All/Ms. Copeland:

Ms. Copeland:

I will refrain from responding to the allegations, accusations and/or characterizations you have made on this email, given that you have included unrelated (as to Weinstein) third parties and will instead, address these allegations, accusations and/or characterizations at another time (and will include your attorney in those discussions).

With respect to the current situation in which you have found yourself:

You will recall that on Friday, September 5- we provided you three alternative lodging options, one of which was the Holiday Inn Express- Fossil Creek hotel location and asked you to select one of the three, you did not select any of the three and thus, Weinstein made the reservation for the Holiday Inn Express- Fossil Creek hotel. Throughout this week, we have continued to remind you of the existing reservation at the Holiday Inn Express- Fossil Creek, and reminded you of the need to check in on September 10th. You opted not to do so.

As you know, as indicated in the email sent by Ms. Sortor, Weinstein has confirmed that the reservation at the Holiday Inn Express- Fossil Creek remains in place, and will be in place through September 30, assuming you check in and utilize this. Therefore, there should not be any necessity for additional moves, once you have checked in at the Holiday Inn Express- Fossil Creek.

As to transportation to this hotel, we can secure an Uber for you which will accommodate your belongings (as we did on August 22, 2025). Ms. Thompson and Ms. McAteer- please advise if your staff can lend assistance to Ms. Copeland to gather and pack her belongings.

Ms. Copeland, we will plan to have the Uber at The Bowie House by 5:30 pm – and I assume this is sufficient time within which to gather/pack your belongings. However, if you need additional time to pack, please let us know when to have the Uber there. If we do not hear back from you, by 5:30 pm, as to confirmation that you will be checking in to the

Holiday Inn Express -Fossil Creek, we will assume you have made other arrangements for this evening, and will not plan to send an Uber for transportation. Ms. Sortor and I will be leaving the office at 6:00 pm and will not be available thereafter, this evening.

I await response to this email from all.

Thank you –

Subject: URGENT – Unsafe Relocation Will Exacerbate Assault Injuries (ADA/FHA Obligations)

Importance: High

Dear Ms. Sortor and Ms. Zavarelli,

1. My Medical Situation and Immediate Risk

On September 10, 2025, I was violently assaulted and transported by ambulance to Texas Health Fort Worth ER. My discharge records confirm a scalp hematoma, cervical sprain, and thoracic strain. I was taken off work/school until at least September 13 and remain on narcotic pain medication and muscle relaxers, which limit my ability to function or relocate safely.

During the assault, my purse, wallet, and prescription glasses were stolen. I am left without funds, without my critical medical glasses, and without the ability to safely move myself. Forcing me to relocate under these conditions is unsafe, unreasonable, and places me at serious risk of further harm.

2. Weinstein's Legal Duties

Under the **Texas Property Code (§92.052–056)**, landlords must provide habitable housing. The **Americans with Disabilities Act (ADA)** and the **Fair Housing Act (FHA)** require landlords to provide reasonable accommodations for tenants with disabilities. This duty is not optional. It includes both ensuring safe, medically appropriate housing and engaging in an interactive process to identify accommodations.

Arrangements were already in place at Bowie House at the negotiated \$450 rate, but Weinstein took the overt act of interfering with that reservation and cutting off funding. Forcing me into relocation without medical support, transportation, or input is not only unsafe but a **knowing violation of state and federal law**. Such conduct directly compounds the harm already done and greatly expands Weinstein's liability.

3. Reasonable and Cost-Effective Options

I am not refusing to move indefinitely, nor am I asking for luxury. I negotiated Bowie House down to \$450/night, which is a reasonable market rate given my circumstances, TCU Parents Weekend, and far less costly than repeated, unsupported transfers.

If Weinstein insists on relocating me, then medically necessary accommodations must be provided:

- A nurse on site to confirm I am stable to travel;
- Assistance with packing my belongings;
- Safe transportation to the new location.

Without these supports, relocation would be dangerous and discriminatory.

4. The Human Reality You Are Creating

I had secured an extended reservation at Bowie House through October 26. Weinstein's overt act of calling Bowie House on September 10 to cancel that reservation stripped me of stability I had already arranged. I scrambled to cover one night on my own and, in my desperation, accepted a stranger's offer of housing — which led directly to the violent assault and theft I suffered. This chain of events was foreseeable. Your actions forced me into instability and put me in harm's way.

I cannot continue to be pushed from place to place without a say in where I go. I need stability, not instability. My goal is to move out of The Bowerly and into permanent, safe housing as soon as possible. But instead of coming to the table on permanent solutions, Weinstein is trapping me in a cycle of unsafe temporary displacements.

I even told staff at the front desk that my "backup plan" was to borrow money from

friends just to stay in one place for a few days. That is not a safe or sustainable solution — it is an act of desperation. I should not have to rely on charity to meet my basic housing needs while Weinstein has a clear legal duty to provide habitable housing and reasonable accommodations.

This is not how a responsible housing provider treats a tenant — especially one with documented medical disabilities. I feel like I am being kicked around like a soccer ball, stripped of stability, dignity, and humanity. Any jury reading this correspondence would see plainly that I offered Weinstein the safe, cheaper option, and you chose instead to endanger me.

5. Immediate Action Required

I am requesting that Weinstein:

1. Immediately authorize continued stay at Bowie House at the reduced \$450 nightly rate; **or**
2. Provide the medically necessary support (nurse, packing help, transportation) if you insist on relocation.

Anything less is unsafe, unlawful, and exposes Weinstein to expanded liability for knowing violations of the Texas Property Code, ADA, and FHA.

6. Enforcement and Next Steps

If Weinstein continues to deny reasonable accommodations or force unsafe relocations, I will have no choice but to pursue relief through the U.S. Department of Housing and Urban Development (HUD) and the Texas Workforce Commission Civil Rights Division. Both agencies enforce the ADA and Fair Housing Act. I would much prefer resolution here and now, but please understand that I will take every step necessary to protect my rights, my safety, and my dignity.

They want me out right now if I do not pay. But in this state — injured, medicated, without funds, without my prescription glasses, and without safe transportation — I have no way to make that happen, even if I wanted to accept your offer. Forcing me into that corner is cruel and reckless. Please stop doing this to me and allow me the stability of staying at Bowie House under the negotiated rate while we identify a safe, permanent solution.

Respectfully,

Katie Copeland
