on December 15, 2025 (the date of filing).

--On December 16, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Plaintiff Pro Se Reply (to Weinstein’s Response and Motion to Show Cause, filed on December 15);

--On December 16, 2025, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Notice to Preserve ADA Accommodation Issue (after the Court had issued its order that day, denying her Motion);

--From December 16 through December 19-Copeland filed 7 different pleadings in her pending federal court litigation against, amongst several Defendants, to include: all of Tarrant County, which included a Notice of Appearance pro se, amended pleadings, a Motion to Extend Time to Serve, a Motion to Appoint Counsel, a Motion to file Appendix under seal, and an Emergency Motion for TRO and Preliminary Injunction – which includes reference to the litigation pending in the 141st Judicial District Court, her pending litigation against the Amicus (Kelly Decker) from the family law case, and her two JP court cases against Weinstein (she has two pending, at the present time)

The above chronology of events – much of which occurred before December 21, 2025 (the date of Dr. Huang’s correspondence), and all of which occurred after the December 4, 2025 hearing (the alleged triggering event for flare up – and pursuant to which Dr. Huang asserts various opinions and makes recommendations on Copeland’s behalf) – begs the question: when did this alleged flare up occur and where are the actual contemporaneous medical records which support this occurred- and for which Copeland was provided any type of treatment? Copeland immediately started corresponding by emails, pleadings and proposed Orders, on December 4, 2025 in the 141st Judicial District case, continued this in that case from December 4 forward. Copeland participated in a trial in JP court, Precinct #3 (opting to proceed, alone, without her attorney, John Douglas participating in the trial). Copeland went to Weinstein’s property and improperly/unlawfully entered the apartment (to procure “evidence”) – which required significant physical and cognitive activity and function. Copeland then filed numerous pleadings thereafter in the JP Court, Precinct #3 repair and remedy case. Copeland, thereafter, filed numerous pleadings on her own behalf in federal court (December 16 through December 19). All of this – is wholly inconsistent with any alleged “flare up” from participation in the hearing she scheduled as an in person hearing on December 4, 2025.

Therefore, Dr. Huang’s reference to a “flare up” and her attempt to provide a causal connection to the December 4, 2025 hearing (in the 141st Judicial District Court case) is completely and wholly without foundation, factual support and without merit. Dr. Huang’s opinions in that regard are most obviously based *only* on what Copeland has told her (all the while Copeland fully engaged in the litigation process- in at least four different cases). While Dr. Huang likely does not know any of this- her lack of knowledge should not now be used to cloak her correspondence in any semblance of reliability.

**OBJECTIONS TO COMMENTS AND RECOMMENDATIONS MADE
REGARDING PERSONAL PROPERTY ITEMS**

- Weinstein object that the information contained in Dr. Huang's correspondence as related to the status of Copeland's personal property items (medical or otherwise) as the information is not either fully accurate and/or is misleading as follows:
 - Copeland knew, with certainty by September 19, 2025, remediation would be starting on September 22, 2025 (this was the third attempt to move forward with remediation – after Copeland has acted in a manner to stall, delay and/or prohibit the remediation); she was living at the apartment from September 11/12 through approximately September 19- and had full access to any piece of personal property- medical or otherwise; on September 19 - she received correspondence from the undersigned counsel alerting her that remediation was again scheduled to begin on the September 22 date – and on September 19, Copeland called the undersigned attorney; the remediation schedule was again discussed – with September 22 being the date identified that it would proceed; Copeland could have taken anything she needed or wanted from the apartment at that point, therefore, whatever items she failed to take- are items she volitionally left (which calls into question what amount of necessity attaches to any particular item).

The below is an excerpt from the September 19, 2025 phone conversation – which Copeland secretly recorded – and has produced a “transcript” of (while note wholly accurate, the following excerpt is correct):

00:06:00 Glynis Zavarelli
And I guess you're still at the apartment.

00:06:02 Kathryn Copeland
Yeah.

00:06:06 Glynis Zavarelli
Okay.

00:06:08 Kathryn Copeland
I know you had said that work was going to start on the 22nd, but that's why I was confused and sent the e-mail to TDLR because I thought you had to have the protocol on file at least five business days in advance and I hadn't seen it, so.

00:06:23 Glynis Zavarelli
Well, like I said, I mean, I'm obviously not the most people doing this work. I'm not a TDLR licensed person, but it's my understanding

they've complied with all the deadlines that are required to be able to start on the 22nd and that's what we would like to be able to have happen so that we can get you back into that apartment as soon as possible.

The above exchange makes clear – Copeland had full understanding and appreciation for the upcoming remediation schedule – and as such, was aware that any particular items which she would need or want (for any reason) should have been removed by her.

- Unbeknownst to Weinstein, when Copeland returned to live at the apartment from September 11/12 through the September 19 date against Weinstein directive- Copeland turned on the HVAC (which had been sealed and turned off by the prior remediation company) which led to the HVAC unit freezing, thawing and caused a leak. As such, when this was discovered by Weinstein and the mold remediation vendor, on September 22, 2025 (when the vendor arrived to start the scheduled remediation), mold remediation had to be again postponed so that water remediation could occur, first. The pack up and removal for personal property had been recommended by the mold assessment company (Dallas Mold), in part to provide access to all areas requiring mold remediation, but the water intrusion (leak) caused by Copeland – has also required repair of substantial portions of flooring and other areas of the apartment, which required further accessibility.
- Copeland did not inform Weinstein (or Weinsteins counsel) of what she had done with respect to the HVAC unit – and as such, this delayed discovery of same, until September 22nd, when Copeland returned to the apartment on September 26 (which was contrary to the mold remediation protocol process and Copeland had been made aware that once remediation starts, apartment access would not be permitted)- Copeland took numerous photographs of items which remained in the apartment (not packed and moved off site) and because she entered and began an exchange with the Dedicated Mold remediation personnel – remediation efforts stopped that day (and did not resume until October 6)- with Copeland having full access to everything that remained in her apartment; she could have then taken anything else out of the apartment that she thought she wanted/needed on September 26 and thereafter, until October 2, 2025 (when she was court ordered to refrain from entry) – but assumedly failed to do so;
- Copeland was told on September 27, 2025- that whatever items were packed and taken off site could be returned to her – and she did not then request return of any items taken to be stored off site – and presumedly did not return to obtain any items remaining in the apartment, in response to that communication;

- Copeland was told on October 3, 2025, the items taken off site could be returned or cleaned and returned (while she had originally said she wanted items cleaned, she then claimed such would be spoliation and would not authorize cleaning – and was thereafter, repeatedly assured that no cleaning would take place until she authorized same – to date: she has not authorized cleaning); Copeland did not respond to this;
- Per the October 2 hearing on Weinstein’s TRO (noting Copeland cancelled her hearing on her requested injunctive relief; however, the Court contacted her by phone – and she was able to express her positions and indicate she wanted items returned, as such, Weinstein was ordered to return all remaining items in the apartment to Copeland within 3 days and with respect to the items being stored off site (by Reign Restorations) - to return (if able to do so) any identified medical necessity items or sentimental items – once identified by Copeland (as Copeland did not articulate or identify any particular item she needed, during the hearing); on October 3, 2025 Weinstein sent correspondence to Copeland and asked for the list of medical necessity items and/or sentimental items; Weinstein received no response;
- On October 3 through October 5 Weinstein emailed with Copeland about the various items which remained in her apartment -asking her if she wanted them moved to the hotel she was staying in (but noting that the items were extensive and likely the hotel room would not be comfortable for the relocation of these items), asking her if there was another location she would prefer they be moved – and ultimately indicating (when no response was received from Copeland) that Weinstein would provide a storage room at the apartment complex – at no charge of her- through the pendency of her lease (until October 26, 2025) to store the items from her apartment; Copeland was given a key for that storage room; Copeland was also told that several boxes of medications and a humidifier were located at the door of the storage room for easy access (it is unknown if she ever went to obtain those boxes or any other item being stored there currently -but which she has had ample access to retrieve/obtain);
- On October 6 through October 14, 2025- at the undersigned counsel’s initiation, Copeland and the undersigned counsel emailed regarding the items packed off site – asking Copeland to identify the medical necessity and sentimental items she wished to have removed form off site and returned to her; Copeland stopped corresponding on this on October 14, 2025;

See attached as **Exhibit “D”** correspondence and emails sent between October 3 and October 14, 2025.

- On November 21, 2025 – the undersigned sent correspondence to Copeland regarding the items in the store rooms on site (the original store room she acquired when she signed her lease, as well as the storage room being used to store the items which were removed on October 5- at the Court’s direction) and followed up again on this, on December 1 and heard nothing back from either correspondence. See attached as **Exhibit “E”** the November 21 and December 1, 2025 correspondence.
- On December 4, 2025, the undersigned counsel and Copeland emailed about the status of her personal property items which were being stored off site - offering to clean, to return or to do both – at no expense to her, and inquiring about the items in the storage rooms on site and balcony items- and the undersigned counsel did not hear back from Copeland. See attached **Exhibit “F”**.

Given the above chronology of events – it is clear that Dr. Huang’s impressions (obtained from Copeland) corresponding recommendations/opinions are reliant upon faulty, inaccurate and/or incomplete information – and as such, any opinions provided by Dr. Huang in relation to personal property, medical items/equipment, medical supplies – the status of such, how items should be handled from this point forward and/or any adverse effect on Copeland as related to personal property complaints/circumstances- is wholly baseless.

- Weinstein further object that Dr. Huang fails to identify any particular medical property item “supply” at issue (not identifying any particular “critical medical equipment” or “supplies”)– and instead makes global and/or generalized assertions as to the alleged removal of same and the need for replacement;
- Weinstein further object to Dr. Huang’s speculative conclusion that all property (ie “contaminated belongings”) need to be replaced; she cannot possibly know this from a “contamination” perspective: she has no personal knowledge, she has not seen the items, she fails to even identify the items (by name), she does not know the materials upon which each item is constructed (and thus, what, if any, cleaning is necessary and/or how this can be efficiently accomplished if necessary); has no expressed or implied familiarity with mold exposure as related to anything (to include personal property items), she has no expertise in any necessary and related area to proffer such opinions, and further, she has no demonstrated expertise as related to medical causation without respect to any particular alleged type of mold/spore and the impact on any particular condition allegedly attributed to Copeland.

**OBJECTIONS TO DR. HUANG'S COMMENTS ANDN/OR OPINIONS AS
RELATED TO COPELAND'S MEDICAL CONDITIONS
AND EFFECT ON ACTIVITIES**

- Weinstein objects to the characterization and assertions by Dr. Huang of the manner in which any particular condition impacts Copeland as again, this appears to be based on speculation and is wholly inconsistent with what Copeland has shown herself able to do and as such, these opinions by Dr. Huang are neither credible nor reliable.

By way of example – as to Copeland's physical and/or mental/cognitive abilities, Weinstein provide the following (and this list is not exhaustive):

- **With respect to cognitive processing, writing, reading, and/or speaking, in the case pending in the 141st Judicial District court alone, Copeland has been able to draft lengthy email communications, draft extensive pleadings (she has filed 47 separate pleadings/motions), inclusive of preparation of exhibits she contends constitutes evidence of various claims/defenses, cite various provisions of common and/or statutory law, communicate with Court staff, appear in person at hearings (October 27 and December 4), and draft multiple sets of discovery directed to Weinstein; in the JP Court Precinct #3 repair and remedy case, she has filed several pleadings “pro se” – to include starting out that litigation in an attempt to file the entire lawsuit as a pro se Plaintiff (which resulted in dismissal without prejudice once the Court was advised of the Order declaring her as a vexatious litigant);**
- Caring for oneself (and others): Copeland explicitly represents to the family law Court as to her “psychological readiness” and states, that she has the “capability to follow the rules and protocols outlined in the Court’s guidelines.” This is in relation to her attempt to modify the decision made by the family law court – in relation to the family law court’s Orders pertaining to custody matters and prohibiting Copeland visits with her children, absent supervision;
- Copeland further submits in support of her request to the family law court, a letter purportedly written by Earl Johnson, PhD. In Dr. Johnson’s report, he states that “Her understanding of her responsibilities toward her children and toward the rules of the court pertaining to her responsibilities toward court orders suggest that she has no impediments to providing adequate parental care. Her psychological status is compatible with having more independent visitation... She has been an excellent client and exercises thoughtfulness, insight, and strong effort to improve her mental and emotional condition. That letter was written in December 2024; however, it would seem that if there had been any significant change in her physical, emotional, psychological and/or cognitive abilities since that time, a healthcare provider would have stepped in to make this known; as such, if Copeland had experience unpredictable and debilitating “flare ups” – this would be a matter that the family

law court would want to be informed about – and/or if a “flare up” can be caused by stressors, it would seem that parenting two young pre adolescent/adolescent girls would present an environment destined to result in debilitating fatigue, exhaustion, etc – and would, therefore, be something to be avoided; instead, Copeland has continued to take issue with the restrictions placed on her by the family law court and its Orders, taking the position she should not be restricted from her children, as currently ordered;

- Therefore, the representations made explicitly by Copeland and by Dr. Johnson on her behalf, contain the implied representations – that as a safe parent able to appropriately care for children without supervision, that she is capable of performing the duties of a parent, inclusive of education, guidance, and decision-making.
- Representing/Advocating for herself: On or about August 14, 2025, Copeland presented a prepared presentation to the Mayor’s Committee on Human Rights for Disabled People (one of many such presentations she has made), complaining of Weinstein and complaining of the Fort Worth Police Department. While Weinstein challenges the validity and/or veracity of statements made during this presentation, Weinstein notes that in addition to drafting long pleadings and discovery and compiling documents she contends are “evidence”, Copeland was and is able to physically appear and present a verbal presentation to the Committee. Similarly – Copeland was able, in the process of this presentation, to prepare the presentation, walk, talk, read, and speak, all without any discernible difficulty.
- Copeland has made in person appearances in the 141st Judicial District Court on October 27 and December 4, and offered to appear in person on October 16, 2025.
- Copeland is able to use various aspects of technology, including ChatGPT, social media, dating applications, word processing software, document manipulation software, such as a PDF application, and conduct covert audio and video recordings of others (such as Weinstein staff and counsel) without their knowledge (which also demonstrates executive planning abilities).
- Copeland has engaged in numerous and repeated governmental agency complaints against Weinstein, to include: to TDLR, the Department of Justice, HUD, the Texas Workforce Commission, the Fort Worth Police Department, and the City of Fort Worth (various agencies, to include Code Compliance);
- On December 8, 2025 – Copeland’s attorney, John Douglas -in the lawsuit Copeland has filed against the amicus (Kelly Decker) from the child custody case – filed a Response to Decker’s Motion to Show Authority (such Motion related to John Douglas’ representation of Copeland and what appears to have been Copeland writing, signing and filing matters under his name, requesting Douglas to therefore, show authority as to his representation of Copeland); Mr. Douglas responded to that Motion by stating that Copeland had:

- Engaged in drafting pleadings, organizing exhibits, and/or drafting discovery;
- the “ability to assist counsel” in “legitimate attorney-client collaboration”;
- researched the legal issues extensively.

As such, Douglas takes the position that Copeland is well able to assist in that piece of litigation and that he is, in fact, dependent upon her analysis, her research, and her drafting skills.

- o Copeland has engaged in extensive hotel rate negotiations at various hotels (for which Weinstein paid);
- o Copeland purportedly engaged in lease communications for a rental property that she was interested in procuring in early December (based upon pleadings she filed in the 141st Judicial District Court case);
- o With respect to Copeland’s mental condition generally, Copeland has not been declared to be non compes mentis, has not sought or been appointed a representative of her person, has not sought or been appointed a representative of her estate, has filed multiple ongoing lawsuits in civil court, family court, justice court, and in federal court which reflect that she is able to participate fully in the litigation process.

Therefore, it is unclear upon what Dr. Huang has based her assertions as to Copeland’s conditions and the effect of same -however, the manner in which Copeland has conducted herself in her life, in representations made to various courts and in pursuing multiple pieces of litigation – is absolutely not consistent with what Dr. Huang has espoused and as such, the December 21, 2025 correspondence is not reliable, nor can it be used to support any claimed need for any type of “accommodation”.

OBJECTIONS TO DR. HUANG’S SUGGESTED ACCOMODATIONS

- Weinstein object that the “accommodations” suggested by Dr. Huang are without factual support – and are conclusory in relation to opining that these are necessary for Copeland to “participate in legal proceedings”. This, again, is based on nothing but what Copeland has apparently said to Dr. Huang. In other words, Copeland’s biased, self serving statements – to attempt to obtain relief to which she is not entitled.

- Weinstein object that Dr. Huang's references to potential "continue to deteriorate" is speculative and without foundation.
- Weinstein object to Dr. Huang's statement as to "prevent her from recovering" – as this is vague and is without explanation or foundation (recover from what?); further it is without foundation as related to how any particular "immediate accommodation" would have this impact (and/or which "accommodation" of the numerous ones sought by Copeland would have this impact/effect- and how/why). This again, appears to be a self serving statement made by Copeland and presumed -adopted by Dr. Huang – but without factual or medical support.
- Weinstein object to each "accommodation" set out by Dr. Huang (on page 2 of the correspondence) as none are based in fact, all are speculative and Copeland's own actions belie the need for any such accommodation.
- Weinstein object that the accommodation suggested as to "essential items", replacement of belongings and housing are not only without factual foundation, do not provide a listing of medical items, is based on events that did not occur and/or which have not occurred, and significantly – are without merit:

If Dr. Huang actually believed that Copeland needed any particular medical equipment, medical item, or medication – she could have (and should have) written an order and/or a prescription for these (she has had since September 22, 2025 to provide this care to her patient – and/or to work with the social worker at UTSW – to obtain assistance and resources for Copeland in this regard.

If Copeland actually "needed" any of this – Dr. Huang should have proceeded to procure this and/or explore services through which Copeland could be given this assistance, either with her own personal, medical involvement (ie prescriptions and orders, working with Medicaid to obtain replacement items, or obtain approval for other necessary items, and/or medications) or through use of the UTSW social work services department. See attached as **Exhibit "G"** on line website information as to this hospital's available social work service support/assistance.

Similarly – as related to "housing", Copeland's lease expired on October 26, 2025 and prior to that time, she was living intermittently in hotels paid for by Weinstein (from July 14, 2025 forward) while occasionally returning to her apartment which she alleged was unhealthy for her – and at times, returning to live there for days at a time; at any point, Dr. Huang could have (and should have) worked with Copeland to provide her resource information for housing assistance – if this was something that Dr. Huang believed to be medically necessary; the DFW metroplex has multiple agencies to assist with this, and again UTSW has its own social work services department to provide resource information.

The December 21, 2025 correspondence does not speak, in any manner, to what Dr. Huang has done for Copeland, to assist in obtaining replacement devices, equipment, items or medications and/or to assist with services to locate housing options (for a person who is

unemployed, apparently is not inclined to seek employment, and has proclaimed she has no income (though note: she has continued her Amazon shopping – as the documents she submitted on December 29, 2025 make clear)). This again, calls into question – the necessity of medical items, medical equipment and/or housing, at this point and makes clear that the correspondence and opinions offered therein, are simply unreliable.

- Weinstein object that Dr. Huang’s recommendations as to litigation related “accommodations” are without factual and/or credible foundation. Dr. Huang has clearly not been apprised of the aggressive and relentless approach Copeland has engaged in as related to any and all litigation matters involving Weinstein (filing over 50 pleadings/motions in approximately 3 months – in the District court and JP court repair and remedy case, submitting lengthy and involved exhibits and Orders, declaring “emergency” or “emergent” as to routine matters, in order to avail herself of the Court’s “immediate” attention – while depriving Weinstein of the ability to respond in a manner which does not serve to adversely affect Weinstein and/or counsel for Weinstein (Copeland has attempted repeatedly to obtain rulings on contested matters, during designated medical leave and/or vacation times, for opposing counsel). To suggest that Copeland requires – or is entitled to - any special/preferential treatment – when viewing her history of litigation conduct – to include what appears to be concerted strategizing and efforts to file Motions and obtain rulings when she knows lead counsel is not available – is simply without factual and/or legal foundation or support.

Weinstein’s objections are timely, specific and thorough; Copeland’s proffered correspondence from Dr. Huang should not be considered for any purpose; however, if the Court is inclined to consider the correspondence for any purpose, Weinstein requests: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

III.

WEINSTEIN'S MOTION TO STRIKE DR. HUANG'S CORRESPONDENCE

Weinstein, hereby, move to strike Dr. Huang's December 21, 2025 correspondence, for this Court's consideration, in relation to the December 29, 2025 filings made by Copeland for the following reasons:

As the *Background* section herein makes clear, Dr. Huang either lacks personal knowledge and/or is not qualified to provide any particular opinion and/or recommendation as to the existence of and/or replacement of personal property items, as to the existence and/or extent of any particular mold element in the apartment that Copeland was leasing (lease ended on October 26, 2025), as to any particular causative factor in relation to mold and/or any alleged health ailment Copeland asserts that she experiences, and/or as to any matter/issue that falls outside of her medical expertise (which is limited to physical and rehabilitation medicine). Further, Dr. Huang appears to have relied upon nothing but Copeland's own statements and assertions (which in and of themselves are neither necessarily reliable and/or accurate) and as such, any opinions and/or recommendations she makes lack appropriate foundation. As such, pursuant to Tex. R. Evid 702 and 703, Dr. Huang's correspondence should be struck, in its entirety.

Additionally, as the *Background* section makes clear: Dr. Huang was never identified by Copeland in Disclosures, and Copeland has failed to produce any of Dr. Huang's records- through either disclosures or in response to Request for Production. When Weinstein attempted to obtain the records by subpoena and Deposition on Written Questions, Copeland asserted that she had timely filed a Motion to Quash these records. Though the Motion to Quash was not actually effective as to Dr. Huang's records (ie it did not even mention Dr. Huang), Weinstein graciously agreed to notify its records service and request no attempt be made to obtain the records until a

hearing could be held. Copeland, however, did not initially request a hearing on the Motion to Quash; Weinstein set the Motion for hearing. Thereafter, though the Court did not particularly grant the Motion as to all ordered records, it did set out an involved process by which to obtain the records, which starts with a review by Copeland (only). As of the drafting of these Objections, no records have yet been obtained by Weinstein.

Copeland's attempt to now benefit from the correspondence allegedly written by Dr. Huang (though wholly objectionable on various grounds, as noted herein in the *Objections* section) is in violation of Texas Rules of Civil Procedure 193, 194 and 215. As such, Weinstein moves to strike the correspondence in its entirety.

Weinstein further moves to strike this correspondence as it wholly inadmissible for any purpose: it is not properly authenticated, it is wholly based upon hearsay (ie Copeland's report of events and/or Copeland's version of events – a biased and unreliable witness), it is conclusory, it provides opinions that are based on nothing objective and instead, are only based in conjecture and speculation, it lacks proper foundation, and on the face of the correspondence, appears to contain redactions – which calls into question the veracity of any of the information provided. Weinstein, therefore, incorporates all Objections lodged herein.

IV.

CONCLUSION

Copeland's use of correspondence allegedly/purportedly drafted by Dr. Huang – in support of Copeland's December 29, 2025 filings, is improper.

Copeland did not ever identify Dr. Huang as a person with knowledge of relevant facts, did not produce Dr. Huang's records, did not identify any of the healthcare providers treating the

various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not produce any of the records relevant to the various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not permit Weinstein to obtain Dr. Huang's records and has failed to provide dates for Dr. Huang's deposition.

Further, the correspondence is not credible or reliable – and is objectionable on all the grounds asserted herein. Therefore, the correspondence should be struck from any Court's consideration and should be disregarded in its totality; alternatively, before any particular court determination is made, upon which Copeland uses the Dr. Huang December 21, 2025 correspondence to support, justify or bolster, Weinstein requests that the Court order the following: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang - without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

WHEREFORE, PREMISES CONSIDERED, Weinstein pray that the Honorable Court sustain Weinstein's Objections to and Motion to Strike Dr. Huang's Correspondence and disregard it in its entirety, and for such other and further relief, at law or in equity, both general and specific, to which Plaintiffs/Counter-Defendants (Weinstein) may be justly entitled

Respectfully submitted,

141-370402-25

NO. 141-370402-25

WEINSTEIN MANAGEMENT CO.,	§	IN THE DISTRICT COURT OF
INC. AND WMCI DALLAS X, LLC,	§	
Plaintiffs,	§	
	§	
v.	§	TARRANT COUNTY, TEXAS
	§	
KATHRYN COPELAND,	§	
Defendant.	§	141ST JUDICIAL DISTRICT

Defendant / Counter-Plaintiff Kathryn Copeland's Initial Disclosures

1. Correct Names of the Parties

- **Plaintiffs:**
Weinstein Management Co., Inc.
WMCI Dallas X, LLC
c/o Glynis Zavarelli, Wentz & Zavarelli, LLP
3120 Sabre Drive, Suite 170
Southlake, Texas 76092
(469) 665-9100
- **Defendant / Counter-Plaintiff:**
Kathryn Copeland
405 Crawford Street, Apt. 2145
Fort Worth, Texas 76104
(817) 789-8498 | K.M.Copeland@tcu.edu

2. Potential Parties

None known at this time other than those named. Defendant reserves the right to add responsible third parties or additional entities discovered through ongoing investigation, including vendors or insurers involved in the removal or disposal of Defendant's property.

3. Legal Theories and Factual Bases

Defendant generally denies all allegations in Plaintiffs' pleadings and asserts the following affirmative defenses and counterclaims (*see Defendant's Answer, filed Sept. 22, 2025*):

- **Defenses:**

1. **Lack of capacity/authority to sue and real party in interest** (Weinstein Mgmt. Co. lacks ownership standing).
2. **Failure to state a claim;** injunctive relief improper for lack of irreparable harm or inadequate remedy at law.
3. **Prior breach and failure of conditions precedent** under Tex. Prop. Code §§ 92.052 & 92.056.
4. **Failure to accommodate and retaliation** under the **Fair Housing Act (42 U.S.C. § 3604(f)(3)(B))** and the **ADA**, including refusal to provide comparable, disability-safe housing.
5. **Constructive eviction / breach of implied warranty of habitability.**
6. **Unclean hands, waiver, estoppel, and failure to mitigate.**

- **Counterclaims:**

1. **Fraudulent Inducement / Negligent Misrepresentation** – leasing an uninhabitable unit while concealing prior water damage and mold.
2. **Breach of Implied Warranty of Habitability.**
3. **Constructive Eviction.**
4. **Violation of Texas Property Code §§ 92.052, 92.056, and 92.331 (Retaliation).**
5. **Violation of the Fair Housing Act / ADA (Failure to Accommodate, Retaliation).**
6. **Negligence / Gross Negligence** in unsafe maintenance and unlicensed remediation.
7. **Texas Deceptive Trade Practices Act (DTPA)** – misrepresentation of safety, habitability, and remediation.
8. **Conversion and Trespass to Chattels** – unlawful removal and withholding of Defendant's personal property.
9. **Declaratory and Injunctive Relief** – requiring compliance with FHA, ADA, and Texas Property Code.

4. Computation of Damages

Category	Computation / Basis	Supporting Authority
Actual Damages	Exceeds \$50,000 – property loss, medical costs, relocation/hotel expenses, and loss of use.	Tex. Prop. Code §92.056(f)
Statutory Penalties	\$188,288 + continuing daily penalties for violations of Tex. Prop. Code § 92.331.	Tex. Prop. Code §92.331(b)
Treble Damages	For knowing DTPA violations.	Tex. Bus. & Com. Code §17.50(b)(1)
Punitive/Exemplary	For intentional discrimination, retaliation, and malice/gross negligence.	FHA § 3613(c)(1); Tex. Civ. Prac. & Rem. Code §41.003
Attorneys' Fees & Costs	Reasonable fees under fee-shifting statutes.	FHA, DTPA, Prop. Code §92.056(g)

5. Persons with Knowledge of Relevant Facts

6. Documents, ESI, and Tangible Things

Categories in Defendant's possession or control that may be used to support her claims or defenses include:

- **BioTex Mold Assessment Report (June 18 2025)** and lab results.
 - **TDLR correspondence** and emails confirming investigation and prosecution.
 - **Photos and videos** documenting water damage and mold conditions.
 - **Email correspondence** between Defendant and Plaintiffs' agents regarding notices, relocation requests, and remediation.
 - **Medical records** reflecting illness and disability exacerbated by exposure.
 - **Hotel receipts, relocation expenses, and communications with management.**
 - **Affidavit of Kathryn Copeland (Sept. 29 2025)** and attached exhibits.
 - **Plaintiffs' pleadings and emails (Sortor/Zavarelli Sept 27 2025)** conditioning property return on waiver of claims.
-

7. Indemnity and Insurance

Defendant maintains a **State Farm Renters Policy** covering theft, conversion, and additional living expenses (ALE). Claim pending; insurer has denied coverage citing ongoing possession of items by Plaintiffs. Plaintiffs and/or property owners are believed to hold general liability and landlord insurance policies covering mold remediation and tenant losses.

8. Settlement Agreements

None at this time.

9. Witness Statements

Defendant's sworn declaration attached to her **Emergency Motion and Affidavit (Sept 29 2025)** constitutes her current witness statement. Witness statement of David Quiram from June 2025. Plaintiffs' emails (e.g., Sortor Sept 27 2025) function as admissions.

10–11. Medical Records and Bills

Defendant alleges physical and mental injury from toxic exposure and subsequent actions taken by Weinstein and counsel.

Medical records and bills supporting damages are in Defendant's possession and will be produced under HIPAA authorization as required.

Conditions include: neurological impairment, visual and respiratory injury, immune dysfunction, and cognitive decline linked to mold exposure. (See treating physician documentation attached to prior filings.)

12. Responsible Third Parties

Defendant may designate responsible third parties, including:

- **BioTex Environmental LLC (assessment)**
- **ServPro / remediation vendors** hired by Plaintiffs
- **State Farm Mutual Insurance Co.** (coverage denial)
- **Weinstein Properties corporate affiliates** responsible for policy decisions.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025

Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your "children's displacement" (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being "displaced" and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie "derailed" your "legal career trajectory" – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein's claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025
Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025
Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re-arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025
Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand - attempt to elicit verbal communication over the phone - with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

A handwritten signature in black ink, appearing to read 'Glynis L. Zavarelli', with a stylized, flowing script.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above).

December 1, 2025

Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025

Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025
Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence: You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025
Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Alfred Johnson;
- Dr. Nilesh Nangrani
- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In follow up to our hearing yesterday and related matters, I provide the following:

First, see attached – a portion of the Mold Protocol, which references Containment, and states “pack out contents for cleaning”. Please note – no lab testing was performed as to the personal property items. Those items, as you know, were packed and moved to a storage facility, by Reign Restorations. Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you).

Next- please note – all personal property items which were packed and placed in the Reign Restoration storage facility can be returned to you. Therefore, if you would like all stored items moved, please advise and Weinstein will incur the cost of the move. Weinstein will also incur the reasonable cost/expense for a different storage facility (storage unit) to keep the items – through your lease period (October 26, 2025). If you elect to have the items moved to a different storage unit facility, you will need to provide the costs/expenses associated with same (for Weinstein's review, consideration and/or approval [and if that cost/expense is not approved, the items can be moved there, with you bearing the storage fees/expenses associated with same]) and the name of the storage facility (note: “storage facility” and/or “storage unit” and/or “storage unit facility” does not include a rental house or other apartment paid for at Weinstein's expense; this terms refers to a typical storage unit facility – as that term is ordinarily understood). If you locate alternative housing – in light of the upcoming expiration of your lease, at your request, Weinstein will have the items arranged to be moved to that housing (with no agreement by Weinstein to pay any future costs/fees associated with same, other than the cost of the move itself). Until I hear further from you on this decision, the items will remain where they are currently located (as you are aware, they cannot be returned to the apartment – given the potential for cross contamination and impact on the ability to move forward with the remediation of the apartment). Please note – that if you choose

October 3, 2025

Page 2

to have these items removed from the Reign facility, before they are cleaned, and placed in a new environment, Weinstein assumes no responsibility or liability for any future contamination/cross contamination of that new environment (personal or real property) and/or any alleged adverse consequences to your health. This is not asking you to waive any particular claim (you remain able to assert any particular allegation/claim), this is simply to make you aware of what Weinstein's position will be as to these matters.

Next- please identify a time and location that you would like the current remaining contents of your apartment delivered to you on Saturday. We appreciate that the Court has ordered the return within 3 days – and as such, it is important that you cooperate and provide the time and location (it is assumed you would like the items delivered to your hotel, The Worthington, however the Order does not specify this as the location for delivery). If the Worthington is selected as the return location, Weinstein will not leave the items unattended (in the lobby or elsewhere) and will be needing to make sure you receive the items (therefore, Weinstein also will not leave the items with hotel staff- the Order states the items are to be returned to "Defendant"). Your prompt response to this today, by end of day, is necessary so that the deadline identified in the Court's order can be met by Weinstein.

Additionally, on a related matter, please provide the list of sentimental and/or medical items that you believe were packed up (and are currently being stored by Reign Restoration). Once I have the list, Weinstein will provide to Reign, and Reign's staff will unpack your items, search for what is identified (therefore you will need to be specific in the name of each item and identifying information for each item) and if located, return to Weinstein, and those items will then be returned to you, at the location of your choice (note: this unpack and search process that Reign will be going through – will be at no cost to you; Weinstein will incur that expense). To the extent certain items are not located (if that occurs), Weinstein will be requesting, at the appropriate time, your documentation (written or photographic) as to the prior existence of each item which was not located, and to the extent you seek reimbursement from Weinstein for any such item, Weinstein will also request (at the appropriate time) receipts, invoices and/or other related documents and/or will value the property loss as identified by applicable Texas law.

Note: all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

Licensed Mold Remediation Contractor - TDLR # MRC1602, Exp. 04/02/2027

Section 3.0 Containments and PPE

Section 3.1 Containment

Pack-out contents for cleaning. Build a single-stage containment around the affected walls in the bedroom, living room, mechanical closet, and hallway. Establish negative pressure using air scrubbers with CLEAN HEPA-rated filters. **Vent outside through a window to remove organic vapors.**

Place air scrubbers outside the containment to clean up contamination from scattered mold spores.

Maintain 4 air changes per hour.

Utilize dehumidifiers to maintain humidity between 30-50% Rh.

Seal HVAC supply vents and/or return air vents in remediation area(s)

Signs advising that a mold remediation project is in progress shall be displayed at all accessible entrances to remediation areas. The signs shall be at least eight 8 inches by ten 10 inches in size and shall bear the words "NOTICE: Mold Remediation Project In Progress" in black on a yellow background. The text of the signs must be legible from a distance of ten 10 feet.

Section 3.2 Personal Protective Equipment (PPE)

Minimum PPE

FULL PPE REQUIRED

Gloves

Disposable Full Body Clothing

Head Gear

Foot Coverings

Full-Face Respirator with HEPA Filter

The remediation contractor shall insure that OSHA appropriate personal protective equipment (PPE) is worn while remediating all containment areas.

Use professional judgment, consider potential for remediator exposure and size of contaminated area. Contractor assumes all responsibility for PPE compliance.

The EPA Guidelines for Remediation of Building Materials with Mold Growth by Clean Water requirements for PPE should be followed. The complete table is included at the end of this document in U.S. EPA Cleaning Methods, Table 2.

Note: Professional judgment should always play a part in PPE decisions. The EPA guidelines are based on the total surface area contaminated and the potential for remediator and/or occupant exposure, not on the basis of health effects or research showing there is a specific method appropriate at a certain number of square feet. The guidelines have been designed to help construct a remediation plan. The remediation contractor will then use professional judgment and experience to adapt the guidelines to particular situations.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In response to your late night email of yesterday, I provide the following:

First- my October 3 correspondence did not say that you had rejected the cleaning/remediation of the personal property items, it specifically said:

".... Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you).".

Next- in response to your inquiry and request for confirmation that the items removed by Reign have not been cleaned, or treated- as I said in the October 3, 2025 correspondence- they have not been. I have confirmed that with Reign. With respect to whether items were disposed of – I have been informed that the only items that were disposed of were the contents/items in the refrigerator. The refrigerator was cleared out before it was removed to Reign's storage facility. Reign has indicated that it did not see/recognize any type of medication in the refrigerator or freezer when clearing out the contents. With respect to the medications you assert were being stored in the refrigerator or freezer, please provide the specific name of each, the prescribing physician/healthcare provider, and the cost associated with same (and proof of payment).

Next- please refer to my October 3 correspondence regarding the personal property items which were packed and placed in the Reign Restoration storage facility and the ability to return same to you.

Next, as the emails I sent on Friday, on Saturday and on Sunday made clear, the items that were remaining in your apartment and which the Court ordered be removed and returned to you – were too many/extensive to send to your hotel and/or comfortably move into your hotel room (and as you know, you never provided a date/time for even the boxes of medications and the humidifier to be returned to you personally). Therefore, all of these boxes and items (to include

October 3, 2025

Page 2

the three flat screen televisions were moved into the storage unit at the apartment complex (which both I and the management staff emailed to you about on Sunday, providing the number of the unit, the location in Building 2 and instructing as to access of the key for this storage unit). With that said – these boxes and items can also be moved to Reign Restoration for storage, and cleaning (at the appropriate time) and, therefore, if you would like these boxes and other items moved there – please advise and Weinstein will incur the costs associated with the move and the costs associated with cleaning those items, at the appropriate time. **Again, none of your property will be cleaned or treated at this time.**

With respect to the “list” of various items, you sent on last night’s, late night email – please note that the list of the items which you consider to be medical and/or sentimental needs to be completed and provided to me, before Reign is instructed to unpack, sort through and locate your identified items (the Court did not order anything regarding “items needed soon” and/or or “personal items”- the order was confined to medical and sentimental) so that this can be efficiently accomplished. Additionally, while I appreciate your attempt to identify items by “page numbers” from filings my office made last week – please confirm that “filing” that you are using as a reference by which to identify page numbers – is the Plaintiffs’ Response to Defendant’s Emergency Application (it appears to me that it is this particular filing); please note - in reviewing that document and trying to locate certain items –some are not readily identifiable in the photographs, therefore, please circle the items and send me those pages – so that Reign has a clear understanding of what to locate and return. While I do not believe a bedside table is considered “medical assistive equipment” – I am not opposed to requesting this to be located by Reign, however, I am opposed to the list (once completed) far exceeding medical and/or sentimental items. The sooner you can provide the complete list, the sooner Reign can unpack, locate and make arrangements to return those located items to Weinstein (and then to you, assumedly at the hotel where you are currently staying – which will require a confirmed date/time that you can meet Weinstein staff in your hotel lobby to personally receive the items, and this will need to be scheduled prior to the day of the delivery-so as to have some clarity as to the logistics necessary to accomplish this task and the ability to organize and schedule personnel for the completion of delivery, accordingly).

Note: as before - all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

Subject: Re: Weinstein v. Copeland

Ms Copeland-

The apartment contents are fairly extensive (as you know the court directed that every drawer and cabinet be checked- and many items were found in sealed cabinets or drawers), and there were some already boxed items located in the living room as well as several large trash bags- labeled with red tape. Additionally, there are also three large flat screen televisions (these are being packed in television boxes) and mounts, dishes, food items, and small kitchen appliances. There were also several boxes of items in the entry way closet- that look like maybe something you had packed and perhaps moved there, at some time.

All medications and/or what appear to be potential medical items (pulse ox, portable BP cuff, bandages, humidifier) - are being boxed with appropriate identifiers ("medications").

It appears that there will be more than 20 boxes. A picture will be taken of all boxes, bags and items.

I am uncertain as to how all the boxes, items and television sets will fit into your hotel room - and or do so comfortably for you. Therefore, we have secured a large storage unit here at the apartment complex to store all items in - should you choose for them to be moved there. This storage unit will be at no cost to you, and we can deliver all boxes labeled "medications" and the humidifier, to the hotel- once you tell us what time to do so; we can do this, this afternoon by 4 :30 or 5:00 pm . We have also located a couple of photos of your children and what looks like perhaps a craft that was made by them (I'm not sure) - but we can deliver those items as well (this afternoon) and with your direction move the remaining boxes, televisions and other items to the on site storage unit. You can access these items freely whenever you choose. Weinstein is also trying to get the key made for this storage unit right now - and if made by 4:30 or 5 pm can be delivered to you today at the hotel, as well.

Please respond and indicate whether you want everything brought to the hotel (and if so- what time - today or tomorrow) or would like to pursue the above identified plan regarding use of a storage unit and delivering certain boxes or items to the hotel.

Thanks-
Glynis Zavarelli

Ms Copeland-

I did not hear from you.

Staff have been released.

All boxes and items that were in your apartment have been moved to storage unit S18, 4th floor of building 2 (your building) - next to Apartment 2431. This storage unit is being provided to you at no charge, for the duration of your lease term. You will need to arrange for these items to be moved out of the storage unit on or before the day your lease expires.

Email to follow from apartment management providing you the PIN code for the lockbox that contains the storage unit key. The lockbox will be affixed to the leasing office exterior door handle.

Note- the boxes containing medication and or mix of medications and sentimental items, as well as the humidifier are at the entry of the storage unit stacked to the left, as you walk into the storage unit, and are clearly marked.

Thank you-

On Oct 4, 2025, at 6:01 PM, Glynis Zavarelli <gzavarelli@wandzlaw.com> wrote:

Ms Copeland-

I still have not heard from you. Therefore- here is the plan:

Staff are available between 3 and 5 tomorrow to move your items and boxes into the on site storage unit(s). Therefor- All items and boxes will be moved there - absent your confirmation that you will be personally available at the hotel to receive the several boxes of medications, the humidifier and the box of mixed items- medications and sentimental items. If you indicate you want those boxes brought to you at the hotel, that will be accomplished - if you tell me that before 4:30 tomorrow. Otherwise, again, those boxes will also be stored in the on site storage unit(s).

Please note with respect to the keys to the on site storage unit(s), a lockbox will be set up for you and will be located at the leasing office, on the exterior doors - and you will be emailed information, from Andrea Meza (management) - providing the PIN code for the lock box - and the storage unit(s) number. This will all be accomplished for you by 5:00 pm tomorrow.

The above course of action is not subject to change or modification. The staff are being called in specifically (on a Sunday) to do this work and therefore, their personal schedules/commitments are being impacted.

I look forward to hearing from you before 4:30 tomorrow regarding the medication boxes and humidifier (ie whether you want them delivered to the hotel- between 4:30 and 5:00 pm- and with the assurance you will be there during that window of time to receive; the staff will not wait at the hotel past that time). Again if you do not indicate before 4:30 pm tomorrow you want these delivered to the hotel- they will be placed in the storage unit(s).

Thank you-

Ms Copeland-

You asked for all communications to be in writing—I was respecting that request. And I sent multiple emails yesterday- throughout the day. Significantly I note you have not responded to my inquiries below- so:

Please advise if you want the medication boxes and the box that has a mixture of sentimental and medication items as well as the humidifier delivered to your hotel this afternoon - with a specific time that you are available to receive the items personally- we can meet you in the lobby and you can use a luggage cart or - the boxes can brought to your room directly (and we can also bring the storage unit key to you as well)-and have the rest of the boxes, televisions, and other items moved to the storage unit on the apartment property (again there is such a large amount of boxes and other items- including the television sets- that it would likely not be comfortable for you in the room- assuming the hotel would even permit all of those items to be brought to one of its hotel rooms). Alternatively- we can have all items and boxes moved into the storage unit on site, and just bring you the key.

Please respond as to what you prefer; I need to have time to make the logistical arrangements for the delivery of boxes (and storage unit key) and, move of items with the apartment staff. If you would prefer to consider this further, and let me know tomorrow which you prefer- please let me know

that within the next hour (I have other plans today as well and have already delayed those to be able to get this taken care of). If you elect for the items I have noted (medication boxes, humidifier) to be delivered to your hotel tomorrow (along with the storage unit key)- I will need a specific time before 5 pm that you will be available personally to receive.

Thank you-

Ms Copeland-

It is misunderstanding you have not yet picked up the key for the onsite storage unit and I am unclear if you ever plan to but wanted to point something out:

Re packing up your apartment and placing in storage in the on site storage unit: I wanted to make sure you understand that the items that were removed from the sealed cabinets and drawers were exposed briefly to the air in the apartment before being placed in a box and sealed (and all other items which were there and not behind sealed doors/drawers- have also been exposed to the air in the apartment).

Again- as I indicated in my correspondence of yesterday- if you would like all the items and boxes in the storage unit moved to the Reign Restoration facility and cleaned, this can be accomplished.

Cc: Michelle Sortor; John Douglas
Subject: RE: Weinstein v. Copeland

Ms. Copeland:

I am following up on the correspondence I sent on Monday, and in particular seeking the **complete list of medical and/or sentimental items that you would like for Reign to locate**. I have also asked in Monday's correspondence for clarification/confirmation as to page references for filings that you have pointed to – by which to locate items, and for items to be circled as I cannot decipher from the photographs all items referenced. If it would be easier/more efficient – **once you send the complete list- and confirm the page number references- ie confirm from which filing these page references correlate**– I will go through the list and corresponding page number references, review the photographs and attempt to locate each item, and for those that I cannot readily identify- I will send you a list of those particular items, with the photographs attached- so that you can circle those items on the photograph and send me back the circled items (and note: if the list you sent a few days ago is now considered by you to be the complete list- please tell me that, and please confirm the citing for the page references from the filing, and I will review the items noted, the page references and photographs, and determine what cannot be identified, and then follow the procedure I have offered).

Moving forward- please respond to requests such as this – so that I can handle this efficiently; also, please email me/my office/my staff during regular business hours (as you do with Court staff), so that we do not miss your emails.

I have copied Mr. Douglas to this email given your recent reference to the small claims court case he filed on your behalf – when emailing with the Court Coordinator this afternoon, on our pending District court case.

Mr. Douglas: I have tried for almost two months to speak with you and you have never answered the phone nor do you return my calls (more recently – I called on September 19 and left you a vm, and have called several times over the last couple of days and did not leave a vm for these most recent attempts to contact you, because frankly- I am concerned about who has access to the vm). Please email me a time tomorrow, Friday or Tuesday (I will not be available on Monday) that will work for you for a phone call on various matters. Additionally, as I have requested before – please update the State Bar with current contact/employment information and provide an update as well to the small claims court- if the address and/or phone number you provided when you filed the case is no longer current (it is my understanding you may have moved from the address that you are showing on the small claims court case filing; if so – you are required to provide the court and all counsel with current contact information). As with Ms. Copeland -please refrain from emailing me/my office/my staff late at night or in the early morning hours (ie before 7:30 am)-as I do not want to miss your email.

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli
Sent from I phone

On Oct 10, 2025, at 8:11 PM, Copeland, Katie <K.M.COPELAND@tcu.edu> wrote:

Dear Ms. Zavarelli,

Thank you for your message. I want to note that I have a documented **brain injury and significant vision impairments (including binocular dysfunction)** that were **caused and/or exacerbated by prolonged toxic mold exposure**. These conditions substantially affect my ability to read dense text, analyze and process information quickly, and manage multiple emails. It has been especially difficult without my medications and I cannot afford to replace them all so I have been having to adjust to changes, which have led to cognitive overwhelm happening more often and for longer time periods.

Accordingly, I respectfully request that future communications be **consolidated and written in clear, bulleted form where possible**, so I can review and respond accurately. This is a reasonable accommodation under the ADA and will help ensure effective communication between us.

Regarding your request:

- I am unsure whether the list sent Sunday evening is the complete list or if additional items need to be added. I am not sure what you mean about complete and whether the items can be cleaned. That is why I need your response regarding testing my items for contamination. I noticed an invoice where it said testing was done, but then you said it was not tested. I am confused since you told the court my items were contaminated and that is why they were taken.
- I just sent 3 emails with the documents showing the items and the page references you requested.
- You indicated earlier that you are opposed to me have counsel appointed by the Court. Can you provide some insight as to why you do not want me to have an attorney? I am unsure of how to proceed if you are not agreeable to resetting the hearing date or for me to have appointed counsel appointed. As it is, my cognitive and communication-based disabilities prevent me from full and meaningful participation in the proceedings.
- My understanding of the last proceeding varies greatly from what was entered as a TRO against me and I am unclear on how none of the rulings granted to me were included in the order. As a result, I am unclear of what is even set for hearing on the 16th and why it is necessary. Can you please explain?

Thank you for your patience and cooperation. I remain committed to working in good faith and ensuring that all information is clear and accurate. However, it is unpredictable when my health will allow me to respond to pleadings and emails, so I am not able to commit to keeping emails during business hours.

Perhaps if we could settle the retaliation claim pending in the justice court, then I could obtain counsel to assist in the upcoming hearing. Or if we could reach some other kind of agreement, I could get treatment needed to improve my cognitive function. For example, the medications that were in the fridge were a few hundred dollars and are necessary to reduce inflammation in my body & brain.

How do you propose we make me whole enough to participate while I do not have a lawyer, per diem support, funds for treatment and replacement of missing items?

Sincerely,

Katie Copeland

Ms. Copeland:

See attached – the TRO entered by the Court, which also sets the Temporary Injunction for hearing tomorrow. Please review the pleadings previously filed. Additionally, we will be submitting a proposed Order for this, you will receive this through Efile/Eserve; once you review, if you are in agreement with the terms, please advise via email.

As to mediation and your perspective – this is unfortunate.

As to Mr. Douglas – I have not made any “accusations” – I have pointed out that he has consistently not responded to me through the course of almost two months and this is not productive. Specifically here is what I wrote yesterday:

Mr. Douglas – I encourage you to respond to me. I have called again today and left a vm; called several times in the past few days, you did not answer, and I did not leave a vm, Your lack of response to me over the last almost 2 months – particularly given that you filed the lawsuit against Weinstein, and have sent various emails making allegations/threats and/or referencing future additional litigation (noting your September 16 email indicating your intent to file a federal court case against Weinstein and requesting a TRO – as the most recent example), and given that I have been suggesting mediation since August 26 (with an offer to pay Ms. Copeland’s portion of the mediation fee) with no response from you- is wholly non productive.

I stand by this.

Ms. Copeland:

I have not said that you have wholly refused cleaning – and I have made that clear – in prior communications; I have said that at this time you have requested no cleaning be performed – which you did – on numerous occasions. You have also repeatedly asked me to confirm no cleaning has yet taken place and I have provided you that confirmation. If you would now like to have Reign move forward with the cleaning, please advise and I will let them know.

I have told you that testing was not done of individual personal property items – but testing was done of the apartment and pursuant to which a new mold protocol was prepared. I have sent you the portion of the mold protocol which references your personal property.

As to packing done by Weinstein -that was accomplished on October 3, given the Court's order that any items left in your apartment were to be returned to you, within 3 days. I sent you numerous emails that day (and follow up emails over the weekend) about the amount of items that remained in the apartment, and/or size of some items – and as you know, you are now being provided an additional storage unit on site- at no cost to you , to store those items (and you had been offered – throughout October 3-5 for certain boxes to be delivered to your hotel at an agreed time – and you never responded to those emails). As to packing done by Dedicated Mold- they did not move those items (boxes and bags) out of the apartment, these were moved into the storage unit on the 4th floor by Weinstein staff (on October 5 – as my multiple emails leading up to that point – had discussed).

With respect to the front entry area, have you returned to the apartment after the October 2 Order was entered?

Please note – the apartment will likely not be readied for occupancy, before your lease expires on October 26. If that changes I will advise you accordingly. However, please note: all items being stored in the storage unit that you had been using in association with your apartment, and the items being stored in the additional storage unit on the 4th floor of your building- will need to be removed by the time your lease expires.

I have no information to provide regarding relocation and/or medical expenses and frankly am confused by your request for an “update” with respect to “reimbursement”.

Thank you -

Subject: Re: Conference

Dear Ms. Zavarelli,

I'm writing to clarify a few ongoing points of confusion.

I'm not sure why you've stated that I requested no cleaning be done. What I've actually asked for are details about how contamination is determined, what testing was performed, how it is done, and how decisions are being made about which items can be cleaned or must be discarded. You previously indicated that no testing was done, yet you also told the Court that my belongings were contaminated. That contradiction has left me unable to make informed decisions about my property.

It's also concerning that at least three different entities—Weinstein, Dedicated Mold, and Reign—were involved in packing and removing my belongings. I never gave consent for removal, and the unit was not ready to be packed. If I contact those entities directly, I expect they will say Weinstein authorized the action. Can you please confirm who specifically directed them and under what authority?

I also noticed an invoice referencing testing from the apartment, but I have not received those results. Please provide a copy of the findings. They are medically significant and necessary for understanding the extent of exposure and appropriate next steps for my treatment.

Finally, the front entry area that tested positive for black mold has still not been remediated. Can you explain why no remediation plan or work has been initiated in that area?

I also need an update on reimbursement for my relocation and medical expenses. The continued delays and lack of cooperation are prolonging my displacement and increasing damages.

Thank you,

Katie Copeland

On Oct 10, 2025, at 8:11 PM, Copeland, Katie <K.M.COPELAND@tcu.edu> wrote:

Dear Ms. Zavarelli,

Thank you for your message. I want to note that I have a documented **brain injury and significant vision impairments (including binocular dysfunction)** that were **caused and/or exacerbated by prolonged toxic mold exposure**. These conditions substantially affect my ability to read dense text, analyze and process information quickly, and manage multiple emails. It has been especially difficult without my medications and I cannot afford to replace them all so I have been having to adjust to changes, which have led to cognitive overwhelm happening more often and for longer time periods.

Accordingly, I respectfully request that future communications be **consolidated and written in clear, bulleted form where possible**, so I can review and respond accurately. This is a reasonable accommodation under the ADA and will help ensure effective communication between us.

Regarding your request:

- I am unsure whether the list sent Sunday evening is the complete list or if additional items need to be added. I am not sure what you mean about complete and whether the items can be cleaned. That is why I need your response regarding testing my items for contamination. I noticed an invoice where it said testing was done, but then you said it was not tested. I am confused since you told the court my items were contaminated and that is why they were taken.
- I just sent 3 emails with the documents showing the items and the page references you requested.
- You indicated earlier that you are opposed to me have counsel appointed by the Court. Can you provide some insight as to why you do not want me to have an attorney? I am unsure of how to proceed if you are not agreeable to resetting the hearing date or for me to have appointed counsel appointed. As it is, my cognitive and communication-based disabilities prevent me from full and meaningful participation in the proceedings.
- My understanding of the last proceeding varies greatly from what was entered as a TRO against me and I am unclear on how none of the rulings granted to me

were included in the order. As a result, I am unclear of what is even set for hearing on the 16th and why it is necessary. Can you please explain?

Thank you for your patience and cooperation. I remain committed to working in good faith and ensuring that all information is clear and accurate. However, it is unpredictable when my health will allow me to respond to pleadings and emails, so I am not able to commit to keeping emails during business hours.

Perhaps if we could settle the retaliation claim pending in the justice court, then I could obtain counsel to assist in the upcoming hearing. Or if we could reach some other kind of agreement, I could get treatment needed to improve my cognitive function. For example, the medications that were in the fridge were a few hundred dollars and are necessary to reduce inflammation in my body & brain.

How do you propose we make me whole enough to participate while I do not have a lawyer, per diem support, funds for treatment and replacement of missing items?

Sincerely,

Katie Copeland

Ms. Copeland:

We are opposed to the below request.

Additionally, as before, please email me/my office staff during normal business hours, as you have been doing with the Court staff. This will help to avoid any emails getting lost/buried.

I have also noted that you have not yet responded to my correspondence of Monday and my follow up email on Wednesday, requesting the complete list of items that you would like Reign to locate – or clarifying that you have determined the list you sent Sunday night (close to 10 pm) has been determined by you now, to be the complete list. I would also like you to confirm which filing you were/will be using (for the list you provided late Sunday night and for the “complete” list to the extent Sunday night’s list is not complete) to provide page numbers from which you were identifying items, so that as I discussed – I can get back in touch with you if even with a page identifier, the item itself is not readily identifiable (in which case I have indicated I will request further assistance to make sure the item is identified and Reign has complete instructions as to what to search for).

Thank you –

Subject: RE: Conference

Ms. Copeland:

Please see attached a copy of the photographs with red circles – you provided to us (from Part 2 and Part 3 of what you sent to us [no photographs for part 1 were circled]). I have emailed these attachments to Reign. Reign confirmed receipt of the email and attachments and contacted me to obtain and/or provide some clarification as to certain circled items (and was able to pull up their own photographs – which are better able to be visualized – than some of the photographs the attached “Copeland- circled items, search and return, Part 3” – given the scan, rescan nature of the attached).

Provided below is what Reign needs assistance with to understand what specifically to search for/retrieve- all from the attachment: “Copeland -circled items, search and return, Part 3”:

- Page 5 of this attachment; circled item that appears to be a plastic container (please confirm);

- Page 5 of this attachment – what specifically is circled on the bed that you are requesting be pulled and returned (please identify this item by name);
- Page 6 of this attachment – what items on the bed within the circle are you wanting pulled and returned (please identify these items by name);
- Page 7 of this attachment – bedside table and items: are you wanting the bedside table pulled out and returned, as well as the items on the table; please clarify;
- Page 8 of this attachment – are you seeking the guitar and the dog crate/dog bed (both; if not both- which do you want pulled out and returned);
- Page 9 of this attachment – what is the blue item in the circle – please identify by name if this is something you are wanting to have pulled out and returned;
- Page 10 of this attachment – do you want the books and the container on top of the books both pulled and returned, or just the books, just the container- please clarify this;
- Page 11 and 12 of this attachment – appear to be the same item circled; and this appears to be a case for something – please confirm;
- Page 14 of this attachment – do you want all the items contained in the circle with the electrical cords- pulled and returned – please clarify;
- Page 16 of this attachment- do you want the table/structure that the photographs are sitting on – in addition to the photographs- pulled and returned- please clarify

With respect to the attached Part 3 photographs, Reign indicated that the following were not packed by Reign:

- Any medications (some are circled on page 5 of this attachment)
- Any jewelry (to the extent those items hanging from the wall shelf -circled on page 4 of this attachment, are jewelry of some sort);
- The counter items on page 2 of this attachment (tea kettle and other items);
- The items at the base of the candy bowl- on Page 15 of this attachment – and the circled medicine/supplement jar.

Please note jewelry items were located in the master bath linen closet, as were numerous medications – those are all visualized in the photograph you took as well as in one of Reign’s photographs. Those items – jewelry and medications located in your apartment – in the master bath linen closet, as well as medications/supplements in the kitchen area – were all packed by Weinstein and those boxes are being stored in the additional storage unit provided to you, located on the 4th floor of your building (as the emails sent to you over the weekend of October 4-5 indicate). Certain kitchen and/or kitchen counter items were packed by Dedicated Mold and placed in a sealed boxed -labeled as “kitchen contents”, “counter contents” and/or “kitchen and counter contents” and those too are located in the storage unit on the 4th floor of your building (again, as previously referenced). As previously indicated this 4th floor storage unit is being provided to you through your lease term (October 26) and at no cost to you. Once your lease expires, you will need to move these items out of the storage unit.

I have also asked Reign to locate the AT&T equipment you previously referenced and pull that out, for return, as well.

Please provide the clarification requested above – by Friday afternoon; Reign will be able to start going through the contents and pulling out items – on Monday/Tuesday of next week and expects the project will take two days. Therefore, please also use this time to confirm with The Worthington that any large items (such as the bedside table, or any other larger items you have identified- dog crate, dog bed, etc) are permitted to be delivered to the hotel. If not- then please identify where you would like those items delivered. Again, no cleaning has taken place as to any items being stored by Reign (this is at your request, as you know).

Thank you –

Subject: Re: Conference

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli

Ms. Copeland:

Following up on the below (to include email sent to you on Tuesday).

Once the requested clarification is received, this will be provided to Reign and it can begin to unpack the contents from the apartment and search for the items you have requested. My understanding is that they are currently available and able to do this work beginning on Monday or Tuesday (October 20 and 21) but will need to receive the information requested, as to clarification, by Friday afternoon (ie before 5 pm). I will not be available and/or able to communicate with Reign Friday evening/night or over the weekend, and will be in a deposition all day on Monday; therefore, it is important for you to communicate promptly about this, if you would like for Reign to work on this, early next week.

With respect to the other items you indicated you would like returned, and which were not packed by Reign- I have provided you the information as to the location of these items – and you are able to access those at your convenience.

With respect to the patio items, as you know, they were not moved from the patio. Would you like those to be removed from the patio and placed in the storage unit that is being provided to you (at no charge) on the 4th floor of Bldg 2; there is not a lot of room there, but these items will likely fit. Please advise.

Thanks-

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025
Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your "children's displacement" (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being "displaced" and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie "derailed" your "legal career trajectory" – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein's claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025
Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025
Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re- arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025

Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand – attempt to elicit verbal communication over the phone – with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

A handwritten signature in black ink, appearing to read 'Glynis L. Zavarelli', with a stylized, flowing script.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items -and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above).

December 1, 2025

Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025

Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025

Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence; You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025

Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Alfred Johnson;
- Dr. Nilesch Nanigrani
- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

Sincerely,

Glynis L. Zavarelli

Subject: RE: Required Accommodations Following Today's Hearing

Date: Thursday, December 4, 2025 at 3:34:25 PM Central Standard Time

From: Glynis Zavarelli <gzavarelli@wandzlaw.com>

To: Copeland, Katie <K.M.COPELAND@tcu.edu>, Michelle Sortor <msortor@wandzlaw.com>

[EXTERNAL EMAIL WARNING] DO NOT CLICK LINKS or open attachments unless you recognize the sender and know the content is safe.

Ms. Copeland:

Judge Chupp did not order (direct, or instruct) Weinstein to provide you continued lodging (to "house" you), per diem monies, or any of the other demands you have made in this email and he did not say what you have stated below was said. In fact, he made clear that your continued efforts to argue other matters – unrelated to the hearings that had been set (the Special Exception and Motion to Quash regarding records) were not being heard today.

The Court did not comment on the validity of the claims/causes of action you have asserted with respect to the alleged violations of the Fair Housing Act (ie whether the Federal or Texas FHA are applicable at all under these facts and circumstances and/or whether you are entitled to any particular type of accommodation). The Court did not comment on your assertion that you continue to have a valid lease (ie that the non renewal of your lease is void) and/or that any act of retaliation was committed against you. Weinstein denies any retaliatory conduct (whether alleged in the original small claims court case, the District Court case or to the extent you are alleging this in the newer repair and remediation case). The non renewal provided to you on August 26, 2025 was appropriate- and your lease expired on October 26, 2025. The Notice to Vacate, issued in November, was also appropriate. Your refusal to remove your personal property items and return access devices, is not appropriate.

Your most recent Motion regarding accommodations is scheduled to be heard on December 12, 2025.

With respect to your personal property items, you have been told repeatedly: with respect to the items which are at the Reign facility, these can be returned to you (Weinstein will pay to transport the items) at whatever location you direct, or they can be cleaned (at no cost to you) but until you authorize cleaning – none will be done. These have been your options since October 3. With respect to the personal property items at the apartment complex (two storage rooms and balcony) – these need to be removed (and you have been told that the items in the 4th floor storage room – can be transported to Reign (Weinstein will pay for this) to be held there, for future cleaning. With respect to medical items you have now indicated you need (noting you stopped corresponding with me about items being held by Reign, which were either medically necessary or sentimental and which you would like

Reign to retrieve and return to you – on October 14, 2025) – please identify those with specificity –by responding to my October 14th email (re sent to you on October 15). Once identified – arrangements will be made to deliver those to your present location (once you identify that).

As to mediation – as I have indicated to you via email/correspondence and today at court- I remain interested in scheduling this at the appropriate time. However, your identified conditions for such to get scheduled, make mediation not feasible. Therefore, if you change your position on this – let me know.

Finally- do not continue to include Weinstein on your communications to me (and/or do not communicate with Weinstein directly). This is improper.

Subject: Required Accommodations Following Today's Hearing
Importance: High

Counsel,

At the hearing this morning, the Court expressly instructed Plaintiffs to **follow the law** with respect to all Fair Housing Act, Texas Fair Housing Act, and disability-accommodation obligations. I am proceeding on the assumption that Plaintiffs intend to comply fully with that directive.

As you know, the uninhabitable condition of the unit, my displacement, and the handling of my belongings trigger obligations under **42 U.S.C. § 3604(f)(3)(B)**, **42 U.S.C. § 3617**, and **Tex. Prop. Code §§ 301.025, 301.152, and 92.331**. Because the nonrenewal notice was issued while I was displaced and during ongoing

accommodation requests, it is void under **Tex. Prop. Code § 92.331**, which prohibits adverse actions taken within six months of protected activity. Accordingly, I retain **superior right of possession** unless and until lawful accommodation and remediation procedures are completed.

Additionally, the Court has indicated its willingness to appoint counsel for me under **Tex. Prop. Code § 301.152** and **42 U.S.C. § 3613(b)**. I have submitted a proposed order appointing the Director of the **Texas A&M Civil Rights Clinic**, a specialist in federal civil-rights and Fair Housing Act litigation. The Clinic's involvement underscores the seriousness of the FHA, ADA, and retaliation issues now before the Court.

As this matter is moving into the civil-rights enforcement phase, I am copying the appropriate representatives for Plaintiffs and their insurer to ensure clarity regarding the Court's directives and the statutory obligations at issue.

In light of the Court's instruction, I am requesting the following reasonable and time-sensitive accommodations:

1. Immediate Temporary Housing

Please arrange safe ADA/FHA-compliant temporary housing **no later than December 5**.

I am evaluating the rental property at 3841 Englewood Lane, Fort Worth, TX 76107, which becomes available after the current tenant moves out on Sunday. If this property is agreeable as a temporary accommodation, I can proceed promptly.

If Plaintiffs prefer to arrange an alternative, a short-term rental such as an Airbnb with a yard or fenced outdoor space would be appropriate. Given my disabilities and the presence of my two dogs, a hotel is not a medically suitable or safe long-term environment. An FHA accommodation must be both safe and functional for my disability-related needs.

In addition, due to my medical conditions and the documented mold exposure, I require a **HEPA + activated carbon air purifier** in any temporary housing to stabilize respiratory and neurological symptoms. This is a medically necessary, disability-related accommodation and is consistent with FHA/ADA requirements for environmental health modifications.

This is consistent with the Court's directive that I be housed lawfully while remediation proceeds.

2. Per Diem and Displacement Expenses

Given the prolonged displacement and my medical conditions, please confirm that Plaintiffs will provide **per diem** for food, transportation, and basic living expenses until housing is secured and stable. This is standard practice in displacement cases and is necessary for my health and safety.

3. Licensed Handling of My Belongings

Please confirm that all of my belongings currently being held will be transferred to a **licensed mold-remediation contractor**, consistent with Texas Occupations Code Chapter 1958. No item should be discarded, altered, or released without notice or a complete inventory.

As the Court stated, the parties must follow the law, and that includes lawful handling of contents by licensed professionals.

This request is urgent because several items in storage are **medically necessary for managing my conditions**—including my heated vest, red light therapy device, pain management tools, and other assistive devices that I rely on during neurological and autonomic flares. I need access to these items immediately to stabilize my health.

4. Transparency and Notice Regarding My Unit

Because the nonrenewal is void and I retain superior right of possession, please keep me informed of:

- the remediation schedule;
- contractor identities;
- any clearance testing; and
- when the unit is legally safe for reentry.

This is necessary for coordination with my medical providers and for compliance with FHA/Texas FHA obligations.

5. Mediation After Stabilization

Once I am temporarily housed, medically stable, and my belongings are secured with a licensed contractor, I am willing to participate in mediation. The Court acknowledged today that this case involves significant damages, and mediation will be more productive once I am out of crisis and able to participate meaningfully. I am open to discussing availability for scheduling if you wish to send me dates.

6. Repair & Remedy Proceeding (December 9 at 11:30 AM)

If Plaintiffs wish to come into full compliance with their habitability and accommodation obligations before that hearing, I am willing to streamline or resolve that proceeding voluntarily once safe housing, licensed contents handling, and stabilization are in place.

If these issues are not resolved beforehand, I will proceed with the R&R case as scheduled. Any findings in that proceeding—including habitability violations, breach of duties, or damages—will necessarily be incorporated into the ongoing district court matter.

7. Court Intervention if Needed

If Plaintiffs are willing to implement these accommodations by **tomorrow, December 5**, there will be no need for additional motions or further court involvement at this time.

If not, I will seek whatever relief is required to ensure full statutory compliance with the Court's directive.

My goal is to resolve the housing and displacement issues cooperatively so all parties can focus on the merits and prepare for mediation in due course.

Please confirm by the end of today (**6:00 PM**) whether Plaintiffs intend to comply with these accommodation requirements. If I do not receive confirmation, I will inform the Court so that appropriate relief can be requested.

Sincerely,

Katie Copeland

Social Work and Case Management

Patients at UT Southwestern Medical Center are in good hands in every aspect of care, medical and otherwise. Case managers are assigned to each inpatient care area. They're trained to help patients and family members address financial, social, and emotional problems related to illness or hospitalization.

Case managers also help patients and families cope with long-term illnesses, rehabilitation, and discharge planning. They can assist with arrangements for the following services:

- Home health care, nursing care, and hospice care
- Medical equipment
- Outpatient physical therapy, speech therapy, and occupational therapy
- Referrals to community agencies

**DEFENDANT’S OBJECTIONS TO AND MOTION TO STRIKE
DR. ISABEL HUANG’S CORRESPONDENCE SUBMITTED BY COPELAND –
ON DECEMBER 24, 2025**

TO THE HONORABLE JUDGE OF SAID COURT:

COME NOW, Defendant (hereinafter referred to as “Weinstein”) and make and file this
its Objections to and Motion to Strike Dr. Isabel Huang’s Correspondence Submitted by Copeland
– on December 24, 2025, and in support thereof would respectfully show unto the Court as follows:

I.

**RELEVANT BACKGROUND INFORMATION
REGARDING DR. ISABEL HUANG**

Dr. Isabel Huang is a medical doctor, who specializes in physical medicine and
rehabilitation, and is affiliated with UTSW.

Dr. Huang is not:

- A specialist in internal medicine;
- A medical toxicologist;
- A psychiatrist;
- A psychologist;
- A neuropsychologist;

- A neurologist;
- An endocrinologist;
- A gastroenterologist;
- An immunologist;
- A rheumatologist;
- An allergist;
- A pulmonologist; or
- A cardiologist.

Dr. Huang is also not:

- A mold assessment specialist;
- A mold remediation specialist; or
- A property valuation expert.

In short, Dr. Huang lacks the necessary expertise to opine on any matter that falls outside her limited areas of medical practice and therefore, Dr. Huang's opinions and recommendations should be wholly disregarded - pursuant to Tex. R. Evid. 702 and 703 (and interpreting case law: *Broders v. Heise*, 924 S.W.2d 148 (Tex.1996)*Arlington Memorial Hosp. Inc. v. Baird*, 991 S.W.2d 918, 921 (Tex.App. – Fort Worth, writ denied); *Pace v. Sadler*, 996 S.W.2d 685, 689-690 (Tex.App. – Beaumont 1991, writ denied)*Lesser v. St. Elizabeth Hosp.*, 804 S.W.2d 657 (Tex.App. – Beaumont 1991, writ denied); *Gladewater Municipal Hospital v. Daniel*, 694 S.W.2d 619, 620 (Tex.App. – Texarkana 1985, no writ); *Kieswetter v. Center Pavilion Hosp.*, 662 S.W.2d 24, 27 (Tex.App. – Houston [1st Dist.] 1983, no writ); *Fontenot Enterprises, Inc. d/b/a Hope Rehabilitation v. Kronick*, 2006 Tex. App. LEXIS 8580 (Tex. App. – Houston [14th Dist.] 2006, no writ); *Reyes v. Jebo=s Inc.*, 2005 Tex. App. LEXIS 3344 (Tex. App. – San Antonio 2005,

no writ); *Bowles v. Bourdon*, 219 S.W.2d 779 (Tex. 1949); *Tinghui v. Billingsley*, No. 05-08-00436-CV, 2005 Tex. App. LEXIS 684 (Tex. App. - Dallas 2009, no pet. h.).

Additionally, and problematically -

Per the December 21, 2025 correspondence submitted by Copeland (but not submitted until December 24), Copeland has been “under” Dr. Huang’s care since October 8, 2024. However, Dr. Huang’s correspondence provides no information as to what that actually means, to include: what particular objective testing, and evaluations have been performed by Dr. Huang and /or what actual treatment Dr. Huang provides -to include as related to ordering use of durable medical equipment, prescribing medications, ordering and monitoring adjunct therapeutic care [occupational, physical, and/or speech] and, any involvement with and oversight concerning treatment of any of Copeland’s alleged medical conditions.

Further, the December 21, 2025 correspondence makes no mention of any particular recent testing, exam and/or evaluation that she (Dr. Huang) personally has conducted of Copeland -at any particular point in time – but most notably since December 4, 2025 (the point of reference date set out in the correspondence). As such, the correspondence is conspicuously silent as to any matter which would indicate any recent objective medical testing and/or observations by Dr. Huang.

Significantly: Though Copeland now relies upon the December 21, 2025 correspondence in support of her position that she is entitled to certain “accommodations” (Per the alleged John Douglas email sent today, at 4:10 pm- and pursuant to which she request the January 6, 2025 hearing be held by “submission”), Copeland never identified this physician in disclosures, and has refused to produce this physician’s medical records (either through disclosures or Request for Production). Tellingly: When Weinstein sought to obtain the records for Dr. Huang through

subpoena and Deposition on Written Questions, Copeland took the position that she had filed a Motion to Quash such (though the Motion to Quash filed by Copeland did not specifically address these records) – and as a result, Weinstein agreed to request that the records service refrain from continued efforts to obtain the records, until after the issue could be resolved through hearing. Copeland did not request a hearing on her Motion to Quash; Weinstein did. On December 4, 2025, the Motion to Quash was heard and the Court ordered the records service could proceed with obtaining the records, but that Copeland would be provided the records first (after which a process was to be followed with respect to protecting and/or releasing the records, as reflected in the Order signed by Judge Chupp on December 5, 2025). As of the date of these Objections, Weinstein has not obtained or been provided any of Dr. Huang’s records, and Copeland should have produced these records weeks (if not months) ago – in response to Rule 194 Disclosures and/or in Response to Request for Production.

Finally, Copeland was requested, on December 1, 2025, to provide a date that she would be available for Dr. Huang’s deposition, and to date, has failed to respond to this request. See attached as **Exhibits “A” through “C”** – Copeland’s Initial Disclosures, and correspondence sent to Copeland by the undersigned counsel regarding identification of persons with knowledge of relevant facts (specifically referring to medical providers) and request for Dr. Huang’s deposition.

As has been Copeland’s practice and routine (both pre litigation and in the midst of this litigation)– she takes a “sword and shield” approach to her alleged disabilities and/or underlying medical conditions – relying on such conditions to attempt to obtain whatever particular requested relief she asserts she is “entitled” to receive, while preventing Weinstein from obtaining information as to those very matters. As such, Weinstein does not have a fair and full opportunity to evaluate the claims asserted and/or cannot fully and critically analyze the veracity of Copeland’s

claims. This type of litigation conduct is improper: “A plaintiff cannot use one hand to seek affirmative relief in court and with the other lower an iron curtain of silence against otherwise pertinent and proper questions which may have a bearing upon his right to maintain his action.” *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding).

Dr. Huang’s December 21, 2025 is yet another example of Copeland’s litigation approach in this regard- and Copeland’s use of Dr. Huang’s correspondence (for any purpose) should be prohibited – pursuant to Tex. R. Civ. P. 193, 194 and 215 (and as contemplated by *Remington Arms Co. v. Caldwell*, 850 S.W.2d 167, 170 (Tex. 1993), *Patton v. Saint Joseph’s Hospital*, 887 S.W.2d 233, 239 (Tex.App. – Fort Worth 1994, writ denied; and *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding)).

II.

OBJECTIONS TO DR. HUANG’S CORRESPONDENCE

Copeland has provided the Huang December 21, 2025 correspondence in an attempt to: 1) manipulate the litigation process (whether in District court or Justice court- as she has filed this correspondence in the District Court case (141st Judicial District Court) and in the two JP court cases in which she has sued Weinstein – and in which she attempts to avoid her obligations as a litigant – though notably in those two JP court cases she is represented by counsel, John Douglas) and 2) to bolster and/or support her requested relief for significant Plaintiff personal injury damages/monies to be awarded to her, through the District Court case – **pre trial, this includes:**

A) Requesting payment (by Weinstein) of \$18,000 a month for the duration of the case (to fund her self determined entitled lifestyle, termed by her as “interim housing”) and for which amount she incredulously claims to be “conservative”, in a circumstance where neither Weinstein nor any Court is required to provide this relief to Copeland; Weinstein is not required by contract, statute or state and/or federal law to pay for “housing” for Copeland, and no Court is required to do so – or to enter an Order directing Weinstein to do this under the guise of an “ADA accommodation); and in a circumstance where no finding of liability has been made against Weinstein as to any pending counter claim asserted by Copeland (and cannot be made, until the jury hears all the evidence and makes its decision); and;

B) Requesting a payment of \$20,000 for alleged replacement of medical items (items that which, if they existed at all on September 22, 2025, were never secured by Copeland once she knew her apartment would be going through remediation starting on September 22, 2025 [ie if these items actually existed, she left such items in her apartment; as such, if those items were actually medically necessary – she should have removed them before the remediation was scheduled to take place], and for which it has not been proven (ie established by the jury) that Weinstein is liable to reimburse Copeland for any particular piece of property – medical or otherwise. Further, egregiously – Copeland has taken the position – and perhaps convinced Dr. Huang to do so as well- that the items which were removed from the apartment and which are being stored off site (by Reign Restorations) have not been cleaned or returned (ie that Weinstein has refused to do either/both) – as if Copeland had provided authorization for either- which she has not; steadfastly stating since the property was removed that she does not want it cleaned by Reign Restorations (claiming this would be spoliation, and even filings various injunctive type pleadings to prohibit Weinstein from permitting this to occur, and filing such, before and after

Weinstein's counsel has repeatedly assured Copeland that no cleaning has taken place and none will take place, absent her authorization); and moreover, Copeland has never provided any location to which the property can be returned (though she has been asked to do so since September 27). Further, Copeland wholly failed to cooperate with attempts to identify medically necessary items and arrange for their return to her (as Judge Chupp had indicated, on October 2, at the TRO hearing, should be done, if it was possible to do so- and which counsel for Weinstein started initiating as early as October 3). Since October 3, 2025, counsel for Weinstein has engaged in repeated attempts to work with Copeland as to identification of alleged necessary medical items (and/or sentimental items) – as again was directed by Judge Chupp, and has continued to follow up with Copeland as to her preference with respect to the numerous items that still remain on Weinstein's property – in two store rooms and the balcony of the apartment that Copeland had leased – and these communications by counsel were as recent as December 4, 2025, with no response by Copeland.

In short, Copeland has purportedly procured this correspondence from Dr. Huang to assist her in manipulation of the litigation process, to attempt to provide her not “equal” access to the Court (for which she has never been denied) but preferential treatment, while depriving Weinstein of its right to zealously prosecute and/or defend its positions (and prepare for trial), and in an attempt to obtain an award of pre trial, personal injury damages for which she is not entitled (and pursuant to which no legal premise – statutory, contract or common law provides for, and in a circumstance where no liability finding has been made against Weinstein, by the fact finder). All of this is improper, an affront to the judicial system and an abuse of process.

It is impossible to verify the veracity of this correspondence and/or its authenticity -from the document alone (it is not even signed by Dr. Huang). As such, Weinstein requests that if the Court is ever inclined to consider this correspondence for any purpose, that the following be

ordered: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

Weinstein lodges the following objections to the Dr. Huang Correspondence:

**OBJECTIONS GENERALLY – TO THE SUBSTANCE/CONTENTS AND
LACK OF QUALIFICATIONS/EXPERTISE**

- Weinstein objects that the correspondence is not properly authenticated and/or cannot be verified for veracity; the correspondence is not signed by Dr. Huang (a typed named is all that appears; and a prior piece of correspondence used by Copeland on other pleadings, while heavily redacted – was purportedly written to support a “Disability Application” – for which Weinstein has no information on the status of the “disability application” but it appears to have not been approved (or not yet approved), at this point (if it had been approved, Copeland has never provided this and certainly if she had any document which confirmed that she has been assessed by any agency to be “disabled” – she would have produced this by now) – **but** that prior correspondence contained Dr. Huang’s handwritten signature- therefore, this unsigned correspondence is not consistent with what appears to be Dr. Huang’s practice of providing patient assistive correspondence.
- Weinstein objects that the correspondence is hearsay and/or is hearsay within hearsay.
- Weinstein objects that the correspondence is based upon speculation and/or the self serving statements made to Dr. Huang by Copeland, and further objects that the statements contained in the correspondence are largely conclusory and non specific;
- Weinstein objects that the manner in which the correspondence is written, further calls into question, the veracity or completeness of the correspondence: there appears to be a redaction which was made – fourth paragraph from the bottom of page 1, starting with “These episodes...” – the word “I” appears on the second line -but nothing else – as though there was more there – but has been redacted.

Similarly, the correspondence is dated December 21, 2025 (but references a December 8 date- of unknown significance); if the correspondence contains Dr. Huang’s actual impressions, concerns and recommendations that she came to/developed on December 8, 2025- and those matters require “immediate” action – this December 21, 2025 dates calls into question the veracity of any comment made by Dr. Huang – as to any matter deemed to be an “immediate” concern; as

certainly, Dr. Huang would not wait until December 21 to make these matters known – when she thought by December 8 – these were needing immediate attention. The correspondence is, therefore, further objectionable because it is internally inconsistent, and makes the entire document unreliable for any purpose.

- Weinstein objects Dr. Huang is not qualified to provide opinions as to any matter other than the care she has actually provided. As such, Weinstein objects that there is no information to indicate Dr. Huang has any expertise in the following areas (and as such, her opinions and/or recommendations in any and/or pertaining to any of these areas lack proper foundation and/or expertise):
 - Internal medicine;
 - Medical toxicology (to include as related to exposure to mold);
 - Psychiatry;
 - Psychology;
 - Neuropsychology;
 - Neurology;
 - Endocrinology;
 - Gastroenterology;
 - Immunology;
 - Allergy medicine;
 - Rheumatology;
 - Pulmonology;
 - Cardiology;
 - Mold assessment;
 - Mold remediation; or
 - Property valuation expert.

- Weinstein objects that the correspondence provides no information as to objective medical testing, studies, evaluation and/or examination performed by Dr. Huang and instead references only comments/complaints made by Copeland (making repeated use of the word “reportedly” when referencing not only chronology of events but also Copeland’s alleged response/reaction to participation in the December 4, 2025 hearing) and as such, the correspondence is based upon nothing but speculation, conjecture and information provided by the most biased witness/person in the case- Copeland and as such, is not based upon reliable and/or even accurate information and, therefore, lacks proper foundation;
- Weinstein objects that the various medical conditions identified, at the beginning of the correspondence as diagnosed conditions, are not explained, and that there is no information provided as to what these conditions are, what they effect as to Copeland (physiologically), how the conditions are being managed and/or treated (prescribed medications, prescribed therapies, use of durable medical equipment) and/or the manner in which any particular identified medical condition has any actual objective causal connection to any particular matter: where and/or how Copeland is living, the status of Copeland’s personal property, Copeland’s ability to participate in litigation activities (**noting that with all of the alleged conditions – Copeland has filed numerous counter claims in the 141st Judicial District litigation, filed two different JP Court cases (Precinct 3) against Weinstein, is engaged in pro se litigation against her prior counsel – Beth Janicek and Koons Fuller, has sued the Amicus, Kelly Decker and Ms. Decker’s law firm, has filed federal court litigation against the entirety of Tarrant County and various judges----** and throughout all of these litigated matters – has filed pleadings, Motions, served discovery, served numerous subpoenas, and has participated in court proceedings- at times, insisting to do so in person; as such, Dr. Huang’s reference to the various medical conditions is conclusory, and the implication of any adverse effect on Copeland’s ability to “litigate” in any particular case – is disingenuous (at best) and not supported by Copeland’s “real life” activity-making the information unreliable and lacking in foundation;
- Weinstein objects that on its face, this correspondence makes clear that Dr. Huang is basing her conclusions on matters that were only reported by Copeland, in relation to her “current” report- see page 1 of the correspondence, mid way down, where Dr. Huang starts the portion of the correspondence by stating “Ms. Copeland is currently reporting the following” – followed by 6 bullet points/conditions – demonstrating none of what is included in the bullet point information is actually derived from Dr. Huang’s observations/interactions and/or based upon her medical knowledge/judgment – but instead is based upon what Copeland “reported”, and as such, the correspondence lacks reliable and proper foundation.
- Weinstein objects that the correspondence seems to indicate that Dr. Huang has not actually seen/evaluated Copeland in the last several months – to include after the December 4 hearing – as such, any opinion she would proffer is not based upon reliable foundation; alternatively, if Dr. Huang saw Copeland on December 8, her

correspondence is wholly devoid of any information as to what type of assessment/exam she conducted, treatment provided and/or recommended – and therefore, the correspondence remains lacking in reliable foundation (ie the opinions espoused by Dr. Huang then appear to be based on nothing other than Copeland's subjective, self serving statements);

- Weinstein objects that Dr. Huang's correspondence is incomplete in that it references certain matters/circumstances without providing full information – which is likely because her source for all the information contained in the correspondence is: Copeland – whose rendition of circumstances is not necessarily accurate, complete and/or reliable; this is applicable to not only Copeland's alleged "flare up" and effects of same, but also comments made as to Copeland's personal property items and Copeland's ability to participate in litigation related activities.

OBJECTIONS TO ALLEGED EFFECT OF DECEMBER 4, 2025 HEARING

- Weinstein objects that the information contained in Dr. Huang's correspondence as to the impact of Copeland's participation in the December 4, 2025 hearing on Copeland's underlying alleged conditions has on her – whether as related to in person participation in hearings, and litigation proceedings or as related to her ability to operate/function in the litigation activities – is inconsistent with and wholly not supported by what Copeland actually does and/or is doing – and as such, Dr. Huang's correspondence, in that regard, is again wholly unreliable (and only showcases that her entire rendition of information is unilaterally provided by Copeland – without Dr. Huang either considering various other factors/matters-and/or perhaps only being provided certain information by Copeland which Copeland believes will inure to her benefit) and as such, Dr. Huang's correspondence should be disregarded.

The following are examples (though not exhaustive) of the inconsistency of what Dr. Huang asserts is Copeland's status, following the December hearing – as opposed to what Copeland is actually doing or able to do, since the December 4, 2025 hearing:

--Dr. Huang references that since the December 4, 2025 hearing (hearings on Copeland's filings), Copeland suffered "physical strain and environmental exposures" which "reportedly triggered a several flare up that has significantly worsened her symptoms of pain, weakness and fatigue" -- [note – Dr. Huang does not provide any information as to what constitutes a "flare up" and for that reason, Weinstein also objects to the vague and ambiguous/non specific nature of this comment- for which her entire correspondence seeks to address]; however, if this were true – it would seem that Copeland would have actually been seen by a healthcare provider that day (and again, it appears that she was not seen by Dr.

Huang, that day) – but instead, that day and on the days thereafter, the following occurred:

--On December 4, 2025, Copeland attended the hearing in the 141st Judicial District Court- these were *in person* hearings; **Copeland scheduled her Special Exceptions, the first of the two matters scheduled, as an in person hearing** (in other words- regardless of whatever underlying conditions or sensitivities she claims to have – **she requested for that hearing to be in person** (after which the undersigned counsel set Copeland’s Motion to Quash regarding the ordered records for the same date, and in person). Copeland did not require any assistive devices- visual, auditory, processing, communication and/or mobility. Copeland was properly groomed and appropriately dressed (for court appearance, wearing a well fitting pant suit, which was appropriate for the setting). Copeland walked into the court room unassisted (by person or device) and set up at Defendant’s table. Copeland did not wear a mask (which is notable because Dr. Huang asserts that “environmental exposures” are problematic) [Copeland had also taken a photograph of herself at the apartment at issue – on September 26- sitting directly in front of the area for which mold remediation was required and wore no mask]. Copeland argued her positions – and attempted to convince/persuade the Court to entertain other matters which were not the subject of hearing that day. She did not request a break during the hearing, at any point. She did not get up to stretch. She did not seek to re position herself from her seated position at counsel table and she did not require assistance exiting the courtroom.

--On December 4 (after the hearing), Copeland prepared an Order for appointment of counsel (Texas A& M law school Civil Rights Clinic) [a matter that was not heard that day] and submitted it to the Court (it would seem that Copeland at least also would have contacted the clinic that day prior to submitting the Order, but perhaps not) and sent lengthy emails to the 141st Judicial District Court staff, and opposing counsel – arguing to have that Order signed; she also sent a lengthy email correspondence to opposing counsel regarding request for housing and other matters and emails regarding other matters she contended the Court had ordered (which it did not) and this culminated in Copeland preparing and submitting a lengthy 7 page Order for matters, again, not heard. It does not appear that there was any actual “flare up” that day.

--Between December 5 and December 29: Copeland prepared and filed eleven additional pleadings in the litigation pending in the 141st Judicial District, many of which were lengthy and contained lengthy exhibits; there has been apparently no “flare up” during those times;

--On December 9, 2025 – Copeland appeared (via zoom) at the trial in JP Court Precinct 3- for a “repair and remedy” lawsuit she had filed against Weinstein (ownership entity) – and when her attorney, John Douglas, failed to appear – she opted to proceed- by herself [on zoom]- for a trial that lasted approximately one

hour, during which she did not request a break (notably- Dr. Huang's correspondence does not address that proceeding at all); there apparently was no "flare up" that day;

--On December 10, 2025, Copeland filed a (pro se – and thus, improper as it was in violation of the Order Declaring Copeland as a Vexatious Litigant) Notice of Appeal from the judgement in the JP Court, Precinct #3 repair and remedy case (clearly demonstrating that she was aware of the upcoming deadline by which to perfect appeal to the County court); there was apparently no "flare up" that day;

--On December 15, 2025, Copeland filed a Status Update and ADA Request, in the JP Court, Precinct #3 repair and remedy case – in which she presented photographs – she had taken on December 10, 2025 (when she unlawfully entered the apartment- in violation of the two Orders issued by the 141st Judicial District court, forbidding such conduct)- and which she claimed assisted her in her claims against Weinstein and showed that Weinsteins' counsel had not properly represented the status of the remediation (noting – the photographs were actually helpful to Weinstein, to demonstrate that the status was as portrayed on December 9 at the repair and remedy trial); however, significantly- in order to prepare her Status Update and ADA Request, by obtaining the information and /or photographs attached to same, Copeland had to do the following:

--She traveled to Weinstein's apartment complex;

--She walked up a flight of stairs to Apartment 2145;

--Despite her complaints (made on December 10 to the JP Court, Precinct #3, that remediation is "ongoing" , this establishes that Copeland – for the third time, violated a Court Order to willingly expose herself to "mold" that she contends is "harmful";

--She walked throughout the apartment, inclusive of containment areas and large fans/cords;

--She inspected the apartment for dust/debris;

--She examined the progress of the work undertaken by that date;

--She took an extensive number of photographs of the apartment;

--She printed and prepared the photographs, along with the pleadings, to be filed on December 15, 2025.

All of the above took considerable physical efforts, required cognitive and processing abilities and was performed and pleadings thereafter, filed – within a time frame that

Copeland anticipated would be beneficial to the re- hearing of the repair and remedy case- which at that time had been scheduled to be conducted on December 17, 2025. There was apparently no “flare up” as of or on December 10, 2025, nor on December 15, 2025 (the date of filing).

--On December 16, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Plaintiff Pro Se Reply (to Weinstein’s Response and Motion to Show Cause, filed on December 15);

--On December 16, 2025, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Notice to Preserve ADA Accommodation Issue (after the Court had issued its order that day, denying her Motion);

--From December 16 through December 19-Copeland filed 7 different pleadings in her pending federal court litigation against, amongst several Defendants, to include: all of Tarrant County, which included a Notice of Appearance pro se, amended pleadings, a Motion to Extend Time to Serve, a Motion to Appoint Counsel, a Motion to file Appendix under seal, and an Emergency Motion for TRO and Preliminary Injunction – which includes reference to the litigation pending in the 141st Judicial District Court, her pending litigation against the Amicus (Kelly Decker) from the family law case, and her two JP court cases against Weinstein (she has two pending, at the present time)

The above chronology of events – much of which occurred before December 21, 2025 (the date of Dr. Huang’s correspondence), and all of which occurred after the December 4, 2025 hearing (the alleged triggering event for flare up – and pursuant to which Dr. Huang asserts various opinions and makes recommendations on Copeland’s behalf) – begs the question: when did this alleged flare up occur and where are the actual contemporaneous medical records which support this occurred- and for which Copeland was provided any type of treatment? Copeland immediately started corresponding by emails, pleadings and proposed Orders, on December 4, 2025 in the 141st Judicial District case, continued this in that case from December 4 forward. Copeland participated in a trial in JP court, Precinct #3 (opting to proceed, alone, without her attorney, John Douglas participating in the trial). Copeland went to Weinstein’s property and improperly/unlawfully

entered the apartment (to procure “evidence”) – which required significant physical and cognitive activity and function. Copeland then filed numerous pleadings thereafter in the JP Court, Precinct #3 repair and remedy case. Copeland, thereafter, filed numerous pleadings on her own behalf in federal court (December 16 through December 19). All of this – is wholly inconsistent with any alleged “flare up” from participation in the hearing she scheduled as an in person hearing on December 4, 2025.

Therefore, Dr. Huang’s reference to a “flare up” and her attempt to provide a causal connection to the December 4, 2025 hearing (in the 141st Judicial District Court case) is completely and wholly without foundation, factual support and without merit. Dr. Huang’s opinions in that regard are most obviously based *only* on what Copeland has told her (all the while Copeland fully engaged in the litigation process- in at least four different cases). While Dr. Huang likely does not know any of this- her lack of knowledge should not now be used to cloak her correspondence in any semblance of reliability.

OBJECTIONS TO COMMENTS AND RECOMMENDATIONS MADE REGARDING PERSONAL PROPERTY ITEMS

- Weinstein objects that the information contained in Dr. Huang’s correspondence as related to the status of Copeland’s personal property items (medical or otherwise) as the information is not either fully accurate and/or is misleading as follows:
 - Copeland knew, with certainty by September 19, 2025, remediation would be starting on September 22, 2025 (this was the third attempt to move forward with remediation – after Copeland has acted in a manner to stall, delay and/or prohibit the remediation); she was living at the apartment from September 11/12 through approximately September 19- and had full access to any piece of personal property- medical or otherwise; on September 19 - she received correspondence from the undersigned counsel alerting her that remediation was again scheduled to begin on the September 22 date – and on September 19, Copeland called the undersigned attorney; the remediation schedule was again discussed – with September 22 being the date identified that it would proceed; Copeland could have taken anything she needed or wanted from the apartment at that point, therefore, whatever

items she failed to take- are items she volitionally left (which calls into question what amount of necessity attaches to any particular item).

The below is an excerpt from the September 19, 2025 phone conversation – which Copeland secretly recorded – and has produced a “transcript” of (while note wholly accurate, the following excerpt is correct):

00:06:00 Glynis Zavarelli

And I guess you're still at the apartment.

00:06:02 Kathryn Copeland

Yeah.

00:06:06 Glynis Zavarelli

Okay.

00:06:08 Kathryn Copeland

I know you had said that work was going to start on the 22nd, but that's why I was confused and sent the e-mail to TDLR because I thought you had to have the protocol on file at least five business days in advance and I hadn't seen it, so.

00:06:23 Glynis Zavarelli

Well, like I said, I mean, I'm obviously not the most people doing this work. I'm not a TDLR licensed person, but it's my understanding they've complied with all the deadlines that are required to be able to start on the 22nd and that's what we would like to be able to have happen so that we can get you back into that apartment as soon as possible.

The above exchange makes clear – Copeland had full understanding and appreciation for the upcoming remediation schedule – and as such, was aware that any particular items which she would need or want (for any reason) should have been removed by her.

- Unbeknownst to Weinstein, when Copeland returned to live at the apartment from September 11/12 through the September 19 date against Weinstein directive- Copeland turned on the HVAC (which had been sealed and turned off by the prior remediation company) which led to the HVAC unit freezing, thawing and caused a leak. As such, when this was discovered by Weinstein and the mold remediation vendor, on September 22, 2025 (when the vendor arrived to start the scheduled remediation), mold remediation had to be again postponed so that water remediation could

occur, first. The pack up and removal for personal property had been recommended by the mold assessment company (Dallas Mold), in part to provide access to all areas requiring mold remediation, but the water intrusion (leak) caused by Copeland – has also required repair of substantial portions of flooring and other areas of the apartment, which required further accessibility.

- Copeland did not inform Weinstein (or Weinstein's counsel) of what she had done with respect to the HVAC unit – and as such, this delayed discovery of same, until September 22nd; when Copeland returned to the apartment on September 26 (which was contrary to the mold remediation protocol process and Copeland had been made aware that once remediation starts, apartment access would not be permitted)- Copeland took numerous photographs of items which remained in the apartment (not packed and moved off site) and because she entered and began an exchange with the Dedicated Mold remediation personnel – remediation efforts stopped that day (and did not resume until October 6)- with Copeland having full access to everything that remained in her apartment; she could have then taken anything else out of the apartment that she thought she wanted/needed on September 26 and thereafter, until October 2, 2025 (when she was court ordered to refrain from entry) – but assumedly failed to do so;
- Copeland was told on September 27, 2025- that whatever items were packed and taken off site could be returned to her – and she did not then request return of any items taken to be stored off site – and presumedly did not return to obtain any items remaining in the apartment, in response to that communication;
- Copeland was told on October 3, 2025, the items taken off site could be returned or cleaned and returned (while she had originally said she wanted items cleaned, she then claimed such would be spoliation and would not authorize cleaning – and was thereafter, repeatedly assured that no cleaning would take place until she authorized same – to date: she has not authorized cleaning); Copeland did not respond to this;
- Per the October 2 hearing on Weinstein's TRO (noting Copeland cancelled her hearing on her requested injunctive relief; however, the Court contacted her by phone – and she was able to express her positions and indicate she wanted items returned, as such, Weinstein was ordered to return all remaining items in the apartment to Copeland within 3 days and with respect to the items being stored off site (by Reign Restorations) - to return (if able to do so) any identified medical necessity items or sentimental items – once identified by Copeland (as Copeland did not articulate or identify any particular item she needed, during the hearing); on October 3, 2025 Weinstein sent correspondence to Copeland and asked for the list of medical necessity items and/or sentimental items; Weinstein received no response;

- On October 3 through October 5 Weinstein emailed with Copeland about the various items which remained in her apartment -asking her if she wanted them moved to the hotel she was staying in (but noting that the items were extensive and likely the hotel room would not be comfortable for the relocation of these items), asking her if there was another location she would prefer they be moved – and ultimately indicating (when no response was received from Copeland) that Weinstein would provide a storage room at the apartment complex – at no charge of her- through the pendency of her lease (until October 26, 2025) to store the items from her apartment; Copeland was given a key for that storage room; Copeland was also told that several boxes of medications and a humidifier were located at the door of the storage room for easy access (it is unknown if she ever went to obtain those boxes or any other item being stored there currently -but which she has had ample access to retrieve/obtain);
- On October 6 through October 14, 2025- at the undersigned counsel's initiation, Copeland and the undersigned counsel emailed regarding the items packed off site – asking Copeland to identify the medical necessity and sentimental items she wished to have removed form off site and returned to her; Copeland stopped corresponding on this on October 14, 2025;

See attached as **Exhibit “D”** correspondence and emails sent between October 3 and October 14, 2025.

- On November 21, 2025 – the undersigned sent correspondence to Copeland regarding the items in the store rooms on site (the original store room she acquired when she signed her lease, as well as the storage room being used to store the items which were removed on October 5- at the Court's direction) and followed up again on this, on December 1 and heard nothing back from either correspondence. See attached as **Exhibit “E”** the November 21 and December 1, 2025 correspondence.
- On December 4, 2025, the undersigned counsel and Copeland emailed about the status of her personal property items which were being stored off site - offering to clean, to return or to do both – at no expense to her, and inquiring about the items in the storage rooms on site and balcony items- and the undersigned counsel did not hear back from Copeland. See attached **Exhibit “F”**.

Given the above chronology of events – it is clear that Dr. Huang's impressions (obtained form Copeland) corresponding recommendations/opinions are reliant upon faulty, inaccurate and/or incomplete information – and as such, any opinions provided by Dr. Huang in relation to

personal property, medical items/equipment, medical supplies – the status of such, how items should be handled from this point forward and/or any adverse effect on Copeland as related to personal property complaints/circumstances- is wholly baseless.

- Weinstein further objects that Dr. Huang fails to identify any particular medical property item “supply” at issue (not identifying any particular “critical medical equipment” or “supplies”)– and instead makes global and/or generalized assertions as to the alleged removal of same and the need for replacement;
- Weinstein further objects to Dr. Huang’s speculative conclusion that all property (ie “contaminated belongings”) need to be replaced; she cannot possibly know this from a “contamination” perspective: she has no personal knowledge, she has not seen the items, she fails to even identify the items (by name), she does not know the materials upon which each item is constructed (and thus, what, if any, cleaning is necessary and/or how this can be efficiently accomplished if necessary); has no expressed or implied familiarity with mold exposure as related to anything (to include personal property items), she has no expertise in any necessary and related area to proffer such opinions, and further, she has no demonstrated expertise as related to medical causation without respect to any particular alleged type of mold/spore and the impact on any particular condition allegedly attributed to Copeland.

**OBJECTIONS TO DR. HUANG’S COMMENTS ANDN/OR OPINIONS AS
RELATED TO COPELAND’S MEDICAL CONDITIONS
AND EFFECT ON ACTIVITIES**

- Weinstein objects to the characterization and assertions by Dr. Huang of the manner in which any particular condition impacts Copeland as again, this appears to be based on speculation and is wholly inconsistent with what Copeland has shown herself able to do and as such, these opinions by Dr. Huang are neither credible nor reliable.

By way of example – as to Copeland’s physical and/or mental/cognitive abilities, Weinstein provide the following (and this list is not exhaustive):

- **With respect to cognitive processing, writing, reading, and/or speaking, in the case pending in the 141st Judicial District court alone, Copeland has been able to draft lengthy email communications, draft extensive pleadings (she has filed 47 separate pleadings/motions), inclusive of preparation of exhibits she contends constitutes evidence of various claims/defenses, cite various**

provisions of common and/or statutory law, communicate with Court staff, appear in person at hearings (October 27 and December 4), and draft multiple sets of discovery directed to Weinstein; in the JP Court Precinct #3 repair and remedy case, she has filed several pleadings “pro se” – to include starting out that litigation in an attempt to file the entire lawsuit as a pro se Plaintiff (which resulted in dismissal without prejudice once the Court was advised of the Order declaring her as a vexatious litigant);

- Caring for oneself (and others): Copeland explicitly represents to the family law Court as to her “psychological readiness” and states, that she has the “capability to follow the rules and protocols outlined in the Court’s guidelines.” This is in relation to her attempt to modify the decision made by the family law court – in relation to the family law court’s Orders pertaining to custody matters and prohibiting Copeland visits with her children, absent supervision;
- Copeland further submits in support of her request to the family law court, a letter purportedly written by Earl Johnson, PhD. In Dr. Johnson’s report, he states that “Her understanding of her responsibilities toward her children and toward the rules of the court pertaining to her responsibilities toward court orders suggest that she has no impediments to providing adequate parental care. Her psychological status is compatible with having more independent visitation... She has been an excellent client and exercises thoughtfulness, insight, and strong effort to improve her mental and emotional condition. That letter was written in December 2024; however, it would seem that if there had been any significant change in her physical, emotional, psychological and/or cognitive abilities since that time, a healthcare provider would have stepped in to make this known; as such, if Copeland had experience unpredictable and debilitating “flare ups” – this would be a matter that the family law court would want to be informed about – and/or if a “flare up” can be caused by stressors, it would seem that parenting two young pre adolescent/adolescent girls would present an environment destined to result in debilitating fatigue, exhaustion, etc – and would, therefore, be something to be avoided; instead, Copeland has continued to take issue with the restrictions placed on her by the family law court and its Orders, taking the position she should not be restricted from her children, as currently ordered;
- Therefore, the representations made explicitly by Copeland and by Dr. Johnson on her behalf, contain the implied representations – that as a safe parent able to appropriately care for children without supervision, that she is capable of performing the duties of a parent, inclusive of education, guidance, and decision-making.
- Representing/Advocating for herself: On or about August 14, 2025, Copeland presented a prepared presentation to the Mayor’s Committee on Human Rights for Disabled People (one of many such presentations she has made), complaining of Weinstein and complaining of the Fort Worth Police Department. While Weinstein challenges the validity and/or veracity of statements made during this presentation,

Weinstein notes that in addition to drafting long pleadings and discovery and compiling documents she contends are “evidence”, Copeland was and is able to physically appear and present a verbal presentation to the Committee. Similarly – Copeland was able, in the process of this presentation, to prepare the presentation, walk, talk, read, and speak, all without any discernible difficulty.

- Copeland has made in person appearances in the 141st Judicial District Court on October 27 and December 4, and offered to appear in person on October 16, 2025.
- Copeland is able to use various aspects of technology, including ChatGPT, social media, dating applications, word processing software, document manipulation software, such as a PDF application, and conduct covert audio and video recordings of others (such as Weinstein staff and counsel) without their knowledge (which also demonstrates executive planning abilities).
- Copeland has engaged in numerous and repeated governmental agency complaints against Weinstein, to include: to TDLR, the Department of Justice, HUD, the Texas Workforce Commission, the Fort Worth Police Department, and the City of Fort Worth (various agencies, to include Code Compliance);
- On December 8, 2025 – Copeland’s attorney, John Douglas -in the lawsuit Copeland has filed against the amicus (Kelly Decker) from the child custody case – filed a Response to Decker’s Motion to Show Authority (such Motion related to John Douglas’ representation of Copeland and what appears to have been Copeland writing, signing and filing matters under his name, requesting Douglas to therefore, show authority as to his representation of Copeland); Mr. Douglas responded to that Motion by stating that Copeland had:

--Engaged in drafting pleadings, organizing exhibits, and/or drafting discovery;

--the “ability to assist counsel” in “legitimate attorney-client collaboration”;

--researched the legal issues extensively.

As such, Douglas takes the position that Copeland is well able to assist in that piece of litigation and that he is, in fact, dependent upon her analysis, her research, and her drafting skills.

- Copeland has engaged in extensive hotel rate negotiations at various hotels (for which Weinstein paid);
- Copeland purportedly engaged in lease communications for a rental property that she was interested in procuring in early December (based upon pleadings she filed in the 141st Judicial District Court case);

- With respect to Copeland's mental condition generally, Copeland has not been declared to be non compes mentis, has not sought or been appointed a representative of her person, has not sought or been appointed a representative of her estate, has filed multiple ongoing lawsuits in civil court, family court, justice court, and in federal court which reflect that she is able to participate fully in the litigation process.

Therefore, it is unclear upon what Dr. Huang has based her assertions as to Copeland's conditions and the effect of same -however, the manner in which Copeland has conducted herself- in her life, in representations made to various courts and in pursuing multiple pieces of litigation – is absolutely not consistent with what Dr. Huang has espoused and as such, the December 21, 2025 correspondence is not reliable, nor can it be used to support any claimed need for any type of “accommodation”.

OBJECTIONS TO DR. HUANG'S SUGGESTED ACCOMODATIONS

- Weinstein objects that the “accommodations” suggested by Dr. Huang are without factual support – and are conclusory in relation to opining that these are necessary for Copeland to “participate in legal proceedings”. This, again, is based on nothing but what Copeland has apparently said to Dr. Huang. In other words, Copeland's biased, self serving statements – to attempt to obtain relief to which she is not entitled.
- Weinstein objects that Dr. Huang's references to potential “continue to deteriorate” is speculative and without foundation.
- Weinstein objects to Dr. Huang's statement as to “prevent her from recovering” – as this is vague and is without explanation or foundation (recover from what?); further it is without foundation as related to how any particular “immediate accommodation” would have this impact (and/or which “accommodation” of the numerous ones sought by Copeland would have this impact/effect- and how/why). This again, appears to be a self serving statement made by Copeland and presumed by Dr. Huang – but without factual or medical support.
- Weinstein objects to each “accommodation” set out by Dr. Huang (on page 2 of the correspondence) as none are based in fact, all are speculative and Copeland's own actions belie the need for any such accommodation.
- Weinstein objects that the accommodation suggested as to “essential items”, replacement of belongings and housing are not only without factual foundation, do not provide a listing of medical items, is based on events that did not occur and/or which have not occurred, and significantly – are without merit:

If Dr. Huang actually believed that Copeland needed any particular medical equipment, medical item, or medication – she could have (and should have) written an order and/or a prescription for these (she has had since September 22, 2025 to provide this care to her patient – and/or to work with the social worker at UTSW – to obtain assistance and resources for Copeland in this regard.

If Copeland actually “needed” any of this – Dr. Huang should have proceeded to procure this and/or explore services through which Copeland could be given this assistance, either with her own personal, medical involvement (ie prescriptions and orders, working with Medicaid to obtain replacement items, or obtain approval for other necessary items, and/or medications) or through use of the UTSW social work services department. See attached as **Exhibit “G”** on line website information as to this hospital’s available social work service support/assistance.

Similarly – as related to “housing”, Copeland’s lease expired on October 26, 2025 and prior to that time, she was living intermittently in hotels paid for by Weinstein (from July 14, 2025 forward) while occasionally returning to her apartment which she alleged was unhealthy for her – and at times, returning to live there for days at a time; at any point, Dr. Huang could have (and should have) worked with Copeland to provide her resource information for housing assistance – if this was something that Dr. Huang believed to be medically necessary; the DFW metroplex has multiple agencies to assist with this, and again UTSW has its own social work services department to provide resource information.

The December 21, 2025 correspondence does not speak, in any manner, to what Dr. Huang has done for Copeland, to assist in obtaining replacement devices, equipment, items or medications and/or to assist with services to locate housing options (for a person who is unemployed, apparently is not inclined to seek employment, and has proclaimed she has no income (though note: she has continued her Amazon shopping – as the documents she submitted on December 29, 2025 make clear)). This again, calls into question – the necessity of medical items, medical equipment and/or housing, at this point and makes clear that the correspondence and opinions offered therein, are simply unreliable.

- Weinstein objects that Dr. Huang’s recommendations as to litigation related “accommodations” are without factual and/or credible foundation. Dr. Huang has clearly not been apprised of the aggressive and relentless approach Copeland has engaged in as related to any and all litigation matters involving Weinstein (filing over 50 pleadings/motions in approximately 3 months – in the District court and JP court repair and remedy case, submitting lengthy and involved exhibits and Orders, declaring “emergency” or “emergent” as to routine matters, in order to avail herself of the Court’s “immediate” attention – while depriving Weinstein of the ability to respond in a manner which does not serve to adversely affect Weinstein and/or counsel for Weinstein (Copeland has attempted repeatedly to obtain rulings on contested matters, during designated medical leave and/or vacation times, for opposing counsel). To suggest that Copeland requires – or is entitled to - any special/preferential treatment – when viewing her history of litigation conduct – to include what appears to be concerted strategizing and efforts to file Motions

and obtain rulings when she knows lead counsel is not available – is simply without factual and/or legal foundation or support.

Weinstein's objections are timely, specific and thorough; Copeland's proffered correspondence from Dr. Huang should not be considered for any purpose; however, if the Court is inclined to consider the correspondence for any purpose, Weinstein requests: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

III.

WEINSTEIN'S MOTION TO STRIKE DR. HUANG'S CORRESPONDENCE

Weinstein, hereby, move to strike Dr. Huang's December 21, 2025 correspondence, for this Court's consideration, in relation to any filings made by Copeland for the following reasons:

As the *Background* section herein makes clear, Dr. Huang either lacks personal knowledge and/or is not qualified to provide any particular opinion and/or recommendation as to the existence of and/or replacement of personal property items, as to the existence and/or extent of any particular mold element in the apartment that Copeland was leasing (lease ended on October 26, 2025), as to any particular causative factor in relation to mold and/or any alleged health ailment Copeland asserts that she experiences, and/or as to any matter/issue that falls outside of her medical expertise (which is limited to physical and rehabilitation medicine). Further, Dr. Huang appears to have relied upon nothing but Copeland's own statements and assertions (which in and of themselves are neither necessarily reliable and/or accurate) and as such, any opinions and/or recommendations

she makes lack appropriate foundation. As such, pursuant to Tex. R. Evid 702 and 703, Dr. Huang's correspondence should be struck, in its entirety.

Additionally, as the *Background* section makes clear: Dr. Huang was never identified by Copeland in Disclosures, and Copeland has failed to produce any of Dr. Huang's records- through either disclosures or in response to Request for Production. When Weinstein attempted to obtain the records by subpoena and Deposition on Written Questions, Copeland asserted that she had timely filed a Motion to Quash these records. Though the Motion to Quash was not actually effective as to Dr. Huang's records (ie it did not even mention Dr. Huang), Weinstein graciously agreed to notify its records service and request no attempt be made to obtain the records until a hearing could be held. Copeland, however, did not initially request a hearing on the Motion to Quash; Weinstein set the Motion for hearing. Thereafter, though the Court did not particularly grant the Motion as to all ordered records, it did set out an involved process by which to obtain the records, which starts with a review by Copeland (only). As of the drafting of these Objections, no records have yet been obtained by Weinstein.

Copeland's attempt to now benefit from the correspondence allegedly written by Dr. Huang (though wholly objectionable on various grounds, as noted herein in the *Objections* section) is in violation of Texas Rules of Civil Procedure 193, 194 and 215 (though Weinstein recognizes the discovery at issue, and pursuant to which Copeland did not produce information or records regarding Dr. Huang – is not discovery served in this case). As such, Weinstein moves to strike the correspondence in its entirety.

Weinstein further moves to strike this correspondence as it wholly inadmissible for any purpose: it is not properly authenticated, it is wholly based upon hearsay (ie Copeland's report of

events and/or Copeland's version of events – a biased and unreliable witness), it is conclusory, it provides opinions that are based on nothing objective and instead, are only based in conjecture and speculation, it lacks proper foundation, and on the face of the correspondence, appears to contain redactions – which calls into question the veracity of any of the information provided. Weinstein, therefore, incorporates all Objections lodged herein.

IV.

CONCLUSION

Copeland's use of correspondence allegedly/purportedly drafted by Dr. Huang – in support of any matter, to include her alleged "disabilities", is improper.

Copeland did not ever identify Dr. Huang as a person with knowledge of relevant facts, did not produce Dr. Huang's records, did not identify any of the healthcare providers treating the various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not produce any of the records relevant to the various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not permit Weinstein to obtain Dr. Huang's records and has failed to provide dates for Dr. Huang's deposition.

Further, the correspondence is not credible or reliable – and is objectionable on all the grounds asserted herein. Therefore, the correspondence should be struck from any Court's consideration and should be disregarded in its totality; alternatively, before any particular court determination is made, upon which Copeland uses the Dr. Huang December 21, 2025 correspondence to support, justify or bolster, Weinstein requests that the Court order the following:

- 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang - without going through the process identified on the December 5, 2025 Order (pertaining to the

Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

WHEREFORE, PREMISES CONSIDERED, Weinstein pray that the Honorable Court sustain Weinstein's Objections to Dr. Huang's Correspondence and grant Weinstein's Motion to Strike, and disregard it in its entirety, and for such other and further relief, at law or in equity, both general and specific, to which Defendant Weinstein may be justly entitled

Respectfully submitted,

NO. 141-370402-25

WEINSTEIN MANAGEMENT CO.,	§	IN THE DISTRICT COURT OF
INC. AND WMCI DALLAS X, LLC,	§	
Plaintiffs,	§	
	§	
v.	§	TARRANT COUNTY, TEXAS
	§	
KATHRYN COPELAND,	§	
Defendant.	§	141ST JUDICIAL DISTRICT

Defendant / Counter-Plaintiff Kathryn Copeland's Initial Disclosures

1. Correct Names of the Parties

- **Plaintiffs:**
Weinstein Management Co., Inc.
WMCI Dallas X, LLC
c/o Glynis Zavarelli, Wentz & Zavarelli, LLP
3120 Sabre Drive, Suite 170
Southlake, Texas 76092
(469) 665-9100
- **Defendant / Counter-Plaintiff:**
Kathryn Copeland
405 Crawford Street, Apt. 2145
Fort Worth, Texas 76104
(817) 789-8498 | K.M.Copeland@tcu.edu

2. Potential Parties

None known at this time other than those named. Defendant reserves the right to add responsible third parties or additional entities discovered through ongoing investigation, including vendors or insurers involved in the removal or disposal of Defendant's property.

3. Legal Theories and Factual Bases

Defendant generally denies all allegations in Plaintiffs' pleadings and asserts the following affirmative defenses and counterclaims (*see Defendant's Answer, filed Sept. 22, 2025*):

- **Defenses:**

1. **Lack of capacity/authority to sue and real party in interest** (Weinstein Mgmt. Co. lacks ownership standing).
2. **Failure to state a claim;** injunctive relief improper for lack of irreparable harm or inadequate remedy at law.
3. **Prior breach and failure of conditions precedent** under Tex. Prop. Code §§ 92.052 & 92.056.
4. **Failure to accommodate and retaliation** under the **Fair Housing Act** (42 U.S.C. § 3604(f)(3)(B)) and the **ADA**, including refusal to provide comparable, disability-safe housing.
5. **Constructive eviction / breach of implied warranty of habitability.**
6. **Unclean hands, waiver, estoppel, and failure to mitigate.**

- **Counterclaims:**

1. **Fraudulent Inducement / Negligent Misrepresentation** – leasing an uninhabitable unit while concealing prior water damage and mold.
2. **Breach of Implied Warranty of Habitability.**
3. **Constructive Eviction.**
4. **Violation of Texas Property Code §§ 92.052, 92.056, and 92.331 (Retaliation).**
5. **Violation of the Fair Housing Act / ADA (Failure to Accommodate, Retaliation).**
6. **Negligence / Gross Negligence** in unsafe maintenance and unlicensed remediation.
7. **Texas Deceptive Trade Practices Act (DTPA)** – misrepresentation of safety, habitability, and remediation.
8. **Conversion and Trespass to Chattels** – unlawful removal and withholding of Defendant's personal property.
9. **Declaratory and Injunctive Relief** – requiring compliance with FHA, ADA, and Texas Property Code.

4. Computation of Damages

Category	Computation / Basis	Supporting Authority
Actual Damages	Exceeds \$50,000 – property loss, medical costs, relocation/hotel expenses, and loss of use.	Tex. Prop. Code §92.056(f)
Statutory Penalties	\$188,288 + continuing daily penalties for violations of Tex. Prop. Code § 92.331.	Tex. Prop. Code §92.331(b)
Treble Damages	For knowing DTPA violations.	Tex. Bus. & Com. Code §17.50(b)(1)
Punitive/Exemplary	For intentional discrimination, retaliation, and malice/gross negligence.	FHA § 3613(c)(1); Tex. Civ. Prac. & Rem. Code §41.003
Attorneys' Fees & Costs	Reasonable fees under fee-shifting statutes.	FHA, DTPA, Prop. Code §92.056(g)

5. Persons with Knowledge of Relevant Facts

J.C. (Last Name Unknown)	Maintenance worker at The Bowery at Southside Apartments	c/o Wentz & Zavarelli, LLP
Any custodian of record		
Any designated expert for the other parties		

6. Documents, ESI, and Tangible Things

Categories in Defendant's possession or control that may be used to support her claims or defenses include:

- **BioTex Mold Assessment Report (June 18 2025)** and lab results.
- **TDLR correspondence** and emails confirming investigation and prosecution.
- **Photos and videos** documenting water damage and mold conditions.
- **Email correspondence** between Defendant and Plaintiffs' agents regarding notices, relocation requests, and remediation.
- **Medical records** reflecting illness and disability exacerbated by exposure.
- **Hotel receipts, relocation expenses, and communications with management.**
- **Affidavit of Kathryn Copeland (Sept. 29 2025)** and attached exhibits.
- **Plaintiffs' pleadings and emails (Sortor/Zavarelli Sept 27 2025)** conditioning property return on waiver of claims.

7. Indemnity and Insurance

Defendant maintains a **State Farm Renters Policy** covering theft, conversion, and additional living expenses (ALE). Claim pending; insurer has denied coverage citing ongoing possession of items by Plaintiffs. Plaintiffs and/or property owners are believed to hold general liability and landlord insurance policies covering mold remediation and tenant losses.

8. Settlement Agreements

None at this time.

9. Witness Statements

Defendant's sworn declaration attached to her **Emergency Motion and Affidavit (Sept 29 2025)** constitutes her current witness statement. Witness statement of David Quiram from June 2025. Plaintiffs' emails (e.g., Sortor Sept 27 2025) function as admissions.

10–11. Medical Records and Bills

Defendant alleges physical and mental injury from toxic exposure and subsequent actions taken by Weinstein and counsel.

Medical records and bills supporting damages are in Defendant's possession and will be produced under HIPAA authorization as required.

Conditions include: neurological impairment, visual and respiratory injury, immune dysfunction, and cognitive decline linked to mold exposure. (See treating physician documentation attached to prior filings.)

12. Responsible Third Parties

Defendant may designate responsible third parties, including:

- **BioTex Environmental LLC (assessment)**
- **ServPro / remediation vendors** hired by Plaintiffs
- **State Farm Mutual Insurance Co.** (coverage denial)
- **Weinstein Properties corporate affiliates** responsible for policy decisions.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025

Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025

Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025

Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re-arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025

Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand - attempt to elicit verbal communication over the phone - with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items -and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above)).

December 1, 2025

Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025

Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025

Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence: You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025
Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Alfred Johnson;
- Dr. Nilesh Nangrani
- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In follow up to our hearing yesterday and related matters, I provide the following:

First, see attached – a portion of the Mold Protocol, which references Containment, and states “pack out contents for cleaning”. Please note – no lab testing was performed as to the personal property items. Those items, as you know, were packed and moved to a storage facility, by Reign Restorations. Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you).

Next- please note – all personal property items which were packed and placed in the Reign Restoration storage facility can be returned to you. Therefore, if you would like all stored items moved, please advise and Weinstein will incur the cost of the move. Weinstein will also incur the reasonable cost/expense for a different storage facility (storage unit) to keep the items – through your lease period (October 26, 2025). If you elect to have the items moved to a different storage unit facility, you will need to provide the costs/expenses associated with same (for Weinstein's review, consideration and/or approval [and if that cost/expense is not approved, the items can be moved there, with you bearing the storage fees/expenses associated with same]) and the name of the storage facility (note: “storage facility” and/or “storage unit” and/or “storage unit facility” does not include a rental house or other apartment paid for at Weinstein's expense; this terms refers to a typical storage unit facility – as that term is ordinarily understood). If you locate alternative housing – in light of the upcoming expiration of your lease, at your request, Weinstein will have the items arranged to be moved to that housing (with no agreement by Weinstein to pay any future costs/fees associated with same, other than the cost of the move itself). Until I hear further from you on this decision, the items will remain where they are currently located (as you are aware, they cannot be returned to the apartment – given the potential for cross contamination and impact on the ability to move forward with the remediation of the apartment). Please note – that if you choose

October 3, 2025

Page 2

to have these items removed from the Reign facility, before they are cleaned, and placed in a new environment, Weinstein assumes no responsibility or liability for any future contamination/cross contamination of that new environment (personal or real property) and/or any alleged adverse consequences to your health. This is not asking you to waive any particular claim (you remain able to assert any particular allegation/claim), this is simply to make you aware of what Weinstein's position will be as to these matters.

Next- please identify a time and location that you would like the current remaining contents of your apartment delivered to you on Saturday. We appreciate that the Court has ordered the return within 3 days – and as such, it is important that you cooperate and provide the time and location (it is assumed you would like the items delivered to your hotel, The Worthington, however the Order does not specify this as the location for delivery). If the Worthington is selected as the return location, Weinstein will not leave the items unattended (in the lobby or elsewhere) and will be needing to make sure you receive the items (therefore, Weinstein also will not leave the items with hotel staff- the Order states the items are to be returned to "Defendant"). Your prompt response to this today, by end of day, is necessary so that the deadline identified in the Court's order can be met by Weinstein.

Additionally, on a related matter, please provide the list of sentimental and/or medical items that you believe were packed up (and are currently being stored by Reign Restoration). Once I have the list, Weinstein will provide to Reign, and Reign's staff will unpack your items, search for what is identified (therefore you will need to be specific in the name of each item and identifying information for each item) and if located, return to Weinstein, and those items will then be returned to you, at the location of your choice (note: this unpack and search process that Reign will be going through – will be at no cost to you; Weinstein will incur that expense). To the extent certain items are not located (if that occurs), Weinstein will be requesting, at the appropriate time, your documentation (written or photographic) as to the prior existence of each item which was not located, and to the extent you seek reimbursement from Weinstein for any such item, Weinstein will also request (at the appropriate time) receipts, invoices and/or other related documents and/or will value the property loss as identified by applicable Texas law.

Note: all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

Licensed Mold Remediation Contractor - TDLR # MRC1602, Exp. 04/02/2027

Section 3.0 Containments and PPE

Section 3.1 Containment

Pack-out contents for cleaning. Build a single-stage containment around the affected walls in the bedroom, living room, mechanical closet, and hallway. Establish negative pressure using air scrubbers with CLEAN HEPA-rated filters. **Vent outside through a window to remove organic vapors.**

Place air scrubbers outside the containment to clean up contamination from scattered mold spores.

Maintain 4 air changes per hour.

Utilize dehumidifiers to maintain humidity between 30-50% Rh.

Seal HVAC supply vents and/or return air vents in remediation area(s)

Signs advising that a mold remediation project is in progress shall be displayed at all accessible entrances to remediation areas. The signs shall be at least eight 8 inches by ten 10 inches in size and shall bear the words "NOTICE: Mold Remediation Project In Progress" in black on a yellow background. The text of the signs must be legible from a distance of ten 10 feet.

Section 3.2 Personal Protective Equipment (PPE)

Minimum PPE

FULL PPE REQUIRED

Gloves

Disposable Full Body Clothing

Head Gear

Foot Coverings

Full-Face Respirator with HEPA Filter

The remediation contractor shall insure that OSHA appropriate personal protective equipment (PPE) is worn while remediating all containment areas.

Use professional judgment, consider potential for remediator exposure and size of contaminated area. Contractor assumes all responsibility for PPE compliance.

The EPA Guidelines for Remediation of Building Materials with Mold Growth by Clean Water requirements for PPE should be followed. The complete table is included at the end of this document in U.S. EPA Cleaning Methods, Table 2.

Note: Professional judgment should always play a part in PPE decisions. The EPA guidelines are based on the total surface area contaminated and the potential for remediator and/or occupant exposure, not on the basis of health effects or research showing there is a specific method appropriate at a certain number of square feet. The guidelines have been designed to help construct a remediation plan. The remediation contractor will then use professional judgment and experience to adapt the guidelines to particular situations.

October 6, 2025

Via Email and E Serve
Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In response to your late night email of yesterday, I provide the following:

First- my October 3 correspondence did not say that you had rejected the cleaning/remediation of the personal property items, it specifically said:

“.... Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you).”.

Next- in response to your inquiry and request for confirmation that the items removed by Reign have not been cleaned, or treated- as I said in the October 3, 2025 correspondence- they have not been. I have confirmed that with Reign. With respect to whether items were disposed of – I have been informed that the only items that were disposed of were the contents/items in the refrigerator. The refrigerator was cleared out before it was removed to Reign's storage facility. Reign has indicated that it did not see/recognize any type of medication in the refrigerator or freezer when clearing out the contents. With respect to the medications you assert were being stored in the refrigerator or freezer, please provide the specific name of each, the prescribing physician/healthcare provider, and the cost associated with same (and proof of payment).

Next- please refer to my October 3 correspondence regarding the personal property items which were packed and placed in the Reign Restoration storage facility and the ability to return same to you.

Next, as the emails I sent on Friday, on Saturday and on Sunday made clear, the items that were remaining in your apartment and which the Court ordered be removed and returned to you – were too many/extensive to send to your hotel and/or comfortably move into your hotel room (and as you know, you never provided a date/time for even the boxes of medications and the humidifier to be returned to you personally). Therefore, all of these boxes and items (to include

October 3, 2025
Page 2

the three flat screen televisions were moved into the storage unit at the apartment complex (which both I and the management staff emailed to you about on Sunday, providing the number of the unit, the location in Building 2 and instructing as to access of the key for this storage unit). With that said – these boxes and items can also be moved to Reign Restoration for storage, and cleaning (at the appropriate time) and, therefore, if you would like these boxes and other items moved there – please advise and Weinstein will incur the costs associated with the move and the costs associated with cleaning those items, at the appropriate time. **Again, none of your property will be cleaned or treated at this time.**

With respect to the “list” of various items, you sent on last night’s, late night email – please note that the list of the items which you consider to be medical and/or sentimental needs to be completed and provided to me, before Reign is instructed to unpack, sort through and locate your identified items (the Court did not order anything regarding “items needed soon” and/or or “personal items” – the order was confined to medical and sentimental) so that this can be efficiently accomplished. Additionally, while I appreciate your attempt to identify items by “page numbers” from filings my office made last week – please confirm that “filing” that you are using as a reference by which to identify page numbers – is the Plaintiffs’ Response to Defendant’s Emergency Application (it appears to me that it is this particular filing); please note – in reviewing that document and trying to locate certain items – some are not readily identifiable in the photographs, therefore, please circle the items and send me those pages – so that Reign has a clear understanding of what to locate and return. While I do not believe a bedside table is considered “medical assistive equipment” – I am not opposed to requesting this to be located by Reign, however, I am opposed to the list (once completed) far exceeding medical and/or sentimental items. The sooner you can provide the complete list, the sooner Reign can unpack, locate and make arrangements to return those located items to Weinstein (and then to you, assumedly at the hotel where you are currently staying – which will require a confirmed date/time that you can meet Weinstein staff in your hotel lobby to personally receive the items, and this will need to be scheduled prior to the day of the delivery – so as to have some clarity as to the logistics necessary to accomplish this task and the ability to organize and schedule personnel for the completion of delivery, accordingly).

Note: as before – all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

Subject: Re: Weinstein v. Copeland

Ms Copeland-

The apartment contents are fairly extensive (as you know the court directed that every drawer and cabinet be checked- and many items were found in sealed cabinets or drawers), and there were some already boxed items located in the living room as well as several large trash bags- labeled with red tape. Additionally, there are also three large flat screen televisions (these are being packed in television boxes) and mounts, dishes, food items, and small kitchen appliances. There were also several boxes of items in the entry way closet- that look like maybe something you had packed and perhaps moved there, at some time.

All medications and/or what appear to be potential medical items (pulse ox, portable BP cuff, bandages, humidifier) - are being boxed with appropriate identifiers ("medications").

It appears that there will be more than 20 boxes. A picture will be taken of all boxes, bags and items.

I am uncertain as to how all the boxes, items and television sets will fit into your hotel room - and or do so comfortably for you. Therefore, we have secured a large storage unit here at the apartment complex to store all items in - should you choose for them to be moved there. This storage unit will be at no cost to you, and we can deliver all boxes labeled "medications" and the humidifier, to the hotel- once you tell us what time to do so; we can do this, this afternoon by 4 :30 or 5:00 pm . We have also located a couple of photos of your children and what looks like perhaps a craft that was made by them (I'm not sure) - but we can deliver those items as well (this afternoon) and with your direction move the remaining boxes, televisions and other items to the on site storage unit. You can access these items freely whenever you choose. Weinstein is also trying to get the key made for this storage unit right now - and if made by 4:30 or 5 pm can be delivered to you today at the hotel, as well.

Please respond and indicate whether you want everything brought to the hotel (and if so- what time - today or tomorrow) or would like to pursue the above identified plan regarding use of a storage unit and delivering certain boxes or items to the hotel.

Thanks-
Glynis Zavarelli

Ms Copeland-

I did not hear from you.

Staff have been released.

All boxes and items that were in your apartment have been moved to storage unit S18, 4th floor of building 2 (your building) - next to Apartment 2431. This storage unit is being provided to you at no charge, for the duration of your lease term. You will need to arrange for these items to be moved out of the storage unit on or before the day your lease expires.

Email to follow from apartment management providing you the PIN code for the lockbox that contains the storage unit key. The lockbox will be affixed to the leasing office exterior door handle.

Note- the boxes containing medication and or mix of medications and sentimental items, as well as the humidifier are at the entry of the storage unit stacked to the left, as you walk into the storage unit, and are clearly marked.

Thank you-

On Oct 4, 2025, at 6:01 PM, Glynis Zavarelli <gzavarelli@wandzlaw.com> wrote:

Ms Copeland-

I still have not heard from you. Therefore- here is the plan:

Staff are available between 3 and 5 tomorrow to move your items and boxes into the on site storage unit(s). Therefor- All items and boxes will be moved there - absent your confirmation that you will be personally available at the hotel to receive the several boxes of medications, the humidifier and the box of mixed items- medications and sentimental items. If you indicate you want those boxes brought to you at the hotel, that will be accomplished - if you tell me that before 4:30 tomorrow. Otherwise, again, those boxes will also be stored in the on site storage unit(s).

Please note with respect to the keys to the on site storage unit(s), a lockbox will be set up for you and will be located at the leasing office, on the exterior doors - and you will be emailed information, from Andrea Meza (management) - providing the PIN code for the lock box - and the storage unit(s) number. This will all be accomplished for you by 5:00 pm tomorrow.

The above course of action is not subject to change or modification. The staff are being called in specifically (on a Sunday) to do this work and therefore, their personal schedules/commitments are being impacted.

I look forward to hearing from you before 4:30 tomorrow regarding the medication boxes and humidifier (ie whether you want them delivered to the hotel- between 4:30 and 5:00 pm- and with the assurance you will be there during that window of time to receive; the staff will not wait at the hotel past that time). Again if you do not indicate before 4:30 pm tomorrow you want these delivered to the hotel- they will be placed in the storage unit(s).

Thank you-
Glynis Zavarelli

Ms Copeland-

You asked for all communications to be in writing—I was respecting that request. And I sent multiple emails yesterday- throughout the day. Significantly I note you have not responded to my inquiries below- so:

Please advise if you want the medication boxes and the box that has a mixture of sentimental and medication items as well as the humidifier delivered to your hotel this afternoon - with a specific time that you are available to receive the items personally- we can meet you in the lobby and you can use a luggage cart or - the boxes can brought to your room directly (and we can also bring the storage unit key to you as well)-and have the rest of the boxes, televisions, and other items moved to the storage unit on the apartment property (again there is such a large amount of boxes and other items- including the television sets- that it would likely not be comfortable for you in the room- assuming the hotel would even permit all of those items to be brought to one of its hotel rooms). Alternatively- we can have all items and boxes moved into the storage unit on site, and just bring you the key.

Please respond as to what you prefer; I need to have time to make the logistical arrangements for the delivery of boxes (and storage unit key) and, move of items with the apartment staff. If you would prefer to consider this further, and let me know tomorrow which you prefer- please let me know

that within the next hour (I have other plans today as well and have already delayed those to be able to get this taken care of). If you elect for the items I have noted (medication boxes, humidifier) to be delivered to your hotel tomorrow (along with the storage unit key)- I will need a specific time before 5 pm that you will be available personally to receive.

Thank you-

Ms Copeland-

It is misunderstanding you have not yet picked up the key for the onsite storage unit and I am unclear if you ever plan to but wanted to point something out:

Re packing up your apartment and placing in storage in the on site storage unit: I wanted to make sure you understand that the items that were removed from the sealed cabinets and drawers were exposed briefly to the air in the apartment before being placed in a box and sealed (and all other items which were there and not behind sealed doors/drawers- have also been exposed to the air in the apartment).

Again- as I indicated in my correspondence of yesterday- if you would like all the items and boxes in the storage unit moved to the Reign Restoration facility and cleaned, this can be accomplished.

Thank you-

Ms. Copeland:

I am following up on the correspondence I sent on Monday, and in particular seeking the **complete list of medical and/or sentimental items that you would like for Reign to locate**. I have also asked in Monday's correspondence for clarification/confirmation as to page references for filings that you have pointed to – by which to locate items, and for items to be circled as I cannot decipher from the photographs all items referenced. If it would be easier/more efficient – **once you send the complete list- and confirm the page number references- ie confirm from which filing these page references correlate**– I will go through the list and corresponding page number references, review the photographs and attempt to locate each item, and for those that I cannot readily identify- I will send you a list of those particular items, with the photographs attached- so that you can circle those items on the photograph and send me back the circled items (and note: if the list you sent a few days ago is now considered by you to be the complete list- please tell me that, and please confirm the citing for the page references from the filing, and I will review the items noted, the page references and photographs, and determine what cannot be identified, and then follow the procedure I have offered).

Moving forward- please respond to requests such as this – so that I can handle this efficiently; also, please email me/my office/my staff during regular business hours (as you do with Court staff), so that we do not miss your emails.

I have copied Mr. Douglas to this email given your recent reference to the small claims court case he filed on your behalf – when emailing with the Court Coordinator this afternoon, on our pending District court case.

Mr. Douglas: I have tried for almost two months to speak with you and you have never answered the phone nor do you return my calls (more recently – I called on September 19 and left you a vm, and have called several times over the last couple of days and did not leave a vm for these most recent attempts to contact you, because frankly- I am concerned about who has access to the vm). Please email me a time tomorrow, Friday or Tuesday (I will not be available on Monday) that will work for you for a phone call on various matters. Additionally, as I have requested before – please update the State Bar with current contact/employment information and provide an update as well to the small claims court- if the address and/or phone number you provided when you filed the case is no longer current (it is my understanding you may have moved from the address that you are showing on the small claims court case filing; if so – you are required to provide the court and all counsel with current contact information). As with Ms. Copeland -please refrain from emailing me/my office/my staff late at night or in the early morning hours (ie before 7:30 am)-as I do not want to miss your email.

Subject: Re: Conference

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli
Sent from I phone

On Oct 10, 2025, at 8:11 PM, Copeland, Katie <K.M.COPELAND@tcu.edu> wrote:

Dear Ms. Zavarelli,

Thank you for your message. I want to note that I have a documented **brain injury and significant vision impairments (including binocular dysfunction)** that were **caused and/or exacerbated by prolonged toxic mold exposure**. These conditions substantially affect my ability to read dense text, analyze and process information quickly, and manage multiple emails. It has been especially difficult without my medications and I cannot afford to replace them all so I have been having to adjust to changes, which have led to cognitive overwhelm happening more often and for longer time periods.

Accordingly, I respectfully request that future communications be **consolidated and written in clear, bulleted form where possible**, so I can review and respond accurately. This is a reasonable accommodation under the ADA and will help ensure effective communication between us.

Regarding your request:

- I am unsure whether the list sent Sunday evening is the complete list or if additional items need to be added. I am not sure what you mean about complete and whether the items can be cleaned. That is why I need your response regarding testing my items for contamination. I noticed an invoice where it said testing was done, but then you said it was not tested. I am confused since you told the court my items were contaminated and that is why they were taken.
- I just sent 3 emails with the documents showing the items and the page references you requested.
- You indicated earlier that you are opposed to me have counsel appointed by the Court. Can you provide some insight as to why you do not want me to have an attorney? I am unsure of how to proceed if you are not agreeable to resetting the hearing date or for me to have appointed counsel appointed. As it is, my cognitive and communication-based disabilities prevent me from full and meaningful participation in the proceedings.
- My understanding of the last proceeding varies greatly from what was entered as a TRO against me and I am unclear on how none of the rulings granted to me were included in the order. As a result, I am unclear of what is even set for hearing on the 16th and why it is necessary. Can you please explain?

Thank you for your patience and cooperation. I remain committed to working in good faith and ensuring that all information is clear and accurate. However, it is unpredictable when my health will allow me to respond to pleadings and emails, so I am not able to commit to keeping emails during business hours.

Perhaps if we could settle the retaliation claim pending in the justice court, then I could obtain counsel to assist in the upcoming hearing. Or if we could reach some other kind of agreement, I could get treatment needed to improve my cognitive function. For example, the medications that were in the fridge were a few hundred dollars and are necessary to reduce inflammation in my body & brain.

How do you propose we make me whole enough to participate while I do not have a lawyer, per diem support, funds for treatment and replacement of missing items?

Sincerely,

Katie Copeland

Ms. Copeland:

See attached – the TRO entered by the Court, which also sets the Temporary Injunction for hearing tomorrow. Please review the pleadings previously filed. Additionally, we will be submitting a proposed Order for this, you will receive this through Efile/Eserve; once you review, if you are in agreement with the terms, please advise via email.

As to mediation and your perspective – this is unfortunate.

As to Mr. Douglas – I have not made any “accusations” – I have pointed out that he has consistently not responded to me through the course of almost two months and this is not productive. Specifically here is what I wrote yesterday:

Mr. Douglas – I encourage you to respond to me. I have called again today and left a vm; called several times in the past few days, you did not answer, and I did not leave a vm, Your lack of response to me over the last almost 2 months – particularly given that you filed the lawsuit against Weinstein, and have sent various emails making allegations/threats and/or referencing future additional litigation (noting your September 16 email indicating your intent to file a federal court case against Weinstein and requesting a TRO – as the most recent example), and given that I have been suggesting mediation since August 26 (with an offer to pay Ms. Copeland’s portion of the mediation fee) with no response from you- is wholly non productive.

I stand by this.

Ms. Copeland:

I have not said that you have wholly refused cleaning – and I have made that clear – in prior communications; I have said that at this time you have requested no cleaning be performed – which you did – on numerous occasions. You have also repeatedly asked me to confirm no cleaning has yet taken place and I have provided you that confirmation. If you would now like to have Reign move forward with the cleaning, please advise and I will let them know.

I have told you that testing was not done of individual personal property items – but testing was done of the apartment and pursuant to which a new mold protocol was prepared. I have sent you the portion of the mold protocol which references your personal property.

As to packing done by Weinstein -that was accomplished on October 3, given the Court's order that any items left in your apartment were to be returned to you, within 3 days. I sent you numerous emails that day (and follow up emails over the weekend) about the amount of items that remained in the apartment, and/or size of some items – and as you know, you are now being provided an additional storage unit on site- at no cost to you , to store those items (and you had been offered – throughout October 3-5 for certain boxes to be delivered to your hotel at an agreed time – and you never responded to those emails). As to packing done by Dedicated Mold- they did not move those items (boxes and bags) out of the apartment, these were moved into the storage unit on the 4th floor by Weinstein staff (on October 5 – as my multiple emails leading up to that point – had discussed).

With respect to the front entry area, have you returned to the apartment after the October 2 Order was entered?

Please note – the apartment will likely not be readied for occupancy, before your lease expires on October 26. If that changes I will advise you accordingly. However, please note: all items being stored in the storage unit that you had been using in association with your apartment, and the items being stored in the additional storage unit on the 4th floor of your building- will need to be removed by the time your lease expires.

I have no information to provide regarding relocation and/or medical expenses and frankly am confused by your request for an “update” with respect to “reimbursement”.

Thank you -

Subject: Re: Conference

Dear Ms. Zavarelli,

I'm writing to clarify a few ongoing points of confusion.

I'm not sure why you've stated that I requested no cleaning be done. What I've actually asked for are details about how contamination is determined, what testing was performed, how it is done, and how decisions are being made about which items can be cleaned or must be discarded. You previously indicated that no testing was done, yet you also told the Court that my belongings were contaminated. That contradiction has left me unable to make informed decisions about my property.

It's also concerning that at least three different entities—Weinstein, Dedicated Mold, and Reign—were involved in packing and removing my belongings. I never gave consent for removal, and the unit was not ready to be packed. If I contact those entities directly, I expect they will say Weinstein authorized the action. Can you please confirm who specifically directed them and under what authority?

I also noticed an invoice referencing testing from the apartment, but I have not received those results. Please provide a copy of the findings. They are medically significant and necessary for understanding the extent of exposure and appropriate next steps for my treatment.

Finally, the front entry area that tested positive for black mold has still not been remediated. Can you explain why no remediation plan or work has been initiated in that area?

I also need an update on reimbursement for my relocation and medical expenses. The continued delays and lack of cooperation are prolonging my displacement and increasing damages.

Thank you,

Katie Copeland

On Oct 10, 2025, at 8:11 PM, Copeland, Katie <K.M.COPELAND@tcu.edu> wrote:

Dear Ms. Zavarelli,

Thank you for your message. I want to note that I have a documented **brain injury and significant vision impairments (including binocular dysfunction)** that were **caused and/or exacerbated by prolonged toxic mold exposure**. These conditions substantially affect my ability to read dense text, analyze and process information quickly, and manage multiple emails. It has been especially difficult without my medications and I cannot afford to replace them all so I have been having to adjust to changes, which have led to cognitive overwhelm happening more often and for longer time periods.

Accordingly, I respectfully request that future communications be **consolidated and written in clear, bulleted form where possible**, so I can review and respond accurately. This is a reasonable accommodation under the ADA and will help ensure effective communication between us.

Regarding your request:

- I am unsure whether the list sent Sunday evening is the complete list or if additional items need to be added. I am not sure what you mean about complete and whether the items can be cleaned. That is why I need your response regarding testing my items for contamination. I noticed an invoice where it said testing was done, but then you said it was not tested. I am confused since you told the court my items were contaminated and that is why they were taken.
- I just sent 3 emails with the documents showing the items and the page references you requested.
- You indicated earlier that you are opposed to me have counsel appointed by the Court. Can you provide some insight as to why you do not want me to have an attorney? I am unsure of how to proceed if you are not agreeable to resetting the hearing date or for me to have appointed counsel appointed. As it is, my cognitive and communication-based disabilities prevent me from full and meaningful participation in the proceedings.
- My understanding of the last proceeding varies greatly from what was entered as a TRO against me and I am unclear on how none of the rulings granted to me

were included in the order. As a result, I am unclear of what is even set for hearing on the 16th and why it is necessary. Can you please explain?

Thank you for your patience and cooperation. I remain committed to working in good faith and ensuring that all information is clear and accurate. However, it is unpredictable when my health will allow me to respond to pleadings and emails, so I am not able to commit to keeping emails during business hours.

Perhaps if we could settle the retaliation claim pending in the justice court, then I could obtain counsel to assist in the upcoming hearing. Or if we could reach some other kind of agreement, I could get treatment needed to improve my cognitive function. For example, the medications that were in the fridge were a few hundred dollars and are necessary to reduce inflammation in my body & brain.

How do you propose we make me whole enough to participate while I do not have a lawyer, per diem support, funds for treatment and replacement of missing items?

Sincerely,
Katie Copeland

Ms. Copeland:

We are opposed to the below request.

Additionally, as before, please email me/my office staff during normal business hours, as you have been doing with the Court staff. This will help to avoid any emails getting lost/buried.

I have also noted that you have not yet responded to my correspondence of Monday and my follow up email on Wednesday, requesting the complete list of items that you would like Reign to locate – or clarifying that you have determined the list you sent Sunday night (close to 10 pm) has been determined by you now, to be the complete list. I would also like you to confirm which filing you were/will be using (for the list you provided late Sunday night and for the “complete” list to the extent Sunday night’s list is not complete) to provide page numbers from which you were identifying items, so that as I discussed – I can get back in touch with you if even with a page identifier, the item itself is not readily identifiable (in which case I have indicated I will request further assistance to make sure the item is identified and Reign has complete instructions as to what to search for).

Thank you –

Subject: RE: Conference

Ms. Copeland:

Please see attached a copy of the photographs with red circles – you provided to us (from Part 2 and Part 3 of what you sent to us [no photographs for part 1 were circled]). I have emailed these attachments to Reign. Reign confirmed receipt of the email and attachments and contacted me to obtain and/or provide some clarification as to certain circled items (and was able to pull up their own photographs – which are better able to be visualized – than some of the photographs the attached “Copeland- circled items, search and return, Part 3” – given the scan, rescan nature of the attached).

Provided below is what Reign needs assistance with to understand what specifically to search for/retrieve- all from the attachment: “Copeland -circled items, search and return, Part 3”:

- Page 5 of this attachment; circled item that appears to be a plastic container (please confirm);

- Page 5 of this attachment – what specifically is circled on the bed that you are requesting be pulled and returned (please identify this item by name);
- Page 6 of this attachment – what items on the bed within the circle are you wanting pulled and returned (please identify these items by name);
- Page 7 of this attachment – bedside table and items: are you wanting the bedside table pulled out and returned, as well as the items on the table; please clarify;
- Page 8 of this attachment – are you seeking the guitar and the dog crate/dog bed (both; if not both- which do you want pulled out and returned);
- Page 9 of this attachment – what is the blue item in the circle – please identify by name if this is something you are wanting to have pulled out and returned;
- Page 10 of this attachment – do you want the books and the container on top of the books both pulled and returned, or just the books, just the container- please clarify this;
- Page 11 and 12 of this attachment – appear to be the same item circled; and this appears to be a case for something – please confirm;
- Page 14 of this attachment – do you want all the items contained in the circle with the electrical cords- pulled and returned – please clarify;
- Page 16 of this attachment- do you want the table/structure that the photographs are sitting on – in addition to the photographs- pulled and returned- please clarify

With respect to the attached Part 3 photographs, Reign indicated that the following were not packed by Reign:

- Any medications (some are circled on page 5 of this attachment)
- Any jewelry (to the extent those items hanging from the wall shelf -circled on page 4 of this attachment, are jewelry of some sort);
- The counter items on page 2 of this attachment (tea kettle and other items);
- The items at the base of the candy bowl- on Page 15 of this attachment – and the circled medicine/supplement jar.

Please note jewelry items were located in the master bath linen closet, as were numerous medications – those are all visualized in the photograph you took as well as in one of Reign's photographs. Those items – jewelry and medications located in your apartment – in the master bath linen closet, as well as medications/supplements in the kitchen area – were all packed by Weinstein and those boxes are being stored in the additional storage unit provided to you, located on the 4th floor of your building (as the emails sent to you over the weekend of October 4-5 indicate). Certain kitchen and/or kitchen counter items were packed by Dedicated Mold and placed in a sealed boxed -labeled as "kitchen contents", "counter contents" and/or "kitchen and counter contents" and those too are located in the storage unit on the 4th floor of your building (again, as previously referenced). As previously indicated this 4th floor storage unit is being provided to you through your lease term (October 26) and at no cost to you. Once your lease expires, you will need to move these items out of the storage unit.

I have also asked Reign to locate the AT&T equipment you previously referenced and pull that out, for return, as well.

Please provide the clarification requested above – by Friday afternoon; Reign will be able to start going through the contents and pulling out items – on Monday/Tuesday of next week and expects the project will take two days. Therefore, please also use this time to confirm with The Worthington that any large items (such as the bedside table, or any other larger items you have identified- dog crate, dog bed, etc) are permitted to be delivered to the hotel. If not- then please identify where you would like those items delivered. Again, no cleaning has taken place as to any items being stored by Reign (this is at your request, as you know).

Thank you –

Subject: Re: Conference

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli

Subject: RE: Conference

Ms. Copeland:

Following up on the below (to include email sent to you on Tuesday).

Once the requested clarification is received, this will be provided to Reign and it can begin to unpack the contents from the apartment and search for the items you have requested. My understanding is that they are currently available and able to do this work beginning on Monday or Tuesday (October 20 and 21) but will need to receive the information requested, as to clarification, by Friday afternoon (ie before 5 pm). I will not be available and/or able to communicate with Reign Friday evening/night or over the weekend, and will be in a deposition all day on Monday; therefore, it is important for you to communicate promptly about this, if you would like for Reign to work on this, early next week.

With respect to the other items you indicated you would like returned, and which were not packed by Reign- I have provided you the information as to the location of these items – and you are able to access those at your convenience.

With respect to the patio items, as you know, they were not moved from the patio. Would you like those to be removed from the patio and placed in the storage unit that is being provided to you (at no charge) on the 4th floor of Bldg 2; there is not a lot of room there, but these items will likely fit. Please advise.

Thanks-

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025

Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025

Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025

Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re-arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025

Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand - attempt to elicit verbal communication over the phone - with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items --and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above).

December 1, 2025
Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025
Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025

Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence; You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025
Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Alfred Johnson;
- Dr. Nilesh Nangrani
- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

Sincerely,

Glynis L. Zavarelli

Subject: RE: Required Accommodations Following Today's Hearing
Date: Thursday, December 4, 2025 at 3:34:25 PM Central Standard Time
From: Glynis Zavarelli <gzavarelli@wandzlaw.com>
To: Copeland, Katie <K.M.COPELAND@tcu.edu>, Michelle Sortor <msortor@wandzlaw.com>

[EXTERNAL EMAIL WARNING] DO NOT CLICK LINKS or open attachments unless you recognize the sender and know the content is safe.

Ms. Copeland:

Judge Chupp did not order (direct, or instruct) Weinstein to provide you continued lodging (to "house" you), per diem monies, or any of the other demands you have made in this email and he did not say what you have stated below was said. In fact, he made clear that your continued efforts to argue other matters – unrelated to the hearings that had been set (the Special Exception and Motion to Quash regarding records) were not being heard today.

The Court did not comment on the validity of the claims/causes of action you have asserted with respect to the alleged violations of the Fair Housing Act (ie whether the Federal or Texas FHA are applicable at all under these facts and circumstances and/or whether you are entitled to any particular type of accommodation). The Court did not comment on your assertion that you continue to have a valid lease (ie that the non renewal of your lease is void) and/or that any act of retaliation was committed against you. Weinstein denies any retaliatory conduct (whether alleged in the original small claims court case, the District Court case or to the extent you are alleging this in the newer repair and remediation case). The non renewal provided to you on August 26, 2025 was appropriate- and your lease expired on October 26, 2025. The Notice to Vacate, issued in November, was also appropriate. Your refusal to remove your personal property items and return access devices, is not appropriate.

Your most recent Motion regarding accommodations is scheduled to be heard on December 12, 2025.

With respect to your personal property items, you have been told repeatedly: with respect to the items which are at the Reign facility, these can be returned to you (Weinstein will pay to transport the items) at whatever location you direct, or they can be cleaned (at no cost to you) but until you authorize cleaning – none will be done. These have been your options since October 3. With respect to the personal property items at the apartment complex (two storage rooms and balcony) – these need to be removed (and you have been told that the items in the 4th floor storage room – can be transported to Reign (Weinstein will pay for this) to be held there, for future cleaning. With respect to medical items you have now indicated you need (noting you stopped corresponding with me about items being held by Reign, which were either medically necessary or sentimental and which you would like

Reign to retrieve and return to you – on October 14, 2025) – please identify those with specificity –by responding to my October 14th email (re sent to you on October 15). Once identified – arrangements will be made to deliver those to your present location (once you identify that).

As to mediation – as I have indicated to you via email/correspondence and today at court- I remain interested in scheduling this at the appropriate time. However, your identified conditions for such to get scheduled, make mediation not feasible. Therefore, if you change your position on this – let me know.

Finally- do not continue to include Weinstein on your communications to me (and/or do not communicate with Weinstein directly). This is improper.

Subject: Required Accommodations Following Today's Hearing
Importance: High

Counsel,

At the hearing this morning, the Court expressly instructed Plaintiffs to **follow the law** with respect to all Fair Housing Act, Texas Fair Housing Act, and disability-accommodation obligations. I am proceeding on the assumption that Plaintiffs intend to comply fully with that directive.

As you know, the uninhabitable condition of the unit, my displacement, and the handling of my belongings trigger obligations under **42 U.S.C. § 3604(f)(3)(B), 42 U.S.C. § 3617, and Tex. Prop. Code §§ 301.025, 301.152, and 92.331**. Because the nonrenewal notice was issued while I was displaced and during ongoing

accommodation requests, it is void under **Tex. Prop. Code § 92.331**, which prohibits adverse actions taken within six months of protected activity. Accordingly, I retain **superior right of possession** unless and until lawful accommodation and remediation procedures are completed.

Additionally, the Court has indicated its willingness to appoint counsel for me under **Tex. Prop. Code § 301.152** and **42 U.S.C. § 3613(b)**. I have submitted a proposed order appointing the Director of the **Texas A&M Civil Rights Clinic**, a specialist in federal civil-rights and Fair Housing Act litigation. The Clinic's involvement underscores the seriousness of the FHA, ADA, and retaliation issues now before the Court.

As this matter is moving into the civil-rights enforcement phase, I am copying the appropriate representatives for Plaintiffs and their insurer to ensure clarity regarding the Court's directives and the statutory obligations at issue.

In light of the Court's instruction, I am requesting the following reasonable and time-sensitive accommodations:

1. Immediate Temporary Housing

Please arrange safe ADA/FHA-compliant temporary housing **no later than December 5**.

I am evaluating the rental property at 3841 Englewood Lane, Fort Worth, TX 76107, which becomes available after the current tenant moves out on Sunday. If this property is agreeable as a temporary accommodation, I can proceed promptly.

If Plaintiffs prefer to arrange an alternative, a short-term rental such as an Airbnb with a yard or fenced outdoor space would be appropriate. Given my disabilities and the presence of my two dogs, a hotel is not a medically suitable or safe long-term environment. An FHA accommodation must be both safe and functional for my disability-related needs.

In addition, due to my medical conditions and the documented mold exposure, I require a **HEPA + activated carbon air purifier** in any temporary housing to stabilize respiratory and neurological symptoms. This is a medically necessary, disability-related accommodation and is consistent with FHA/ADA requirements for environmental health modifications.

This is consistent with the Court's directive that I be housed lawfully while remediation proceeds.

2. Per Diem and Displacement Expenses

Given the prolonged displacement and my medical conditions, please confirm that Plaintiffs will provide **per diem** for food, transportation, and basic living expenses until housing is secured and stable. This is standard practice in displacement cases and is necessary for my health and safety.

3. Licensed Handling of My Belongings

Please confirm that all of my belongings currently being held will be transferred to a **licensed mold-remediation contractor**, consistent with Texas Occupations Code Chapter 1958. No item should be discarded, altered, or released without notice or a complete inventory.

As the Court stated, the parties must follow the law, and that includes lawful handling of contents by licensed professionals.

This request is urgent because several items in storage are **medically necessary for managing my conditions**—including my heated vest, red light therapy device, pain management tools, and other assistive devices that I rely on during neurological and autonomic flares. I need access to these items immediately to stabilize my health.

4. Transparency and Notice Regarding My Unit

Because the nonrenewal is void and I retain superior right of possession, please keep me informed of:

- the remediation schedule;
- contractor identities;
- any clearance testing; and
- when the unit is legally safe for reentry.

This is necessary for coordination with my medical providers and for compliance with FHA/Texas FHA obligations.

5. Mediation After Stabilization

Once I am temporarily housed, medically stable, and my belongings are secured with a licensed contractor, I am willing to participate in mediation. The Court acknowledged today that this case involves significant damages, and mediation will be more productive once I am out of crisis and able to participate meaningfully. I am open to discussing availability for scheduling if you wish to send me dates.

6. Repair & Remedy Proceeding (December 9 at 11:30 AM)

If Plaintiffs wish to come into full compliance with their habitability and accommodation obligations before that hearing, I am willing to streamline or resolve that proceeding voluntarily once safe housing, licensed contents handling, and stabilization are in place.

If these issues are not resolved beforehand, I will proceed with the R&R case as scheduled. Any findings in that proceeding—including habitability violations, breach of duties, or damages—will necessarily be incorporated into the ongoing district court matter.

7. Court Intervention if Needed

If Plaintiffs are willing to implement these accommodations by **tomorrow, December 5**, there will be no need for additional motions or further court involvement at this time.

If not, I will seek whatever relief is required to ensure full statutory compliance with the Court's directive.

My goal is to resolve the housing and displacement issues cooperatively so all parties can focus on the merits and prepare for mediation in due course.

Please confirm by the end of today (**6:00 PM**) whether Plaintiffs intend to comply with these accommodation requirements. If I do not receive confirmation, I will inform the Court so that appropriate relief can be requested.

Sincerely,

Katie Copeland

Social Work and Case Management

Patients at UT Southwestern Medical Center are in good hands in every aspect of care, medical and otherwise. Case managers are assigned to each inpatient care area. They're trained to help patients and family members address financial, social, and emotional problems related to illness or hospitalization.

Case managers also help patients and families cope with long-term illnesses, rehabilitation, and discharge planning. They can assist with arrangements for the following services:

- Home health care, nursing care, and hospice care
- Medical equipment
- Outpatient physical therapy, speech therapy, and occupational therapy
- Referrals to community agencies

**WEINSTEIN’S OBJECTIONS TO AND MOTION TO STRIKE
DR. ISABEL HUANG’S CORRESPONDENCE SUBMITTED BY COPELAND –
IN SUPPORT OF COPELAND’S DECEMBER 29, 2025 FILINGS:
EMERGENCY MOTION FOR INTERIM RELIEF AND
REPLACEMENT OF MEDICAL EQUIPMENT
AND
MOTION FOR ADA ACCOMMODATIONS**

TO THE HONORABLE JUDGE OF SAID COURT:

COME NOW, Plaintiffs/Counter-Defendants Weinstein Management Co., Inc. and WMCI Dallas X, LLC (hereinafter referred to collectively as “Weinstein”) and make and file this their Objections to and Motion to Strike Dr. Isabel Huang’s Correspondence Submitted by Copeland – in Support of Copeland’s December 29, 2025 Filings: Emergency Motion for Interim Relief and Replacement of Medical Equipment and Motion for ADA Accommodations, and in support thereof would respectfully show unto the Court as follows:

I.

**RELEVANT BACKGROUND INFORMATION
REGARDING DR. ISABEL HUANG**

Dr. Isabel Huang is a medical doctor, who specializes in physical medicine and rehabilitation, and is affiliated with UTSW.

Dr. Huang is not:

- A specialist in internal medicine;
- A medical toxicologist;
- A psychiatrist;
- A psychologist;
- A neuropsychologist;
- A neurologist;
- An endocrinologist;
- A gastroenterologist;
- An immunologist;
- A rheumatologist;
- An allergist;
- A pulmonologist; or
- A cardiologist.

Dr. Huang is also not:

- A mold assessment specialist;
- A mold remediation specialist; or
- A property valuation expert.

In short, Dr. Huang lacks the necessary expertise to opine on any matter that falls outside her limited areas of medical practice and therefore, Dr. Huang's opinions and recommendations should be wholly disregarded - pursuant to Tex. R. Evid. 702 and 703 (and interpreting case law: *Broders v. Heise*, 924 S.W.2d 148 (Tex.1996)*Arlington Memorial Hosp. Inc. v. Baird*, 991 S.W.2d 918, 921 (Tex.App. – Fort Worth, writ denied); *Pace v. Sadler*, 996

S.W.2d 685, 689-690 (Tex.App. – Beaumont 1991, writ denied) *Lesser v. St. Elizabeth Hosp.*, 804 S.W.2d 657 (Tex.App. – Beaumont 1991, writ denied); *Gladewater Municipal Hospital v. Daniel*, 694 S.W.2d 619, 620 (Tex.App. – Texarkana 1985, no writ); *Kieswetter v. Center Pavilion Hosp.*, 662 S.W.2d 24, 27 (Tex.App. – Houston [1st Dist.] 1983, no writ); *Fontenot Enterprises, Inc. d/b/a Hope Rehabilitation v. Kronick*, 2006 Tex. App. LEXIS 8580 (Tex. App. – Houston [14th Dist.] 2006, no writ); *Reyes v. Jebo=s Inc.*, 2005 Tex. App. LEXIS 3344 (Tex. App. – San Antonio 2005, no writ); *Bowles v. Bourdon*, 219 S.W.2d 779 (Tex. 1949); *Tinghui v. Billingsley*, No. 05-08-00436-CV, 2005 Tex. App. LEXIS 684 (Tex. App. - Dallas 2009, no pet. h.).

Additionally, and problematically -

Per the December 21, 2025 correspondence submitted by Copeland (but not submitted until December 29), Copeland has been “under” Dr. Huang’s care since October 8, 2024. However, Dr. Huang’s correspondence provides no information as to what that actually means, to include: what particular objective testing, and evaluations have been performed by Dr. Huang and /or what actual treatment Dr. Huang provides -to include as related to ordering use of durable medical equipment, prescribing medications, ordering and monitoring adjunct therapeutic care [occupational, physical, and/or speech] and, any involvement with and oversight concerning treatment of any of Copeland’s alleged medical conditions.

Further, the December 21, 2025 correspondence makes no mention of any particular recent testing, exam and/or evaluation that she (Dr. Huang) personally has conducted of Copeland -at any particular point in time – but most notably since December 4, 2025 (the point of reference date set out in the correspondence). As such, the correspondence is conspicuously silent as to any matter which would indicate any recent objective medical testing and/or observations by Dr. Huang.

Significantly: Though Copeland now relies upon the December 21, 2025 correspondence in support of filings she made on December 29, 2025, Copeland never identified this physician in disclosures, and has refused to produce this physician’s medical records (either through disclosures or Request for Production). **Tellingly:** When Weinstein sought to obtain the records for Dr. Huang through subpoena and Deposition on Written Questions, Copeland took the position that she had filed a Motion to Quash such (though the Motion to Quash filed by Copeland did not specifically address these records) – and as a result, Weinstein agreed to request that the records service refrain from continued efforts to obtain the records, until after the issue could be resolved through hearing. Copeland did not request a hearing on her Motion to Quash; Weinstein did. On December 4, 2025, the Motion to Quash was heard and the Court ordered the records service could proceed with obtaining the records, but that Copeland would be provided the records first (after which a process was to be followed with respect to protecting and/or releasing the records, as reflected in the Order signed by Judge Chupp on December 5, 2025). As of the date of these Objections, Weinstein has not obtained or been provided any of Dr. Huang’s records, and Copeland should have produced these records weeks (if not months) ago – in response to Rule 194 Disclosures and/or in Response to Request for Production.

Finally, Copeland was requested, on December 1, 2025, to provide a date that she would be available for Dr. Huang’s deposition, and to date, has failed to respond to this request. See attached as **Exhibits “A” through “C”** – Copeland’s Initial Disclosures, and correspondence sent to Copeland by the undersigned counsel regarding identification of persons with knowledge of relevant facts (specifically referring to medical providers) and request for Dr. Huang’s deposition.

As has been Copeland’s practice and routine (both pre litigation and in the midst of this litigation)– she takes a “sword and shield” approach to her alleged disabilities and/or underlying

medical conditions – relying on such conditions to attempt to obtain whatever particular requested relief she asserts she is “entitled” to receive, while preventing Weinstein from obtaining information as to those very matters. As such, Weinstein does not have a fair and full opportunity to evaluate the claims asserted and/or cannot fully and critically analyze the veracity of Copeland’s claims. This type of litigation conduct is improper: “A plaintiff cannot use one hand to seek affirmative relief in court and with the other lower an iron curtain of silence against otherwise pertinent and proper questions which may have a bearing upon his right to maintain his action.” *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding).

Dr. Huang’s December 21, 2025 is yet another example of Copeland’s litigation approach in this regard- and Copeland’s use of Dr. Huang’s correspondence should be prohibited – pursuant to Tex. R. Civ. P. 193, 194 and 215 (and as contemplated by *Remington Arms Co. v. Caldwell*, 850 S.W.2d 167, 170 (Tex. 1993), *Patton v. Saint Joseph’s Hospital*, 887 S.W.2d 233, 239 (Tex.App. – Fort Worth 1994, writ denied; and *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding)).

II.

OBJECTIONS TO DR. HUANG’S CORRESPONDENCE

Copeland has provided the Huang December 21, 2025 correspondence in an attempt to: 1) manipulate the litigation process (whether in District court or Justice court- as she has filed this correspondence in the District Court case (141st Judicial District Court) and in the two JP court

cases in which she has sued Weinstein – and in which she attempts to avoid her obligations as a litigant – though notably in those two JP court cases she is represented by counsel, John Douglas) and 2) to bolster and/or support her requested relief for significant Plaintiff personal injury damages/monies to be awarded to her – **pre trial, this includes:**

A) Requesting payment (by Weinstein) of \$18,000 a month for the duration of the case (to fund her self determined entitled lifestyle, termed by her as “interim housing”) and for which amount she incredulously claims to be “conservative”, in a circumstance where neither Weinstein nor this Court is required to provide this relief to Copeland; Weinstein is not required by contract, statute or state and/or federal law to pay for “housing” for Copeland, and this Court is not required to do so – or to enter an Order directing Weinstein to do this under the guise of an “ADA accommodation); and in a circumstance where no finding of liability has been made against Weinstein as to any pending counter claim asserted by Copeland (and cannot be made, until the jury hears all the evidence and makes its decision); and;

B) Requesting a payment of \$20,000 for alleged replacement of medical items (items that which, if they existed at all on September 22, 2025, were never secured by Copeland once she knew her apartment would be going through remediation starting on September 22, 2025 [ie if these items actually existed, she left such items in her apartment; as such, if those items were actually medically necessary – she should have removed them before the remediation was scheduled to take place], and for which it has not been proven (ie established by the jury) that Weinstein is liable to reimburse Copeland for any particular piece of property – medical or otherwise. Further, egregiously – Copeland has taken the position – and perhaps convinced Dr. Huang to do so as well- that the items which were removed from the apartment and which are

being stored off site (by Reign Restorations) have not been cleaned or returned (ie that Weinstein has refused to do either/both) – as if Copeland had provided authorization for either- which she has not; steadfastly stating since the property was removed that she does not want it cleaned by Reign Restorations (claiming this would be spoliation, and even filings various injunctive type pleadings to prohibit Weinstein from permitting this to occur, and filing such, before and after Weinstein’s counsel has repeatedly assured Copeland that no cleaning has taken place and none will take place, absent her authorization); and moreover, Copeland has never provided any location to which the property can be returned (though she has been asked to do so since September 27). Further, Copeland wholly failed to cooperate with attempts to identify medically necessary items and arrange for their return to her (as Judge Chupp had indicated, on October 2, at the TRO hearing, should be done, if it was possible to do so- and which counsel for Weinstein started initiating as early as October 3). Since October 3, 2025, counsel for Weinstein has engaged in repeated attempts to work with Copeland as to identification of alleged necessary medical items (and/or sentimental items) – as again was directed by Judge Chupp, and has continued to follow up with Copeland as to her preference with respect to the numerous items that still remain on Weinstein’s property – in two store rooms and the balcony of the apartment that Copeland had leased – and these communications by counsel were as recent as December 4, 2025, with no response by Copeland.

In short, Copeland has purportedly procured this correspondence from Dr. Huang to assist her in manipulation of the litigation process, to attempt to provide her not “equal” access to the Court (for which she has never been denied) but preferential treatment, while depriving Weinstein of its right to zealously prosecute and/or defend its positions (and prepare for trial), and in an attempt to obtain an award of pre trial, personal injury damages for which she is not entitled (and pursuant to which no legal premise – statutory, contract or common law provides for, and in a

circumstance where no liability finding has been made against Weinstein, by the fact finder). All of this is improper, an affront to the judicial system and an abuse of process.

Copeland has referred to this correspondence in her December 29, 2025 pleadings – as Dr. Huang “verifying” that certain circumstances exist and/or certain recommendations should be followed- however, the correspondence is not actually verified, in any manner. Dr. Huang has not signed an Affidavit and/or an Unsworn Declaration – and in fact, the correspondence does not bear the actual handwritten signature of Dr. Huang -it is a typed name only.

Therefore, it is impossible to verify the veracity of this correspondence and/or its authenticity -from the document alone. As such, Weinstein request that if the Court is ever inclined to consider this correspondence for any purpose, that the following be ordered: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

Weinstein lodges the following objections to the Dr. Huang Correspondence:

OBJECTIONS GENERALLY – TO THE SUBSTANCE/CONTENTS AND LACK OF QUALIFICATIONS/EXPERTISE

- Weinstein object that the correspondence is not properly authenticated and/or cannot be verified for veracity; the correspondence is not signed by Dr. Huang (a typed named is all that appears; and a prior piece of correspondence used by Copeland on other pleadings, while heavily redacted – was purportedly written to support a “Disability Application” – for which Weinstein has no information on the status of the “disability application” but it appears to have not been approved (or not yet approved), at this point (if it had been approved, Copeland has never provided this and certainly if she had any document which confirmed that she has been assessed by any agency to be “disabled” – she would have produced this by now) – **but** that prior correspondence contained Dr. Huang’s handwritten signature-

therefore, this unsigned correspondence is not consistent with what appears to be Dr. Huang's practice of providing patient assistive correspondence.

- Weinstein object that the correspondence is hearsay and/or is hearsay within hearsay.
- Weinstein object that the correspondence is based upon speculation and/or the self serving statements made to Dr. Huang by Copeland, and further object that the statements contained in the correspondence are largely conclusory and non specific;
- Weinstein object that the manner in which the correspondence is written, further calls into question, the veracity or completeness of the correspondence: there appears to be a redaction which was made – fourth paragraph from the bottom of page 1, starting with “These episodes...” – the word “I” appears on the second line -but nothing else – as though there was more there – but has been redacted.

Similarly, the correspondence is dated December 21, 2025 (but references a December 8 date- of unknown significance); if the correspondence contains Dr. Huang's actual impressions, concerns and recommendations that she came to/developed on December 8, 2025- and those matters require “immediate” action – this December 21, 2025 dates calls into question the veracity of any comment made by Dr. Huang – as to any matter deemed to be an “immediate” concern; as certainly, Dr. Huang would not wait until December 21 to make these matters known – when she thought by December 8 – these were needing immediate attention. The correspondence is, therefore, further objectionable because it is internally inconsistent, and makes the entire document unreliable for any purpose.

- Weinstein object Dr. Huang is not qualified to provide opinions as to any matter other than the care she has actually provided. As such, Weinstein objects that there is no information to indicate Dr. Huang has any expertise in the following areas (and as such, her opinions and/or recommendations in any and/or pertaining to any of these areas lack proper foundation and/or expertise):
 - Internal medicine;
 - Medical toxicology (to include as related to exposure to mold);
 - Psychiatry;
 - Psychology;
 - Neuropsychology;
 - Neurology;
 - Endocrinology;

- Gastroenterology;
 - Immunology;
 - Allergy medicine;
 - Rheumatology;
 - Pulmonology;
 - Cardiology;
 - Mold assessment;
 - Mold remediation; or
 - Property valuation expert.
- Weinstein object that the correspondence provides no information as to objective medical testing, studies, evaluation and/or examination performed by Dr. Huang and instead references only comments/complaints made by Copeland (making repeated use of the word “reportedly” when referencing not only chronology of events but also Copeland’s alleged response/reaction to participation in the December 4, 2025 hearing) and has such, the correspondence is based upon nothing but speculation, conjecture and information provided by the most biased witness/person in the case- Copeland and as such, is not based upon reliable and/or even accurate information and, therefore, lacks proper foundation;
 - Weinstein object that the various medical conditions identified, at the beginning of the correspondence as diagnosed conditions, are not explained, and that there is no information provided as to what these conditions are, what they effect as to Copeland (physiologically), how the conditions are being managed and/or treated (prescribed medications, prescribed therapies, use of durable medical equipment) and/or the manner in which any particular identified medical condition has any actual objective causal connection to any particular matter: where and/or how Copeland is living, the status of Copeland’s personal property, Copeland’s ability to participate in litigation activities (**noting that with all of the alleged conditions – Copeland has filed numerous counter claims in the 141st Judicial District litigation, filed two different JP Court cases (Precinct 3) against Weinstein, is engaged in pro se litigation against her prior counsel – Beth Janicek and Koons Fuller, has sued the Amicus, Kelly Decker and Ms. Decker’s law firm, has filed federal court litigation against the entirety of Tarrant County and various judges----** and throughout all of these litigated matters – has filed pleadings, Motions, served discovery, served numerous subpoenas, and has participated in

court proceedings- at times, insisting to do so in person; as such, Dr. Huang's reference to the various medical conditions is conclusory, and the implication of any adverse effect on Copeland's ability to "litigate" in any particular case – is disingenuous (at best) and not supported by Copeland's "real life" activity-making the information unreliable and lacking in foundation;

- Weinstein objects that on its face, this correspondence makes clear that Dr. Huang is basing her conclusions on matters that were only reported by Copeland, in relation to her "current" report- see page 1 of the correspondence, mid way down, where Dr. Huang starts the portion of the correspondence by stating "Ms. Copeland is currently reporting the following" – followed by 6 bullet points/conditions – demonstrating none of what is included in the bullet point information is actually derived from Dr. Huang's observations/interactions and/or based upon her medical knowledge/judgment – but instead is based upon what Copeland "reported", and as such, the correspondence lacks reliable and proper foundation.
- Weinstein object that the correspondence seems to indicate that Dr. Huang has not actually seen/evaluated Copeland in the last several months – to include after the December 4 hearing – as such, any opinion she would proffer is not based upon reliable foundation; alternatively, if Dr. Huang saw Copeland on December 8, her correspondence is wholly devoid of any information as to what type of assessment/exam she conducted, treatment provided and/or recommended – and therefore, the correspondence remains lacking in reliable foundation (ie the opinions espoused by Dr. Huang then appear to be based on nothing other than Copeland's subjective, self serving statements);
- Weinstein object that Dr. Huang's correspondence is incomplete in that it references certain matters/circumstances without providing full information – which is likely because her source for all the information contained in the correspondence is: Copeland – whose rendition of circumstances is not necessarily accurate, complete and/or reliable; this is applicable to not only Copeland's alleged "flare up" and effects of same, but also comments made as to Copeland's personal property items and Copeland's ability to participate in litigation related activities.

OBJECTIONS TO ALLEGED EFFECT OF DECEMBER 4, 2025 HEARING

- Weinstein object that the information contained in Dr. Huang's correspondence as to the impact of Copeland's participation in the December 4, 2025 hearing on Copeland's underlying alleged conditions has on her – whether as related to in person participation in hearings, and litigation proceedings or as related to her ability to operate/function in the litigation activities – is inconsistent with and wholly not supported by what Copeland actually does and/or is doing – and as such, Dr. Huang's correspondence, in that regard, is again wholly unreliable (and only showcases that her entire rendition of information is unilaterally provided by Copeland – without Dr. Huang either considering various other factors/matters-

and/or perhaps only being provided certain information by Copeland which Copeland believes will inure to her benefit) and as such, Dr. Huang's correspondence should be disregarded.

The following are examples (though not exhaustive) of the inconsistency of what Dr. Huang asserts is Copeland's status, following the December hearing – as opposed to what Copeland is actually doing or able to do, since the December 4, 2025 hearing:

--Dr. Huang references that since the December 4, 2025 hearing (hearings on Copeland's filings), Copeland suffered "physical strain and environmental exposures" which "reportedly triggered a several flare up that has significantly worsened her symptoms of pain, weakness and fatigue" -- [note – Dr. Huang does not provide any information as to what constitutes a "flare up" and for that reason, Weinstein also objects to the vague and ambiguous/non specific nature of this comment- for which her entire correspondence seeks to address]; however, if this were true – it would seem that Copeland would have actually been seen by a healthcare provider that day (and again, it appears that she was not seen by Dr. Huang, that day) – but instead, that day and on the days thereafter, the following occurred:

--On December 4, 2025, Copeland attended the hearing in the 141st Judicial District Court- these were *in person* hearings; **Copeland scheduled her Special Exceptions, the first of the two matters scheduled, as an in person hearing** (in other words- regardless of whatever underlying conditions or sensitivities she claims to have – **she requested for that hearing to be in person** (after which the undersigned counsel set Copeland's Motion to Quash regarding the ordered records for the same date, and in person). Copeland did not require any assistive devices- visual, auditory, processing, communication and/or mobility. Copeland was properly groomed and appropriately dressed (for court appearance, wearing a well fitting pant suit, which was appropriate for the setting). Copeland walked into the court room unassisted (by person or device) and set up at Defendant's table. Copeland did not wear a mask (which is notable because Dr. Huang asserts that "environmental exposures" are problematic) [Copeland had also taken a photograph of herself at the apartment at issue – on September 26- sitting directly in front of the area for which mold remediation was required and wore no mask]. Copeland argued her positions – and attempted to convince/persuade the Court to entertain other matters which were not the subject of hearing that day. She did not request a break during the hearing, at any point. She did not get up to stretch. She did not seek to re position herself from her seated position at counsel table and she did not require assistance exiting the courtroom.

--On December 4 (after the hearing), Copeland prepared an Order for appointment of counsel (Texas A& M law school Civil Rights Clinic) [a matter that was not

heard that day] and submitted it to the Court (it would seem that Copeland at least also would have contacted the clinic that day prior to submitting the Order, but perhaps not) and sent lengthy emails to the 141st Judicial District Court staff, and opposing counsel – arguing to have that Order signed; she also sent a lengthy email correspondence to opposing counsel regarding request for housing and other matters and emails regarding other matters she contended the Court had ordered (which it did not) and this culminated in Copeland preparing and submitting a lengthy 7 page Order for matters, again, not heard. It does not appear that there was any actual “flare up” that day.

--Between December 5 and December 29: Copeland prepared and filed eleven additional pleadings in the litigation pending in the 141st Judicial District, many of which were lengthy and contained lengthy exhibits; there has been apparently no “flare up” during those times;

--On December 9, 2025 – Copeland appeared (via zoom) at the trial in JP Court Precinct 3- for a “repair and remedy” lawsuit she had filed against Weinstein (ownership entity) – and when her attorney, John Douglas, failed to appear – she opted to proceed- by herself [on zoom]- for a trial that lasted approximately one hour, during which she did not request a break (notably- Dr. Huang’s correspondence does not address that proceeding at all); there apparently was no “flare up” that day;

--On December 10, 2025, Copeland filed a (pro se – and thus, improper as it was in violation of the Order Declaring Copeland as a Vexatious Litigant) Notice of Appeal from the judgement in the JP Court, Precinct #3 repair and remedy case (clearly demonstrating that she was aware of the upcoming deadline by which to perfect appeal to the County court); there was apparently no “flare up” that day;

--On December 15, 2025, Copeland filed a Status Update and ADA Request, in the JP Court, Precinct #3 repair and remedy case – in which she presented photographs – she had taken on December 10, 2025 (when she unlawfully entered the apartment- in violation of the two Orders issued by the 141st Judicial District court, forbidding such conduct)- and which she claimed assisted her in her claims against Weinstein and showed that Weinsteins’ counsel had not properly represented the status of the remediation (noting – the photographs were actually helpful to Weinstein, to demonstrate that the status was as portrayed on December 9 at the repair and remedy trial); however, significantly- in order to prepare her Status Update and ADA Request, by obtaining the information and /or photographs attached to same, Copeland had to do the following:

--She traveled to Weinstein’s apartment complex;

--She walked up a flight of stairs to Apartment 2145;

--Despite her complaints (made on December 10 to the JP Court, Precinct #3,

that remediation is “ongoing” , this establishes that Copeland – for the third time, violated a Court Order to willingly expose herself to “mold” that she contends is “harmful”;

--She walked throughout the apartment, inclusive of containment areas and large fans/cords;

--She inspected the apartment for dust/debris;

--She examined the progress of the work undertaken by that date;

--She took an extensive number of photographs of the apartment;

--She printed and prepared the photographs, along with the pleadings, to be filed on December 15, 2025.

All of the above took considerable physical efforts, required cognitive and processing abilities and was performed and pleadings thereafter, filed – within a time frame that Copeland anticipated would be beneficial to the re- hearing of the repair and remedy case- which at that time had been scheduled to be conducted on December 17, 2025. There was apparently no “flare up” as of or on December 10, 2025, nor on December 15, 2025 (the date of filing).

--On December 16, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Plaintiff Pro Se Reply (to Weinstein’s Response and Motion to Show Cause, filed on December 15);

--On December 16, 2025, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Notice to Preserve ADA Accommodation Issue (after the Court had issued its order that day, denying her Motion);

--From December 16 through December 19-Copeland filed 7 different pleadings in her pending federal court litigation against, amongst several Defendants, to include: all of Tarrant County, which included a Notice of Appearance pro se, amended pleadings, a Motion to Extend Time to Serve, a Motion to Appoint Counsel, a Motion to file Appendix under seal, and an Emergency Motion for TRO and Preliminary Injunction – which includes reference to the litigation pending in the 141st Judicial District Court, her pending litigation against the Amicus (Kelly Decker) from the family law case, and her two JP court cases against Weinstein (she has two pending, at the present time)

The above chronology of events – much of which occurred before December 21, 2025 (the date of Dr. Huang’s correspondence), and all of which occurred after the December 4, 2025 hearing (the alleged triggering event for flare up – and pursuant to which Dr. Huang asserts various opinions and makes recommendations on Copeland’s behalf) – begs the question: when did this alleged flare up occur and where are the actual contemporaneous medical records which support this occurred- and for which Copeland was provided any type of treatment? Copeland immediately started corresponding by emails, pleadings and proposed Orders, on December 4, 2025 in the 141st Judicial District case, continued this in that case from December 4 forward. Copeland participated in a trial in JP court, Precinct #3 (opting to proceed, alone, without her attorney, John Douglas participating in the trial). Copeland went to Weinstein’s property and improperly/unlawfully entered the apartment (to procure “evidence”) – which required significant physical and cognitive activity and function. Copeland then filed numerous pleadings thereafter in the JP Court, Precinct #3 repair and remedy case. Copeland, thereafter, filed numerous pleadings on her own behalf in federal court (December 16 through December 19). All of this – is wholly inconsistent with any alleged “flare up” from participation in the hearing she scheduled as an in person hearing on December 4, 2025.

Therefore, Dr. Huang’s reference to a “flare up” and her attempt to provide a causal connection to the December 4, 2025 hearing (in the 141st Judicial District Court case) is completely and wholly without foundation, factual support and without merit. Dr. Huang’s opinions in that regard are most obviously based *only* on what Copeland has told her (all the while Copeland fully engaged in the litigation process- in at least four different cases). While Dr. Huang likely does not know any of this- her lack of knowledge should not now be used to cloak her correspondence in any semblance of reliability.

**OBJECTIONS TO COMMENTS AND RECOMMENDATIONS MADE
REGARDING PERSONAL PROPERTY ITEMS**

- Weinstein object that the information contained in Dr. Huang's correspondence as related to the status of Copeland's personal property items (medical or otherwise) as the information is not either fully accurate and/or is misleading as follows:
 - Copeland knew, with certainty by September 19, 2025, remediation would be starting on September 22, 2025 (this was the third attempt to move forward with remediation – after Copeland has acted in a manner to stall, delay and/or prohibit the remediation); she was living at the apartment from September 11/12 through approximately September 19- and had full access to any piece of personal property- medical or otherwise; on September 19 - she received correspondence from the undersigned counsel alerting her that remediation was again scheduled to begin on the September 22 date – and on September 19, Copeland called the undersigned attorney; the remediation schedule was again discussed – with September 22 being the date identified that it would proceed; Copeland could have taken anything she needed or wanted from the apartment at that point, therefore, whatever items she failed to take- are items she volitionally left (which calls into question what amount of necessity attaches to any particular item).

The below is an excerpt from the September 19, 2025 phone conversation – which Copeland secretly recorded – and has produced a “transcript” of (while note wholly accurate, the following excerpt is correct):

00:06:00 Glynis Zavarelli
And I guess you're still at the apartment.

00:06:02 Kathryn Copeland
Yeah.

00:06:06 Glynis Zavarelli
Okay.

00:06:08 Kathryn Copeland
I know you had said that work was going to start on the 22nd, but that's why I was confused and sent the e-mail to TDLR because I thought you had to have the protocol on file at least five business days in advance and I hadn't seen it, so.

00:06:23 Glynis Zavarelli
Well, like I said, I mean, I'm obviously not the most people doing this work. I'm not a TDLR licensed person, but it's my understanding

they've complied with all the deadlines that are required to be able to start on the 22nd and that's what we would like to be able to have happen so that we can get you back into that apartment as soon as possible.

The above exchange makes clear – Copeland had full understanding and appreciation for the upcoming remediation schedule – and as such, was aware that any particular items which she would need or want (for any reason) should have been removed by her.

- Unbeknownst to Weinstein, when Copeland returned to live at the apartment from September 11/12 through the September 19 date against Weinstein directive- Copeland turned on the HVAC (which had been sealed and turned off by the prior remediation company) which led to the HVAC unit freezing, thawing and caused a leak. As such, when this was discovered by Weinstein and the mold remediation vendor, on September 22, 2025 (when the vendor arrived to start the scheduled remediation), mold remediation had to be again postponed so that water remediation could occur, first. The pack up and removal for personal property had been recommended by the mold assessment company (Dallas Mold), in part to provide access to all areas requiring mold remediation, but the water intrusion (leak) caused by Copeland – has also required repair of substantial portions of flooring and other areas of the apartment, which required further accessibility.
- Copeland did not inform Weinstein (or Weinsteins counsel) of what she had done with respect to the HVAC unit – and as such, this delayed discovery of same, until September 22nd, when Copeland returned to the apartment on September 26 (which was contrary to the mold remediation protocol process and Copeland had been made aware that once remediation starts, apartment access would not be permitted)- Copeland took numerous photographs of items which remained in the apartment (not packed and moved off site) and because she entered and began an exchange with the Dedicated Mold remediation personnel – remediation efforts stopped that day (and did not resume until October 6)- with Copeland having full access to everything that remained in her apartment; she could have then taken anything else out of the apartment that she thought she wanted/needed on September 26 and thereafter, until October 2, 2025 (when she was court ordered to refrain from entry) – but assumedly failed to do so;
- Copeland was told on September 27, 2025- that whatever items were packed and taken off site could be returned to her – and she did not then request return of any items taken to be stored off site – and presumedly did not return to obtain any items remaining in the apartment, in response to that communication;

- Copeland was told on October 3, 2025, the items taken off site could be returned or cleaned and returned (while she had originally said she wanted items cleaned, she then claimed such would be spoliation and would not authorize cleaning – and was thereafter, repeatedly assured that no cleaning would take place until she authorized same – to date: she has not authorized cleaning); Copeland did not respond to this;
- Per the October 2 hearing on Weinstein’s TRO (noting Copeland cancelled her hearing on her requested injunctive relief; however, the Court contacted her by phone – and she was able to express her positions and indicate she wanted items returned, as such, Weinstein was ordered to return all remaining items in the apartment to Copeland within 3 days and with respect to the items being stored off site (by Reign Restorations) - to return (if able to do so) any identified medical necessity items or sentimental items – once identified by Copeland (as Copeland did not articulate or identify any particular item she needed, during the hearing); on October 3, 2025 Weinstein sent correspondence to Copeland and asked for the list of medical necessity items and/or sentimental items; Weinstein received no response;
- On October 3 through October 5 Weinstein emailed with Copeland about the various items which remained in her apartment -asking her if she wanted them moved to the hotel she was staying in (but noting that the items were extensive and likely the hotel room would not be comfortable for the relocation of these items), asking her if there was another location she would prefer they be moved – and ultimately indicating (when no response was received from Copeland) that Weinstein would provide a storage room at the apartment complex – at no charge of her- through the pendency of her lease (until October 26, 2025) to store the items from her apartment; Copeland was given a key for that storage room; Copeland was also told that several boxes of medications and a humidifier were located at the door of the storage room for easy access (it is unknown if she ever went to obtain those boxes or any other item being stored there currently -but which she has had ample access to retrieve/obtain);
- On October 6 through October 14, 2025- at the undersigned counsel’s initiation, Copeland and the undersigned counsel emailed regarding the items packed off site – asking Copeland to identify the medical necessity and sentimental items she wished to have removed form off site and returned to her; Copeland stopped corresponding on this on October 14, 2025;

See attached as **Exhibit “D”** correspondence and emails sent between October 3 and October 14, 2025.

- On November 21, 2025 – the undersigned sent correspondence to Copeland regarding the items in the store rooms on site (the original store room she acquired when she signed her lease, as well as the storage room being used to store the items which were removed on October 5- at the Court’s direction) and followed up again on this, on December 1 and heard nothing back from either correspondence. See attached as **Exhibit “E”** the November 21 and December 1, 2025 correspondence.
- On December 4, 2025, the undersigned counsel and Copeland emailed about the status of her personal property items which were being stored off site - offering to clean, to return or to do both – at no expense to her, and inquiring about the items in the storage rooms on site and balcony items- and the undersigned counsel did not hear back from Copeland. See attached **Exhibit “F”**.

Given the above chronology of events – it is clear that Dr. Huang’s impressions (obtained from Copeland) corresponding recommendations/opinions are reliant upon faulty, inaccurate and/or incomplete information – and as such, any opinions provided by Dr. Huang in relation to personal property, medical items/equipment, medical supplies – the status of such, how items should be handled from this point forward and/or any adverse effect on Copeland as related to personal property complaints/circumstances- is wholly baseless.

- Weinstein further object that Dr. Huang fails to identify any particular medical property item “supply” at issue (not identifying any particular “critical medical equipment” or “supplies”)– and instead makes global and/or generalized assertions as to the alleged removal of same and the need for replacement;
- Weinstein further object to Dr. Huang’s speculative conclusion that all property (ie “contaminated belongings”) need to be replaced; she cannot possibly know this from a “contamination” perspective: she has no personal knowledge, she has not seen the items, she fails to even identify the items (by name), she does not know the materials upon which each item is constructed (and thus, what, if any, cleaning is necessary and/or how this can be efficiently accomplished if necessary); has no expressed or implied familiarity with mold exposure as related to anything (to include personal property items), she has no expertise in any necessary and related area to proffer such opinions, and further, she has no demonstrated expertise as related to medical causation without respect to any particular alleged type of mold/spore and the impact on any particular condition allegedly attributed to Copeland.

**OBJECTIONS TO DR. HUANG'S COMMENTS ANDN/OR OPINIONS AS
RELATED TO COPELAND'S MEDICAL CONDITIONS
AND EFFECT ON ACTIVITIES**

- Weinstein objects to the characterization and assertions by Dr. Huang of the manner in which any particular condition impacts Copeland as again, this appears to be based on speculation and is wholly inconsistent with what Copeland has shown herself able to do and as such, these opinions by Dr. Huang are neither credible nor reliable.

By way of example – as to Copeland's physical and/or mental/cognitive abilities, Weinstein provide the following (and this list is not exhaustive):

- **With respect to cognitive processing, writing, reading, and/or speaking, in the case pending in the 141st Judicial District court alone, Copeland has been able to draft lengthy email communications, draft extensive pleadings (she has filed 47 separate pleadings/motions), inclusive of preparation of exhibits she contends constitutes evidence of various claims/defenses, cite various provisions of common and/or statutory law, communicate with Court staff, appear in person at hearings (October 27 and December 4), and draft multiple sets of discovery directed to Weinstein; in the JP Court Precinct #3 repair and remedy case, she has filed several pleadings “pro se” – to include starting out that litigation in an attempt to file the entire lawsuit as a pro se Plaintiff (which resulted in dismissal without prejudice once the Court was advised of the Order declaring her as a vexatious litigant);**
- Caring for oneself (and others): Copeland explicitly represents to the family law Court as to her “psychological readiness” and states, that she has the “capability to follow the rules and protocols outlined in the Court’s guidelines.” This is in relation to her attempt to modify the decision made by the family law court – in relation to the family law court’s Orders pertaining to custody matters and prohibiting Copeland visits with her children, absent supervision;
- Copeland further submits in support of her request to the family law court, a letter purportedly written by Earl Johnson, PhD. In Dr. Johnson’s report, he states that “Her understanding of her responsibilities toward her children and toward the rules of the court pertaining to her responsibilities toward court orders suggest that she has no impediments to providing adequate parental care. Her psychological status is compatible with having more independent visitation... She has been an excellent client and exercises thoughtfulness, insight, and strong effort to improve her mental and emotional condition. That letter was written in December 2024; however, it would seem that if there had been any significant change in her physical, emotional, psychological and/or cognitive abilities since that time, a healthcare provider would have stepped in to make this known; as such, if Copeland had experience unpredictable and debilitating “flare ups” – this would be a matter that the family

law court would want to be informed about – and/or if a “flare up” can be caused by stressors, it would seem that parenting two young pre adolescent/adolescent girls would present an environment destined to result in debilitating fatigue, exhaustion, etc – and would, therefore, be something to be avoided; instead, Copeland has continued to take issue with the restrictions placed on her by the family law court and its Orders, taking the position she should not be restricted from her children, as currently ordered;

- Therefore, the representations made explicitly by Copeland and by Dr. Johnson on her behalf, contain the implied representations – that as a safe parent able to appropriately care for children without supervision, that she is capable of performing the duties of a parent, inclusive of education, guidance, and decision-making.
- Representing/Advocating for herself: On or about August 14, 2025, Copeland presented a prepared presentation to the Mayor’s Committee on Human Rights for Disabled People (one of many such presentations she has made), complaining of Weinstein and complaining of the Fort Worth Police Department. While Weinstein challenges the validity and/or veracity of statements made during this presentation, Weinstein notes that in addition to drafting long pleadings and discovery and compiling documents she contends are “evidence”, Copeland was and is able to physically appear and present a verbal presentation to the Committee. Similarly – Copeland was able, in the process of this presentation, to prepare the presentation, walk, talk, read, and speak, all without any discernible difficulty.
- Copeland has made in person appearances in the 141st Judicial District Court on October 27 and December 4, and offered to appear in person on October 16, 2025.
- Copeland is able to use various aspects of technology, including ChatGPT, social media, dating applications, word processing software, document manipulation software, such as a PDF application, and conduct covert audio and video recordings of others (such as Weinstein staff and counsel) without their knowledge (which also demonstrates executive planning abilities).
- Copeland has engaged in numerous and repeated governmental agency complaints against Weinstein, to include: to TDLR, the Department of Justice, HUD, the Texas Workforce Commission, the Fort Worth Police Department, and the City of Fort Worth (various agencies, to include Code Compliance);
- On December 8, 2025 – Copeland’s attorney, John Douglas -in the lawsuit Copeland has filed against the amicus (Kelly Decker) from the child custody case – filed a Response to Decker’s Motion to Show Authority (such Motion related to John Douglas’ representation of Copeland and what appears to have been Copeland writing, signing and filing matters under his name, requesting Douglas to therefore, show authority as to his representation of Copeland); Mr. Douglas responded to that Motion by stating that Copeland had:

- Engaged in drafting pleadings, organizing exhibits, and/or drafting discovery;
- the “ability to assist counsel” in “legitimate attorney-client collaboration”;
- researched the legal issues extensively.

As such, Douglas takes the position that Copeland is well able to assist in that piece of litigation and that he is, in fact, dependent upon her analysis, her research, and her drafting skills.

- o Copeland has engaged in extensive hotel rate negotiations at various hotels (for which Weinstein paid);
- o Copeland purportedly engaged in lease communications for a rental property that she was interested in procuring in early December (based upon pleadings she filed in the 141st Judicial District Court case);
- o With respect to Copeland’s mental condition generally, Copeland has not been declared to be non compes mentis, has not sought or been appointed a representative of her person, has not sought or been appointed a representative of her estate, has filed multiple ongoing lawsuits in civil court, family court, justice court, and in federal court which reflect that she is able to participate fully in the litigation process.

Therefore, it is unclear upon what Dr. Huang has based her assertions as to Copeland’s conditions and the effect of same -however, the manner in which Copeland has conducted herself in her life, in representations made to various courts and in pursuing multiple pieces of litigation – is absolutely not consistent with what Dr. Huang has espoused and as such, the December 21, 2025 correspondence is not reliable, nor can it be used to support any claimed need for any type of “accommodation”.

OBJECTIONS TO DR. HUANG’S SUGGESTED ACCOMODATIONS

- Weinstein object that the “accommodations” suggested by Dr. Huang are without factual support – and are conclusory in relation to opining that these are necessary for Copeland to “participate in legal proceedings”. This, again, is based on nothing but what Copeland has apparently said to Dr. Huang. In other words, Copeland’s biased, self serving statements – to attempt to obtain relief to which she is not entitled.

- Weinstein object that Dr. Huang's references to potential "continue to deteriorate" is speculative and without foundation.
- Weinstein object to Dr. Huang's statement as to "prevent her from recovering" – as this is vague and is without explanation or foundation (recover from what?); further it is without foundation as related to how any particular "immediate accommodation" would have this impact (and/or which "accommodation" of the numerous ones sought by Copeland would have this impact/effect- and how/why). This again, appears to be a self serving statement made by Copeland and presumed -adopted by Dr. Huang – but without factual or medical support.
- Weinstein object to each "accommodation" set out by Dr. Huang (on page 2 of the correspondence) as none are based in fact, all are speculative and Copeland's own actions belie the need for any such accommodation.
- Weinstein object that the accommodation suggested as to "essential items", replacement of belongings and housing are not only without factual foundation, do not provide a listing of medical items, is based on events that did not occur and/or which have not occurred, and significantly – are without merit:

If Dr. Huang actually believed that Copeland needed any particular medical equipment, medical item, or medication – she could have (and should have) written an order and/or a prescription for these (she has had since September 22, 2025 to provide this care to her patient – and/or to work with the social worker at UTSW – to obtain assistance and resources for Copeland in this regard.

If Copeland actually "needed" any of this – Dr. Huang should have proceeded to procure this and/or explore services through which Copeland could be given this assistance, either with her own personal, medical involvement (ie prescriptions and orders, working with Medicaid to obtain replacement items, or obtain approval for other necessary items, and/or medications) or through use of the UTSW social work services department. See attached as **Exhibit "G"** on line website information as to this hospital's available social work service support/assistance.

Similarly – as related to "housing", Copeland's lease expired on October 26, 2025 and prior to that time, she was living intermittently in hotels paid for by Weinstein (from July 14, 2025 forward) while occasionally returning to her apartment which she alleged was unhealthy for her – and at times, returning to live there for days at a time; at any point, Dr. Huang could have (and should have) worked with Copeland to provide her resource information for housing assistance – if this was something that Dr. Huang believed to be medically necessary; the DFW metroplex has multiple agencies to assist with this, and again UTSW has its own social work services department to provide resource information.

The December 21, 2025 correspondence does not speak, in any manner, to what Dr. Huang has done for Copeland, to assist in obtaining replacement devices, equipment, items or medications and/or to assist with services to locate housing options (for a person who is

unemployed, apparently is not inclined to seek employment, and has proclaimed she has no income (though note: she has continued her Amazon shopping – as the documents she submitted on December 29, 2025 make clear)). This again, calls into question – the necessity of medical items, medical equipment and/or housing, at this point and makes clear that the correspondence and opinions offered therein, are simply unreliable.

- Weinstein object that Dr. Huang's recommendations as to litigation related "accommodations" are without factual and/or credible foundation. Dr. Huang has clearly not been apprised of the aggressive and relentless approach Copeland has engaged in as related to any and all litigation matters involving Weinstein (filing over 50 pleadings/motions in approximately 3 months – in the District court and JP court repair and remedy case, submitting lengthy and involved exhibits and Orders, declaring "emergency" or "emergent" as to routine matters, in order to avail herself of the Court's "immediate" attention – while depriving Weinstein of the ability to respond in a manner which does not serve to adversely affect Weinstein and/or counsel for Weinstein (Copeland has attempted repeatedly to obtain rulings on contested matters, during designated medical leave and/or vacation times, for opposing counsel). To suggest that Copeland requires – or is entitled to - any special/preferential treatment – when viewing her history of litigation conduct – to include what appears to be concerted strategizing and efforts to file Motions and obtain rulings when she knows lead counsel is not available – is simply without factual and/or legal foundation or support.

Weinstein's objections are timely, specific and thorough; Copeland's proffered correspondence from Dr. Huang should not be considered for any purpose; however, if the Court is inclined to consider the correspondence for any purpose, Weinstein requests: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

III.

WEINSTEIN'S MOTION TO STRIKE DR. HUANG'S CORRESPONDENCE

Weinstein, hereby, move to strike Dr. Huang's December 21, 2025 correspondence, for this Court's consideration, in relation to the December 29, 2025 filings made by Copeland for the following reasons:

As the *Background* section herein makes clear, Dr. Huang either lacks personal knowledge and/or is not qualified to provide any particular opinion and/or recommendation as to the existence of and/or replacement of personal property items, as to the existence and/or extent of any particular mold element in the apartment that Copeland was leasing (lease ended on October 26, 2025), as to any particular causative factor in relation to mold and/or any alleged health ailment Copeland asserts that she experiences, and/or as to any matter/issue that falls outside of her medical expertise (which is limited to physical and rehabilitation medicine). Further, Dr. Huang appears to have relied upon nothing but Copeland's own statements and assertions (which in and of themselves are neither necessarily reliable and/or accurate) and as such, any opinions and/or recommendations she makes lack appropriate foundation. As such, pursuant to Tex. R. Evid 702 and 703, Dr. Huang's correspondence should be struck, in its entirety.

Additionally, as the *Background* section makes clear: Dr. Huang was never identified by Copeland in Disclosures, and Copeland has failed to produce any of Dr. Huang's records- through either disclosures or in response to Request for Production. When Weinstein attempted to obtain the records by subpoena and Deposition on Written Questions, Copeland asserted that she had timely filed a Motion to Quash these records. Though the Motion to Quash was not actually effective as to Dr. Huang's records (ie it did not even mention Dr. Huang), Weinstein graciously agreed to notify its records service and request no attempt be made to obtain the records until a

hearing could be held. Copeland, however, did not initially request a hearing on the Motion to Quash; Weinstein set the Motion for hearing. Thereafter, though the Court did not particularly grant the Motion as to all ordered records, it did set out an involved process by which to obtain the records, which starts with a review by Copeland (only). As of the drafting of these Objections, no records have yet been obtained by Weinstein.

Copeland's attempt to now benefit from the correspondence allegedly written by Dr. Huang (though wholly objectionable on various grounds, as noted herein in the *Objections* section) is in violation of Texas Rules of Civil Procedure 193, 194 and 215. As such, Weinstein moves to strike the correspondence in its entirety.

Weinstein further moves to strike this correspondence as it wholly inadmissible for any purpose: it is not properly authenticated, it is wholly based upon hearsay (ie Copeland's report of events and/or Copeland's version of events – a biased and unreliable witness), it is conclusory, it provides opinions that are based on nothing objective and instead, are only based in conjecture and speculation, it lacks proper foundation, and on the face of the correspondence, appears to contain redactions – which calls into question the veracity of any of the information provided. Weinstein, therefore, incorporates all Objections lodged herein.

IV.

CONCLUSION

Copeland's use of correspondence allegedly/purportedly drafted by Dr. Huang – in support of Copeland's December 29, 2025 filings, is improper.

Copeland did not ever identify Dr. Huang as a person with knowledge of relevant facts, did not produce Dr. Huang's records, did not identify any of the healthcare providers treating the

various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not produce any of the records relevant to the various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not permit Weinstein to obtain Dr. Huang's records and has failed to provide dates for Dr. Huang's deposition.

Further, the correspondence is not credible or reliable – and is objectionable on all the grounds asserted herein. Therefore, the correspondence should be struck from any Court's consideration and should be disregarded in its totality; alternatively, before any particular court determination is made, upon which Copeland uses the Dr. Huang December 21, 2025 correspondence to support, justify or bolster, Weinstein requests that the Court order the following: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang - without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

WHEREFORE, PREMISES CONSIDERED, Weinstein pray that the Honorable Court sustain Weinstein's Objections to and Motion to Strike Dr. Huang's Correspondence and disregard it in its entirety, and for such other and further relief, at law or in equity, both general and specific, to which Plaintiffs/Counter-Defendants (Weinstein) may be justly entitled

Respectfully submitted,

NO. 141-370402-25

WEINSTEIN MANAGEMENT CO., INC. AND WMCI DALLAS X, LLC, Plaintiffs,	§	IN THE DISTRICT COURT OF
	§	
	§	
v.	§	TARRANT COUNTY, TEXAS
	§	
KATHRYN COPELAND, Defendant.	§	141ST JUDICIAL DISTRICT

Defendant / Counter-Plaintiff Kathryn Copeland's Initial Disclosures

1. Correct Names of the Parties

- **Plaintiffs:**
Weinstein Management Co., Inc.
WMCI Dallas X, LLC
c/o Glynis Zavarelli, Wentz & Zavarelli, LLP
3120 Sabre Drive, Suite 170
Southlake, Texas 76092
(469) 665-9100
- **Defendant / Counter-Plaintiff:**
Kathryn Copeland
405 Crawford Street, Apt. 2145
Fort Worth, Texas 76104
(817) 789-8498 | K.M.Copeland@tcu.edu

2. Potential Parties

None known at this time other than those named. Defendant reserves the right to add responsible third parties or additional entities discovered through ongoing investigation, including vendors or insurers involved in the removal or disposal of Defendant's property.

3. Legal Theories and Factual Bases

Defendant generally denies all allegations in Plaintiffs' pleadings and asserts the following affirmative defenses and counterclaims (*see Defendant's Answer, filed Sept. 22, 2025*):

- **Defenses:**

1. **Lack of capacity/authority to sue and real party in interest** (Weinstein Mgmt. Co. lacks ownership standing).
2. **Failure to state a claim;** injunctive relief improper for lack of irreparable harm or inadequate remedy at law.
3. **Prior breach and failure of conditions precedent** under Tex. Prop. Code §§ 92.052 & 92.056.
4. **Failure to accommodate and retaliation** under the **Fair Housing Act (42 U.S.C. § 3604(f)(3)(B))** and the **ADA**, including refusal to provide comparable, disability-safe housing.
5. **Constructive eviction / breach of implied warranty of habitability.**
6. **Unclean hands, waiver, estoppel, and failure to mitigate.**

- **Counterclaims:**

1. **Fraudulent Inducement / Negligent Misrepresentation** – leasing an uninhabitable unit while concealing prior water damage and mold.
2. **Breach of Implied Warranty of Habitability.**
3. **Constructive Eviction.**
4. **Violation of Texas Property Code §§ 92.052, 92.056, and 92.331 (Retaliation).**
5. **Violation of the Fair Housing Act / ADA (Failure to Accommodate, Retaliation).**
6. **Negligence / Gross Negligence** in unsafe maintenance and unlicensed remediation.
7. **Texas Deceptive Trade Practices Act (DTPA)** – misrepresentation of safety, habitability, and remediation.
8. **Conversion and Trespass to Chattels** – unlawful removal and withholding of Defendant's personal property.
9. **Declaratory and Injunctive Relief** – requiring compliance with FHA, ADA, and Texas Property Code.

4. Computation of Damages

Category	Computation / Basis	Supporting Authority
Actual Damages	Exceeds \$50,000 – property loss, medical costs, relocation/hotel expenses, and loss of use.	Tex. Prop. Code §92.056(f)
Statutory Penalties	\$188,288 + continuing daily penalties for violations of Tex. Prop. Code § 92.331.	Tex. Prop. Code §92.331(b)
Treble Damages	For knowing DTPA violations.	Tex. Bus. & Com. Code §17.50(b)(1)
Punitive/Exemplary	For intentional discrimination, retaliation, and malice/gross negligence.	FHA § 3613(c)(1); Tex. Civ. Prac. & Rem. Code §41.003
Attorneys' Fees & Costs	Reasonable fees under fee-shifting statutes.	FHA, DTPA, Prop. Code §92.056(g)

5. Persons with Knowledge of Relevant Facts

Name	Role / Knowledge	Contact Info
Kathryn Copeland	Defendant – firsthand knowledge of all facts.	405 Crawford St #2145, Fort Worth TX 76104
David Quiram	Witness – with Kathryn Copeland when mold was observed again in June 2025.	(214) 784-5874
Central Animal Hospital	Witness – did testing and assessments of Defendant's two Cavalier King Charles Spaniels.	Central Animal Hospital 300 N University Dr Fort Worth, TX 76107-1326 (929) 271-9767
Doggie Digs	Witness – cared for Defendant's two Cavalier King Charles Spaniels from July 2025 onward..	Doggie Digs (817) 703-1327
John Allen Douglas	Witness – assisting Kathryn Copeland with retaliation claims filed in Justice Court.	(945) 544-8650
Sonia (Last Name Unknown)	City of Fort Worth Code Enforcement – citations, water intrusion & moisture reports, and relevant observations of the parties.	City Code Compliance Dept., Fort Worth TX (817) 999-7547
Linda Coy	Enforcement Legal Assistant at Enforcement Division of Texas Department of Licensing and Regulation	Linda.Coy@tdlr.texas.gov Phone: 512.539.5639
Ida Parmer	Investigator IV at Enforcement Division of Texas Department of Licensing and Regulation – confirmed case moved to Prosecution department on 8/30/25.	Ida.Parmer@tdlr.texas.gov
Amye Brochstein	Senior Claims Specialist at Philadelphia Insurance Companies – knowledge of correspondence with parties and actions taken by Weinstein against Defendant.	Philadelphia Insurance Companies (A Member of the Tokio Marine Group) 100 Princeton South Corporate Center, Suite 350, Ewing, NJ 08626 (609) 512-4510 amyebrochstein@phly.com

Megan White	Other tenant suing Weinstein for same conduct; pattern evidence.	(c/o Counsel Christopher Payne, Dallas)
Kodi Walker	Property manager at The Bowery at Southside Apartments	c/o Wentz & Zavarelli, LLP
Jessika Calkins	Area manager for Weinstein Properties	c/o Wentz & Zavarelli, LLP
Pamela Quinn	Assistant Director – Asset Management & Support for Weinstein Properties	c/o Wentz & Zavarelli, LLP
Jose Xolalp	Maintenance worker at The Bowery at Southside Apartments	c/o Wentz & Zavarelli, LLP
J.C. (Last Name Unknown)	Maintenance worker at The Bowery at Southside Apartments	c/o Wentz & Zavarelli, LLP
Any custodian of record		
Any designated expert for the other parties		

6. Documents, ESI, and Tangible Things

Categories in Defendant's possession or control that may be used to support her claims or defenses include:

- **BioTex Mold Assessment Report (June 18 2025)** and lab results.
 - **TDLR correspondence** and emails confirming investigation and prosecution.
 - **Photos and videos** documenting water damage and mold conditions.
 - **Email correspondence** between Defendant and Plaintiffs' agents regarding notices, relocation requests, and remediation.
 - **Medical records** reflecting illness and disability exacerbated by exposure.
 - **Hotel receipts, relocation expenses, and communications with management.**
 - **Affidavit of Kathryn Copeland (Sept. 29 2025)** and attached exhibits.
 - **Plaintiffs' pleadings and emails (Sortor/Zavarelli Sept 27 2025)** conditioning property return on waiver of claims.
-

7. Indemnity and Insurance

Defendant maintains a **State Farm Renters Policy** covering theft, conversion, and additional living expenses (ALE). Claim pending; insurer has denied coverage citing ongoing possession of items by Plaintiffs. Plaintiffs and/or property owners are believed to hold general liability and landlord insurance policies covering mold remediation and tenant losses.

8. Settlement Agreements

None at this time.

9. Witness Statements

Defendant's sworn declaration attached to her **Emergency Motion and Affidavit (Sept 29 2025)** constitutes her current witness statement. Witness statement of David Quiram from June 2025. Plaintiffs' emails (e.g., Sortor Sept 27 2025) function as admissions.

10–11. Medical Records and Bills

Defendant alleges physical and mental injury from toxic exposure and subsequent actions taken by Weinstein and counsel.

Medical records and bills supporting damages are in Defendant's possession and will be produced under HIPAA authorization as required.

Conditions include: neurological impairment, visual and respiratory injury, immune dysfunction, and cognitive decline linked to mold exposure. (See treating physician documentation attached to prior filings.)

12. Responsible Third Parties

Defendant may designate responsible third parties, including:

- **BioTex Environmental LLC (assessment)**
- **ServPro / remediation vendors** hired by Plaintiffs
- **State Farm Mutual Insurance Co.** (coverage denial)
- **Weinstein Properties corporate affiliates** responsible for policy decisions.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025

Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your "children's displacement" (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being "displaced" and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie "derailed" your "legal career trajectory" – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein's claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025
Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025
Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re- arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025
Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand - attempt to elicit verbal communication over the phone - with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

A handwritten signature in black ink, appearing to read 'Glynis L. Zavarelli', with a stylized, flowing script.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above).

December 1, 2025

Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025

Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025
Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence: You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025
Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Alfred Johnson;
- Dr. Nilesh Nangrani
- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In follow up to our hearing yesterday and related matters, I provide the following:

First, see attached – a portion of the Mold Protocol, which references Containment, and states “pack out contents for cleaning”. Please note – no lab testing was performed as to the personal property items. Those items, as you know, were packed and moved to a storage facility, by Reign Restorations. Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you).

Next- please note – all personal property items which were packed and placed in the Reign Restoration storage facility can be returned to you. Therefore, if you would like all stored items moved, please advise and Weinstein will incur the cost of the move. Weinstein will also incur the reasonable cost/expense for a different storage facility (storage unit) to keep the items – through your lease period (October 26, 2025). If you elect to have the items moved to a different storage unit facility, you will need to provide the costs/expenses associated with same (for Weinstein's review, consideration and/or approval [and if that cost/expense is not approved, the items can be moved there, with you bearing the storage fees/expenses associated with same]) and the name of the storage facility (note: “storage facility” and/or “storage unit” and/or “storage unit facility” does not include a rental house or other apartment paid for at Weinstein's expense; this terms refers to a typical storage unit facility – as that term is ordinarily understood). If you locate alternative housing – in light of the upcoming expiration of your lease, at your request, Weinstein will have the items arranged to be moved to that housing (with no agreement by Weinstein to pay any future costs/fees associated with same, other than the cost of the move itself). Until I hear further from you on this decision, the items will remain where they are currently located (as you are aware, they cannot be returned to the apartment – given the potential for cross contamination and impact on the ability to move forward with the remediation of the apartment). Please note – that if you choose

October 3, 2025

Page 2

to have these items removed from the Reign facility, before they are cleaned, and placed in a new environment, Weinstein assumes no responsibility or liability for any future contamination/cross contamination of that new environment (personal or real property) and/or any alleged adverse consequences to your health. This is not asking you to waive any particular claim (you remain able to assert any particular allegation/claim), this is simply to make you aware of what Weinstein's position will be as to these matters.

Next- please identify a time and location that you would like the current remaining contents of your apartment delivered to you on Saturday. We appreciate that the Court has ordered the return within 3 days – and as such, it is important that you cooperate and provide the time and location (it is assumed you would like the items delivered to your hotel, The Worthington, however the Order does not specify this as the location for delivery). If the Worthington is selected as the return location, Weinstein will not leave the items unattended (in the lobby or elsewhere) and will be needing to make sure you receive the items (therefore, Weinstein also will not leave the items with hotel staff- the Order states the items are to be returned to "Defendant"). Your prompt response to this today, by end of day, is necessary so that the deadline identified in the Court's order can be met by Weinstein.

Additionally, on a related matter, please provide the list of sentimental and/or medical items that you believe were packed up (and are currently being stored by Reign Restoration). Once I have the list, Weinstein will provide to Reign, and Reign's staff will unpack your items, search for what is identified (therefore you will need to be specific in the name of each item and identifying information for each item) and if located, return to Weinstein, and those items will then be returned to you, at the location of your choice (note: this unpack and search process that Reign will be going through – will be at no cost to you; Weinstein will incur that expense). To the extent certain items are not located (if that occurs), Weinstein will be requesting, at the appropriate time, your documentation (written or photographic) as to the prior existence of each item which was not located, and to the extent you seek reimbursement from Weinstein for any such item, Weinstein will also request (at the appropriate time) receipts, invoices and/or other related documents and/or will value the property loss as identified by applicable Texas law.

Note: all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

Licensed Mold Remediation Contractor - TDLR # MRC1602, Exp. 04/02/2027

Section 3.0 Containments and PPE

Section 3.1 Containment

Pack-out contents for cleaning. Build a single-stage containment around the affected walls in the bedroom, living room, mechanical closet, and hallway. Establish negative pressure using air scrubbers with CLEAN HEPA-rated filters. **Vent outside through a window to remove organic vapors.**

Place air scrubbers outside the containment to clean up contamination from scattered mold spores.

Maintain 4 air changes per hour.

Utilize dehumidifiers to maintain humidity between 30-50% Rh.

Seal HVAC supply vents and/or return air vents in remediation area(s)

Signs advising that a mold remediation project is in progress shall be displayed at all accessible entrances to remediation areas. The signs shall be at least eight 8 inches by ten 10 inches in size and shall bear the words "NOTICE: Mold Remediation Project In Progress" in black on a yellow background. The text of the signs must be legible from a distance of ten 10 feet.

Section 3.2 Personal Protective Equipment (PPE)

Minimum PPE

FULL PPE REQUIRED

Gloves

Disposable Full Body Clothing

Head Gear

Foot Coverings

Full-Face Respirator with HEPA Filter

The remediation contractor shall insure that OSHA appropriate personal protective equipment (PPE) is worn while remediating all containment areas.

Use professional judgment, consider potential for remediator exposure and size of contaminated area. Contractor assumes all responsibility for PPE compliance.

The EPA Guidelines for Remediation of Building Materials with Mold Growth by Clean Water requirements for PPE should be followed. The complete table is included at the end of this document in U.S. EPA Cleaning Methods, Table 2.

Note: Professional judgment should always play a part in PPE decisions. The EPA guidelines are based on the total surface area contaminated and the potential for remediator and/or occupant exposure, not on the basis of health effects or research showing there is a specific method appropriate at a certain number of square feet. The guidelines have been designed to help construct a remediation plan. The remediation contractor will then use professional judgment and experience to adapt the guidelines to particular situations.

Via Email and E Serve

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In response to your late night email of yesterday, I provide the following:

First- my October 3 correspondence did not say that you had rejected the cleaning/remediation of the personal property items, it specifically said:

".... Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you)."

Next- in response to your inquiry and request for confirmation that the items removed by Reign have not been cleaned, or treated- as I said in the October 3, 2025 correspondence- they have not been. I have confirmed that with Reign. With respect to whether items were disposed of – I have been informed that the only items that were disposed of were the contents/items in the refrigerator. The refrigerator was cleared out before it was removed to Reign's storage facility. Reign has indicated that it did not see/recognize any type of medication in the refrigerator or freezer when clearing out the contents. With respect to the medications you assert were being stored in the refrigerator or freezer, please provide the specific name of each, the prescribing physician/healthcare provider, and the cost associated with same (and proof of payment).

Next- please refer to my October 3 correspondence regarding the personal property items which were packed and placed in the Reign Restoration storage facility and the ability to return same to you.

Next, as the emails I sent on Friday, on Saturday and on Sunday made clear, the items that were remaining in your apartment and which the Court ordered be removed and returned to you – were too many/extensive to send to your hotel and/or comfortably move into your hotel room (and as you know, you never provided a date/time for even the boxes of medications and the humidifier to be returned to you personally). Therefore, all of these boxes and items (to include

October 3, 2025

Page 2

the three flat screen televisions were moved into the storage unit at the apartment complex (which both I and the management staff emailed to you about on Sunday, providing the number of the unit, the location in Building 2 and instructing as to access of the key for this storage unit). With that said – these boxes and items can also be moved to Reign Restoration for storage, and cleaning (at the appropriate time) and, therefore, if you would like these boxes and other items moved there – please advise and Weinstein will incur the costs associated with the move and the costs associated with cleaning those items, at the appropriate time. **Again, none of your property will be cleaned or treated at this time.**

With respect to the “list” of various items, you sent on last night’s, late night email – please note that the list of the items which you consider to be medical and/or sentimental needs to be completed and provided to me, before Reign is instructed to unpack, sort through and locate your identified items (the Court did not order anything regarding “items needed soon” and/or or “personal items”- the order was confined to medical and sentimental) so that this can be efficiently accomplished. Additionally, while I appreciate your attempt to identify items by “page numbers” from filings my office made last week – please confirm that “filing” that you are using as a reference by which to identify page numbers – is the Plaintiffs’ Response to Defendant’s Emergency Application (it appears to me that it is this particular filing); please note - in reviewing that document and trying to locate certain items –some are not readily identifiable in the photographs, therefore, please circle the items and send me those pages – so that Reign has a clear understanding of what to locate and return. While I do not believe a bedside table is considered “medical assistive equipment” – I am not opposed to requesting this to be located by Reign, however, I am opposed to the list (once completed) far exceeding medical and/or sentimental items. The sooner you can provide the complete list, the sooner Reign can unpack, locate and make arrangements to return those located items to Weinstein (and then to you, assumedly at the hotel where you are currently staying – which will require a confirmed date/time that you can meet Weinstein staff in your hotel lobby to personally receive the items, and this will need to be scheduled prior to the day of the delivery-so as to have some clarity as to the logistics necessary to accomplish this task and the ability to organize and schedule personnel for the completion of delivery, accordingly).

Note: as before - all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

Glynis Zavarelli

Sent: Friday, October 3, 2025 2:59 PM
To: Katie Copeland
Cc: Michelle Sortor
Subject: Re: Weinstein v. Copeland

Ms Copeland-

The apartment contents are fairly extensive (as you know the court directed that every drawer and cabinet be checked- and many items were found in sealed cabinets or drawers), and there were some already boxed items located in the living room as well as several large trash bags- labeled with red tape. Additionally, there are also three large flat screen televisions (these are being packed in television boxes) and mounts, dishes, food items, and small kitchen appliances. There were also several boxes of items in the entry way closet- that look like maybe something you had packed and perhaps moved there, at some time.

All medications and/or what appear to be potential medical items (pulse ox, portable BP cuff, bandages, humidifier) - are being boxed with appropriate identifiers ("medications").

It appears that there will be more than 20 boxes. A picture will be taken of all boxes, bags and items.

I am uncertain as to how all the boxes, items and television sets will fit into your hotel room - and or do so comfortably for you. Therefore, we have secured a large storage unit here at the apartment complex to store all items in - should you choose for them to be moved there. This storage unit will be at no cost to you, and we can deliver all boxes labeled "medications" and the humidifier, to the hotel- once you tell us what time to do so; we can do this, this afternoon by 4 :30 or 5:00 pm . We have also located a couple of photos of your children and what looks like perhaps a craft that was made by them (I'm not sure) - but we can deliver those items as well (this afternoon) and with your direction move the remaining boxes, televisions and other items to the on site storage unit. You can access these items freely whenever you choose. Weinstein is also trying to get the key made for this storage unit right now - and if made by 4:30 or 5 pm can be delivered to you today at the hotel, as well.

Please respond and indicate whether you want everything brought to the hotel (and if so- what time - today or tomorrow) or would like to pursue the above identified plan regarding use of a storage unit and delivering certain boxes or items to the hotel.

Thanks-
Glynis Zavarelli

Ms Copeland-

I did not hear from you.

Staff have been released.

All boxes and items that were in your apartment have been moved to storage unit S18, 4th floor of building 2 (your building) - next to Apartment 2431. This storage unit is being provided to you at no charge, for the duration of your lease term. You will need to arrange for these items to be moved out of the storage unit on or before the day your lease expires.

Email to follow from apartment management providing you the PIN code for the lockbox that contains the storage unit key. The lockbox will be affixed to the leasing office exterior door handle.

Note- the boxes containing medication and or mix of medications and sentimental items, as well as the humidifier are at the entry of the storage unit stacked to the left, as you walk into the storage unit, and are clearly marked.

Thank you-

On Oct 4, 2025, at 6:01 PM, Glynis Zavarelli <gzavarelli@wandzlaw.com> wrote:

Ms Copeland-

I still have not heard from you. Therefore- here is the plan:

Staff are available between 3 and 5 tomorrow to move your items and boxes into the on site storage unit(s). Therefor- All items and boxes will be moved there - absent your confirmation that you will be personally available at the hotel to receive the several boxes of medications, the humidifier and the box of mixed items- medications and sentimental items. If you indicate you want those boxes brought to you at the hotel, that will be accomplished - if you tell me that before 4:30 tomorrow. Otherwise, again, those boxes will also be stored in the on site storage unit(s).

Please note with respect to the keys to the on site storage unit(s), a lockbox will be set up for you and will be located at the leasing office, on the exterior doors - and you will be emailed information, from Andrea Meza (management) - providing the PIN code for the lock box - and the storage unit(s) number. This will all be accomplished for you by 5:00 pm tomorrow.

The above course of action is not subject to change or modification. The staff are being called in specifically (on a Sunday) to do this work and therefore, their personal schedules/commitments are being impacted.

I look forward to hearing from you before 4:30 tomorrow regarding the medication boxes and humidifier (ie whether you want them delivered to the hotel- between 4:30 and 5:00 pm- and with the assurance you will be there during that window of time to receive; the staff will not wait at the hotel past that time). Again if you do not indicate before 4:30 pm tomorrow you want these delivered to the hotel- they will be placed in the storage unit(s).

Thank you-
Glynis Zavarelli

Ms Copeland-

You asked for all communications to be in writing—I was respecting that request. And I sent multiple emails yesterday- throughout the day. Significantly I note you have not responded to my inquiries below- so:

Please advise if you want the medication boxes and the box that has a mixture of sentimental and medication items as well as the humidifier delivered to your hotel this afternoon - with a specific time that you are available to receive the items personally- we can meet you in the lobby and you can use a luggage cart or - the boxes can brought to your room directly (and we can also bring the storage unit key to you as well)-and have the rest of the boxes, televisions, and other items moved to the storage unit on the apartment property (again there is such a large amount of boxes and other items- including the television sets- that it would likely not be comfortable for you in the room- assuming the hotel would even permit all of those items to be brought to one of its hotel rooms). Alternatively- we can have all items and boxes moved into the storage unit on site, and just bring you the key.

Please respond as to what you prefer; I need to have time to make the logistical arrangements for the delivery of boxes (and storage unit key) and, move of items with the apartment staff. If you would prefer to consider this further, and let me know tomorrow which you prefer- please let me know

that within the next hour (I have other plans today as well and have already delayed those to be able to get this taken care of). If you elect for the items I have noted (medication boxes, humidifier) to be delivered to your hotel tomorrow (along with the storage unit key)- I will need a specific time before 5 pm that you will be available personally to receive.

Thank you-

Glynis Zavarelli

Ms Copeland-

I am following up on the below.

If I have not heard from you by noon- I will have the Weinstein staff move the boxes and items from the apartment into the storage unit on site, this afternoon. I will update you once they have been relocated there. We will then need to arrange for a time that the key for the storage unit can be delivered to your hotel- and given to you personally.

Thanks-

<gzavarelli@wandzlaw.com> wrote:

Ms Copeland-

The apartment
contents are fairly
extensive (as you
know the court
directed that every
drawer and cabinet
be checked- and
many items were
found in sealed
cabinets or
drawers), and there
were some already
boxed items located
in the living room as
well as several large
trash bags- labeled

with red tape. Additionally, there are also three large flat screen televisions (these are being packed in television boxes) and mounts, dishes, food items, and small kitchen appliances. There were also several boxes of items in the entry way closet- that look like maybe something you had packed and perhaps moved there, at some time.

All medications and/or what appear to be potential medical items (pulse ox, portable BP cuff, bandages, humidifier) - are being boxed with appropriate identifiers ("medications").

It appears that there will be more than 20 boxes. A picture will be taken of all boxes, bags and items.

I am uncertain as to how all the boxes, items and television sets will fit into your hotel room - and or do so comfortably for you. Therefore, we have secured a large storage unit here at the

apartment complex
to store all items in -
should you choose
for them to be
moved there. This
storage unit will be
at no cost to you,
and we can deliver
all boxes labeled
"medications" and
the humidifier, to the
hotel- once you tell
us what time to do
so; we can do this,
this afternoon by 4
:30 or 5:00 pm . We
have also located a
couple of photos of
your children and
what looks like
perhaps a craft that
was made by them
(I'm not sure) - but
we can deliver those
items as well (this
afternoon) and with
your
direction move the
remaining boxes,
televisions and other
items to the on site
storage unit. You
can access these
items freely
whenever you
choose. Weinstein is
also trying to get the
key made for this
storage unit right
now - and if made by
4:30 or 5 pm can be
delivered to you
today at the hotel,
as well.

Please respond and
indicate whether you
want everything

brought to the hotel
(and if so- what time
- today or tomorrow)
or would like to
pursue the above
identified plan
regarding use of a
storage unit and
delivering certain
boxes or items to the
hotel.

Thanks-

Ms Copeland-

It is misunderstanding you have not yet picked up the key for the onsite storage unit and I am unclear if you ever plan to but wanted to point something out:

Re packing up your apartment and placing in storage in the on site storage unit: I wanted to make sure you understand that the items that were removed from the sealed cabinets and drawers were exposed briefly to the air in the apartment before being placed in a box and sealed (and all other items which were there and not behind sealed doors/drawers- have also been exposed to the air in the apartment).

Again- as I indicated in my correspondence of yesterday- if you would like all the items and boxes in the storage unit moved to the Reign Restoration facility and cleaned, this can be accomplished.

Thank you-

Subject: RE: Weinstein v. Copeland

Ms. Copeland:

I am following up on the correspondence I sent on Monday, and in particular seeking the **complete list of medical and/or sentimental items that you would like for Reign to locate**. I have also asked in Monday's correspondence for clarification/confirmation as to page references for filings that you have pointed to – by which to locate items, and for items to be circled as I cannot decipher from the photographs all items referenced. If it would be easier/more efficient – **once you send the complete list- and confirm the page number references- ie confirm from which filing these page references correlate**– I will go through the list and corresponding page number references, review the photographs and attempt to locate each item, and for those that I cannot readily identify- I will send you a list of those particular items, with the photographs attached- so that you can circle those items on the photograph and send me back the circled items (and note: if the list you sent a few days ago is now considered by you to be the complete list- please tell me that, and please confirm the citing for the page references from the filing, and I will review the items noted, the page references and photographs, and determine what cannot be identified, and then follow the procedure I have offered).

Moving forward- please respond to requests such as this – so that I can handle this efficiently; also, please email me/my office/my staff during regular business hours (as you do with Court staff), so that we do not miss your emails.

I have copied Mr. Douglas to this email given your recent reference to the small claims court case he filed on your behalf – when emailing with the Court Coordinator this afternoon, on our pending District court case.

Mr. Douglas: I have tried for almost two months to speak with you and you have never answered the phone nor do you return my calls (more recently – I called on September 19 and left you a vm, and have called several times over the last couple of days and did not leave a vm for these most recent attempts to contact you, because frankly- I am concerned about who has access to the vm). Please email me a time tomorrow, Friday or Tuesday (I will not be available on Monday) that will work for you for a phone call on various matters. Additionally, as I have requested before – please update the State Bar with current contact/employment information and provide an update as well to the small claims court- if the address and/or phone number you provided when you filed the case is no longer current (it is my understanding you may have moved from the address that you are showing on the small claims court case filing; if so – you are required to provide the court and all counsel with current contact information). As with Ms. Copeland -please refrain from emailing me/my office/my staff late at night or in the early morning hours (ie before 7:30 am)-as I do not want to miss your email.

Subject: Re: Conference

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli
Sent from I phone

On Oct 10, 2025, at 8:11 PM, Copeland, Katie <K.M.COPELAND@tcu.edu> wrote:

Dear Ms. Zavarelli,

Thank you for your message. I want to note that I have a documented **brain injury and significant vision impairments (including binocular dysfunction)** that were **caused and/or exacerbated by prolonged toxic mold exposure**. These conditions substantially affect my ability to read dense text, analyze and process information quickly, and manage multiple emails. It has been especially difficult without my medications and I cannot afford to replace them all so I have been having to adjust to changes, which have led to cognitive overwhelm happening more often and for longer time periods.

Accordingly, I respectfully request that future communications be **consolidated and written in clear, bulleted form where possible**, so I can review and respond accurately. This is a reasonable accommodation under the ADA and will help ensure effective communication between us.

Regarding your request:

- I am unsure whether the list sent Sunday evening is the complete list or if additional items need to be added. I am not sure what you mean about complete and whether the items can be cleaned. That is why I need your response regarding testing my items for contamination. I noticed an invoice where it said testing was done, but then you said it was not tested. I am confused since you told the court my items were contaminated and that is why they were taken.
- I just sent 3 emails with the documents showing the items and the page references you requested.
- You indicated earlier that you are opposed to me have counsel appointed by the Court. Can you provide some insight as to why you do not want me to have an attorney? I am unsure of how to proceed if you are not agreeable to resetting the hearing date or for me to have appointed counsel appointed. As it is, my cognitive and communication-based disabilities prevent me from full and meaningful participation in the proceedings.
- My understanding of the last proceeding varies greatly from what was entered as a TRO against me and I am unclear on how none of the rulings granted to me were included in the order. As a result, I am unclear of what is even set for hearing on the 16th and why it is necessary. Can you please explain?

Thank you for your patience and cooperation. I remain committed to working in good faith and ensuring that all information is clear and accurate. However, it is unpredictable when my health will allow me to respond to pleadings and emails, so I am not able to commit to keeping emails during business hours.

Perhaps if we could settle the retaliation claim pending in the justice court, then I could obtain counsel to assist in the upcoming hearing. Or if we could reach some other kind of agreement, I could get treatment needed to improve my cognitive function. For example, the medications that were in the fridge were a few hundred dollars and are necessary to reduce inflammation in my body & brain.

How do you propose we make me whole enough to participate while I do not have a lawyer, per diem support, funds for treatment and replacement of missing items?

Sincerely,

Katie Copeland

Ms. Copeland:

See attached – the TRO entered by the Court, which also sets the Temporary Injunction for hearing tomorrow. Please review the pleadings previously filed. Additionally, we will be submitting a proposed Order for this, you will receive this through Efile/Eserve; once you review, if you are in agreement with the terms, please advise via email.

As to mediation and your perspective – this is unfortunate.

As to Mr. Douglas – I have not made any “accusations” – I have pointed out that he has consistently not responded to me through the course of almost two months and this is not productive. Specifically here is what I wrote yesterday:

Mr. Douglas – I encourage you to respond to me. I have called again today and left a vm; called several times in the past few days, you did not answer, and I did not leave a vm, Your lack of response to me over the last almost 2 months – particularly given that you filed the lawsuit against Weinstein, and have sent various emails making allegations/threats and/or referencing future additional litigation (noting your September 16 email indicating your intent to file a federal court case against Weinstein and requesting a TRO – as the most recent example), and given that I have been suggesting mediation since August 26 (with an offer to pay Ms. Copeland’s portion of the mediation fee) with no response from you- is wholly non productive.

I stand by this.

Ms. Copeland:

I have not said that you have wholly refused cleaning – and I have made that clear – in prior communications; I have said that at this time you have requested no cleaning be performed – which you did – on numerous occasions. You have also repeatedly asked me to confirm no cleaning has yet taken place and I have provided you that confirmation. If you would now like to have Reign move forward with the cleaning, please advise and I will let them know.

I have told you that testing was not done of individual personal property items – but testing was done of the apartment and pursuant to which a new mold protocol was prepared. I have sent you the portion of the mold protocol which references your personal property.

As to packing done by Weinstein -that was accomplished on October 3, given the Court's order that any items left in your apartment were to be returned to you, within 3 days. I sent you numerous emails that day (and follow up emails over the weekend) about the amount of items that remained in the apartment, and/or size of some items – and as you know, you are now being provided an additional storage unit on site- at no cost to you , to store those items (and you had been offered – throughout October 3-5 for certain boxes to be delivered to your hotel at an agreed time – and you never responded to those emails). As to packing done by Dedicated Mold- they did not move those items (boxes and bags) out of the apartment, these were moved into the storage unit on the 4th floor by Weinstein staff (on October 5 – as my multiple emails leading up to that point – had discussed).

With respect to the front entry area, have you returned to the apartment after the October 2 Order was entered?

Please note – the apartment will likely not be readied for occupancy, before your lease expires on October 26. If that changes I will advise you accordingly. However, please note: all items being stored in the storage unit that you had been using in association with your apartment, and the items being stored in the additional storage unit on the 4th floor of your building- will need to be removed by the time your lease expires.

I have no information to provide regarding relocation and/or medical expenses and frankly am confused by your request for an “update” with respect to “reimbursement”.

Thank you -

Subject: Re: Conference

Dear Ms. Zavarelli,

I'm writing to clarify a few ongoing points of confusion.

I'm not sure why you've stated that I requested no cleaning be done. What I've actually asked for are details about how contamination is determined, what testing was performed, how it is done, and how decisions are being made about which items can be cleaned or must be discarded. You previously indicated that no testing was done, yet you also told the Court that my belongings were contaminated. That contradiction has left me unable to make informed decisions about my property.

It's also concerning that at least three different entities—Weinstein, Dedicated Mold, and Reign—were involved in packing and removing my belongings. I never gave consent for removal, and the unit was not ready to be packed. If I contact those entities directly, I expect they will say Weinstein authorized the action. Can you please confirm who specifically directed them and under what authority?

I also noticed an invoice referencing testing from the apartment, but I have not received those results. Please provide a copy of the findings. They are medically significant and necessary for understanding the extent of exposure and appropriate next steps for my treatment.

Finally, the front entry area that tested positive for black mold has still not been remediated. Can you explain why no remediation plan or work has been initiated in that area?

I also need an update on reimbursement for my relocation and medical expenses. The continued delays and lack of cooperation are prolonging my displacement and increasing damages.

Thank you,

Katie Copeland

Ms. Copeland:

We are opposed to the below request.

Additionally, as before, please email me/my office staff during normal business hours, as you have been doing with the Court staff. This will help to avoid any emails getting lost/buried.

I have also noted that you have not yet responded to my correspondence of Monday and my follow up email on Wednesday, requesting the complete list of items that you would like Reign to locate – or clarifying that you have determined the list you sent Sunday night (close to 10 pm) has been determined by you now, to be the complete list. I would also like you to confirm which filing you were/will be using (for the list you provided late Sunday night and for the “complete” list to the extent Sunday night’s list is not complete) to provide page numbers from which you were identifying items, so that as I discussed – I can get back in touch with you if even with a page identifier, the item itself is not readily identifiable (in which case I have indicated I will request further assistance to make sure the item is identified and Reign has complete instructions as to what to search for).

Thank you –

Subject: RE: Conference

Ms. Copeland:

Please see attached a copy of the photographs with red circles – you provided to us (from Part 2 and Part 3 of what you sent to us [no photographs for part 1 were circled]). I have emailed these attachments to Reign. Reign confirmed receipt of the email and attachments and contacted me to obtain and/or provide some clarification as to certain circled items (and was able to pull up their own photographs – which are better able to be visualized – than some of the photographs the attached “Copeland- circled items, search and return, Part 3” – given the scan, rescan nature of the attached).

Provided below is what Reign needs assistance with to understand what specifically to search for/retrieve- all from the attachment: “Copeland -circled items, search and return, Part 3”:

- Page 5 of this attachment; circled item that appears to be a plastic container (please confirm);

- Page 5 of this attachment – what specifically is circled on the bed that you are requesting be pulled and returned (please identify this item by name);
- Page 6 of this attachment – what items on the bed within the circle are you wanting pulled and returned (please identify these items by name);
- Page 7 of this attachment – bedside table and items: are you wanting the bedside table pulled out and returned, as well as the items on the table; please clarify;
- Page 8 of this attachment – are you seeking the guitar and the dog crate/dog bed (both; if not both- which do you want pulled out and returned);
- Page 9 of this attachment – what is the blue item in the circle – please identify by name if this is something you are wanting to have pulled out and returned;
- Page 10 of this attachment – do you want the books and the container on top of the books both pulled and returned, or just the books, just the container- please clarify this;
- Page 11 and 12 of this attachment – appear to be the same item circled; and this appears to be a case for something – please confirm;
- Page 14 of this attachment – do you want all the items contained in the circle with the electrical cords- pulled and returned – please clarify;
- Page 16 of this attachment- do you want the table/structure that the photographs are sitting on – in addition to the photographs- pulled and returned- please clarify

With respect to the attached Part 3 photographs, Reign indicated that the following were not packed by Reign:

- Any medications (some are circled on page 5 of this attachment)
- Any jewelry (to the extent those items hanging from the wall shelf -circled on page 4 of this attachment, are jewelry of some sort);
- The counter items on page 2 of this attachment (tea kettle and other items);
- The items at the base of the candy bowl- on Page 15 of this attachment – and the circled medicine/supplement jar.

Please note jewelry items were located in the master bath linen closet, as were numerous medications – those are all visualized in the photograph you took as well as in one of Reign’s photographs. Those items – jewelry and medications located in your apartment – in the master bath linen closet, as well as medications/supplements in the kitchen area – were all packed by Weinstein and those boxes are being stored in the additional storage unit provided to you, located on the 4th floor of your building (as the emails sent to you over the weekend of October 4-5 indicate). Certain kitchen and/or kitchen counter items were packed by Dedicated Mold and placed in a sealed boxed -labeled as “kitchen contents”, “counter contents” and/or “kitchen and counter contents” and those too are located in the storage unit on the 4th floor of your building (again, as previously referenced). As previously indicated this 4th floor storage unit is being provided to you through your lease term (October 26) and at no cost to you. Once your lease expires, you will need to move these items out of the storage unit.

I have also asked Reign to locate the AT&T equipment you previously referenced and pull that out, for return, as well.

Please provide the clarification requested above – by Friday afternoon; Reign will be able to start going through the contents and pulling out items – on Monday/Tuesday of next week and expects the project will take two days. Therefore, please also use this time to confirm with The Worthington that any large items (such as the bedside table, or any other larger items you have identified- dog crate, dog bed, etc) are permitted to be delivered to the hotel. If not- then please identify where you would like those items delivered. Again, no cleaning has taken place as to any items being stored by Reign (this is at your request, as you know).

Thank you –

Subject: Re: Conference

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli

Subject: RE: Conference

Ms. Copeland:

Following up on the below (to include email sent to you on Tuesday).

Once the requested clarification is received, this will be provided to Reign and it can begin to unpack the contents from the apartment and search for the items you have requested. My understanding is that they are currently available and able to do this work beginning on Monday or Tuesday (October 20 and 21) but will need to receive the information requested, as to clarification, by Friday afternoon (ie before 5 pm). I will not be available and/or able to communicate with Reign Friday evening/night or over the weekend, and will be in a deposition all day on Monday; therefore, it is important for you to communicate promptly about this, if you would like for Reign to work on this, early next week.

With respect to the other items you indicated you would like returned, and which were not packed by Reign- I have provided you the information as to the location of these items – and you are able to access those at your convenience.

With respect to the patio items, as you know, they were not moved from the patio. Would you like those to be removed from the patio and placed in the storage unit that is being provided to you (at no charge) on the 4th floor of Bldg 2; there is not a lot of room there, but these items will likely fit. Please advise.

Thanks-

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025
Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your "children's displacement" (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being "displaced" and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie "derailed" your "legal career trajectory" – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein's claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025
Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025
Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re- arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025

Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand – attempt to elicit verbal communication over the phone – with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

A handwritten signature in black ink, appearing to read 'Glynis L. Zavarelli', with a stylized, flowing script.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items -and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above).

December 1, 2025

Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025

Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025

Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence; You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025

Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Alfred Johnson;
- Dr. Nileshe Nanrani
- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

Sincerely,

Glynis L. Zavarelli

Subject: RE: Required Accommodations Following Today's Hearing

Date: Thursday, December 4, 2025 at 3:34:25 PM Central Standard Time

From: Glynis Zavarelli <gzavarelli@wandzlaw.com>

To: Copeland, Katie <K.M.COPELAND@tcu.edu>, Michelle Sortor <msortor@wandzlaw.com>

[EXTERNAL EMAIL WARNING] DO NOT CLICK LINKS or open attachments unless you recognize the sender and know the content is safe.

Ms. Copeland:

Judge Chupp did not order (direct, or instruct) Weinstein to provide you continued lodging (to "house" you), per diem monies, or any of the other demands you have made in this email and he did not say what you have stated below was said. In fact, he made clear that your continued efforts to argue other matters – unrelated to the hearings that had been set (the Special Exception and Motion to Quash regarding records) were not being heard today.

The Court did not comment on the validity of the claims/causes of action you have asserted with respect to the alleged violations of the Fair Housing Act (ie whether the Federal or Texas FHA are applicable at all under these facts and circumstances and/or whether you are entitled to any particular type of accommodation). The Court did not comment on your assertion that you continue to have a valid lease (ie that the non renewal of your lease is void) and/or that any act of retaliation was committed against you. Weinstein denies any retaliatory conduct (whether alleged in the original small claims court case, the District Court case or to the extent you are alleging this in the newer repair and remediation case). The non renewal provided to you on August 26, 2025 was appropriate- and your lease expired on October 26, 2025. The Notice to Vacate, issued in November, was also appropriate. Your refusal to remove your personal property items and return access devices, is not appropriate.

Your most recent Motion regarding accommodations is scheduled to be heard on December 12, 2025.

With respect to your personal property items, you have been told repeatedly: with respect to the items which are at the Reign facility, these can be returned to you (Weinstein will pay to transport the items) at whatever location you direct, or they can be cleaned (at no cost to you) but until you authorize cleaning – none will be done. These have been your options since October 3. With respect to the personal property items at the apartment complex (two storage rooms and balcony) – these need to be removed (and you have been told that the items in the 4th floor storage room – can be transported to Reign (Weinstein will pay for this) to be held there, for future cleaning. With respect to medical items you have now indicated you need (noting you stopped corresponding with me about items being held by Reign, which were either medically necessary or sentimental and which you would like

Reign to retrieve and return to you – on October 14, 2025) – please identify those with specificity –by responding to my October 14th email (re sent to you on October 15). Once identified – arrangements will be made to deliver those to your present location (once you identify that).

As to mediation – as I have indicated to you via email/correspondence and today at court- I remain interested in scheduling this at the appropriate time. However, your identified conditions for such to get scheduled, make mediation not feasible. Therefore, if you change your position on this – let me know.

Finally- do not continue to include Weinstein on your communications to me (and/or do not communicate with Weinstein directly). This is improper.

Subject: Required Accommodations Following Today's Hearing
Importance: High

Counsel,

At the hearing this morning, the Court expressly instructed Plaintiffs to **follow the law** with respect to all Fair Housing Act, Texas Fair Housing Act, and disability-accommodation obligations. I am proceeding on the assumption that Plaintiffs intend to comply fully with that directive.

As you know, the uninhabitable condition of the unit, my displacement, and the handling of my belongings trigger obligations under **42 U.S.C. § 3604(f)(3)(B)**, **42 U.S.C. § 3617**, and **Tex. Prop. Code §§ 301.025, 301.152, and 92.331**. Because the nonrenewal notice was issued while I was displaced and during ongoing

accommodation requests, it is void under **Tex. Prop. Code § 92.331**, which prohibits adverse actions taken within six months of protected activity. Accordingly, I retain **superior right of possession** unless and until lawful accommodation and remediation procedures are completed.

Additionally, the Court has indicated its willingness to appoint counsel for me under **Tex. Prop. Code § 301.152** and **42 U.S.C. § 3613(b)**. I have submitted a proposed order appointing the Director of the **Texas A&M Civil Rights Clinic**, a specialist in federal civil-rights and Fair Housing Act litigation. The Clinic's involvement underscores the seriousness of the FHA, ADA, and retaliation issues now before the Court.

As this matter is moving into the civil-rights enforcement phase, I am copying the appropriate representatives for Plaintiffs and their insurer to ensure clarity regarding the Court's directives and the statutory obligations at issue.

In light of the Court's instruction, I am requesting the following reasonable and time-sensitive accommodations:

1. Immediate Temporary Housing

Please arrange safe ADA/FHA-compliant temporary housing **no later than December 5**.

I am evaluating the rental property at 3841 Englewood Lane, Fort Worth, TX 76107, which becomes available after the current tenant moves out on Sunday. If this property is agreeable as a temporary accommodation, I can proceed promptly.

If Plaintiffs prefer to arrange an alternative, a short-term rental such as an Airbnb with a yard or fenced outdoor space would be appropriate. Given my disabilities and the presence of my two dogs, a hotel is not a medically suitable or safe long-term environment. An FHA accommodation must be both safe and functional for my disability-related needs.

In addition, due to my medical conditions and the documented mold exposure, I require a **HEPA + activated carbon air purifier** in any temporary housing to stabilize respiratory and neurological symptoms. This is a medically necessary, disability-related accommodation and is consistent with FHA/ADA requirements for environmental health modifications.

This is consistent with the Court's directive that I be housed lawfully while remediation proceeds.

2. Per Diem and Displacement Expenses

Given the prolonged displacement and my medical conditions, please confirm that Plaintiffs will provide **per diem** for food, transportation, and basic living expenses until housing is secured and stable. This is standard practice in displacement cases and is necessary for my health and safety.

3. Licensed Handling of My Belongings

Please confirm that all of my belongings currently being held will be transferred to a **licensed mold-remediation contractor**, consistent with Texas Occupations Code Chapter 1958. No item should be discarded, altered, or released without notice or a complete inventory.

As the Court stated, the parties must follow the law, and that includes lawful handling of contents by licensed professionals.

This request is urgent because several items in storage are **medically necessary for managing my conditions**—including my heated vest, red light therapy device, pain management tools, and other assistive devices that I rely on during neurological and autonomic flares. I need access to these items immediately to stabilize my health.

4. Transparency and Notice Regarding My Unit

Because the nonrenewal is void and I retain superior right of possession, please keep me informed of:

- the remediation schedule;
- contractor identities;
- any clearance testing; and
- when the unit is legally safe for reentry.

This is necessary for coordination with my medical providers and for compliance with FHA/Texas FHA obligations.

5. Mediation After Stabilization

Once I am temporarily housed, medically stable, and my belongings are secured with a licensed contractor, I am willing to participate in mediation. The Court acknowledged today that this case involves significant damages, and mediation will be more productive once I am out of crisis and able to participate meaningfully. I am open to discussing availability for scheduling if you wish to send me dates.

6. Repair & Remedy Proceeding (December 9 at 11:30 AM)

If Plaintiffs wish to come into full compliance with their habitability and accommodation obligations before that hearing, I am willing to streamline or resolve that proceeding voluntarily once safe housing, licensed contents handling, and stabilization are in place.

If these issues are not resolved beforehand, I will proceed with the R&R case as scheduled. Any findings in that proceeding—including habitability violations, breach of duties, or damages—will necessarily be incorporated into the ongoing district court matter.

7. Court Intervention if Needed

If Plaintiffs are willing to implement these accommodations by **tomorrow, December 5**, there will be no need for additional motions or further court involvement at this time.

If not, I will seek whatever relief is required to ensure full statutory compliance with the Court's directive.

My goal is to resolve the housing and displacement issues cooperatively so all parties can focus on the merits and prepare for mediation in due course.

Please confirm by the end of today (**6:00 PM**) whether Plaintiffs intend to comply with these accommodation requirements. If I do not receive confirmation, I will inform the Court so that appropriate relief can be requested.

Sincerely,

Katie Copeland

Social Work and Case Management

Patients at UT Southwestern Medical Center are in good hands in every aspect of care, medical and otherwise. Case managers are assigned to each inpatient care area. They're trained to help patients and family members address financial, social, and emotional problems related to illness or hospitalization.

Case managers also help patients and families cope with long-term illnesses, rehabilitation, and discharge planning. They can assist with arrangements for the following services:

- Home health care, nursing care, and hospice care
- Medical equipment
- Outpatient physical therapy, speech therapy, and occupational therapy
- Referrals to community agencies

**DEFENDANT’S OBJECTIONS TO AND MOTION TO STRIKE
DR. ISABEL HUANG’S CORRESPONDENCE SUBMITTED BY COPELAND –
ON DECEMBER 24, 2025**

TO THE HONORABLE JUDGE OF SAID COURT:

COME NOW, Defendant (hereinafter referred to as “Weinstein”) and make and file this
its Objections to and Motion to Strike Dr. Isabel Huang’s Correspondence Submitted by Copeland
– on December 24, 2025, and in support thereof would respectfully show unto the Court as follows:

I.

**RELEVANT BACKGROUND INFORMATION
REGARDING DR. ISABEL HUANG**

Dr. Isabel Huang is a medical doctor, who specializes in physical medicine and
rehabilitation, and is affiliated with UTSW.

Dr. Huang is not:

- A specialist in internal medicine;
- A medical toxicologist;
- A psychiatrist;
- A psychologist;
- A neuropsychologist;

- A neurologist;
- An endocrinologist;
- A gastroenterologist;
- An immunologist;
- A rheumatologist;
- An allergist;
- A pulmonologist; or
- A cardiologist.

Dr. Huang is also not:

- A mold assessment specialist;
- A mold remediation specialist; or
- A property valuation expert.

In short, Dr. Huang lacks the necessary expertise to opine on any matter that falls outside her limited areas of medical practice and therefore, Dr. Huang's opinions and recommendations should be wholly disregarded - pursuant to Tex. R. Evid. 702 and 703 (and interpreting case law: *Broders v. Heise*, 924 S.W.2d 148 (Tex.1996)*Arlington Memorial Hosp. Inc. v. Baird*, 991 S.W.2d 918, 921 (Tex.App. – Fort Worth, writ denied); *Pace v. Sadler*, 996 S.W.2d 685, 689-690 (Tex.App. – Beaumont 1991, writ denied)*Lesser v. St. Elizabeth Hosp.*, 804 S.W.2d 657 (Tex.App. – Beaumont 1991, writ denied); *Gladewater Municipal Hospital v. Daniel*, 694 S.W.2d 619, 620 (Tex.App. – Texarkana 1985, no writ); *Kieswetter v. Center Pavilion Hosp.*, 662 S.W.2d 24, 27 (Tex.App. – Houston [1st Dist.] 1983, no writ); *Fontenot Enterprises, Inc. d/b/a Hope Rehabilitation v. Kronick*, 2006 Tex. App. LEXIS 8580 (Tex. App. – Houston [14th Dist.] 2006, no writ); *Reyes v. Jebo=s Inc.*, 2005 Tex. App. LEXIS 3344 (Tex. App. – San Antonio 2005,

no writ); *Bowles v. Bourdon*, 219 S.W.2d 779 (Tex. 1949); *Tinghui v. Billingsley*, No. 05-08-00436-CV, 2005 Tex. App. LEXIS 684 (Tex. App. - Dallas 2009, no pet. h.).

Additionally, and problematically -

Per the December 21, 2025 correspondence submitted by Copeland (but not submitted until December 24), Copeland has been “under” Dr. Huang’s care since October 8, 2024. However, Dr. Huang’s correspondence provides no information as to what that actually means, to include: what particular objective testing, and evaluations have been performed by Dr. Huang and /or what actual treatment Dr. Huang provides -to include as related to ordering use of durable medical equipment, prescribing medications, ordering and monitoring adjunct therapeutic care [occupational, physical, and/or speech] and, any involvement with and oversight concerning treatment of any of Copeland’s alleged medical conditions.

Further, the December 21, 2025 correspondence makes no mention of any particular recent testing, exam and/or evaluation that she (Dr. Huang) personally has conducted of Copeland -at any particular point in time – but most notably since December 4, 2025 (the point of reference date set out in the correspondence). As such, the correspondence is conspicuously silent as to any matter which would indicate any recent objective medical testing and/or observations by Dr. Huang.

Significantly: Though Copeland now relies upon the December 21, 2025 correspondence in support of her position that she is entitled to certain “accommodations” (Per the alleged John Douglas email sent today, at 4:10 pm- and pursuant to which she request the January 6, 2025 hearing be held by “submission”), Copeland never identified this physician in disclosures, and has refused to produce this physician’s medical records (either through disclosures or Request for Production). Tellingly: When Weinstein sought to obtain the records for Dr. Huang through

subpoena and Deposition on Written Questions, Copeland took the position that she had filed a Motion to Quash such (though the Motion to Quash filed by Copeland did not specifically address these records) – and as a result, Weinstein agreed to request that the records service refrain from continued efforts to obtain the records, until after the issue could be resolved through hearing. Copeland did not request a hearing on her Motion to Quash; Weinstein did. On December 4, 2025, the Motion to Quash was heard and the Court ordered the records service could proceed with obtaining the records, but that Copeland would be provided the records first (after which a process was to be followed with respect to protecting and/or releasing the records, as reflected in the Order signed by Judge Chupp on December 5, 2025). As of the date of these Objections, Weinstein has not obtained or been provided any of Dr. Huang’s records, and Copeland should have produced these records weeks (if not months) ago – in response to Rule 194 Disclosures and/or in Response to Request for Production.

Finally, Copeland was requested, on December 1, 2025, to provide a date that she would be available for Dr. Huang’s deposition, and to date, has failed to respond to this request. See attached as **Exhibits “A” through “C”** – Copeland’s Initial Disclosures, and correspondence sent to Copeland by the undersigned counsel regarding identification of persons with knowledge of relevant facts (specifically referring to medical providers) and request for Dr. Huang’s deposition.

As has been Copeland’s practice and routine (both pre litigation and in the midst of this litigation)– she takes a “sword and shield” approach to her alleged disabilities and/or underlying medical conditions – relying on such conditions to attempt to obtain whatever particular requested relief she asserts she is “entitled” to receive, while preventing Weinstein from obtaining information as to those very matters. As such, Weinstein does not have a fair and full opportunity to evaluate the claims asserted and/or cannot fully and critically analyze the veracity of Copeland’s

claims. This type of litigation conduct is improper: "A plaintiff cannot use one hand to seek affirmative relief in court and with the other lower an iron curtain of silence against otherwise pertinent and proper questions which may have a bearing upon his right to maintain his action." *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding).

Dr. Huang's December 21, 2025 is yet another example of Copeland's litigation approach in this regard- and Copeland's use of Dr. Huang's correspondence (for any purpose) should be prohibited – pursuant to Tex. R. Civ. P. 193, 194 and 215 (and as contemplated by *Remington Arms Co. v. Caldwell*, 850 S.W.2d 167, 170 (Tex. 1993), *Patton v. Saint Joseph's Hospital*, 887 S.W.2d 233, 239 (Tex.App. – Fort Worth 1994, writ denied; and *Ginsberg v. Fifth Court of Appeals*, 686 S.W.2d 105, 108 (Tex. 1985) (orig. proceeding)(citing to *Pavlinko v. Yale-New Haven Hosp.*, 192 Conn. 138, 470 A.2d 246 (1984)); *In re Sw. Airlines Co.*, 155 S.W.3d 622, 624 (Tex. App.—San Antonio 2004, orig. proceeding)).

II.

OBJECTIONS TO DR. HUANG'S CORRESPONDENCE

Copeland has provided the Huang December 21, 2025 correspondence in an attempt to: 1) manipulate the litigation process (whether in District court or Justice court- as she has filed this correspondence in the District Court case (141st Judicial District Court) and in the two JP court cases in which she has sued Weinstein – and in which she attempts to avoid her obligations as a litigant – though notably in those two JP court cases she is represented by counsel, John Douglas) and 2) to bolster and/or support her requested relief for significant Plaintiff personal injury damages/monies to be awarded to her, through the District Court case – **pre trial, this includes:**

A) Requesting payment (by Weinstein) of \$18,000 a month for the duration of the case (to fund her self determined entitled lifestyle, termed by her as “interim housing”) and for which amount she incredulously claims to be “conservative”, in a circumstance where neither Weinstein nor any Court is required to provide this relief to Copeland; Weinstein is not required by contract, statute or state and/or federal law to pay for “housing” for Copeland, and no Court is required to do so – or to enter an Order directing Weinstein to do this under the guise of an “ADA accommodation); and in a circumstance where no finding of liability has been made against Weinstein as to any pending counter claim asserted by Copeland (and cannot be made, until the jury hears all the evidence and makes its decision); and;

B) Requesting a payment of \$20,000 for alleged replacement of medical items (items that which, if they existed at all on September 22, 2025, were never secured by Copeland once she knew her apartment would be going through remediation starting on September 22, 2025 [ie if these items actually existed, she left such items in her apartment; as such, if those items were actually medically necessary – she should have removed them before the remediation was scheduled to take place], **and for which it has not been proven (ie established by the jury) that Weinstein is liable to reimburse Copeland for any particular piece of property – medical or otherwise.** Further, egregiously – Copeland has taken the position – and perhaps convinced Dr. Huang to do so as well- that the items which were removed from the apartment and which are being stored off site (by Reign Restorations) have not been cleaned or returned (ie that Weinstein has refused to do either/both) – as if Copeland had provided authorization for either- which she has not; steadfastly stating since the property was removed that she does not want it cleaned by Reign Restorations (claiming this would be spoliation, and even filings various injunctive type pleadings to prohibit Weinstein from permitting this to occur, and filing such, before and after

Weinstein's counsel has repeatedly assured Copeland that no cleaning has taken place and none will take place, absent her authorization); and moreover, Copeland has never provided any location to which the property can be returned (though she has been asked to do so since September 27). Further, Copeland wholly failed to cooperate with attempts to identify medically necessary items and arrange for their return to her (as Judge Chupp had indicated, on October 2, at the TRO hearing, should be done, if it was possible to do so- and which counsel for Weinstein started initiating as early as October 3). Since October 3, 2025, counsel for Weinstein has engaged in repeated attempts to work with Copeland as to identification of alleged necessary medical items (and/or sentimental items) – as again was directed by Judge Chupp, and has continued to follow up with Copeland as to her preference with respect to the numerous items that still remain on Weinstein's property – in two store rooms and the balcony of the apartment that Copeland had leased – and these communications by counsel were as recent as December 4, 2025, with no response by Copeland.

In short, Copeland has purportedly procured this correspondence from Dr. Huang to assist her in manipulation of the litigation process, to attempt to provide her not “equal” access to the Court (for which she has never been denied) but preferential treatment, while depriving Weinstein of its right to zealously prosecute and/or defend its positions (and prepare for trial), and in an attempt to obtain an award of pre trial, personal injury damages for which she is not entitled (and pursuant to which no legal premise – statutory, contract or common law provides for, and in a circumstance where no liability finding has been made against Weinstein, by the fact finder). All of this is improper, an affront to the judicial system and an abuse of process.

It is impossible to verify the veracity of this correspondence and/or its authenticity -from the document alone (it is not even signed by Dr. Huang). As such, Weinstein requests that if the Court is ever inclined to consider this correspondence for any purpose, that the following be

ordered: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

Weinstein lodges the following objections to the Dr. Huang Correspondence:

**OBJECTIONS GENERALLY – TO THE SUBSTANCE/CONTENTS AND
LACK OF QUALIFICATIONS/EXPERTISE**

- Weinstein objects that the correspondence is not properly authenticated and/or cannot be verified for veracity; the correspondence is not signed by Dr. Huang (a typed named is all that appears; and a prior piece of correspondence used by Copeland on other pleadings, while heavily redacted – was purportedly written to support a “Disability Application” – for which Weinstein has no information on the status of the “disability application” but it appears to have not been approved (or not yet approved), at this point (if it had been approved, Copeland has never provided this and certainly if she had any document which confirmed that she has been assessed by any agency to be “disabled” – she would have produced this by now) – **but** that prior correspondence contained Dr. Huang’s handwritten signature- therefore, this unsigned correspondence is not consistent with what appears to be Dr. Huang’s practice of providing patient assistive correspondence.
- Weinstein objects that the correspondence is hearsay and/or is hearsay within hearsay.
- Weinstein objects that the correspondence is based upon speculation and/or the self serving statements made to Dr. Huang by Copeland, and further objects that the statements contained in the correspondence are largely conclusory and non specific;
- Weinstein objects that the manner in which the correspondence is written, further calls into question, the veracity or completeness of the correspondence: there appears to be a redaction which was made – fourth paragraph from the bottom of page 1, starting with “These episodes...” – the word “I” appears on the second line -but nothing else – as though there was more there – but has been redacted.

Similarly, the correspondence is dated December 21, 2025 (but references a December 8 date- of unknown significance); if the correspondence contains Dr. Huang’s actual impressions, concerns and recommendations that she came to/developed on December 8, 2025- and those matters require “immediate” action – this December 21, 2025 dates calls into question the veracity of any comment made by Dr. Huang – as to any matter deemed to be an “immediate” concern; as

certainly, Dr. Huang would not wait until December 21 to make these matters known – when she thought by December 8 – these were needing immediate attention. The correspondence is, therefore, further objectionable because it is internally inconsistent, and makes the entire document unreliable for any purpose.

- Weinstein objects Dr. Huang is not qualified to provide opinions as to any matter other than the care she has actually provided. As such, Weinstein objects that there is no information to indicate Dr. Huang has any expertise in the following areas (and as such, her opinions and/or recommendations in any and/or pertaining to any of these areas lack proper foundation and/or expertise):
 - Internal medicine;
 - Medical toxicology (to include as related to exposure to mold);
 - Psychiatry;
 - Psychology;
 - Neuropsychology;
 - Neurology;
 - Endocrinology;
 - Gastroenterology;
 - Immunology;
 - Allergy medicine;
 - Rheumatology;
 - Pulmonology;
 - Cardiology;
 - Mold assessment;
 - Mold remediation; or
 - Property valuation expert.

- Weinstein objects that the correspondence provides no information as to objective medical testing, studies, evaluation and/or examination performed by Dr. Huang and instead references only comments/complaints made by Copeland (making repeated use of the word “reportedly” when referencing not only chronology of events but also Copeland’s alleged response/reaction to participation in the December 4, 2025 hearing) and as such, the correspondence is based upon nothing but speculation, conjecture and information provided by the most biased witness/person in the case- Copeland and as such, is not based upon reliable and/or even accurate information and, therefore, lacks proper foundation;
- Weinstein objects that the various medical conditions identified, at the beginning of the correspondence as diagnosed conditions, are not explained, and that there is no information provided as to what these conditions are, what they effect as to Copeland (physiologically), how the conditions are being managed and/or treated (prescribed medications, prescribed therapies, use of durable medical equipment) and/or the manner in which any particular identified medical condition has any actual objective causal connection to any particular matter: where and/or how Copeland is living, the status of Copeland’s personal property, Copeland’s ability to participate in litigation activities (**noting that with all of the alleged conditions – Copeland has filed numerous counter claims in the 141st Judicial District litigation, filed two different JP Court cases (Precinct 3) against Weinstein, is engaged in pro se litigation against her prior counsel – Beth Janicek and Koons Fuller, has sued the Amicus, Kelly Decker and Ms. Decker’s law firm, has filed federal court litigation against the entirety of Tarrant County and various judges----** and throughout all of these litigated matters – has filed pleadings, Motions, served discovery, served numerous subpoenas, and has participated in court proceedings- at times, insisting to do so in person; as such, Dr. Huang’s reference to the various medical conditions is conclusory, and the implication of any adverse effect on Copeland’s ability to “litigate” in any particular case – is disingenuous (at best) and not supported by Copeland’s “real life” activity-making the information unreliable and lacking in foundation;
- Weinstein objects that on its face, this correspondence makes clear that Dr. Huang is basing her conclusions on matters that were only reported by Copeland, in relation to her “current” report- see page 1 of the correspondence, mid way down, where Dr. Huang starts the portion of the correspondence by stating “Ms. Copeland is currently reporting the following” – followed by 6 bullet points/conditions – demonstrating none of what is included in the bullet point information is actually derived from Dr. Huang’s observations/interactions and/or based upon her medical knowledge/judgment – but instead is based upon what Copeland “reported”, and as such, the correspondence lacks reliable and proper foundation.
- Weinstein objects that the correspondence seems to indicate that Dr. Huang has not actually seen/evaluated Copeland in the last several months – to include after the December 4 hearing – as such, any opinion she would proffer is not based upon reliable foundation; alternatively, if Dr. Huang saw Copeland on December 8, her

correspondence is wholly devoid of any information as to what type of assessment/exam she conducted, treatment provided and/or recommended – and therefore, the correspondence remains lacking in reliable foundation (ie the opinions espoused by Dr. Huang then appear to be based on nothing other than Copeland's subjective, self serving statements);

- Weinstein objects that Dr. Huang's correspondence is incomplete in that it references certain matters/circumstances without providing full information – which is likely because her source for all the information contained in the correspondence is: Copeland – whose rendition of circumstances is not necessarily accurate, complete and/or reliable; this is applicable to not only Copeland's alleged "flare up" and effects of same, but also comments made as to Copeland's personal property items and Copeland's ability to participate in litigation related activities.

OBJECTIONS TO ALLEGED EFFECT OF DECEMBER 4, 2025 HEARING

- Weinstein objects that the information contained in Dr. Huang's correspondence as to the impact of Copeland's participation in the December 4, 2025 hearing on Copeland's underlying alleged conditions has on her – whether as related to in person participation in hearings, and litigation proceedings or as related to her ability to operate/function in the litigation activities – is inconsistent with and wholly not supported by what Copeland actually does and/or is doing – and as such, Dr. Huang's correspondence, in that regard, is again wholly unreliable (and only showcases that her entire rendition of information is unilaterally provided by Copeland – without Dr. Huang either considering various other factors/matters-and/or perhaps only being provided certain information by Copeland which Copeland believes will inure to her benefit) and as such, Dr. Huang's correspondence should be disregarded.

The following are examples (though not exhaustive) of the inconsistency of what Dr. Huang asserts is Copeland's status, following the December hearing – as opposed to what Copeland is actually doing or able to do, since the December 4, 2025 hearing:

--Dr. Huang references that since the December 4, 2025 hearing (hearings on Copeland's filings), Copeland suffered "physical strain and environmental exposures" which "reportedly triggered a several flare up that has significantly worsened her symptoms of pain, weakness and fatigue" -- [note – Dr. Huang does not provide any information as to what constitutes a "flare up" and for that reason, Weinstein also objects to the vague and ambiguous/non specific nature of this comment- for which her entire correspondence seeks to address]; however, if this were true – it would seem that Copeland would have actually been seen by a healthcare provider that day (and again, it appears that she was not seen by Dr.

Huang, that day) – but instead, that day and on the days thereafter, the following occurred:

--On December 4, 2025, Copeland attended the hearing in the 141st Judicial District Court- these were *in person* hearings; **Copeland scheduled her Special Exceptions, the first of the two matters scheduled, as an in person hearing** (in other words- regardless of whatever underlying conditions or sensitivities she claims to have – **she requested for that hearing to be in person** (after which the undersigned counsel set Copeland’s Motion to Quash regarding the ordered records for the same date, and in person). Copeland did not require any assistive devices- visual, auditory, processing, communication and/or mobility. Copeland was properly groomed and appropriately dressed (for court appearance, wearing a well fitting pant suit, which was appropriate for the setting). Copeland walked into the court room unassisted (by person or device) and set up at Defendant’s table. Copeland did not wear a mask (which is notable because Dr. Huang asserts that “environmental exposures” are problematic) [Copeland had also taken a photograph of herself at the apartment at issue – on September 26- sitting directly in front of the area for which mold remediation was required and wore no mask]. Copeland argued her positions – and attempted to convince/persuade the Court to entertain other matters which were not the subject of hearing that day. She did not request a break during the hearing, at any point. She did not get up to stretch. She did not seek to re position herself from her seated position at counsel table and she did not require assistance exiting the courtroom.

--On December 4 (after the hearing), Copeland prepared an Order for appointment of counsel (Texas A& M law school Civil Rights Clinic) [a matter that was not heard that day] and submitted it to the Court (it would seem that Copeland at least also would have contacted the clinic that day prior to submitting the Order, but perhaps not) and sent lengthy emails to the 141st Judicial District Court staff, and opposing counsel – arguing to have that Order signed; she also sent a lengthy email correspondence to opposing counsel regarding request for housing and other matters and emails regarding other matters she contended the Court had ordered (which it did not) and this culminated in Copeland preparing and submitting a lengthy 7 page Order for matters, again, not heard. It does not appear that there was any actual “flare up” that day.

--Between December 5 and December 29: Copeland prepared and filed eleven additional pleadings in the litigation pending in the 141st Judicial District, many of which were lengthy and contained lengthy exhibits; there has been apparently no “flare up” during those times;

--On December 9, 2025 – Copeland appeared (via zoom) at the trial in JP Court Precinct 3- for a “repair and remedy” lawsuit she had filed against Weinstein (ownership entity) – and when her attorney, John Douglas, failed to appear – she opted to proceed- by herself [on zoom]- for a trial that lasted approximately one

hour, during which she did not request a break (notably- Dr. Huang's correspondence does not address that proceeding at all); there apparently was no "flare up" that day;

--On December 10, 2025, Copeland filed a (pro se – and thus, improper as it was in violation of the Order Declaring Copeland as a Vexatious Litigant) Notice of Appeal from the judgement in the JP Court, Precinct #3 repair and remedy case (clearly demonstrating that she was aware of the upcoming deadline by which to perfect appeal to the County court); there was apparently no "flare up" that day;

--On December 15, 2025, Copeland filed a Status Update and ADA Request, in the JP Court, Precinct #3 repair and remedy case – in which she presented photographs – she had taken on December 10, 2025 (when she unlawfully entered the apartment- in violation of the two Orders issued by the 141st Judicial District court, forbidding such conduct)- and which she claimed assisted her in her claims against Weinstein and showed that Weinstains' counsel had not properly represented the status of the remediation (noting – the photographs were actually helpful to Weinstein, to demonstrate that the status was as portrayed on December 9 at the repair and remedy trial); however, significantly- in order to prepare her Status Update and ADA Request, by obtaining the information and /or photographs attached to same, Copeland had to do the following:

--She traveled to Weinstein's apartment complex;

--She walked up a flight of stairs to Apartment 2145;

--Despite her complaints (made on December 10 to the JP Court, Precinct #3, that remediation is "ongoing" , this establishes that Copeland – for the third time, violated a Court Order to willingly expose herself to "mold" that she contends is "harmful";

--She walked throughout the apartment, inclusive of containment areas and large fans/cords;

--She inspected the apartment for dust/debris;

--She examined the progress of the work undertaken by that date;

--She took an extensive number of photographs of the apartment;

--She printed and prepared the photographs, along with the pleadings, to be filed on December 15, 2025.

All of the above took considerable physical efforts, required cognitive and processing abilities and was performed and pleadings thereafter, filed – within a time frame that

Copeland anticipated would be beneficial to the re- hearing of the repair and remedy case- which at that time had been scheduled to be conducted on December 17, 2025. There was apparently no “flare up” as of or on December 10, 2025, nor on December 15, 2025 (the date of filing).

--On December 16, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Plaintiff Pro Se Reply (to Weinstein’s Response and Motion to Show Cause, filed on December 15);

--On December 16, 2025, in the JP Court, Precinct #3 repair and remedy case, Copeland filed a Notice to Preserve ADA Accommodation Issue (after the Court had issued its order that day, denying her Motion);

--From December 16 through December 19-Copeland filed 7 different pleadings in her pending federal court litigation against, amongst several Defendants, to include: all of Tarrant County, which included a Notice of Appearance pro se, amended pleadings, a Motion to Extend Time to Serve, a Motion to Appoint Counsel, a Motion to file Appendix under seal, and an Emergency Motion for TRO and Preliminary Injunction – which includes reference to the litigation pending in the 141st Judicial District Court, her pending litigation against the Amicus (Kelly Decker) from the family law case, and her two JP court cases against Weinstein (she has two pending, at the present time)

The above chronology of events – much of which occurred before December 21, 2025 (the date of Dr. Huang’s correspondence), and all of which occurred after the December 4, 2025 hearing (the alleged triggering event for flare up – and pursuant to which Dr. Huang asserts various opinions and makes recommendations on Copeland’s behalf) – begs the question: when did this alleged flare up occur and where are the actual contemporaneous medical records which support this occurred- and for which Copeland was provided any type of treatment? Copeland immediately started corresponding by emails, pleadings and proposed Orders, on December 4, 2025 in the 141st Judicial District case, continued this in that case from December 4 forward. Copeland participated in a trial in JP court, Precinct #3 (opting to proceed, alone, without her attorney, John Douglas participating in the trial). Copeland went to Weinstein’s property and improperly/unlawfully

entered the apartment (to procure “evidence”) – which required significant physical and cognitive activity and function. Copeland then filed numerous pleadings thereafter in the JP Court, Precinct #3 repair and remedy case. Copeland, thereafter, filed numerous pleadings on her own behalf in federal court (December 16 through December 19). All of this – is wholly inconsistent with any alleged “flare up” from participation in the hearing she scheduled as an in person hearing on December 4, 2025.

Therefore, Dr. Huang’s reference to a “flare up” and her attempt to provide a causal connection to the December 4, 2025 hearing (in the 141st Judicial District Court case) is completely and wholly without foundation, factual support and without merit. Dr. Huang’s opinions in that regard are most obviously based *only* on what Copeland has told her (all the while Copeland fully engaged in the litigation process- in at least four different cases). While Dr. Huang likely does not know any of this- her lack of knowledge should not now be used to cloak her correspondence in any semblance of reliability.

OBJECTIONS TO COMMENTS AND RECOMMENDATIONS MADE REGARDING PERSONAL PROPERTY ITEMS

- Weinstein objects that the information contained in Dr. Huang’s correspondence as related to the status of Copeland’s personal property items (medical or otherwise) as the information is not either fully accurate and/or is misleading as follows:
 - Copeland knew, with certainty by September 19, 2025, remediation would be starting on September 22, 2025 (this was the third attempt to move forward with remediation – after Copeland has acted in a manner to stall, delay and/or prohibit the remediation); she was living at the apartment from September 11/12 through approximately September 19- and had full access to any piece of personal property- medical or otherwise; on September 19 - she received correspondence from the undersigned counsel alerting her that remediation was again scheduled to begin on the September 22 date – and on September 19, Copeland called the undersigned attorney; the remediation schedule was again discussed – with September 22 being the date identified that it would proceed; Copeland could have taken anything she needed or wanted from the apartment at that point, therefore, whatever

items she failed to take- are items she volitionally left (which calls into question what amount of necessity attaches to any particular item).

The below is an excerpt from the September 19, 2025 phone conversation – which Copeland secretly recorded – and has produced a “transcript” of (while note wholly accurate, the following excerpt is correct):

00:06:00 Glynis Zavarelli
And I guess you're still at the apartment.

00:06:02 Kathryn Copeland
Yeah.

00:06:06 Glynis Zavarelli
Okay.

00:06:08 Kathryn Copeland
I know you had said that work was going to start on the 22nd, but that's why I was confused and sent the e-mail to TDLR because I thought you had to have the protocol on file at least five business days in advance and I hadn't seen it, so.

00:06:23 Glynis Zavarelli
Well, like I said, I mean, I'm obviously not the most people doing this work. I'm not a TDLR licensed person, but it's my understanding they've complied with all the deadlines that are required to be able to start on the 22nd and that's what we would like to be able to have happen so that we can get you back into that apartment as soon as possible.

The above exchange makes clear – Copeland had full understanding and appreciation for the upcoming remediation schedule – and as such, was aware that any particular items which she would need or want (for any reason) should have been removed by her.

- Unbeknownst to Weinstein, when Copeland returned to live at the apartment from September 11/12 through the September 19 date against Weinstein directive- Copeland turned on the HVAC (which had been sealed and turned off by the prior remediation company) which led to the HVAC unit freezing, thawing and caused a leak. As such, when this was discovered by Weinstein and the mold remediation vendor, on September 22, 2025 (when the vendor arrived to start the scheduled remediation), mold remediation had to be again postponed so that water remediation could

occur, first. The pack up and removal for personal property had been recommended by the mold assessment company (Dallas Mold), in part to provide access to all areas requiring mold remediation, but the water intrusion (leak) caused by Copeland – has also required repair of substantial portions of flooring and other areas of the apartment, which required further accessibility.

- Copeland did not inform Weinstein (or Weinstein's counsel) of what she had done with respect to the HVAC unit – and as such, this delayed discovery of same, until September 22nd; when Copeland returned to the apartment on September 26 (which was contrary to the mold remediation protocol process and Copeland had been made aware that once remediation starts, apartment access would not be permitted)- Copeland took numerous photographs of items which remained in the apartment (not packed and moved off site) and because she entered and began an exchange with the Dedicated Mold remediation personnel – remediation efforts stopped that day (and did not resume until October 6)- with Copeland having full access to everything that remained in her apartment; she could have then taken anything else out of the apartment that she thought she wanted/needed on September 26 and thereafter, until October 2, 2025 (when she was court ordered to refrain from entry) – but assumedly failed to do so;
- Copeland was told on September 27, 2025- that whatever items were packed and taken off site could be returned to her – and she did not then request return of any items taken to be stored off site – and presumedly did not return to obtain any items remaining in the apartment, in response to that communication;
- Copeland was told on October 3, 2025, the items taken off site could be returned or cleaned and returned (while she had originally said she wanted items cleaned, she then claimed such would be spoliation and would not authorize cleaning – and was thereafter, repeatedly assured that no cleaning would take place until she authorized same – to date: she has not authorized cleaning); Copeland did not respond to this;
- Per the October 2 hearing on Weinstein's TRO (noting Copeland cancelled her hearing on her requested injunctive relief; however, the Court contacted her by phone – and she was able to express her positions and indicate she wanted items returned, as such, Weinstein was ordered to return all remaining items in the apartment to Copeland within 3 days and with respect to the items being stored off site (by Reign Restorations) - to return (if able to do so) any identified medical necessity items or sentimental items – once identified by Copeland (as Copeland did not articulate or identify any particular item she needed, during the hearing); on October 3, 2025 Weinstein sent correspondence to Copeland and asked for the list of medical necessity items and/or sentimental items; Weinstein received no response;

- On October 3 through October 5 Weinstein emailed with Copeland about the various items which remained in her apartment -asking her if she wanted them moved to the hotel she was staying in (but noting that the items were extensive and likely the hotel room would not be comfortable for the relocation of these items), asking her if there was another location she would prefer they be moved – and ultimately indicating (when no response was received from Copeland) that Weinstein would provide a storage room at the apartment complex – at no charge of her- through the pendency of her lease (until October 26, 2025) to store the items from her apartment; Copeland was given a key for that storage room; Copeland was also told that several boxes of medications and a humidifier were located at the door of the storage room for easy access (it is unknown if she ever went to obtain those boxes or any other item being stored there currently -but which she has had ample access to retrieve/obtain);
- On October 6 through October 14, 2025- at the undersigned counsel's initiation, Copeland and the undersigned counsel emailed regarding the items packed off site – asking Copeland to identify the medical necessity and sentimental items she wished to have removed form off site and returned to her; Copeland stopped corresponding on this on October 14, 2025;

See attached as **Exhibit “D”** correspondence and emails sent between October 3 and October 14, 2025.

- On November 21, 2025 – the undersigned sent correspondence to Copeland regarding the items in the store rooms on site (the original store room she acquired when she signed her lease, as well as the storage room being used to store the items which were removed on October 5- at the Court's direction) and followed up again on this, on December 1 and heard nothing back from either correspondence. See attached as **Exhibit “E”** the November 21 and December 1, 2025 correspondence.
- On December 4, 2025, the undersigned counsel and Copeland emailed about the status of her personal property items which were being stored off site - offering to clean, to return or to do both – at no expense to her, and inquiring about the items in the storage rooms on site and balcony items- and the undersigned counsel did not hear back from Copeland. See attached **Exhibit “F”**.

Given the above chronology of events – it is clear that Dr. Huang's impressions (obtained form Copeland) corresponding recommendations/opinions are reliant upon faulty, inaccurate and/or incomplete information – and as such, any opinions provided by Dr. Huang in relation to

personal property, medical items/equipment, medical supplies – the status of such, how items should be handled from this point forward and/or any adverse effect on Copeland as related to personal property complaints/circumstances- is wholly baseless.

- Weinstein further objects that Dr. Huang fails to identify any particular medical property item “supply” at issue (not identifying any particular “critical medical equipment” or “supplies”)– and instead makes global and/or generalized assertions as to the alleged removal of same and the need for replacement;
- Weinstein further objects to Dr. Huang’s speculative conclusion that all property (ie “contaminated belongings”) need to be replaced; she cannot possibly know this from a “contamination” perspective: she has no personal knowledge, she has not seen the items, she fails to even identify the items (by name), she does not know the materials upon which each item is constructed (and thus, what, if any, cleaning is necessary and/or how this can be efficiently accomplished if necessary); has no expressed or implied familiarity with mold exposure as related to anything (to include personal property items), she has no expertise in any necessary and related area to proffer such opinions, and further, she has no demonstrated expertise as related to medical causation without respect to any particular alleged type of mold/spore and the impact on any particular condition allegedly attributed to Copeland.

**OBJECTIONS TO DR. HUANG’S COMMENTS ANDN/OR OPINIONS AS
RELATED TO COPELAND’S MEDICAL CONDITIONS
AND EFFECT ON ACTIVITIES**

- Weinstein objects to the characterization and assertions by Dr. Huang of the manner in which any particular condition impacts Copeland as again, this appears to be based on speculation and is wholly inconsistent with what Copeland has shown herself able to do and as such, these opinions by Dr. Huang are neither credible nor reliable.

By way of example – as to Copeland’s physical and/or mental/cognitive abilities, Weinstein provide the following (and this list is not exhaustive):

- **With respect to cognitive processing, writing, reading, and/or speaking, in the case pending in the 141st Judicial District court alone, Copeland has been able to draft lengthy email communications, draft extensive pleadings (she has filed 47 separate pleadings/motions), inclusive of preparation of exhibits she contends constitutes evidence of various claims/defenses, cite various**

provisions of common and/or statutory law, communicate with Court staff, appear in person at hearings (October 27 and December 4), and draft multiple sets of discovery directed to Weinstein; in the JP Court Precinct #3 repair and remedy case, she has filed several pleadings “pro se” – to include starting out that litigation in an attempt to file the entire lawsuit as a pro se Plaintiff (which resulted in dismissal without prejudice once the Court was advised of the Order declaring her as a vexatious litigant);

- Caring for oneself (and others): Copeland explicitly represents to the family law Court as to her “psychological readiness” and states, that she has the “capability to follow the rules and protocols outlined in the Court’s guidelines.” This is in relation to her attempt to modify the decision made by the family law court – in relation to the family law court’s Orders pertaining to custody matters and prohibiting Copeland visits with her children, absent supervision;
- Copeland further submits in support of her request to the family law court, a letter purportedly written by Earl Johnson, PhD. In Dr. Johnson’s report, he states that “Her understanding of her responsibilities toward her children and toward the rules of the court pertaining to her responsibilities toward court orders suggest that she has no impediments to providing adequate parental care. Her psychological status is compatible with having more independent visitation... She has been an excellent client and exercises thoughtfulness, insight, and strong effort to improve her mental and emotional condition. That letter was written in December 2024; however, it would seem that if there had been any significant change in her physical, emotional, psychological and/or cognitive abilities since that time, a healthcare provider would have stepped in to make this known; as such, if Copeland had experience unpredictable and debilitating “flare ups” – this would be a matter that the family law court would want to be informed about – and/or if a “flare up” can be caused by stressors, it would seem that parenting two young pre adolescent/adolescent girls would present an environment destined to result in debilitating fatigue, exhaustion, etc – and would, therefore, be something to be avoided; instead, Copeland has continued to take issue with the restrictions placed on her by the family law court and its Orders, taking the position she should not be restricted from her children, as currently ordered;
- Therefore, the representations made explicitly by Copeland and by Dr. Johnson on her behalf, contain the implied representations – that as a safe parent able to appropriately care for children without supervision, that she is capable of performing the duties of a parent, inclusive of education, guidance, and decision-making.
- Representing/Advocating for herself: On or about August 14, 2025, Copeland presented a prepared presentation to the Mayor’s Committee on Human Rights for Disabled People (one of many such presentations she has made), complaining of Weinstein and complaining of the Fort Worth Police Department. While Weinstein challenges the validity and/or veracity of statements made during this presentation,

Weinstein notes that in addition to drafting long pleadings and discovery and compiling documents she contends are “evidence”, Copeland was and is able to physically appear and present a verbal presentation to the Committee. Similarly – Copeland was able, in the process of this presentation, to prepare the presentation, walk, talk, read, and speak, all without any discernible difficulty.

- Copeland has made in person appearances in the 141st Judicial District Court on October 27 and December 4, and offered to appear in person on October 16, 2025.
- Copeland is able to use various aspects of technology, including ChatGPT, social media, dating applications, word processing software, document manipulation software, such as a PDF application, and conduct covert audio and video recordings of others (such as Weinstein staff and counsel) without their knowledge (which also demonstrates executive planning abilities).
- Copeland has engaged in numerous and repeated governmental agency complaints against Weinstein, to include: to TDLR, the Department of Justice, HUD, the Texas Workforce Commission, the Fort Worth Police Department, and the City of Fort Worth (various agencies, to include Code Compliance);
- On December 8, 2025 – Copeland’s attorney, John Douglas -in the lawsuit Copeland has filed against the amicus (Kelly Decker) from the child custody case – filed a Response to Decker’s Motion to Show Authority (such Motion related to John Douglas’ representation of Copeland and what appears to have been Copeland writing, signing and filing matters under his name, requesting Douglas to therefore, show authority as to his representation of Copeland); Mr. Douglas responded to that Motion by stating that Copeland had:

--Engaged in drafting pleadings, organizing exhibits, and/or drafting discovery;

--the “ability to assist counsel” in “legitimate attorney-client collaboration”;

--researched the legal issues extensively.

As such, Douglas takes the position that Copeland is well able to assist in that piece of litigation and that he is, in fact, dependent upon her analysis, her research, and her drafting skills.

- Copeland has engaged in extensive hotel rate negotiations at various hotels (for which Weinstein paid);
- Copeland purportedly engaged in lease communications for a rental property that she was interested in procuring in early December (based upon pleadings she filed in the 141st Judicial District Court case);

- With respect to Copeland's mental condition generally, Copeland has not been declared to be non compes mentis, has not sought or been appointed a representative of her person, has not sought or been appointed a representative of her estate, has filed multiple ongoing lawsuits in civil court, family court, justice court, and in federal court which reflect that she is able to participate fully in the litigation process.

Therefore, it is unclear upon what Dr. Huang has based her assertions as to Copeland's conditions and the effect of same -however, the manner in which Copeland has conducted herself- in her life, in representations made to various courts and in pursuing multiple pieces of litigation – is absolutely not consistent with what Dr. Huang has espoused and as such, the December 21, 2025 correspondence is not reliable, nor can it be used to support any claimed need for any type of “accommodation”.

OBJECTIONS TO DR. HUANG'S SUGGESTED ACCOMODATIONS

- Weinstein objects that the “accommodations” suggested by Dr. Huang are without factual support – and are conclusory in relation to opining that these are necessary for Copeland to “participate in legal proceedings”. This, again, is based on nothing but what Copeland has apparently said to Dr. Huang. In other words, Copeland's biased, self serving statements – to attempt to obtain relief to which she is not entitled.
- Weinstein objects that Dr. Huang's references to potential “continue to deteriorate” is speculative and without foundation.
- Weinstein objects to Dr. Huang's statement as to “prevent her from recovering” – as this is vague and is without explanation or foundation (recover from what?); further it is without foundation as related to how any particular “immediate accommodation” would have this impact (and/or which “accommodation” of the numerous ones sought by Copeland would have this impact/effect- and how/why). This again, appears to be a self serving statement made by Copeland and presumed by Dr. Huang – but without factual or medical support.
- Weinstein objects to each “accommodation” set out by Dr. Huang (on page 2 of the correspondence) as none are based in fact, all are speculative and Copeland's own actions belie the need for any such accommodation.
- Weinstein objects that the accommodation suggested as to “essential items”, replacement of belongings and housing are not only without factual foundation, do not provide a listing of medical items, is based on events that did not occur and/or which have not occurred, and significantly – are without merit:

If Dr. Huang actually believed that Copeland needed any particular medical equipment, medical item, or medication – she could have (and should have) written an order and/or a prescription for these (she has had since September 22, 2025 to provide this care to her patient – and/or to work with the social worker at UTSW – to obtain assistance and resources for Copeland in this regard.

If Copeland actually “needed” any of this – Dr. Huang should have proceeded to procure this and/or explore services through which Copeland could be given this assistance, either with her own personal, medical involvement (ie prescriptions and orders, working with Medicaid to obtain replacement items, or obtain approval for other necessary items, and/or medications) or through use of the UTSW social work services department. See attached as **Exhibit “G”** on line website information as to this hospital’s available social work service support/assistance.

Similarly – as related to “housing”, Copeland’s lease expired on October 26, 2025 and prior to that time, she was living intermittently in hotels paid for by Weinstein (from July 14, 2025 forward) while occasionally returning to her apartment which she alleged was unhealthy for her – and at times, returning to live there for days at a time; at any point, Dr. Huang could have (and should have) worked with Copeland to provide her resource information for housing assistance – if this was something that Dr. Huang believed to be medically necessary; the DFW metroplex has multiple agencies to assist with this, and again UTSW has its own social work services department to provide resource information.

The December 21, 2025 correspondence does not speak, in any manner, to what Dr. Huang has done for Copeland, to assist in obtaining replacement devices, equipment, items or medications and/or to assist with services to locate housing options (for a person who is unemployed, apparently is not inclined to seek employment, and has proclaimed she has no income (though note: she has continued her Amazon shopping – as the documents she submitted on December 29, 2025 make clear)). This again, calls into question – the necessity of medical items, medical equipment and/or housing, at this point and makes clear that the correspondence and opinions offered therein, are simply unreliable.

- Weinstein objects that Dr. Huang’s recommendations as to litigation related “accommodations” are without factual and/or credible foundation. Dr. Huang has clearly not been apprised of the aggressive and relentless approach Copeland has engaged in as related to any and all litigation matters involving Weinstein (filing over 50 pleadings/motions in approximately 3 months – in the District court and JP court repair and remedy case, submitting lengthy and involved exhibits and Orders, declaring “emergency” or “emergent” as to routine matters, in order to avail herself of the Court’s “immediate” attention – while depriving Weinstein of the ability to respond in a manner which does not serve to adversely affect Weinstein and/or counsel for Weinstein (Copeland has attempted repeatedly to obtain rulings on contested matters, during designated medical leave and/or vacation times, for opposing counsel). To suggest that Copeland requires – or is entitled to - any special/preferential treatment – when viewing her history of litigation conduct – to include what appears to be concerted strategizing and efforts to file Motions

and obtain rulings when she knows lead counsel is not available – is simply without factual and/or legal foundation or support.

Weinstein's objections are timely, specific and thorough; Copeland's proffered correspondence from Dr. Huang should not be considered for any purpose; however, if the Court is inclined to consider the correspondence for any purpose, Weinstein requests: 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang -without going through the process identified on the December 5, 2025 Order (pertaining to the Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

III.

WEINSTEIN'S MOTION TO STRIKE DR. HUANG'S CORRESPONDENCE

Weinstein, hereby, move to strike Dr. Huang's December 21, 2025 correspondence, for this Court's consideration, in relation to any filings made by Copeland for the following reasons:

As the *Background* section herein makes clear, Dr. Huang either lacks personal knowledge and/or is not qualified to provide any particular opinion and/or recommendation as to the existence of and/or replacement of personal property items, as to the existence and/or extent of any particular mold element in the apartment that Copeland was leasing (lease ended on October 26, 2025), as to any particular causative factor in relation to mold and/or any alleged health ailment Copeland asserts that she experiences, and/or as to any matter/issue that falls outside of her medical expertise (which is limited to physical and rehabilitation medicine). Further, Dr. Huang appears to have relied upon nothing but Copeland's own statements and assertions (which in and of themselves are neither necessarily reliable and/or accurate) and as such, any opinions and/or recommendations

she makes lack appropriate foundation. As such, pursuant to Tex. R. Evid 702 and 703, Dr. Huang's correspondence should be struck, in its entirety.

Additionally, as the *Background* section makes clear: Dr. Huang was never identified by Copeland in Disclosures, and Copeland has failed to produce any of Dr. Huang's records- through either disclosures or in response to Request for Production. When Weinstein attempted to obtain the records by subpoena and Deposition on Written Questions, Copeland asserted that she had timely filed a Motion to Quash these records. Though the Motion to Quash was not actually effective as to Dr. Huang's records (ie it did not even mention Dr. Huang), Weinstein graciously agreed to notify its records service and request no attempt be made to obtain the records until a hearing could be held. Copeland, however, did not initially request a hearing on the Motion to Quash; Weinstein set the Motion for hearing. Thereafter, though the Court did not particularly grant the Motion as to all ordered records, it did set out an involved process by which to obtain the records, which starts with a review by Copeland (only). As of the drafting of these Objections, no records have yet been obtained by Weinstein.

Copeland's attempt to now benefit from the correspondence allegedly written by Dr. Huang (though wholly objectionable on various grounds, as noted herein in the *Objections* section) is in violation of Texas Rules of Civil Procedure 193, 194 and 215 (though Weinstein recognizes the discovery at issue, and pursuant to which Copeland did not produce information or records regarding Dr. Huang – is not discovery served in this case). As such, Weinstein moves to strike the correspondence in its entirety.

Weinstein further moves to strike this correspondence as it wholly inadmissible for any purpose: it is not properly authenticated, it is wholly based upon hearsay (ie Copeland's report of

events and/or Copeland's version of events – a biased and unreliable witness), it is conclusory, it provides opinions that are based on nothing objective and instead, are only based in conjecture and speculation, it lacks proper foundation, and on the face of the correspondence, appears to contain redactions – which calls into question the veracity of any of the information provided. Weinstein, therefore, incorporates all Objections lodged herein.

IV.

CONCLUSION

Copeland's use of correspondence allegedly/purportedly drafted by Dr. Huang – in support of any matter, to include her alleged "disabilities", is improper.

Copeland did not ever identify Dr. Huang as a person with knowledge of relevant facts, did not produce Dr. Huang's records, did not identify any of the healthcare providers treating the various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not produce any of the records relevant to the various medical conditions that Dr. Huang references in the December 21, 2025 correspondence, did not permit Weinstein to obtain Dr. Huang's records and has failed to provide dates for Dr. Huang's deposition.

Further, the correspondence is not credible or reliable – and is objectionable on all the grounds asserted herein. Therefore, the correspondence should be struck from any Court's consideration and should be disregarded in its totality; alternatively, before any particular court determination is made, upon which Copeland uses the Dr. Huang December 21, 2025 correspondence to support, justify or bolster, Weinstein requests that the Court order the following:

- 1) Weinstein can move forward immediately with obtaining the complete records of Dr. Huang - without going through the process identified on the December 5, 2025 Order (pertaining to the

Motion to Quash); and 2) the deposition of Dr. Huang be taken and completed, so that this Court has benefit of her sworn testimony as to all relevant matters.

WHEREFORE, PREMISES CONSIDERED, Weinstein pray that the Honorable Court sustain Weinstein's Objections to Dr. Huang's Correspondence and grant Weinstein's Motion to Strike, and disregard it in its entirety, and for such other and further relief, at law or in equity, both general and specific, to which Defendant Weinstein may be justly entitled

Respectfully submitted,

Plaintiffs,	§	
	§	
v.	§	TARRANT COUNTY, TEXAS
	§	
KATHRYN COPELAND,	§	
Defendant.	§	141ST JUDICIAL DISTRICT

Defendant / Counter-Plaintiff Kathryn Copeland's Initial Disclosures

1. Correct Names of the Parties

- **Plaintiffs:**
Weinstein Management Co., Inc.
WMCI Dallas X, LLC
c/o Glynis Zavarelli, Wentz & Zavarelli, LLP
3120 Sabre Drive, Suite 170
Southlake, Texas 76092
(469) 665-9100
- **Defendant / Counter-Plaintiff:**
Kathryn Copeland
405 Crawford Street, Apt. 2145
Fort Worth, Texas 76104
(817) 789-8498 | K.M.Copeland@tcu.edu

2. Potential Parties

None known at this time other than those named. Defendant reserves the right to add responsible third parties or additional entities discovered through ongoing investigation, including vendors or insurers involved in the removal or disposal of Defendant's property.

3. Legal Theories and Factual Bases

Defendant generally denies all allegations in Plaintiffs' pleadings and asserts the following affirmative defenses and counterclaims (*see Defendant's Answer, filed Sept. 22, 2025*):

- **Defenses:**

1. **Lack of capacity/authority to sue and real party in interest** (Weinstein Mgmt. Co. lacks ownership standing).
2. **Failure to state a claim;** injunctive relief improper for lack of irreparable harm or inadequate remedy at law.
3. **Prior breach and failure of conditions precedent** under Tex. Prop. Code §§ 92.052 & 92.056.
4. **Failure to accommodate and retaliation** under the **Fair Housing Act** (42 U.S.C. § 3604(f)(3)(B)) and the **ADA**, including refusal to provide comparable, disability-safe housing.
5. **Constructive eviction / breach of implied warranty of habitability.**
6. **Unclean hands, waiver, estoppel, and failure to mitigate.**

- **Counterclaims:**

1. **Fraudulent Inducement / Negligent Misrepresentation** – leasing an uninhabitable unit while concealing prior water damage and mold.
2. **Breach of Implied Warranty of Habitability.**
3. **Constructive Eviction.**
4. **Violation of Texas Property Code §§ 92.052, 92.056, and 92.331 (Retaliation).**
5. **Violation of the Fair Housing Act / ADA (Failure to Accommodate, Retaliation).**
6. **Negligence / Gross Negligence** in unsafe maintenance and unlicensed remediation.
7. **Texas Deceptive Trade Practices Act (DTPA)** – misrepresentation of safety, habitability, and remediation.
8. **Conversion and Trespass to Chattels** – unlawful removal and withholding of Defendant's personal property.
9. **Declaratory and Injunctive Relief** – requiring compliance with FHA, ADA, and Texas Property Code.

4. Computation of Damages

Category	Computation / Basis	Supporting Authority
Actual Damages	Exceeds \$50,000 – property loss, medical costs, relocation/hotel expenses, and loss of use.	Tex. Prop. Code §92.056(f)
Statutory Penalties	\$188,288 + continuing daily penalties for violations of Tex. Prop. Code § 92.331.	Tex. Prop. Code §92.331(b)
Treble Damages	For knowing DTPA violations.	Tex. Bus. & Com. Code §17.50(b)(1)
Punitive/Exemplary	For intentional discrimination, retaliation, and malice/gross negligence.	FHA § 3613(c)(1); Tex. Civ. Prac. & Rem. Code §41.003
Attorneys' Fees & Costs	Reasonable fees under fee-shifting statutes.	FHA, DTPA, Prop. Code §92.056(g)

5. Persons with Knowledge of Relevant Facts

Name	Role / Knowledge	Contact Info
Kathryn Copeland	Defendant – firsthand knowledge of all facts.	405 Crawford St #2145, Fort Worth TX 76104
David Quiram	Witness – with Kathryn Copeland when mold was observed again in June 2025.	(214) 784-5874

Megan White	Other tenant suing Weinstein for same conduct; pattern evidence.	(c/o Counsel Christopher Payne, Dallas)
Kodi Walker	Property manager at The Bowery at Southside Apartments	c/o Wentz & Zavarelli, LLP
Jessika Calkins	Area manager for Weinstein Properties	c/o Wentz & Zavarelli, LLP
Pamela Quinn	Assistant Director – Asset Management & Support for Weinstein Properties	c/o Wentz & Zavarelli, LLP
Jose Xolalp	Maintenance worker at The Bowery at Southside Apartments	c/o Wentz & Zavarelli, LLP
J.C. (Last Name Unknown)	Maintenance worker at The Bowery at Southside Apartments	c/o Wentz & Zavarelli, LLP
Any custodian of record		
Any designated expert for the other parties		

6. Documents, ESI, and Tangible Things

Categories in Defendant's possession or control that may be used to support her claims or defenses include:

- **BioTex Mold Assessment Report (June 18 2025)** and lab results.
- **TDLR correspondence** and emails confirming investigation and prosecution.
- **Photos and videos** documenting water damage and mold conditions.
- **Email correspondence** between Defendant and Plaintiffs' agents regarding notices, relocation requests, and remediation.
- **Medical records** reflecting illness and disability exacerbated by exposure.
- **Hotel receipts, relocation expenses, and communications with management.**
- **Affidavit of Kathryn Copeland (Sept. 29 2025)** and attached exhibits.
- **Plaintiffs' pleadings and emails (Sortor/Zavarelli Sept 27 2025)** conditioning property return on waiver of claims.

7. Indemnity and Insurance

Defendant maintains a **State Farm Renters Policy** covering theft, conversion, and additional living expenses (ALE). Claim pending; insurer has denied coverage citing ongoing possession of items by Plaintiffs. Plaintiffs and/or property owners are believed to hold general liability and landlord insurance policies covering mold remediation and tenant losses.

8. Settlement Agreements

None at this time.

9. Witness Statements

Defendant's sworn declaration attached to her **Emergency Motion and Affidavit (Sept 29 2025)** constitutes her current witness statement. Witness statement of David Quiram from June 2025. Plaintiffs' emails (e.g., Sortor Sept 27 2025) function as admissions.

10–11. Medical Records and Bills

Defendant alleges physical and mental injury from toxic exposure and subsequent actions taken by Weinstein and counsel.

Medical records and bills supporting damages are in Defendant's possession and will be produced under HIPAA authorization as required.

Conditions include: neurological impairment, visual and respiratory injury, immune dysfunction, and cognitive decline linked to mold exposure. (See treating physician documentation attached to prior filings.)

12. Responsible Third Parties

Defendant may designate responsible third parties, including:

- **BioTex Environmental LLC (assessment)**
- **ServPro / remediation vendors** hired by Plaintiffs
- **State Farm Mutual Insurance Co.** (coverage denial)
- **Weinstein Properties corporate affiliates** responsible for policy decisions.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025

Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025

Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025

Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re-arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025

Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand - attempt to elicit verbal communication over the phone - with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items -and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above)).

December 1, 2025

Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025

Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025

Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence: You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025

Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Alfred Johnson;
- Dr. Nilesh Nangrani
- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In follow up to our hearing yesterday and related matters, I provide the following:

First, see attached – a portion of the Mold Protocol, which references Containment, and states “pack out contents for cleaning”. Please note – no lab testing was performed as to the personal property items. Those items, as you know, were packed and moved to a storage facility, by Reign Restorations. Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you).

Next- please note – all personal property items which were packed and placed in the Reign Restoration storage facility can be returned to you. Therefore, if you would like all stored items moved, please advise and Weinstein will incur the cost of the move. Weinstein will also incur the reasonable cost/expense for a different storage facility (storage unit) to keep the items – through your lease period (October 26, 2025). If you elect to have the items moved to a different storage unit facility, you will need to provide the costs/expenses associated with same (for Weinstein's review, consideration and/or approval [and if that cost/expense is not approved, the items can be moved there, with you bearing the storage fees/expenses associated with same]) and the name of the storage facility (note: “storage facility” and/or “storage unit” and/or “storage unit facility” does not include a rental house or other apartment paid for at Weinstein's expense; this terms refers to a typical storage unit facility – as that term is ordinarily understood). If you locate alternative housing – in light of the upcoming expiration of your lease, at your request, Weinstein will have the items arranged to be moved to that housing (with no agreement by Weinstein to pay any future costs/fees associated with same, other than the cost of the move itself). Until I hear further from you on this decision, the items will remain where they are currently located (as you are aware, they cannot be returned to the apartment – given the potential for cross contamination and impact on the ability to move forward with the remediation of the apartment). Please note – that if you choose

October 3, 2025

Page 2

to have these items removed from the Reign facility, before they are cleaned, and placed in a new environment, Weinstein assumes no responsibility or liability for any future contamination/cross contamination of that new environment (personal or real property) and/or any alleged adverse consequences to your health. This is not asking you to waive any particular claim (you remain able to assert any particular allegation/claim), this is simply to make you aware of what Weinstein's position will be as to these matters.

Next- please identify a time and location that you would like the current remaining contents of your apartment delivered to you on Saturday. We appreciate that the Court has ordered the return within 3 days – and as such, it is important that you cooperate and provide the time and location (it is assumed you would like the items delivered to your hotel, The Worthington, however the Order does not specify this as the location for delivery). If the Worthington is selected as the return location, Weinstein will not leave the items unattended (in the lobby or elsewhere) and will be needing to make sure you receive the items (therefore, Weinstein also will not leave the items with hotel staff- the Order states the items are to be returned to "Defendant"). Your prompt response to this today, by end of day, is necessary so that the deadline identified in the Court's order can be met by Weinstein.

Additionally, on a related matter, please provide the list of sentimental and/or medical items that you believe were packed up (and are currently being stored by Reign Restoration). Once I have the list, Weinstein will provide to Reign, and Reign's staff will unpack your items, search for what is identified (therefore you will need to be specific in the name of each item and identifying information for each item) and if located, return to Weinstein, and those items will then be returned to you, at the location of your choice (note: this unpack and search process that Reign will be going through – will be at no cost to you; Weinstein will incur that expense). To the extent certain items are not located (if that occurs), Weinstein will be requesting, at the appropriate time, your documentation (written or photographic) as to the prior existence of each item which was not located, and to the extent you seek reimbursement from Weinstein for any such item, Weinstein will also request (at the appropriate time) receipts, invoices and/or other related documents and/or will value the property loss as identified by applicable Texas law.

Note: all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

Section 3.0 Containments and PPE

Section 3.1 Containment

Pack-out contents for cleaning. Build a single-stage containment around the affected walls in the bedroom, living room, mechanical closet, and hallway. Establish negative pressure using air scrubbers with CLEAN HEPA-rated filters. **Vent outside through a window to remove organic vapors.**

Place air scrubbers outside the containment to clean up contamination from scattered mold spores.

Maintain 4 air changes per hour.

Utilize dehumidifiers to maintain humidity between 30-50% Rh.

Seal HVAC supply vents and/or return air vents in remediation area(s)

Signs advising that a mold remediation project is in progress shall be displayed at all accessible entrances to remediation areas. The signs shall be at least eight 8 inches by ten 10 inches in size and shall bear the words "NOTICE: Mold Remediation Project In Progress" in black on a yellow background. The text of the signs must be legible from a distance of ten 10 feet.

Section 3.2 Personal Protective Equipment (PPE)

Minimum PPE

FULL PPE REQUIRED

Gloves

Disposable Full Body Clothing

Head Gear

Foot Coverings

Full-Face Respirator with HEPA Filter

The remediation contractor shall insure that OSHA appropriate personal protective equipment (PPE) is worn while remediating all containment areas.

Use professional judgment, consider potential for remediator exposure and size of contaminated area. Contractor assumes all responsibility for PPE compliance.

The EPA Guidelines for Remediation of Building Materials with Mold Growth by Clean Water requirements for PPE should be followed. The complete table is included at the end of this document in U.S. EPA Cleaning Methods, Table 2.

Note: Professional judgment should always play a part in PPE decisions. The EPA guidelines are based on the total surface area contaminated and the potential for remediator and/or occupant exposure, not on the basis of health effects or research showing there is a specific method appropriate at a certain number of square feet. The guidelines have been designed to help construct a remediation plan. The remediation contractor will then use professional judgment and experience to adapt the guidelines to particular situations.

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

In response to your late night email of yesterday, I provide the following:

First- my October 3 correspondence did not say that you had rejected the cleaning/remediation of the personal property items, it specifically said:

“.... Additionally, as you are aware, you requested that no cleaning/remediation be performed on those items at this time – and as such, none has been. As you are also aware, you had made several comments, prior to the Reign Restoration pack up, that you wanted your personal property cleaned and as such, if you still would like this service performed, please advise and Reign Restoration will be notified that it can move forward with this (and this would be at no cost/expense as to you).”.

Next- in response to your inquiry and request for confirmation that the items removed by Reign have not been cleaned, or treated- as I said in the October 3, 2025 correspondence- they have not been. I have confirmed that with Reign. With respect to whether items were disposed of – I have been informed that the only items that were disposed of were the contents/items in the refrigerator. The refrigerator was cleared out before it was removed to Reign's storage facility. Reign has indicated that it did not see/recognize any type of medication in the refrigerator or freezer when clearing out the contents. With respect to the medications you assert were being stored in the refrigerator or freezer, please provide the specific name of each, the prescribing physician/healthcare provider, and the cost associated with same (and proof of payment).

Next- please refer to my October 3 correspondence regarding the personal property items which were packed and placed in the Reign Restoration storage facility and the ability to return same to you.

Next, as the emails I sent on Friday, on Saturday and on Sunday made clear, the items that were remaining in your apartment and which the Court ordered be removed and returned to you – were too many/extensive to send to your hotel and/or comfortably move into your hotel room (and as you know, you never provided a date/time for even the boxes of medications and the humidifier to be returned to you personally). Therefore, all of these boxes and items (to include

October 3, 2025
Page 2

the three flat screen televisions were moved into the storage unit at the apartment complex (which both I and the management staff emailed to you about on Sunday, providing the number of the unit, the location in Building 2 and instructing as to access of the key for this storage unit). With that said – these boxes and items can also be moved to Reign Restoration for storage, and cleaning (at the appropriate time) and, therefore, if you would like these boxes and other items moved there – please advise and Weinstein will incur the costs associated with the move and the costs associated with cleaning those items, at the appropriate time. **Again, none of your property will be cleaned or treated at this time.**

With respect to the “list” of various items, you sent on last night’s, late night email – please note that the list of the items which you consider to be medical and/or sentimental needs to be completed and provided to me, before Reign is instructed to unpack, sort through and locate your identified items (the Court did not order anything regarding “items needed soon” and/or or “personal items” – the order was confined to medical and sentimental) so that this can be efficiently accomplished. Additionally, while I appreciate your attempt to identify items by “page numbers” from filings my office made last week – please confirm that “filing” that you are using as a reference by which to identify page numbers – is the Plaintiffs’ Response to Defendant’s Emergency Application (it appears to me that it is this particular filing); please note – in reviewing that document and trying to locate certain items – some are not readily identifiable in the photographs, therefore, please circle the items and send me those pages – so that Reign has a clear understanding of what to locate and return. While I do not believe a bedside table is considered “medical assistive equipment” – I am not opposed to requesting this to be located by Reign, however, I am opposed to the list (once completed) far exceeding medical and/or sentimental items. The sooner you can provide the complete list, the sooner Reign can unpack, locate and make arrangements to return those located items to Weinstein (and then to you, assumedly at the hotel where you are currently staying – which will require a confirmed date/time that you can meet Weinstein staff in your hotel lobby to personally receive the items, and this will need to be scheduled prior to the day of the delivery – so as to have some clarity as to the logistics necessary to accomplish this task and the ability to organize and schedule personnel for the completion of delivery, accordingly).

Note: as before – all references to Weinstein bearing the cost or expense for any matter identified herein is not an admission of liability as to my clients and Weinstein reserves all rights and defenses (to include as to affirmative defenses and/or inferential rebuttal positions) in connection with this matter.

I appreciate your attention to these matters and look forward to hearing from you.

Sincerely,

Glynis L. Zavarelli

To: Katie Copeland
Cc: Michelle Sortor
Subject: Re: Weinstein v. Copeland

Ms Copeland-

The apartment contents are fairly extensive (as you know the court directed that every drawer and cabinet be checked- and many items were found in sealed cabinets or drawers), and there were some already boxed items located in the living room as well as several large trash bags- labeled with red tape. Additionally, there are also three large flat screen televisions (these are being packed in television boxes) and mounts, dishes, food items, and small kitchen appliances. There were also several boxes of items in the entry way closet- that look like maybe something you had packed and perhaps moved there, at some time.

All medications and/or what appear to be potential medical items (pulse ox, portable BP cuff, bandages, humidifier) - are being boxed with appropriate identifiers ("medications").

It appears that there will be more than 20 boxes. A picture will be taken of all boxes, bags and items.

I am uncertain as to how all the boxes, items and television sets will fit into your hotel room - and or do so comfortably for you. Therefore, we have secured a large storage unit here at the apartment complex to store all items in - should you choose for them to be moved there. This storage unit will be at no cost to you, and we can deliver all boxes labeled "medications" and the humidifier, to the hotel- once you tell us what time to do so; we can do this, this afternoon by 4 :30 or 5:00 pm . We have also located a couple of photos of your children and what looks like perhaps a craft that was made by them (I'm not sure) - but we can deliver those items as well (this afternoon) and with your direction move the remaining boxes, televisions and other items to the on site storage unit. You can access these items freely whenever you choose. Weinstein is also trying to get the key made for this storage unit right now - and if made by 4:30 or 5 pm can be delivered to you today at the hotel, as well.

Please respond and indicate whether you want everything brought to the hotel (and if so- what time - today or tomorrow) or would like to pursue the above identified plan regarding use of a storage unit and delivering certain boxes or items to the hotel.

Thanks-
Glynis Zavarelli

Ms Copeland-

I did not hear from you.

Staff have been released.

All boxes and items that were in your apartment have been moved to storage unit S18, 4th floor of building 2 (your building) - next to Apartment 2431. This storage unit is being provided to you at no charge, for the duration of your lease term. You will need to arrange for these items to be moved out of the storage unit on or before the day your lease expires.

Email to follow from apartment management providing you the PIN code for the lockbox that contains the storage unit key. The lockbox will be affixed to the leasing office exterior door handle.

Note- the boxes containing medication and or mix of medications and sentimental items, as well as the humidifier are at the entry of the storage unit stacked to the left, as you walk into the storage unit, and are clearly marked.

Thank you-
Glynis Zavarelli

On Oct 4, 2025, at 6:01 PM, Glynis Zavarelli <gzavarelli@wandzlaw.com> wrote:

Ms Copeland-

I still have not heard from you. Therefore- here is the plan:

Staff are available between 3 and 5 tomorrow to move your items and boxes into the on site storage unit(s). Therefor- All items and boxes will be moved there - absent your confirmation that you will be personally available at the hotel to receive the several boxes of medications, the humidifier and the box of mixed items- medications and sentimental items. If you indicate you want those boxes brought to you at the hotel, that will be accomplished - if you tell me that before 4:30 tomorrow. Otherwise, again, those boxes will also be stored in the on site storage unit(s).

Please note with respect to the keys to the on site storage unit(s), a lockbox will be set up for you and will be located at the leasing office, on the exterior doors - and you will be emailed information, from Andrea Meza (management) - providing the PIN code for the lock box - and the storage unit(s) number. This will all be accomplished for you by 5:00 pm tomorrow.

The above course of action is not subject to change or modification. The staff are being called in specifically (on a Sunday) to do this work and therefore, their personal schedules/commitments are being impacted.

I look forward to hearing from you before 4:30 tomorrow regarding the medication boxes and humidifier (ie whether you want them delivered to the hotel- between 4:30 and 5:00 pm- and with the assurance you will be there during that window of time to receive; the staff will not wait at the hotel past that time). Again if you do not indicate before 4:30 pm tomorrow you want these delivered to the hotel- they will be placed in the storage unit(s).

Thank you-
Glynis Zavarelli

Ms Copeland-

You asked for all communications to be in writing—I was respecting that request. And I sent multiple emails yesterday- throughout the day. Significantly I note you have not responded to my inquiries below- so:

Please advise if you want the medication boxes and the box that has a mixture of sentimental and medication items as well as the humidifier delivered to your hotel this afternoon - with a specific time that you are available to receive the items personally- we can meet you in the lobby and you can use a luggage cart or - the boxes can brought to your room directly (and we can also bring the storage unit key to you as well)-and have the rest of the boxes, televisions, and other items moved to the storage unit on the apartment property (again there is such a large amount of boxes and other items- including the television sets- that it would likely not be comfortable for you in the room- assuming the hotel would even permit all of those items to be brought to one of its hotel rooms). Alternatively- we can have all items and boxes moved into the storage unit on site, and just bring you the key.

Please respond as to what you prefer; I need to have time to make the logistical arrangements for the delivery of boxes (and storage unit key) and, move of items with the apartment staff. If you would prefer to consider this further, and let me know tomorrow which you prefer- please let me know

that within the next hour (I have other plans today as well and have already delayed those to be able to get this taken care of). If you elect for the items I have noted (medication boxes, humidifier) to be delivered to your hotel tomorrow (along with the storage unit key)- I will need a specific time before 5 pm that you will be available personally to receive.

Thank you-

here at the

apartment complex to store all items in - should you choose for them to be moved there. This storage unit will be at no cost to you, and we can deliver all boxes labeled "medications" and the humidifier, to the hotel- once you tell us what time to do so; we can do this, this afternoon by 4 :30 or 5:00 pm . We have also located a couple of photos of your children and what looks like perhaps a craft that was made by them (I'm not sure) - but we can deliver those items as well (this afternoon) and with your direction move the remaining boxes, televisions and other items to the on site storage unit. You can access these items freely whenever you choose. Weinstein is also trying to get the key made for this storage unit right now - and if made by 4:30 or 5 pm can be delivered to you today at the hotel, as well.

Please respond and indicate whether you want everything

brought to the hotel
(and if so- what time
- today or tomorrow)
or would like to
pursue the above
identified plan
regarding use of a
storage unit and
delivering certain
boxes or items to the
hotel.

Thanks-
Glynis Zavarelli

Ms Copeland-

It is misunderstanding you have not yet picked up the key for the onsite storage unit and I am unclear if you ever plan to but wanted to point something out:

Re packing up your apartment and placing in storage in the on site storage unit: I wanted to make sure you understand that the items that were removed from the sealed cabinets and drawers were exposed briefly to the air in the apartment before being placed in a box and sealed (and all other items which were there and not behind sealed doors/drawers- have also been exposed to the air in the apartment).

Again- as I indicated in my correspondence of yesterday- if you would like all the items and boxes in the storage unit moved to the Reign Restoration facility and cleaned, this can be accomplished.

Thank you-

Subject: RE: Weinstein v. Copeland

Ms. Copeland:

I am following up on the correspondence I sent on Monday, and in particular seeking the **complete list of medical and/or sentimental items that you would like for Reign to locate**. I have also asked in Monday's correspondence for clarification/confirmation as to page references for filings that you have pointed to – by which to locate items, and for items to be circled as I cannot decipher from the photographs all items referenced. If it would be easier/more efficient – **once you send the complete list- and confirm the page number references- ie confirm from which filing these page references correlate**– I will go through the list and corresponding page number references, review the photographs and attempt to locate each item, and for those that I cannot readily identify- I will send you a list of those particular items, with the photographs attached- so that you can circle those items on the photograph and send me back the circled items (and note: if the list you sent a few days ago is now considered by you to be the complete list- please tell me that, and please confirm the citing for the page references from the filing, and I will review the items noted, the page references and photographs, and determine what cannot be identified, and then follow the procedure I have offered).

Moving forward- please respond to requests such as this – so that I can handle this efficiently; also, please email me/my office/my staff during regular business hours (as you do with Court staff), so that we do not miss your emails.

I have copied Mr. Douglas to this email given your recent reference to the small claims court case he filed on your behalf – when emailing with the Court Coordinator this afternoon, on our pending District court case.

Mr. Douglas: I have tried for almost two months to speak with you and you have never answered the phone nor do you return my calls (more recently – I called on September 19 and left you a vm, and have called several times over the last couple of days and did not leave a vm for these most recent attempts to contact you, because frankly- I am concerned about who has access to the vm). Please email me a time tomorrow, Friday or Tuesday (I will not be available on Monday) that will work for you for a phone call on various matters. Additionally, as I have requested before – please update the State Bar with current contact/employment information and provide an update as well to the small claims court- if the address and/or phone number you provided when you filed the case is no longer current (it is my understanding you may have moved from the address that you are showing on the small claims court case filing; if so – you are required to provide the court and all counsel with current contact information). As with Ms. Copeland -please refrain from emailing me/my office/my staff late at night or in the early morning hours (ie before 7:30 am)-as I do not want to miss your email.

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli

On Oct 10, 2025, at 8:11 PM, Copeland, Katie <K.M.COPELAND@tcu.edu> wrote:

Dear Ms. Zavarelli,

Thank you for your message. I want to note that I have a documented **brain injury and significant vision impairments (including binocular dysfunction)** that were **caused and/or exacerbated by prolonged toxic mold exposure**. These conditions substantially affect my ability to read dense text, analyze and process information quickly, and manage multiple emails. It has been especially difficult without my medications and I cannot afford to replace them all so I have been having to adjust to changes, which have led to cognitive overwhelm happening more often and for longer time periods.

Accordingly, I respectfully request that future communications be **consolidated and written in clear, bulleted form where possible**, so I can review and respond accurately. This is a reasonable accommodation under the ADA and will help ensure effective communication between us.

Regarding your request:

- I am unsure whether the list sent Sunday evening is the complete list or if additional items need to be added. I am not sure what you mean about complete and whether the items can be cleaned. That is why I need your response regarding testing my items for contamination. I noticed an invoice where it said testing was done, but then you said it was not tested. I am confused since you told the court my items were contaminated and that is why they were taken.
- I just sent 3 emails with the documents showing the items and the page references you requested.
- You indicated earlier that you are opposed to me have counsel appointed by the Court. Can you provide some insight as to why you do not want me to have an attorney? I am unsure of how to proceed if you are not agreeable to resetting the hearing date or for me to have appointed counsel appointed. As it is, my cognitive and communication-based disabilities prevent me from full and meaningful participation in the proceedings.
- My understanding of the last proceeding varies greatly from what was entered as a TRO against me and I am unclear on how none of the rulings granted to me were included in the order. As a result, I am unclear of what is even set for hearing on the 16th and why it is necessary. Can you please explain?

Thank you for your patience and cooperation. I remain committed to working in good faith and ensuring that all information is clear and accurate. However, it is unpredictable when my health will allow me to respond to pleadings and emails, so I am not able to commit to keeping emails during business hours.

Perhaps if we could settle the retaliation claim pending in the justice court, then I could obtain counsel to assist in the upcoming hearing. Or if we could reach some other kind of agreement, I could get treatment needed to improve my cognitive function. For example, the medications that were in the fridge were a few hundred dollars and are necessary to reduce inflammation in my body & brain.

How do you propose we make me whole enough to participate while I do not have a lawyer, per diem support, funds for treatment and replacement of missing items?

Sincerely,

Katie Copeland

Ms. Copeland:

See attached – the TRO entered by the Court, which also sets the Temporary Injunction for hearing tomorrow. Please review the pleadings previously filed. Additionally, we will be submitting a proposed Order for this, you will receive this through Efile/Eserve; once you review, if you are in agreement with the terms, please advise via email.

As to mediation and your perspective – this is unfortunate.

As to Mr. Douglas – I have not made any “accusations” – I have pointed out that he has consistently not responded to me through the course of almost two months and this is not productive. Specifically here is what I wrote yesterday:

Mr. Douglas – I encourage you to respond to me. I have called again today and left a vm; called several times in the past few days, you did not answer, and I did not leave a vm, Your lack of response to me over the last almost 2 months – particularly given that you filed the lawsuit against Weinstein, and have sent various emails making allegations/threats and/or referencing future additional litigation (noting your September 16 email indicating your intent to file a federal court case against Weinstein and requesting a TRO – as the most recent example), and given that I have been suggesting mediation since August 26 (with an offer to pay Ms. Copeland’s portion of the mediation fee) with no response from you- is wholly non productive.

I stand by this.

Ms. Copeland:

I have not said that you have wholly refused cleaning – and I have made that clear – in prior communications; I have said that at this time you have requested no cleaning be performed – which you did – on numerous occasions. You have also repeatedly asked me to confirm no cleaning has yet taken place and I have provided you that confirmation. If you would now like to have Reign move forward with the cleaning, please advise and I will let them know.

I have told you that testing was not done of individual personal property items – but testing was done of the apartment and pursuant to which a new mold protocol was prepared. I have sent you the portion of the mold protocol which references your personal property.

As to packing done by Weinstein -that was accomplished on October 3, given the Court's order that any items left in your apartment were to be returned to you, within 3 days. I sent you numerous emails that day (and follow up emails over the weekend) about the amount of items that remained in the apartment, and/or size of some items – and as you know, you are now being provided an additional storage unit on site- at no cost to you , to store those items (and you had been offered – throughout October 3-5 for certain boxes to be delivered to your hotel at an agreed time – and you never responded to those emails). As to packing done by Dedicated Mold- they did not move those items (boxes and bags) out of the apartment, these were moved into the storage unit on the 4th floor by Weinstein staff (on October 5 – as my multiple emails leading up to that point – had discussed).

With respect to the front entry area, have you returned to the apartment after the October 2 Order was entered?

Please note – the apartment will likely not be readied for occupancy, before your lease expires on October 26. If that changes I will advise you accordingly. However, please note: all items being stored in the storage unit that you had been using in association with your apartment, and the items being stored in the additional storage unit on the 4th floor of your building- will need to be removed by the time your lease expires.

I have no information to provide regarding relocation and/or medical expenses and frankly am confused by your request for an “update” with respect to “reimbursement”.

Thank you -

Subject: Re: Conference

Dear Ms. Zavarelli,

I'm writing to clarify a few ongoing points of confusion.

I'm not sure why you've stated that I requested no cleaning be done. What I've actually asked for are details about how contamination is determined, what testing was performed, how it is done, and how decisions are being made about which items can be cleaned or must be discarded. You previously indicated that no testing was done, yet you also told the Court that my belongings were contaminated. That contradiction has left me unable to make informed decisions about my property.

It's also concerning that at least three different entities—Weinstein, Dedicated Mold, and Reign—were involved in packing and removing my belongings. I never gave consent for removal, and the unit was not ready to be packed. If I contact those entities directly, I expect they will say Weinstein authorized the action. Can you please confirm who specifically directed them and under what authority?

I also noticed an invoice referencing testing from the apartment, but I have not received those results. Please provide a copy of the findings. They are medically significant and necessary for understanding the extent of exposure and appropriate next steps for my treatment.

Finally, the front entry area that tested positive for black mold has still not been remediated. Can you explain why no remediation plan or work has been initiated in that area?

I also need an update on reimbursement for my relocation and medical expenses. The continued delays and lack of cooperation are prolonging my displacement and increasing damages.

Thank you,

Katie Copeland
817-789-8498

Ms. Copeland:

Please see attached a copy of the photographs with red circles – you provided to us (from Part 2 and Part 3 of what you sent to us [no photographs for part 1 were circled]). I have emailed these attachments to Reign. Reign confirmed receipt of the email and attachments and contacted me to obtain and/or provide some clarification as to certain circled items (and was able to pull up their own photographs – which are better able to be visualized – than some of the photographs the attached “Copeland- circled items, search and return, Part 3” – given the scan, rescan nature of the attached).

Provided below is what Reign needs assistance with to understand what specifically to search for/retrieve- all from the attachment: “Copeland -circled items, search and return, Part 3”:

- Page 5 of this attachment; circled item that appears to be a plastic container (please confirm);

- Page 5 of this attachment – what specifically is circled on the bed that you are requesting be pulled and returned (please identify this item by name);
- Page 6 of this attachment – what items on the bed within the circle are you wanting pulled and returned (please identify these items by name);
- Page 7 of this attachment – bedside table and items: are you wanting the bedside table pulled out and returned, as well as the items on the table; please clarify;
- Page 8 of this attachment – are you seeking the guitar and the dog crate/dog bed (both; if not both- which do you want pulled out and returned);
- Page 9 of this attachment – what is the blue item in the circle – please identify by name if this is something you are wanting to have pulled out and returned;
- Page 10 of this attachment – do you want the books and the container on top of the books both pulled and returned, or just the books, just the container- please clarify this;
- Page 11 and 12 of this attachment – appear to be the same item circled; and this appears to be a case for something – please confirm;
- Page 14 of this attachment – do you want all the items contained in the circle with the electrical cords- pulled and returned – please clarify;
- Page 16 of this attachment- do you want the table/structure that the photographs are sitting on – in addition to the photographs- pulled and returned- please clarify

With respect to the attached Part 3 photographs, Reign indicated that the following were not packed by Reign:

- Any medications (some are circled on page 5 of this attachment)
- Any jewelry (to the extent those items hanging from the wall shelf -circled on page 4 of this attachment, are jewelry of some sort);
- The counter items on page 2 of this attachment (tea kettle and other items);
- The items at the base of the candy bowl- on Page 15 of this attachment – and the circled medicine/supplement jar.

Please note jewelry items were located in the master bath linen closet, as were numerous medications – those are all visualized in the photograph you took as well as in one of Reign’s photographs. Those items – jewelry and medications located in your apartment – in the master bath linen closet, as well as medications/supplements in the kitchen area – were all packed by Weinstein and those boxes are being stored in the additional storage unit provided to you, located on the 4th floor of your building (as the emails sent to you over the weekend of October 4-5 indicate). Certain kitchen and/or kitchen counter items were packed by Dedicated Mold and placed in a sealed boxed -labeled as “kitchen contents”, “counter contents” and/or “kitchen and counter contents” and those too are located in the storage unit on the 4th floor of your building (again, as previously referenced). As previously indicated this 4th floor storage unit is being provided to you through your lease term (October 26) and at no cost to you. Once your lease expires, you will need to move these items out of the storage unit.

I have also asked Reign to locate the AT&T equipment you previously referenced and pull that out, for return, as well.

Please provide the clarification requested above – by Friday afternoon; Reign will be able to start going through the contents and pulling out items – on Monday/Tuesday of next week and expects the project will take two days. Therefore, please also use this time to confirm with The Worthington that any large items (such as the bedside table, or any other larger items you have identified- dog crate, dog bed, etc) are permitted to be delivered to the hotel. If not- then please identify where you would like those items delivered. Again, no cleaning has taken place as to any items being stored by Reign (this is at your request, as you know).

Thank you –

Subject: Re: Conference

Ms Copeland-

I have seen your below email- but am out of town for a hearing. I will not be back in the office until tomorrow morning; at that time I will locate and review the other emails you sent and which you indicate identify medical and sentimental items- and absent any clarification needed from you- I will provide this information to Reign so that it can attempt to locate and provide the items to Weinstein; we will then arrange to deliver the items to The Worthington - therefore, in the interim, please check with the hotel to make sure it will permit this (since I haven't been able to review the three emails with the items identified- I am unclear as to amount and or sizes of items).

As to my reference to "complete list" this was as a result of you emailing Sunday night (Oct 5) and indicating you were preparing the list but had delayed finalizing it I will locate that particular email and forward to you for reference.

I will be back in touch tomorrow.

Thank you-
Glynis Zavarelli

Subject: RE: Conference

Ms. Copeland:

Following up on the below (to include email sent to you on Tuesday).

Once the requested clarification is received, this will be provided to Reign and it can begin to unpack the contents from the apartment and search for the items you have requested. My understanding is that they are currently available and able to do this work beginning on Monday or Tuesday (October 20 and 21) but will need to receive the information requested, as to clarification, by Friday afternoon (ie before 5 pm). I will not be available and/or able to communicate with Reign Friday evening/night or over the weekend, and will be in a deposition all day on Monday; therefore, it is important for you to communicate promptly about this, if you would like for Reign to work on this, early next week.

With respect to the other items you indicated you would like returned, and which were not packed by Reign- I have provided you the information as to the location of these items – and you are able to access those at your convenience.

With respect to the patio items, as you know, they were not moved from the patio. Would you like those to be removed from the patio and placed in the storage unit that is being provided to you (at no charge) on the 4th floor of Bldg 2; there is not a lot of room there, but these items will likely fit. Please advise.

Thanks-

Subject: RE: Conference

Ms. Copeland:

Please see attached a copy of the photographs with red circles – you provided to us (from Part 2 and Part 3 of what you sent to us [no photographs for part 1 were circled]). I have emailed these attachments to Reign. Reign confirmed receipt of the email and attachments and contacted me to obtain and/or provide some clarification as to certain circled items (and was able to pull up their own photographs – which are better able to be visualized – than some of the photographs the attached “Copeland- circled items, search and return, Part 3” – given the scan, rescan nature of the attached).

Provided below is what Reign needs assistance with to understand what specifically to search for/retrieve- all from the attachment: “Copeland -circled items, search and return, Part 3”:

- Page 5 of this attachment; circled item that appears to be a plastic container (please confirm);
- Page 5 of this attachment – what specifically is circled on the bed that you are requesting be pulled and returned (please identify this item by name);
- Page 6 of this attachment – what items on the bed within the circle are you wanting pulled and returned (please identify these items by name);
- Page 7 of this attachment – bedside table and items: are you wanting the bedside table pulled out and returned, as well as the items on the table; please clarify;
- Page 8 of this attachment – are you seeking the guitar and the dog crate/dog bed (both; if not both- which do you want pulled out and returned);
- Page 9 of this attachment – what is the blue item in the circle – please identify by name if this is something you are wanting to have pulled out and returned;

- Page 10 of this attachment – do you want the books and the container on top of the books both pulled and returned, or just the books, just the container- please clarify this;
- Page 11 and 12 of this attachment – appear to be the same item circled; and this appears to be a case for something – please confirm;
- Page 14 of this attachment – do you want all the items contained in the circle with the electrical cords- pulled and returned – please clarify;
- Page 16 of this attachment- do you want the table/structure that the photographs are sitting on – in addition to the photographs- pulled and returned- please clarify

With respect to the attached Part 3 photographs, Reign indicated that the following were not packed by Reign:

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

Reign Restorations has space to accept the personal property items that are located in the 4th floor storage room. Please confirm that you are authorizing Weinstein to request Reign to move the fourth floor storage room items to its facility. As you have been told on multiple occasions: nothing being kept at Reign will be cleaned, absent your authorization to do so; and the items in the fourth floor storage room need to be removed (your lease expired on October 26, 2025); therefore, if you are not receptive to Reign moving these to its facility, please arrange to remove them yourself.

Next:

You have indicated in court filings that you do not know what items are located in the original storage room associated with your apartment. I am unclear as to the validity of this statement: it was the storage room assigned to you for your use, during your lease term; you, of anyone, should know what you placed in the room; however, whatever you have stored there, needs to be removed (your lease expired on October 26, 2025).

Next:

We repeatedly asked you about the balcony items –and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony.

November 21, 2025

Page 2

Next:

You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items.

Next:

You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired-therefore, it is assumed you are not physically residing in the apartment; Ms. Sortor repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

November 21, 2025

Page 3

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

November 21, 2025

Page 4

Next:

You appear to be seeking as damages – the expenses Weinstein paid on your behalf (hotel and dog boarding). If I have understood your pleadings correctly, this is incredulous. I will be filing Special Exceptions as to this (and other matters).

Next:

Your allegation of failure to mitigate as to Weinstein, is wholly without merit, and nonsensical- I do not know what you are referencing as to “code required abatement”. Again, a special exception will be filed as to this allegations (and other matters)

Next:

You have referenced in recent pleadings that you do not have access to the items in the second floor and fourth floor storage rooms at the apartment complex. This is false. You have keys to both (I am assuming you retrieved the key for the fourth floor storage room from the lock box you were informed about), and as such, it is troubling that you would state this. Regardless, again, all items need to be removed (your lease expired on October 26, 2025) and again, Weinstein will request that Reign move the items in the 4th floor storage room to its facility, once you authorize this; however, absent giving that authorization and/or removing the items from both storage rooms and the balcony, Weinstein will proceed accordingly.

Next:

You have referenced the *White* case in various forums and in pleadings, as some sort of “pattern” evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

You respond only to those matters that you believe benefit you (such as when you initiate a demand for information, responsive information is provided and then you attempt to argue points or make more requests for information), and repeatedly fail to respond to requests that Ms. Sortor and I have made. Please provide us the same courtesy of response.

You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated response; we will not continue to do that.

November 21, 2025

Page 5

Most recently –you have failed to respond to request for depositions, and the request to review the proposed scheduling order. Therefore, please provide dates you are available for the depositions of the fact witnesses we previously requested and that of your ex husband; and please advise as to the proposed Agreed Scheduling Order.

Next:

Given the voluminous and involved counter claims you have asserted and the \$17 million in damages you seek, I will need additional time for your deposition – and am requesting to depose you for an additional 3 hours – 9 hours total. Because I anticipate the need for breaks, to include a lunch break, I suggest that we do this over two consecutive dates. Please advise if you will agree to this additional time requested; if not, I will seek court intervention as to same.

Next:

Your proclivity to file “emergency” Motions and demand rulings in less than a reasonable time (when there is no “emergency” and/or you have cultivated and created circumstances, by your own actions, which is then termed by you to have resulted in an “emergency” situation), is improper. Such filings and demands (which without merit and which are actually not emergent) in turn, necessitate expedited responsive briefing/filings by us which results in Ms. Sortor and/or I re-arranging our professional and personal schedules. To date, we have exercised patience with you, in this regard.

Moving forward, while we will continue to zealously represent our clients by doing what needs to be done in terms of responding to any particular Motion you file (to include those filed as emergent matters), we will be requesting sanctions, if we deem such appropriate. You should know –in 33 years of practicing law – I have requested sanctions against an opposing party – very rarely; therefore, I do not take making such a request lightly, but again, should you continue with filing frivolous/baseless Motions (to include claiming emergency, as described herein), I will proceed accordingly. This is not a threat Ms. Copeland, it is intended to provide you notice of where I stand.

Next:

You continue to disregard the procedural rules. This is demonstrated most recently with respect to the Motion to Quash you filed-regarding records- which largely failed to identify, by name, the DWQ/Subpoenas to which the MTQ applied (instead using ambiguous phrases), did not attach any of the Notices/DWQ documents to the Motion to Quash that you intended to quash, and failed to send a copy of the MTQ to the records service (even after you were reminded to do so by Ms. Sortor). Thereafter, you failed to respond to the list Ms. Sortor sent you identifying what she believed you were attempting to quash (and indicating the records service would be so advised; which it was, and she also provided a copy to the records service).

November 21, 2025

Page 6

Please abide by the rules, procedurally and substantively. Neither Ms. Sortor nor I will assist you, in any manner, to appropriately apply and/or use the rules. We do not do this for any pro se Plaintiff, nor do we do this for opposing counsel, recognizing here: you are both.

Finally:

Your pattern and habit of secretly recording individuals is at best, unbecoming as a licensed attorney (even if you were suspended during the time you recorded my clients and/or recorded phone conversations with me), and at worse- speaks to more concerning issues. It is particularly telling when you -on the one hand assert disabilities which require individuals to only communicate with you in writing (to include seeking to avoid oral hearings on matters in this case) and on the other hand - attempt to elicit verbal communication over the phone - with either Ms. Sortor or I. To be clear: the only oral communication Ms. Sortor or I will have with you, absent court directive to the contrary, is in the following contexts/circumstances: court hearings [to the extent necessary], your deposition, mediation (assuming we are ever in the same room with you and the mediator at the same time) and trial- during cross examination and/or other related trial activity.

I appreciate your attention to these matters and look forward to receiving the information requested herein, requested deposition dates, supplemental disclosures with the items identified herein being provided and return of the signed Agreed Scheduling Order (or whatever revisions you would like considered).

Sincerely,

Glynis L. Zavarelli

Ms. Kathryn (Katie) Copeland

RE: Weinstein, et al v. Kathryn Copeland

Dear Ms. Copeland:

I am writing regarding various matters.

First:

You have not responded to my November 21 correspondence regarding the personal property items stored in the 4th floor storage room at the apartment complex- and whether you would like these moved to Reign. Please respond. If you are not agreeable to having them moved to Reign, please remove the items yourself (your lease expired October 26, 2025).

Next:

As previously noted in my November 21 correspondence -Please remove the personal property items you stored in the original storage room, associated with the apartment 2145 (your lease expired on October 26, 2025).

Next:

As noted in my November 21 correspondence - We repeatedly asked you about the balcony items --and while you still had a valid lease, we requested you to indicate if you would like the Weinstein maintenance staff to move those items from the balcony to the original storage room for your apartment. You never responded. These items need to be removed from the balcony. Your lease expired on October 26, 2025.

Next:

As noted in my November 21 correspondence - You were requested to return the access devices for your apartment, to include the keys, key fob and gate access devices. It is my understanding those have not yet been returned. Please return those items (understanding that all your personal property items need to be removed from the property (see the first three items above).

December 1, 2025

Page 2

Next:

As noted and requested in my November 21 correspondence -You have signed pleadings providing the apartment as your address; this is disingenuous – though you have refused to leave the apartment in totality -keeping significant amounts of personal property in the storage rooms and on the balcony, and failing to return keys/access devices – well after your lease has expired- it is assumed you are not physically residing in the apartment; Ms. Sortor has repeatedly requested for you to provide your physical address- and you have ignored those requests entirely. Please provide your physical address.

Next:

As noted in my November 21 correspondence

Your disclosures are incomplete.

You have not provided complete contact information for Mr. Quiram. Please do so.

You have not identified the multiple/numerous medical providers who have purportedly been involved in your care, based on the most recent Amended Answer/Amended Counter Claims asserted. Please identify those persons, with complete address and phone numbers and the requiring identifying information -and when you do so -do not omit the following: the physicians referenced in your “reproductive harm” claim, occupational therapists, physical therapists and home healthcare providers referenced in your pleadings, physicians involved in any diagnosed “brain trauma”, physicians/medical professionals involved in any diagnosed gastrointestinal issues/weight loss issues, physicians/medical professionals involved in the alleged chronic fatigue, physicians/medical professionals involved in any diagnosed respiratory conditions, physicians/medical providers who have diagnosed and/or treated you for: dermatologic symptoms, hand tremors/weaknesses and balance impairment, chronic migraines, autoimmune instability, all medical professionals/providers who were involved in ordering, interpreting and/or diagnosing and providing care to you based upon MRI findings, ultrasounds, blood panels and genetic and allergen sensitivity testing, all physicians/medical providers (to include psychologists, therapists) for referenced PTSD, all physicians/medical providers who have been involved in diagnosing and/or treating the following conditions: Ehlers-Danlos Syndrome (EDS), Postural Orthostatic Tachycardia Syndrome (POTS), and Mast Cell Activation Syndrome (MCAS) and all physicians/medical providers who have diagnosed and/or treated you for or have indicated delayed affects from mold exposure – to include as related to neurological, respiratory, hepatic, renal and immunological conditions/harm. Please update/supplement your disclosures to provide all of this information.

Additionally, please identify all hotels you have stayed at for the last 8 months (given your plead claim of 8 months of hotel to hotel instability).

December 1, 2025
Page 3

Please identify every person – professional and lay persons – involved in any matter involving your “children’s displacement” (you have opened the door on all matters involving the custody of your children and the orders entered which prohibit you to have unsupervised contact with them). This includes but is not limited to your ex husband and your mother. However, all other persons who have knowledge of your children being “displaced” and/or of the facts surrounding the restrictions placed upon you in terms of visits/contact, should be identified.

Please identify all individuals who have knowledge of the manner in which the alleged incidents (as alleged in your counter claims) have impacted your legal career (ie “derailed” your “legal career trajectory” – as you have alleged). Though I find that claim to be completely lacking in merit, given what happened with/to your law license and why – because you again, have opened the door on this - we need to be provided identifying information for any persons who would have knowledge of this- the manner in which your legal career has been impacted as well as those individuals who were involved in the matters that led to your law license suspension.

Please identify every person who has been in your apartment- with your authorization -and who is not a maintenance nor management staff with Weinstein, since June 1, 2025. You seem to believe this is relevant – as to Weinstein employees and/or contractors/vendors – therefore, your disclosures should reflect every person you invited into and who came into - the apartment during this same time frame.

You have not identified any professional who has indicated you have a disability- as that term is used for the ADA and/or FHA. Please identify those persons, if they exist.

You have not identified the gentleman who you connected with through Bumble and who allegedly assaulted you on September 10, 2025. Given your allegations related to this event and your mental anguish claims, whoever this person was – is a person with knowledge of relevant facts, who I will need to depose.

You have not provided any medical records or billing records with the disclosures. Please produce all responsive items now.

You have not produced the audio recordings you made of Kodi Jackson and/or others who worked for Weinstein management and maintenance, though you repeatedly referenced (in your pleadings) various comments purportedly made by those individuals. These are witness statements and need to be produced. Similarly, if you have audio recorded conversations or video of conversation/statements made by third parties pertaining to any matter relevant to either Weinstein’s claims, your defensive positions and/or your counter claims -those would also be considered witness statements. Please produce all responsive items now.

Because you have not supplemented as requested above, the appropriate Motion has been filed with the Court; however, to the extent these matters are supplemented, there will be no need for a hearing on same.

December 1, 2025
Page 4

Next:

As noted in my November 21 correspondence -You have referenced the *White* case in various forums and in pleadings, as some sort of "pattern" evidence. You should know- the *White* case was not settled/resolved; instead the Weinstein entities received a Dismissal with Prejudice in that federal court case, and this occurred before your most recently filed Amended Answer/Counter Claims where you state that the case is still pending – please correct this.

Next:

As noted in my November 21 correspondence - You continue to largely only respond to those matters that you believe benefit you, and repeatedly fail to respond to requests that Ms. Sortor and I have made. Again, as previously requested- please provide us the same courtesy of response.

Also as noted in my November 21 correspondence; You also, at times, make the same request for information from us, as has previously been made and to which we have responded/answered. In the past, we have given repeated responses; we will not continue to do that (most recently you did that with the request for excess/umbrella insurance- and Ms. Sortor graciously responded (again) to that request on Wednesday afternoon, advising you would hear back (again) on Monday. This morning she promptly emailed you that information -informing you again that there is no applicable umbrella/excess. You also filed a Motion to Compel on this issue (after Ms. Sortor's Wednesday email making clear Weinstein's position) and the Motion you filed inaccurately stated Weinstein's position as to that issue; now that you have been told twice that there is no applicable umbrella/excess policy – please withdraw the Motion; alternatively, if you proceed to set this for hearing, a Response will be prepared and we will seek applicable/appropriate relief from the Court.

You have also failed (repeatedly) to respond to our request for depositions of fact witnesses and have not responded to the request to review the proposed scheduling order and sign/return or provide suggested revisions that can be considered. Therefore, the appropriate and necessary Motions have been filed on these matters.

Next:

I appreciate your response as to the additional time I have requested for your deposition; I will seek court intervention as to same.

December 1, 2025
Page 5

Next:

Ms. Sortor and I will not be providing you dates for our depositions; the request is improper, harrasive and an abuse of the discovery. Should you proceed with filing a Motion to Compel which will necessitate a Response to be filed, or if you unilaterally notice these depositions, necessitating a Motion to Quash being filed, we will seek all appropriate relief from the Court.

Next:

As I noted in my November 21 correspondence: You continue to disregard the procedural rules. Please abide by the rules, procedurally and substantively (to include as related to your Certificates of Conference).

Next:

Please provide January and/or February 2026 that you are available for the following depositions:

- Dr. Michael Conte
- Dr. Kim Tran; and
- Dr. Isabel Huang

I appreciate your attention to these matters and look forward to receiving the information requested herein.

[EXTERNAL EMAIL WARNING] DO NOT CLICK LINKS or open attachments unless you recognize the sender and know the content is safe.

Ms. Copeland:

Judge Chupp did not order (direct, or instruct) Weinstein to provide you continued lodging (to "house" you), per diem monies, or any of the other demands you have made in this email and he did not say what you have stated below was said. In fact, he made clear that your continued efforts to argue other matters – unrelated to the hearings that had been set (the Special Exception and Motion to Quash regarding records) were not being heard today.

The Court did not comment on the validity of the claims/causes of action you have asserted with respect to the alleged violations of the Fair Housing Act (ie whether the Federal or Texas FHA are applicable at all under these facts and circumstances and/or whether you are entitled to any particular type of accommodation). The Court did not comment on your assertion that you continue to have a valid lease (ie that the non renewal of your lease is void) and/or that any act of retaliation was committed against you. Weinstein denies any retaliatory conduct (whether alleged in the original small claims court case, the District Court case or to the extent you are alleging this in the newer repair and remediation case). The non renewal provided to you on August 26, 2025 was appropriate- and your lease expired on October 26, 2025. The Notice to Vacate, issued in November, was also appropriate. Your refusal to remove your personal property items and return access devices, is not appropriate.

Your most recent Motion regarding accommodations is scheduled to be heard on December 12, 2025.

With respect to your personal property items, you have been told repeatedly: with respect to the items which are at the Reign facility, these can be returned to you (Weinstein will pay to transport the items) at whatever location you direct, or they can be cleaned (at no cost to you) but until you authorize cleaning – none will be done. These have been your options since October 3. With respect to the personal property items at the apartment complex (two storage rooms and balcony) – these need to be removed (and you have been told that the items in the 4th floor storage room – can be transported to Reign (Weinstein will pay for this) to be held there, for future cleaning. With respect to medical items you have now indicated you need (noting you stopped corresponding with me about items being held by Reign, which were either medically necessary or sentimental and which you would like

Reign to retrieve and return to you – on October 14, 2025) – please identify those with specificity –by responding to my October 14th email (re sent to you on October 15). Once identified – arrangements will be made to deliver those to your present location (once you identify that).

As to mediation – as I have indicated to you via email/correspondence and today at court- I remain interested in scheduling this at the appropriate time. However, your identified conditions for such to get scheduled, make mediation not feasible. Therefore, if you change your position on this – let me know.

Finally- do not continue to include Weinstein on your communications to me (and/or do not communicate with Weinstein directly). This is improper.

Subject: Required Accommodations Following Today's Hearing
Importance: High

Counsel,

At the hearing this morning, the Court expressly instructed Plaintiffs to **follow the law** with respect to all Fair Housing Act, Texas Fair Housing Act, and disability-accommodation obligations. I am proceeding on the assumption that Plaintiffs intend to comply fully with that directive.

As you know, the uninhabitable condition of the unit, my displacement, and the handling of my belongings trigger obligations under **42 U.S.C. § 3604(f)(3)(B), 42 U.S.C. § 3617, and Tex. Prop. Code §§ 301.025, 301.152, and 92.331**. Because the nonrenewal notice was issued while I was displaced and during ongoing

accommodation requests, it is void under **Tex. Prop. Code § 92.331**, which prohibits adverse actions taken within six months of protected activity. Accordingly, I retain **superior right of possession** unless and until lawful accommodation and remediation procedures are completed.

Additionally, the Court has indicated its willingness to appoint counsel for me under **Tex. Prop. Code § 301.152** and **42 U.S.C. § 3613(b)**. I have submitted a proposed order appointing the Director of the **Texas A&M Civil Rights Clinic**, a specialist in federal civil-rights and Fair Housing Act litigation. The Clinic's involvement underscores the seriousness of the FHA, ADA, and retaliation issues now before the Court.

As this matter is moving into the civil-rights enforcement phase, I am copying the appropriate representatives for Plaintiffs and their insurer to ensure clarity regarding the Court's directives and the statutory obligations at issue.

In light of the Court's instruction, I am requesting the following reasonable and time-sensitive accommodations:

1. Immediate Temporary Housing

Please arrange safe ADA/FHA-compliant temporary housing **no later than December 5**.

I am evaluating the rental property at 3841 Englewood Lane, Fort Worth, TX 76107, which becomes available after the current tenant moves out on Sunday. If this property is agreeable as a temporary accommodation, I can proceed promptly.

If Plaintiffs prefer to arrange an alternative, a short-term rental such as an Airbnb with a yard or fenced outdoor space would be appropriate. Given my disabilities and the presence of my two dogs, a hotel is not a medically suitable or safe long-term environment. An FHA accommodation must be both safe and functional for my disability-related needs.

In addition, due to my medical conditions and the documented mold exposure, I require a **HEPA + activated carbon air purifier** in any temporary housing to stabilize respiratory and neurological symptoms. This is a medically necessary, disability-related accommodation and is consistent with FHA/ADA requirements for environmental health modifications.

This is consistent with the Court's directive that I be housed lawfully while remediation proceeds.

2. Per Diem and Displacement Expenses

Given the prolonged displacement and my medical conditions, please confirm that Plaintiffs will provide **per diem** for food, transportation, and basic living expenses until housing is secured and stable. This is standard practice in displacement cases and is necessary for my health and safety.

3. Licensed Handling of My Belongings

Please confirm that all of my belongings currently being held will be transferred to a **licensed mold-remediation contractor**, consistent with Texas Occupations Code Chapter 1958. No item should be discarded, altered, or released without notice or a complete inventory.

As the Court stated, the parties must follow the law, and that includes lawful handling of contents by licensed professionals.

This request is urgent because several items in storage are **medically necessary for managing my conditions**—including my heated vest, red light therapy device, pain management tools, and other assistive devices that I rely on during neurological and autonomic flares. I need access to these items immediately to stabilize my health.

4. Transparency and Notice Regarding My Unit

Because the nonrenewal is void and I retain superior right of possession, please keep me informed of:

- the remediation schedule;
- contractor identities;
- any clearance testing; and
- when the unit is legally safe for reentry.

This is necessary for coordination with my medical providers and for compliance with FHA/Texas FHA obligations.

5. Mediation After Stabilization

Once I am temporarily housed, medically stable, and my belongings are secured with a licensed contractor, I am willing to participate in mediation. The Court acknowledged today that this case involves significant damages, and mediation will be more productive once I am out of crisis and able to participate meaningfully. I am open to discussing availability for scheduling if you wish to send me dates.

6. Repair & Remedy Proceeding (December 9 at 11:30 AM)

If Plaintiffs wish to come into full compliance with their habitability and accommodation obligations before that hearing, I am willing to streamline or resolve that proceeding voluntarily once safe housing, licensed contents handling, and stabilization are in place.

If these issues are not resolved beforehand, I will proceed with the R&R case as scheduled. Any findings in that proceeding—including habitability violations, breach of duties, or damages—will necessarily be incorporated into the ongoing district court matter.

7. Court Intervention if Needed

If Plaintiffs are willing to implement these accommodations by **tomorrow, December 5**, there will be no need for additional motions or further court involvement at this time.

If not, I will seek whatever relief is required to ensure full statutory compliance with the Court's directive.

My goal is to resolve the housing and displacement issues cooperatively so all parties can focus on the merits and prepare for mediation in due course.

Please confirm by the end of today (**6:00 PM**) whether Plaintiffs intend to comply with these accommodation requirements. If I do not receive confirmation, I will inform the Court so that appropriate relief can be requested.

Sincerely,

Katie Copeland

Social Work and Case Management

Patients at UT Southwestern Medical Center are in good hands in every aspect of care, medical and otherwise. Case managers are assigned to each inpatient care area. They're trained to help patients and family members address financial, social, and emotional problems related to illness or hospitalization.

Case managers also help patients and families cope with long-term illnesses, rehabilitation, and discharge planning. They can assist with arrangements for the following services:

- Home health care, nursing care, and hospice care
- Medical equipment
- Outpatient physical therapy, speech therapy, and occupational therapy
- Referrals to community agencies
