Subject: Urgent: Mold Issue & Health Concerns

Date: Wednesday, March 5, 2025 at 12:52:24 PM Central Standard Time

From: Katie Copeland

To: Bowery Southside

Hello, I never realized mold was so serious. I just asked ChatGPT about the mold and my unique constellation of diseases. It told me this was urgent and suggested I write the following:

I am reaching out to report a concerning mold issue in my apartment. I have noticed mold growing in the corner of my entryway, which raises concerns that there may be mold in other areas as well. Given my medical conditions, this is an urgent issue that could severely impact my health.

I have several chronic illnesses, including mast cell activation syndrome (MCAS), celiac disease, and long COVID, among others, which make me extremely sensitive to environmental triggers like mold. Mold exposure can cause severe allergic reactions, respiratory issues, immune system dysfunction, and increased inflammation, all of which could seriously worsen my condition.

Because of these health risks, I need an inspection as soon as possible to determine the extent of the mold issue and whether remediation is necessary. If testing confirms a mold problem, I will need immediate intervention to ensure my apartment remains a safe living environment.

Please let me know how soon we can schedule an inspection and discuss next steps. I appreciate your prompt attention to this matter, as it directly affects my ability to safely remain in my home.

Separate question: do you know anyone who does dog walking in our complex or nearby? I had a medical procedure done today and it would be great if I could pay someone to walk my dogs since I am not able to move much.

Best,

Katie Copeland

Re: ADA/FHA Accommodation Request and Notice of Urgent Health Risk – Unit #2145

From Copeland, Katie <K.M.COPELAND@tcu.edu>

Date Mon 6/30/2025 8:50 PM

To The Bowery - Kodi Walker <kowalker@weinsteinproperties.com>; LBenaicha@weinsteinproperties.com <lbenaicha@weinsteinproperties.com>

Dear Ms. Walker and Legal Counsel:

This message serves as formal notice that I have filed complaints with the following agencies regarding Weinstein Properties' ongoing violations of Texas and federal law:

1. **Texas Department of Licensing and Regulation (TDLR)** – Complaint #0000018107 for unlicensed mold assessment and remediation in violation of *Texas Occupations Code § 1958.101*
2. **U.S. Department of Housing and Urban Development (HUD)** – Complaint for denial of reasonable accommodation under the *Fair Housing Act* and *Americans with Disabilities Act (ADA)*

Your team's attempt to perform in-house assessment and remediation on a unit declared **“unfit for human occupancy”** by licensed Mold Assessor Kyle Reist (License #MAC1742), with mold-affected areas exceeding 25 contiguous square feet, is unlawful under Texas law.

“A person may not engage in mold assessment or mold remediation unless licensed to do so.” – *Tex. Occ. Code § 1958.101(a)*

To be clear, my prior consent to entry on June 27, 2025, was **limited to visual observation only**. At no point did I authorize an assessment, demolition, unlicensed remediation, or baseboard removal. Your team's actions have worsened my documented medical conditions and further contaminated personal property belonging to me, my children, and our service animals.

I do not consent to any further entry for unlicensed remediation or inspection. Any such attempt will be documented and added to the complaints already filed with TDLR and HUD.

I continue to request **reasonable accommodation** under the ADA and Fair Housing Act based on documented disability and medical necessity. A licensed environmental professional has confirmed my unit is **unsafe to occupy**, and my treating providers support immediate removal from the exposure environment. I have proposed a 14-day temporary relocation to The Nobleman Hotel (availability confirmed), with boarding for my service animals at Doggie Diggs next door.

Despite clear evidence of health risk and legal obligation, you have declined to facilitate temporary relocation. The denial of this medically necessary request creates clear exposure under the ADA, FHA, and *Texas Health & Safety Code*.

I request the following by **July 1, 2025 at 4:00 PM Central Standard Time**:

1. Written confirmation that **no unlicensed remediation** will be attempted;
2. Approval of the requested **reasonable accommodation** or a legally compliant alternative;
3. The **name and contact information** of Weinstein Properties' **insurance carrier** for this matter;
4. Contact details for **Weinstein Properties' legal counsel**.

I have acted in good faith and remain open to lawful, cooperative resolution. However, I will continue to pursue all available remedies under state and federal law if necessary.

I would like to know how you intend to offer this—especially if there are no comparable units available. Will you be assisting with relocation logistics? I would like to consider all options, but in the meantime, I stand firm in my position that immediate relocation is medically necessary and legally protected.

I reject your characterization that the unit is safe to occupy. This conclusion directly contradicts the licensed mold assessor's written findings, my documented medical conditions, and applicable state and federal law.

Sincerely,
Katie Copeland

Subject: RE: ADA/FHA Accommodation Request and Notice of Urgent Health Risk – Unit #2145

[EXTERNAL EMAIL WARNING] DO NOT CLICK LINKS or open attachments unless you recognize the sender and know the content is safe.

Hi Katie –

I want to start by emphasizing that your health and safety are always our top priority. We take this matter very seriously, and I want to personally assure you that our team is trained to follow all EPA guidelines when performing repairs of this nature. The work we're prepared to carry out is aligned with these standards to ensure everything is handled safely and effectively.

I want to confirm that there is no active leak detected in your home, and all necessary repairs have already been completed. Our team has conducted a thorough assessment, and moisture readings

confirm that the area is dry. With no signs of water present, there is no risk of continued mold growth at this time.

City's Codes and Compliance department recently stopped by and informed us that they had visited your home. While we have not yet received an official report, they have requested that the necessary repairs be completed timely. With that in mind, we would like to schedule the repair work for tomorrow to resolve this quickly and minimize any disruption to your routine. This includes, but is not limited to, the replacement of baseboards and effected areas of sheetrock. The work is limited in scope, non-invasive, and can be completed within a day with minimal to no disruption to your daily routine. However, if you would prefer for us to complete the work while you are away from the home for your own peace of mind, we are more than happy to coordinate a time that works better for you.

As mentioned, the scope of the work is limited, non-invasive, and will be completed within a day. Based on our assessment, there is no need for you to vacate the home or arrange for hotel accommodations. At this time, we are not able to accommodate requests for relocation or hotel reimbursement. However, if you feel that remaining in the home during this process is not comfortable for you, we completely understand and want to support you. We're happy to offer the option to transfer to another unit or to end your lease early without penalty.

Since you reported this issue, it is important that we demonstrate our responsiveness and complete the necessary repairs.

Please feel free to reach out with any questions or concerns!

Thank you,

Kodi Walker I Property Manager

Importance: High

Caution: This is an EXTERNAL EMAIL - Be cautious of clicking links and opening attachments.

If you suspect that this is a phishing email, report this to IT by entering a computer help ticket.

Dear Ms. Walker,

This message constitutes a formal request for reasonable accommodation under the Americans with Disabilities Act (ADA), the Fair Housing Act, and related Texas laws.

I understand from Fort Worth Code Compliance that you claim I am not cooperating with remediation. That statement is demonstrably false. I have

repeatedly offered access and expressed willingness to allow remediation, as documented in our ongoing correspondence. My sole concern has been ensuring the work is conducted **legally, safely, and by licensed professionals**, as required under Texas law.

As you are aware, I have multiple serious health conditions—including immunological, neurological, and vascular disabilities—that substantially impair major life activities and render me particularly vulnerable to environmental triggers such as mold toxins. These are documented by my treating physicians and home health providers.

Despite repeated notice—including my March 5 email—you and your team assured me the issue had been addressed. However, a licensed mold assessor has now confirmed the presence of **Stachybotrys, Chaetomium, and extensive moisture damage**, concluding that my unit is “**unfit for human occupancy.**” My symptoms—vision loss, chronic inflammation, nosebleeds, respiratory issues, cognitive dysfunction, severe fatigue, and burning eyes—have worsened significantly since your staff began removing baseboards and “inspecting” the unit without containment or proper licensure.

(See Texas Occupations Code Sec. 1958.101(a): A person may not engage in (1) mold assessment or (2) mold remediation unless licensed to do so.)

I am also attaching the **State Farm denial letter**, which confirms that **displacement costs are not covered**, contrary to your suggestion that I consult my renter’s insurance.

Reasonable Accommodation Request:

Under federal and state disability laws, I am requesting:

1. **Temporary relocation for at least 14 days** to The Nobleman Hotel (availability confirmed)
2. **Boarding for my two service animals** at Doggie Diggs next door during this time (\$85/night)
3. **Licensed mold remediation** in compliance with Texas Occupations Code Sec. 1958.101

This temporary relocation is a **reasonable accommodation directly tied to my disability**, and is **medically necessary** based on both physician input and the professional mold report. It would also allow your team full access for remediation without exposing me to further medical harm.

I am open to other creative solutions—hotel, extended stay, or temporary alternative unit—but I **cannot safely remain** in an environment now confirmed

to be hazardous to my health.

⚠ **Please confirm by 6:00 PM today that:**

1. This accommodation request is approved
2. No further demolition or unlicensed work will occur
3. Arrangements for The Nobleman and Doggie Diggs are being made immediately

I remain willing to fully cooperate with remediation—**so long as it is legal, licensed, and does not further endanger my health.** I hope this matter can be resolved cooperatively, without need for additional regulatory enforcement or litigation.

Sincerely,
Kathryn Copeland

CHIEF COMPLAINT

Constitutional

- CC: mold exposure/legal case
Realtor: 5/5 present (6/2025)
Address: 405 Crawford St, Apt 2145, Fort Worth, TX 76104
Moved in Oct, 2023 and still there.
Flooding in bedroom - floor wet and maintenance supposedly fixed a backed-up HVAC leak - Sept, 2024. Mold visible by front door (first reported in Oct, 24 and then came back in March, 25 even tho supposedly remediated in Oct and then mold returned in early June).
Visible mold in front of HVAC on baseboard - not where the first leak was - water damage was painted over before she moved in.
Mold AQL - Elevated Aspergillus/Penicillium/Stachy on Air quality - 6/19/25
Guest Bedroom - Asp (5000) Chaetomium (14, 000) Stachy (1500) Total fungi =20700
99% of mold was of toxic variety in guest bedroom and wall cavity
- Sxs: chronic fatigue (18 hrs laying down in a day), vision changes, brain fog (since Covid) and worsened, joint pain (hypermobile EDS), muscle pain, nerve pain, generalized weakness, skin rashes on face, sinus/ear issues, nose congestion, diarrhea/constipation.
- Occupation: was a lawyer until Dec., 2022. Then doing paralegal work until she got Covid and then stopped working.
- Covid - Dec, 2022 - mild case - 3 weeks getting over it. Have vaccine.
-

HISTORY OF PRESENT ILLNESS

EXAMINATION

Constitutional

Height

- Height 63 inches.

Weight

- Weight 124.0 pounds.

Vitals

- BP 104/67 mmHg was taken sitting using the left arm.
- Pulse (regular) 88 beats per minute.

Ears, Nose, Mouth, and Throat

- Inspection and assessment of ears, nose, mouth, and throat, unless otherwise noted, reveals the following. Otoscopic exam of tympanic membranes and auditory canals shows no perforation, lesions, or infection. External inspection of the ears and nose reveals normal external appearance without lesions, scars or masses. Inspection of internal nose reveals normal appearing mucosa, with straight septum, turbinates of normal color and shape and no active bleeding. Inspection of mouth reveals normal color lips, and dentition without significant caries or gum disease. Examination of the oropharynx reveals pink, moist mucosa and midline tongue and no lesions or redness of the posterior pharynx, palate, or tonsils. Inspection of the pharyngeal walls and pyriform sinuses shows normal color and appearance, no lesions or masses, and clear pyriform sinuses.

Respiratory

- Examination of the chest and respiratory system, unless otherwise indicated, reveals the following. Inspection of the chest reveals a symmetrical chest with normal expansion. Assessment of respiratory effort reveals no intercostal retractions with normal diaphragmatic movement. Auscultation of lungs reveals normal breath sounds without rales, rubs, or rhonchi.

Cardiovascular

- Sounds: Rapid regular rate.

Normal

- Unless otherwise noted, palpation and auscultation of the heart appeared normal. Examination of the carotid arteries, abdominal aorta, femoral arteries, and pedal pulses revealed findings within normal limits. No pedal edema was seen. No pericardial friction

rub was heard.

Gastrointestinal

Abdomen

- Examination of the abdomen: Slight tenderness midline.

Musculoskeletal

Normal

- Examination of the musculoskeletal system, unless otherwise noted, reveals normal findings.

Neurological

- Testing, palpation, and inspection of the neurological system, unless otherwise noted, reveals the following: Coordination and fine motor skills are in normal range. Estimate of mood and affect show no evidence of depression, excessive anxiety, or agitation. The patient is oriented to time, place and person.

Eyes

Ocular Motility

- An ocular motility inspection was conducted: Exophthalmos bil.

Neck

- Inspection and palpation of the neck, unless otherwise noted, reveals the following. Palpation of the thyroid reveals a normal gland without enlargement, tenderness, or masses.

PROBLEMS LIST

No chronic health problems have been listed.

ASSESSMENT AND PLAN

Assessment

- Mold toxicity - Ochra and Glio the highest - Allermatrix, skin testing for molds, start antioxidants.
After reviewing IAQ which shows very high toxic mold in the pat - imperative that pt move out ASAP
Check basic labs, lgs, saccharomyces
 - 40 hr HBOT - start 1.5 ATM for 60 mins and then increase to 2.0ATM for 60 mins up to twice daily or 90 mins once daily
 - Repeat urine mycotoxins after 10 hrs of HBOT
 - Chronic fatigue/brain fog - QEEG + CNS VS
 - Hashimoto's - check TFTs, cortisol.

Assessment / Plans

- Resources and instructions provided during visit.
- There was a discussion of the patient's laboratory values.
- The patient expressed understanding of the topics discussed and of any instructions or recommendations that were given. The patient voiced agreement.
- Plans for return: return in 2 weeks.

Completed: 06/27/2025

Procedure Type: Semi-Quantitative ELISA (Enzyme-Linked Immunosorbent Assay)

Code	Test - Urine	Result	Value (ppb)	Reference Range
OCHRA	Ochratoxin A	Present	2.148	<1.8 Not Present 1.8 to <2 Equivocal >=2 Present
AFLA	Aflatoxin Group: (B1, B2, G1, G2)	Present	1.789	<0.8 Not Present 0.8 to <1 Equivocal >=1 Present
TRICHO	Trichothecene Group (Macrocyclic): Roridin A, Roridin E, Roridin H, Roridin L-2, Verrucarins A, Verrucarins J, Satratoxin G, Satratoxin H, Isosratoxin F	Present	0.189	<0.07 Not Present 0.07 to <0.09 Equivocal >=0.09 Present
GLIO	Gliotoxin Derivative	Present	1.398	<0.5 Not Present 0.5 to <1 Equivocal >=1 Present
ZEA	Zearalenone	Present	1.158	<0.5 Not Present 0.5 to <0.7 Equivocal >=0.7 Present

About These Tests:

Test results should be evaluated in relation to patient symptoms, clinical history, and other laboratory findings. Individuals should review their results with a healthcare provider.

These tests were developed and the performance characteristics determined by RealTime Laboratories.

They have not been cleared or approved by the U.S. Food and Drug Administration (FDA).

This laboratory is certified under the Clinical Laboratory Improvement Amendments (CLIA) as qualified to perform high complexity clinical laboratory testing.

The New York State (NYS) Department of Health (DOH) has allowed these tests to be offered in the NYS under the current RealTime Laboratories permit.

The NYS DOH has not evaluated any test claims nor reviewed the accuracy of these tests.

Mycotoxin		Cellular Activity of Mycotoxin	Symptoms/Other	Association with a "Disease State"
A FLATOXIN FAMILY Organisms: <i>Aspergillus flavus</i>, <i>Aspergillus oryzae</i>, <i>Aspergillus fumigatus</i>, <i>Aspergillus parasiticus</i> Aflatoxins have been associated with liver cancer [2,3], cirrhosis [4,5], and other health issues				
1	Aflatoxin B1	Binds DNA and proteins [6,7]	Shortness of breath [8], weight loss [10], most potent and highly carcinogenic.	Primarily attacks the liver, other organs include kidneys and lungs [11]
2	Aflatoxin B2	Inhibits DNA and RNA replication [12]	Impaired fetal growth [13,14]	Affects the liver and kidneys [11]
3	Aflatoxin G1	Cytotoxic, induces apoptosis in cells, DNA damage [1]	A flavus is a leading cause of invasive aspergillus in immunocompromised patients [15]	Cancer, neonatal jaundice [2,3,16]
4	Aflatoxin G2	Cancer, neonatal jaundice [2,3,16]	Aflatoxicosis in humans and animals [15]	Malnutrition, lung cancer [2,3,16]
OCHRATOXIN A Organisms: <i>Aspergillus ochraceus</i>, <i>Aspergillus niger</i>, <i>Penicillium species</i>				
5	Ochratoxin A	Inhibits mitochondrial ATP, potent teratogen, and immune suppressor [17-19]	Fatigue, dermatitis, irritated bowel [20-22]	Kidney disease and cancer [23,24]
MACROCYCLIC TRICHOCECENES (Group D) Organism: <i>Stachybotrys chartarum</i>				
6	Satratoxin G	DNA, RNA, and protein synthesis inhibition [25]	Fatigue [26]	Bleeding disorders, nervous system disorders [27,28]
7	Satratoxin H	Inhibits protein synthesis [25]	Fatigue [26]	Breathing issues [29]
8	Isosatratoxin F	Immunosuppression [30]	Weakened immune system [30]	
9	Roridin A	Immunosuppression [30]	Weakened immune system [30]	
10	Roridin E	DNA, RNA, and protein synthesis disruption [25,32]	Weakened immune system [30]	Lung and nasal olfactory problems [31]
11	Roridin H	Inhibits protein synthesis [25]	Weakened immune system [30]	
12	Roridin L-2	Immunosuppression [30]	Weakened immune system [30]	
13	Verrucarin A	Immunosuppression [30]		
14	Verrucarin J	Immunosuppression [30]		
GLIOTOXIN DERIVATIVE Organisms: <i>Aspergillus fumigatus</i>, <i>Aspergillus terreus</i>, <i>Aspergillus niger</i>, <i>Aspergillus flavus</i>				
15	Gliotoxin	Attacks intracellular function in immune system [34]	Memory and breathing issues [35,36]	Immune dysfunction disorders [34]
ZEARALENONE Organisms: <i>Fusarium species</i>				
16	Zearalenone	Estrogen mimic [37,38]	Early puberty, low sperm counts, cancer [39-42]	Cancer [39,40]

A FLA TOXIN FAMILY			
Organisms: <i>Aspergillus flavus</i> , <i>Aspergillus oryzae</i> , <i>Aspergillus fumigatus</i> , <i>Aspergillus parasiticus</i> Aflatoxins have been associated with liver cancer [2,3], cirrhosis [4,5], and other health issues			
1	Aflatoxin B1	Binds DNA and proteins [6,7]	Shortness of breath [8], weight loss [10], most potent and highly carcinogenic.
2	Aflatoxin B2	Inhibits DNA and RNA replication [12]	Impaired fetal growth [13,14]
3	Aflatoxin G1	Cytotoxic, induces apoptosis in cells, DNA damage [1]	A flavus is a leading cause of invasive aspergillus in immunocompromised patients [15]
4	Aflatoxin G2	Cancer, neonatal jaundice [2,3,16]	Aflatoxicosis in humans and animals [15]
OCHRATOXIN A			
Organisms: <i>Aspergillus ochraceus</i> , <i>Aspergillus niger</i> , <i>Penicillium species</i>			
5	Ochratoxin A	Inhibits mitochondrial ATP, potent teratogen, and immune suppressor [17-19]	Fatigue, dermatitis, irritated bowel [20-22]
MA CROCYCLIC TRICHTHOCENES (Group D)			
Organism: <i>Stachybotrys chartarum</i>			
6	Satratoxin G	DNA, RNA, and protein synthesis inhibition [25]	Fatigue [26]
7	Satratoxin H	Inhibits protein synthesis [25]	Fatigue [26]
8	Isosatratoxin F	Immunosuppression [30]	Weakened immune system [30]
9	Roridin A	Immunosuppression [30]	Weakened immune system [30]
10	Roridin E	DNA, RNA, and protein synthesis disruption [25,32]	Weakened immune system [30]
11	Roridin H	Inhibits protein synthesis [25]	Weakened immune system [30]
12	Roridin L-2	Immunosuppression [30]	Weakened immune system [30]
13	Verrucarín A	Immunosuppression [30]	
14	Verrucarín J	Immunosuppression [30]	
GLIOTOXIN DERIVATIVE			
Organisms: <i>Aspergillus fumigatus</i> , <i>Aspergillus terreus</i> , <i>Aspergillus niger</i> , <i>Aspergillus flavus</i>			
15	Gliotoxin	Attacks intracellular function in immune system [34]	Memory and breathing issues [35,36]
ZEARALENONE			
Organisms: <i>Fusarium species</i>			
16	Zearalenone	Estrogen mimic [37,38]	Early puberty, low sperm counts, cancer [39-42]
Cancer [39,40]

Mycotoxin		Cellular Activity of Mycotoxin	Symptoms/Other	Association with a "Disease State"
A FLATOXIN FAMILY Organisms: <i>Aspergillus flavus</i>, <i>Aspergillus oryzae</i>, <i>Aspergillus fumigatus</i>, <i>Aspergillus parasiticus</i> Aflatoxins have been associated with liver cancer [2,3], cirrhosis [4,5], and other health issues				
1	Aflatoxin B1	Binds DNA and proteins [6,7]	Shortness of breath [8], weight loss [10], most potent and highly carcinogenic.	Primarily attacks the liver, other organs include kidneys and lungs [11]
2	Aflatoxin B2	Inhibits DNA and RNA replication [12]	Impaired fetal growth [13,14]	Affects the liver and kidneys [11]
3	Aflatoxin G1	Cytotoxic, induces apoptosis in cells, DNA damage [1]	A flavus is a leading cause of invasive aspergillus in immunocompromised patients [15]	Cancer, neonatal jaundice [2,3,16]
4	Aflatoxin G2	Cancer, neonatal jaundice [2,3,16]	Aflatoxicosis in humans and animals [15]	Malnutrition, lung cancer [2,3,16]
OCHRATOXIN A Organisms: <i>Aspergillus ochraceus</i>, <i>Aspergillus niger</i>, <i>Penicillium species</i>				
5	Ochratoxin A	Inhibits mitochondrial ATP, potent teratogen, and immune suppressor [17-19]	Fatigue, dermatitis, irritated bowel [20-22]	Kidney disease and cancer [23,24]
MA CROCYCLIC TRICHTHOCENES (Group D) Organism: <i>Stachybotrys chartarum</i>				
6	Satratoxin G	DNA, RNA, and protein synthesis inhibition [25]	Fatigue [26]	Bleeding disorders, nervous system disorders [27,28]
7	Satratoxin H	Inhibits protein synthesis [25]	Fatigue [26]	Breathing issues [29]
8	Isosatratoxin F	Immunosuppression [30]	Weakened immune system [30]	
9	Roridin A	Immunosuppression [30]	Weakened immune system [30]	
10	Roridin E	DNA, RNA, and protein synthesis disruption [25,32]	Weakened immune system [30]	Lung and nasal olfactory problems [31]
11	Roridin H	Inhibits protein synthesis [25]	Weakened immune system [30]	
12	Roridin L-2	Immunosuppression [30]	Weakened immune system [30]	
13	Verrucarin A	Immunosuppression [30]		
14	Verrucarin J	Immunosuppression [30]		
GLIOTOXIN DERIVATIVE Organisms: <i>Aspergillus fumigatus</i>, <i>Aspergillus terreus</i>, <i>Aspergillus niger</i>, <i>Aspergillus flavus</i>				
15	Gliotoxin	Attacks intracellular function in immune system [34]	Memory and breathing issues [35,36]	Immune dysfunction disorders [34]
ZEARALENONE Organisms: <i>Fusarium species</i>				
16	Zearalenone	Estrogen mimic [37,38]	Early puberty, low sperm counts, cancer [39-42]	Cancer [39,40]

Patient Name: Kathryn Copeland

Date: September 11, 2025

Provider Name & Credentials: Kim Tran, M.D.

Facility: UT Southwestern Medical Center
600 S Main St 3rd Floor, Suite 500
Fort Worth, TX 76104

To Whom It May Concern,

I am the primary care physician for Kathryn Copeland. She has been under my care for multiple chronic medical conditions that significantly impair her daily functioning, including hypermobile Ehlers-Danlos Syndrome (hEDS), Postural Orthostatic Tachycardia Syndrome (POTS), Mast Cell Activation Syndrome (MCAS), [REDACTED] immune system abnormalities (hypergammaglobulinemia), [REDACTED] and complications from toxic mold exposure.

These conditions collectively cause severe fatigue, post-exertional malaise, autonomic instability, chronic pain, tremors, migraines, visual disturbances, and cognitive dysfunction (slowed processing, memory impairment, and brain fog). Even minimal exertion can trigger symptom flares requiring extended rest.

Since early 2025, Ms. Copeland's health has worsened. She was displaced from her home in June/July 2025 due to toxic mold and has been forced to live in unstable hotel housing. This disruption prevents her from accessing prescribed home health services, therapy, and ongoing medical care, further compromising her health.

[REDACTED]

[REDACTED]

RE: Medical Statement for Disability Application

To Whom It May Concern,

[REDACTED]
[REDACTED] She has been under my care at UTSouthwestern since October 8, 2024, for Hypermobility EhlersDanlos Syndrome (hEDS), Mast Cell Activation Syndrome (MCAS) and Postural Orthostatic Tachycardia Syndrome (POTS). These are severe chronic illnesses that significantly impair her daily functioning [REDACTED]

In addition to these primary conditions, review of her medical records shows she is also being treated for the following chronic and compounding illnesses: [REDACTED]

[REDACTED] Hashimoto's disease with severely low iron requiring three iron infusions, bilateral vision loss and binocular dysfunction linked to toxic mold exposure, [REDACTED] and immune abnormalities including hypogammaglobulinemia.

Her July 2025 evaluation by Dr. Alfred Johnson documented toxic mold exposure with extremely elevated levels of Aspergillus, Chaetomium, and Stachybotrys. He noted severe chronic fatigue (up to 18 hours/day bedridden), 30 lbs of weight loss, cognitive impairment, and hyperbaric oxygen therapy and urgent need for relocation.

Since my prior March 2025 statement, Ms. Copeland's health has further deteriorated. She was displaced in June/July 2025 due to mold contamination and has been forced to live in a hotel. This unstable housing situation prevents her from accessing home health nursing and supportive services previously prescribed, further worsening her decline.

She continues to experience severe and disabling symptoms, including: • Severe systemic inflammation.

- Persistent fatigue and post-exertional malaise.
- Orthostatic intolerance, dizziness, tremors, and frequent migraines.
- Neurological and sensory issues, including visual disturbances and light sensitivity.
- Severe GI impairment with ongoing nutritional instability.
- Cognitive dysfunction, including impaired memory, slowed processing, and executive dysfunction.

This

lack of resources is directly worsening her health and preventing her from accessing prescribed care.

In my professional opinion, Ms. Copeland remains unable to perform sustained work activity and is in urgent need of financial and medical support to stabilize her living conditions and prevent irreversible decline.

Sincerely,

 9/10/25

Isabel Huang, MD

CHIEF COMPLAINT

NOTES: WAS PATIENT REFERRED:yes,christi furguson

TYPE OF INJURY AND DATE: TBI aquired brain injury- 2 years ago

HAS PATIENT BEEN IN PT/OT IF SO HOW LONG:yes both- a couple weeks ago

ANY VISUAL SYMPTOMS LOSS OF PERIPHERAL VISION, DISTORTION, DOUBLE VISION:yes peripheral loss, distortion - cant see the tv sometimes strains eyes, vision changes a lot.

LOSS OF MOBILITY:yes

HISTORY PRESENT ILLNESS (HPI)

VISION COMPLAINT: Bilateral: With current spectacle correction Problems are experienced primarily at distance.

INTEGUMENTARY: No symptoms reported at this time.
MUSCULOSKELETAL: No symptoms reported at this time.
NEUROLOGICAL: No symptoms reported at this time.
PSYCHIATRIC: No symptoms reported at this time.
RESPIRATORY: No symptoms reported at this time.

Subject: Re: Urgent Request for Contact to Arrange Immediate Lodging – FHA Accommodation
Date: Tuesday, September 16, 2025 at 7:51:02 PM Central Daylight Time
From: Copeland, Katie
To: Michelle Sortor
CC: John Douglas, Glynis Zavarelli, 'Brochstein, Amye', Lile Benaicha, Pamela Quinn
Priority: High
Attachments: Hotel Drover .pdf, 9 Tax Exempt Form - color.pdf

Dear Ms. Sortor,

Your client's refusal to fund transport for my belongings to my apartment (per Ms. Zavarelli's call, Sept 11, 2025) led to my arrest for criminal trespass at Bowie House, despite my negotiated deal, and forced me back into a toxic mold unit (BioTex report, June 18, 2025) post-hospitalization, violating FHA § 3604(f)(3)(B). Your Holiday Inn offer fails to accommodate my disabilities (brain injury, MCAS, long COVID, and exacerbated injuries). I am exhausted, hungry, and facing compounding damages from ongoing exposure. *Housons, Inc. v. Township of Brick* (3d Cir. 1997) mandates prompt accommodations, as shown by my medical records and Aug 1, 2025, "Notice of Nonpayment."

I demand Hotel Drover (<https://www.hoteldrover.com/>) (negotiated a 2 week rate at \$549/night, attached) for therapy access, plus meals (\$50–80/day) and transport (\$30/day). The Drover attached a tax-exempt form for a 30+ day stay to save money. Provide a contact by 9:00 PM CDT today, per Texas Property Code § 92.056, or I will escalate my HRC complaint (FW-23-03, filed Aug 14) to HUD and seek a TRO, per *HUD v. Ross* (S.D. Ohio 2016).

Sincerely,

Kathryn Copeland

Subject: Urgent Request for Contact to Arrange Immediate Lodging – FHA Accommodation

Importance: High

Dear Weinstein Properties,

I am entitled to reasonable accommodation under 42 U.S.C. § 3604(f)(3)(B) due to my disability, exacerbated by uninhabitable conditions (Texas Property Code § 92.052) confirmed by mold exposure, necessitating immediate alternative lodging. As established in *Hovsons, Inc. v. Township of Brick* (1997), such accommodations must be provided promptly to prevent irreparable harm. *Giebeler v. M & B Associates* (3d Cir. 1997) and *Schwarz v. City of Treasure Island* (11th Cir. 2007) further confirm that delays or failures to accommodate health-related housing issues violate FHA, especially with imminent risks. **Please provide the contact person to arrange a safe hotel room tonight**, including funds for transport and meals, and advise on required documentation.

Thank you for your immediate assistance.

Katie Copeland

Subject: Re: Urgent ADA/FHA Accommodation – Omni Fort Worth
Date: Thursday, September 18, 2025 at 4:53:43 PM Central Daylight Time
From: Copeland, Katie
To: Glynis Zavarelli, Lile Benaicha, 'Brochstein, Amye', Michelle Sortor, Pamela Quinn
CC: John Douglas
Attachments: image.png, image.png

Each time Weinstein insists on placing me at a hotel that I have already demonstrated is medically ineffective, that is not an “offer” — it is a separate denial of my requested reasonable accommodation under the FHA and ADA. You have been repeatedly notified (in writing and with exhibits) that I am medically fragile, that I lack funds and transportation to move my medical equipment, and that generic hotel placements are harmful. Those repeated refusals are willful, cause ongoing medical harm, and each constitutes its own violation.

TDLR has outlined the factors its prosecutors weigh in sanctioning violations: seriousness, willfulness, good-faith mitigation, history of past violations, deterrence, and justice considerations. Each factor weighs heavily against Weinstein here: you knowingly forced a disabled tenant into a condemned unit, acted in bad faith by repeating ineffective placements, and ignored clear medical documentation. This is not an isolated mistake — it is a pattern.

Finally, as these violations become more egregious, I ask you to clarify: who is actually making these decisions? Is it Weinstein Properties — a housing provider obligated to comply with the FHA? Or is it Ms. Zavarelli as counsel — who has independent duties under federal law and the Texas Rules of Professional Conduct? Either way, accountability will attach directly to the decision-maker.

Accountability and scope of duties

- Housing provider liability: Weinstein, as the housing provider, has the FHA duty to provide an effective, individualized accommodation (42 U.S.C. § 3604(f)(3)(B)) and to avoid interference (§ 3617). Counsel's role does not shield unlawful decisions.
- Individual participation liability: Individuals who personally participate in discriminatory decisions can be liable under the FHA, including for aiding/abetting and interference (see DOJ guidance; cf. *Housons v. Township of Brick*).
- Counsel's professional obligations: I understand counsel's role, but directing or implementing decisions that deny effective accommodation or condition it on unrelated terms risks both FHA exposure and professional-conduct concerns (e.g., Texas Rules 4.04, 8.04).

I have repeatedly compromised and presented concrete proposals for safe, medically effective accommodations. Your responses have been limited to placements already proven ineffective. That is not compliance; it is ongoing discrimination. Compliance requires immediate effective accommodation, not further deflection. Another rejection of my carefully created requests is a knowing and intentional act to subject me to more time in a poisonous environment. At the very least, that would be considered duress in our “interactive process.” So I suggest you approve my request - even if just for a few days - so that we can have a better discussion.

Warmly,
Katie Copeland

Subject: Urgent ADA/FHA Accommodation – Omni Fort Worth

Dear Weinstein Properties and Counsel,

This is an urgent ADA/FHA accommodation notice. I recognize it may be difficult for others to fully understand the daily impact of my disabilities. I invite you to resolve this collaboratively because **what I am requesting is not optional—it is a statutory requirement.** I have attached a chart to help you understand my specific needs. In case you did not know, **my access to prescribed home therapies and meal delivery services was cut off due to displacement, thus a per diem allowance and medically appropriate lodging are necessary accommodations.** These supports are not luxuries; they are disability-related medical needs. A stable per diem ensures continuity of nutrition, hygiene, and therapeutic care until I am placed in ADA-compliant housing where services can resume.

I am willing to discuss reasonable compromises, but under the Fair Housing Act and Fort Worth Code §17-86, I am entitled to:

- **Safe, ADA-compliant lodging of my choosing, not subject to arbitrary night-to-night extensions.**
- **A per diem or equivalent allowance to replace the loss of in-home therapies, nursing, and meal delivery caused by displacement.**
- Assurance that retaliation will cease and that my housing stability will not be undermined for asserting these rights.

Enforcement & Regulatory Posture (for planning):

- **TDLR:** Investigator Ida Parmer (Investigator IV, Enforcement Division) confirmed this case was forwarded to the prosecution team on August 30; I am coordinating with their office.
- **City of Fort Worth:** I remain in active contact with multiple departments, including Code Compliance, Mayor's Committee on Persons with Disabilities, and the Human Relations Commission. While Code Enforcement has paused action pending TDLR's prosecution, they retain authority to declare the building uninhabitable to protect tenants.
- **Licensure prerequisites:** For ≥ 25 contiguous sq ft, TDLR notification is due ≥ 5 calendar days before remediation; protocol/work plan must be provided ≥ 1 day before any start. **Please provide the notification number, start/stop dates, and current plan in advance.** Ms. Zavarelli recently stated work would begin Monday, 9/22/25, but Investigator Parmer confirmed she has not received anything from The Bowery—meaning work cannot lawfully begin.

Accommodation Needed Today:

- **Hotel:** Omni Fort Worth (or functionally equivalent)
- **Check-in:** Today
- **Duration:** 3 weeks guaranteed, with option to extend through Oct 31, 2025
- **Rooming:** King suite now; transition to two adjoining rooms if my daughters return to my care
- **Supports:** Meal credits for medically appropriate diet; laundry access; portable HEPA

Medical Treatment Access:

Because of your recent refusal to provide effective accommodations, I was re-exposed to toxic mold for a week, worsening my condition. Immediate access to my treating physician, Dr. Johnson (Richardson), is also required. Approving transportation and treatment costs now prevents greater medical and liability exposure later. Four treating physicians have documented that mold exposure and displacement have significantly worsened my health.

Per Diem / Reimbursements:

- **Option A (actuals + prospective):** Reimburse past out-of-pocket food/transport (receipts / statements available) within 5 days. Going forward: \$80/day meals (federal M&IE) + \$30/day local transportation.
- **Option B (continuous per diem):** \$80/day meals and \$30/day local transportation from 6/27/25 through present and continuing until ADA-compliant permanent housing is secured.

Note: Laundry is separate from M&IE and will be reimbursed accordingly.

Deadline:

Please confirm the Omni booking and folio coverage, medical transport to Dr. Johnson, and your selection of Option A or B by **3:00 p.m. CT today, September 17, 2025**. *Identify the decision-maker with full authority*. Absent timely confirmation, I will treat further delay as ongoing discrimination and proceed with HUD intake via the City of Fort Worth and seek emergency relief.

Needs vs. Options

Needs vs. Options matrix (✓ met · Δ partial · ✗ not met)

Legend: ✓ Met · Δ Partial · ✗ Not met

Medical/Functional Need	Holiday Inn Express	Nobleman	Bowie House	Hotel Drover	Crescent	Omni	Permanent Relocation
Bathtub / hot tub (pain, POTS)	✗	✗	Δ (hot tub across hall)	✓	✓	✓	✓
Therapy space (PT/OT/ST + caregivers)	✗	✗	✗	Δ (suite possible or 2 rooms)	✓ Suite or 2 rooms available	✓ Suite or 2 rooms available	✓
Kitchen for anti-inflammatory diet	✗	Δ (limited)	✗	Δ (unknown)	Δ (unknown)	Δ No, but includes breakfast every day (more options than Holiday Inn)	✓
Washer/dryer for hygiene	✗	✗	✗	Δ (No but hotel can do laundry for fee)	Δ (No but hotel can do laundry for fee)	Δ (No but hotel can do laundry for fee)	✓
Clean air / filtration (MCAS)	✗	✗	Δ	✓ (filters/PURE)	Δ (unknown)	✓ More rigorous air maintenance + Portable air purification units	✓
ESA yard/patio (ground access)	✗	✗	✗	✗	✗	✗	✓
Stability (30+ days, not week-to-week)	✗	✗	Δ	✓ (negotiated rate + tax-exempt)	Δ (unknown)	✓ At least 3 weeks - could likely negotiate	✓
Transportation provided / accessible location	✗	✗	✗	Δ (central access)	Δ (nearby restaurants and 7-11)	Δ (nearby restaurants, free breakfast)	✓

Item	Exact ask	Why (medical/legal)	Approve
Hotel	Omni Fort Worth, 21 nights starting tonight; King suite → two adjoining rooms if needed; folio direct-billed	Hydrotherapy, clean air, stability; FHA/ADA effectiveness	☐ Approved
Meals	\$80/day per diem or equivalent meal credits adequate for anti-inflammatory diet	MCAS/Long COVID nutrition; FHA effectiveness	☐ Approved
Local transport	\$30/day stipend while displaced	Access to care/food; not included in M&IE	☐ Approved
Medical transport	Fund round-trip travel to Dr. Johnson (Richardson) for scheduled and follow-ups	Treating physician access post re-exposure	☐ Approved
Laundry	Hotel laundry covered or \$15/day stipend	Hygiene/MCAS triggers during multi-week stay	☐ Approved
HBOT	Authorize hyperbaric oxygen treatments, supplements, testing, etc. per Dr. Johnson's plan	Mitigate injury from re-exposure; prevent irreversible decline, significant cost savings	☐ Approved
Past expenses	Option A: reimburse actuals for food/transport since displacement; or Option B: per diem retro at \$80 + \$30	Stabilize nutrition/transport continuity; fair, simple administration	☐ A ☐ B

I believe these are your only options:

Path	Up-front cost (21 nights)	Medical impact	Legal risk	Total exposure
Approve Omni + supports	Hotel + M&IE + transport + laundry + HBOT	Stabilizes; prevents irreversible decline	Low (meets FHA/ADA duties)	Predictable and limited
Place in HIE-type hotel	Lower room rate; no supports	Harm escalates; ER/relapse risk	High (ineffective accommodation + \$3617)	High and compounding
Delay/deny	Near zero now	Worsening injury; specialty care required	Very high (HUD/DOJ, injunction, damages)	Maximized

Sincerely,

Kathryn (Katie) Copeland

Legal Citations:

42 U.S.C. § 3604(f)(2) – Discrimination in terms, conditions, or privileges of rental housing

42 U.S.C. § 3604(f)(3)(B) – Failure to make reasonable accommodations when necessary

42 U.S.C. § 3617 – Interference, coercion, or intimidation in exercising rights

Fort Worth Municipal Code §17-86 (Ordinance 11075)

Why I Am Sending This Detail

As a courtesy, I have spelled out not only what accommodations I require but also **why each request is medically and legally necessary**. I am not obligated to provide this level of explanation under the ADA or FHA, but I have done so to streamline the process and make compliance easier for you. The attached chart further summarizes the needs → reasons → legal obligations, so there can be no confusion about what is required. I encourage you to engage counsel familiar with FHA and ADA laws because this ongoing conflict is causing much more harm to my health.

Subject: Urgent: Mold Issue & Health Concerns

Date: Wednesday, March 5, 2025 at 12:52:24 PM Central Standard Time

From: Katie Copeland

To: Bowery Southside

Hello, I never realized mold was so serious. I just asked ChatGPT about the mold and my unique constellation of diseases. It told me this was urgent and suggested I write the following:

I am reaching out to report a concerning mold issue in my apartment. I have noticed mold growing in the corner of my entryway, which raises concerns that there may be mold in other areas as well. Given my medical conditions, this is an urgent issue that could severely impact my health.

I have several chronic illnesses, including mast cell activation syndrome (MCAS), celiac disease, and long COVID, among others, which make me extremely sensitive to environmental triggers like mold. Mold exposure can cause severe allergic reactions, respiratory issues, immune system dysfunction, and increased inflammation, all of which could seriously worsen my condition.

Because of these health risks, I need an inspection as soon as possible to determine the extent of the mold issue and whether remediation is necessary. If testing confirms a mold problem, I will need immediate intervention to ensure my apartment remains a safe living environment.

Please let me know how soon we can schedule an inspection and discuss next steps. I appreciate your prompt attention to this matter, as it directly affects my ability to safely remain in my home.

Separate question: do you know anyone who does dog walking in our complex or nearby? I had a medical procedure done today and it would be great if I could pay someone to walk my dogs since I am not able to move much.

Best,

Katie Copeland
817-789-8498

Exhibit C

Subject: URGENT HEALTH & SAFETY ISSUE – Formal Notice & Request for Accommodations – The Bowery at Southside Unit #2145
Date: Friday, June 27, 2025 at 8:57:38 AM Central Daylight Time
From: Copeland, Katie
To: The Bowery at Southside, The Bowery at Southside, wp@weinsteinproperties.com, aweberstein@weinsteinproperties.com
Priority: High
Attachments: 6.27.25 Letter.pdf, 6.26.25 Nobleman Hotel and Air BnB options (optimized).pdf, star-telegram.com-800 residents wait to get in Cooper Apartments after 6-alarm Fort Worth fire.pdf, 6.27.25 Attachment to Letter (optimized).pdf

To whom it may concern,

Please find attached a formal demand letter regarding the confirmed presence of toxic mold in my apartment (#2145 at The Bowery at Southside) and Weinstein Properties' failure to adequately respond to multiple notices of this health hazard. A licensed environmental consultant has now declared the unit "unfit for human occupancy."

This matter is time-sensitive due to both my medical condition and the current shortage of nearby lodging, as noted in the attached news article. I am asking for your immediate help with relocation to avoid further medical harm.

Thank you for your prompt attention to this serious issue.

Warmly,
Katie Copeland

QuinnAndPoppy@gmail.com

June 27, 2025

To: Bowery at Southside Management and Weinstein Properties Team

Re: Apartment #2145, The Bowery at Southside, Fort Worth, TX 76104

OPPORTUNITY FOR AMICABLE RESOLUTION

I'm writing in good faith to request your assistance with a serious health and safety hazard in my unit. Professional testing has confirmed dangerous mold levels that require immediate attention. As a tenant who has consistently paid rent on time for the past 20 months, I'm hoping we can work together to resolve this situation promptly and professionally.

As someone with documented disabilities who requires reasonable accommodations, I'm hopeful that Weinstein Properties will demonstrate its commitment to ADA compliance and fair housing principles through a prompt, cooperative response to this health emergency.

CONFIRMED HAZARDOUS CONDITION

On June 22, 2025, BioTex (License #MAC1813) issued a professional mold assessment that revealed:

- **Dangerous Mold Types:** Laboratory testing confirmed elevated levels of:
 - Aspergillus/Penicillium
 - Chaetomium
 - Stachybotrys/Memnoniella (black mold)
- **Professional Remediation Required:** The assessment states "BioTex Inspections recommends that a licensed Mold Remediation Contractor be retained for the removal of the impacted materials."
- Elevated mold levels throughout the apartment, including bedroom areas

- The report explicitly declares 405 Crawford Street, Apt. 2145, Fort Worth, TX as **"unfit for human occupancy** until mold remediation of the residence/facility/structure (including all items/contents within) is performed in accordance with the Texas Mold Assessment and Remediation Administrative Rules."

These findings confirm what I first reported on August 29, 2024, October 7, 2024, and again on March 5, 2025. The complete assessment report is attached for your review.

Under Texas law, this constitutes a condition that "materially affects the physical health or safety of an ordinary tenant" as specified in Property Code §92.052(a)(3)(A), and even more significantly impacts my health given my documented medical vulnerabilities.

REQUEST FOR DOCUMENTATION:

Please provide all maintenance records for Apartment 2145 prior to my tenancy, including building leaks or water intrusion.

TEMPORARY HOUSING:

I am requesting immediate relocation assistance in the form of a furnished, mold-free, and medically appropriate temporary housing arrangement. This may include, but is not limited to, extended stay hotels, corporate housing, or short-term rentals (e.g., Airbnb, Furnished Finder), provided the environment supports my recovery, accommodates necessary medical care, and safely houses me, my two daughters, my service animals, and any caregivers or guests.

The temporary space must offer at minimum:

- Two separate room / sleeping areas
- Access to a full-size refrigerator and kitchen or kitchenette
- A clean, low-toxin environment that supports recovery from toxic mold exposure and related medical conditions

This request is narrowly tailored to avoid further medical harm and reduce the need for ongoing emergency treatment or inpatient care.

REMEDIES AND ACCOMMODATIONS

Please provide, **in writing within 7 days** of receipt (by **July 3, 2025**):

1. **Immediate Temporary Housing:** Alternative accommodation for three occupants and two dogs at The Nobleman Hotel across the street (two adjoining rooms with kitchenette) and pet accommodation at Doggie Diggs next door (\$85/night for two dogs sharing a crate), beginning immediately and lasting until the unit passes clearance testing. I am also open to discussing other relocation options.
2. **Licensed Mold Remediation:** Engagement of a Texas-licensed Mold Assessment Consultant to develop a protocol and oversee remediation, including proper containment, negative air pressure, and post-remediation clearance testing.
3. **Medical Expense Reimbursement:** Compensation for medical expenses reasonably related to mold exposure.
4. **Written Documentation:** Confirmation of the assigned vendor's name, license number, remediation plan, and timeline for completion.

Please note that this letter constitutes formal notice under Texas Property Code §92.056(b)(3) also being sent by certified mail, return receipt requested. The statutory timeline for response and remediation begins upon your receipt of this notice.

TIME-SENSITIVE CONSIDERATIONS

Two factors make this situation particularly urgent:

1. The Fort Worth Star Telegram reported that 800 residents were displaced by an apartment fire at The Cooper Apartments less than a mile from The Bowery on June 24, 2025. These residents are currently seeking temporary accommodations in our area, making hotel rooms increasingly scarce (article attached).
2. My next scheduled medical appointments are on July 2 and July 7, and my doctors have emphasized the importance of reducing my exposure before these evaluations to get accurate readings.

I'm concerned that without prompt action, suitable accommodations may become unavailable, and my health may deteriorate further.

LEGAL FRAMEWORK

While I hope we can resolve this matter cooperatively, I should note that this situation implicates several important legal frameworks:

Texas Property Code §92.052 and §92.056

- Requires landlords to remedy conditions materially affecting tenant health and safety
- Establishes a rebuttable presumption that seven days is a reasonable repair time
- Provides remedies including lease termination, repair and deduct, and judicial remedies
- This notice satisfies the formal notice requirements under these provisions

Americans with Disabilities Act (ADA) & Fair Housing Act

- My documented medical conditions qualify as disabilities requiring reasonable accommodation
- The request for temporary relocation constitutes a reasonable accommodation for my disabilities
- Housing providers must make reasonable accommodations when necessary to afford persons with disabilities equal opportunity to use and enjoy a dwelling
- Failure to provide reasonable accommodations may constitute disability discrimination

Texas Deceptive Trade Practices Act (DTPA)

- Prohibits misrepresentations about the characteristics or qualities of goods or services
- Protects consumers against failure to disclose information about goods or services
- Provides for economic damages, mental anguish damages, and potentially treble damages
- Continuing to represent the apartment as habitable despite known mold issues may constitute a DTPA violation
- This letter constitutes notice under §17.505 of the Texas Deceptive Trade Practices Act. Your actions violate §17.46(b)(5), §17.46(b)(7), and §17.50(a)(2) of the DTPA by:
 - Representing that goods or services have characteristics or benefits they do not have

- Representing that goods or services are of a particular standard or quality when they are of another
 - Breaching the implied warranty of habitability
 - Failing to disclose known material defects and health hazards, including the presence of mold and prior water intrusion, which you had a duty to disclose.
- This letter provides you with the opportunity to settle this matter within 60 days before I pursue all available legal remedies, including treble damages and attorney's fees under the DTPA.

If these conditions are not remedied within the specified timeframe, I will exercise my statutory rights, which may include terminating the lease, deduct-and-repair, and pursuing damages, court costs, and attorney's fees under §§ 92.056, 92.0561, and 92.0563, as well as potential claims under the ADA, Fair Housing Act, and DTPA.

STATUTORY NOTICES

This letter serves as formal notice under multiple legal frameworks:

1. Texas Property Code §92.056(b)(3): This written notice is being sent by certified mail, return receipt requested regarding conditions that materially affect my physical health and safety. As documented in the attached payment history, I am not delinquent in payment of rent at the time of this notice.
2. Texas Deceptive Trade Practices Act §17.505: This constitutes written notice under the DTPA for violations of §17.46(b)(5), §17.46(b)(7), and §17.50(a)(2) through:
 - a. Representing the apartment as habitable when it is professionally deemed "unfit for human occupancy"
 - b. Concealing pre-existing water damage by painting over it without proper remediation
 - c. Breaching the implied warranty of habitability from the beginning of the lease
 - d. Failing to disclose information about the property's condition that was known when I signed the lease

3. Americans with Disabilities Act and Fair Housing Act: This serves as a request for reasonable accommodation based on my documented disabilities that make me particularly vulnerable to mold exposure.

This letter provides you with the opportunity to resolve this matter within 60 days before I pursue all available legal remedies, including treble damages and attorney's fees under the DTPA.

CONCLUSION

I have been a responsible tenant throughout my tenancy, with consistent on-time rent payments and proper maintenance notifications. I'm simply requesting the accommodations necessary for my health and safety as provided by law.

If Weinstein Properties wishes to resolve this matter amicably, I am open to a good faith discussion. I appreciate your attention to this matter and look forward to your prompt response. I'm available to discuss this in person or by phone at your convenience.

Sincerely,

Katie Copeland

Hi Katie –

I want to start by emphasizing that your health and safety are always our top priority. We take this matter very seriously, and I want to personally assure you that our team is trained to follow all EPA guidelines when performing repairs of this nature. The work we're prepared to carry out is aligned with these standards to ensure everything is handled safely and effectively.

I want to confirm that there is no active leak detected in your home, and all necessary repairs have already been completed. Our team has conducted a thorough assessment, and moisture readings confirm that the area is dry. With no signs of water present, there is no risk of continued mold growth at this time.

City's Codes and Compliance department recently stopped by and informed us that they had visited your home. While we have not yet received an official report, they have requested that the necessary repairs be completed timely. With that in mind, we would like to schedule the repair work for tomorrow to resolve this quickly and minimize any disruption to your routine. This includes, but is not limited to, the replacement of baseboards and effected areas of sheetrock. The work is limited in scope, non-invasive, and can be completed within a day with minimal to no disruption to your daily routine. However, if you would prefer for us to complete the work while you are away from the home for your own peace of mind, we are more than happy to coordinate a time that works better for you.

As mentioned, the scope of the work is limited, non-invasive, and will be completed within a day. Based on our assessment, there is no need for you to vacate the home or arrange for hotel accommodations. At this time, we are not able to accommodate requests for relocation or hotel reimbursement. However, if you feel that remaining in the home during this process is not comfortable for you, we completely understand and want to support you. We're happy to offer the option to transfer to another unit or to end your lease early without penalty.

Since you reported this issue, it is important that we demonstrate our responsiveness and complete the necessary repairs.

Please feel free to reach out with any questions or concerns!

Thank you,

Kodi Walker | Property Manager

Dear Ms. Walker,

This message constitutes a formal request for reasonable accommodation under the Americans with Disabilities Act (ADA), the Fair Housing Act, and related Texas laws.

I understand from Fort Worth Code Compliance that you claim I am not cooperating with remediation. That statement is demonstrably false. I have repeatedly offered access and expressed willingness to allow remediation, as documented in our ongoing correspondence. My sole concern has been ensuring the work is conducted **legally, safely, and by licensed professionals**, as required under Texas law.

As you are aware, I have multiple serious health conditions—including immunological, neurological, and vascular disabilities—that substantially impair major life activities and render me particularly vulnerable to environmental triggers such as mold toxins. These are documented by my treating physicians and home health providers.

Despite repeated notice—including my March 5 email—you and your team assured me the issue had been addressed. However, a licensed mold assessor has now confirmed the presence of **Stachybotrys, Chaetomium, and extensive moisture damage**, concluding that my unit is “**unfit for human occupancy.**” My symptoms—vision loss, chronic inflammation, nosebleeds, respiratory issues, cognitive dysfunction, severe fatigue, and burning eyes—have worsened significantly since your staff began removing baseboards and “inspecting” the unit without containment or proper licensure.

(See Texas Occupations Code Sec. 1958.101(a): A person may not engage in (1) mold assessment or (2) mold remediation unless licensed to do so.)

I am also attaching the **State Farm denial letter**, which confirms that **displacement costs are not covered**, contrary to your suggestion that I consult my renter’s insurance.

Reasonable Accommodation Request:

Under federal and state disability laws, I am requesting:

1. **Temporary relocation for at least 14 days** to The Nobleman Hotel (availability confirmed)
2. **Boarding for my two service animals** at Doggie Diggs next door during this time (\$85/night)
3. **Licensed mold remediation** in compliance with Texas Occupations Code Sec. 1958.101

This temporary relocation is a **reasonable accommodation directly tied to my disability**, and is **medically necessary** based on both physician input and the professional mold report. It would also allow your team full access for remediation without exposing me to further medical harm.

I am open to other creative solutions—hotel, extended stay, or temporary alternative unit—but I **cannot safely remain** in an environment now confirmed to be hazardous to my health.

Please confirm by 6:00 PM today that:

1. This accommodation request is approved
2. No further demolition or unlicensed work will occur
3. Arrangements for The Nobleman and Doggie Diggs are being made immediately

I remain willing to fully cooperate with remediation—**so long as it is legal, licensed, and does not further endanger my health**. I hope this matter can be resolved cooperatively, without need for additional regulatory enforcement or litigation.

Sincerely,
Kathryn Copeland
