The presiding Judge over each court is their own decision maker with regards to court proceedings. I am not aware of how each court handles their request once they get notified.

Since it is a court proceeding request and not falling under the County's ADA compliance the response and directing them to the court then considers the matter closed.

EXTERNAL EMAIL ALERT! Think Before You Click!

Hi Mr. Yarbrough,

Thank you for your response.

This is related in part to my earlier request, but it also concerns an ongoing and active access issue in a current civil matter in the 141st District Court (Cause No. 141-370402-25).

The issue I am encountering is not limited to a single court, but appears to involve a broader gap in how ADA accommodation requests are received, routed, and resolved for court users at the county level.

In my current case, I have made repeated requests for accommodations necessary for meaningful participation due to documented cognitive limitations. However, there has been no clear ADA coordination pathway, no identified decision-maker, and no interactive process through which those requests are evaluated.

As a result, proceedings have continued while access issues remain unresolved.

At this point, I am trying to identify:

- who serves as the appropriate ADA decision-maker for court-user accommodations at the county level;

- how requests are supposed to be processed across courts; and
- how an interactive process is initiated and documented.

If this falls within your scope, I would appreciate your guidance. If not, I would be grateful if you could direct me to the appropriate individual responsible for ADA coordination in this context.

I appreciate your time and your help in clarifying this.

Best regards,

Kathryn "Katie" Copeland

Good afternoon Ms. Copeland,

I was given a message that you reached out to our office yesterday concerning an ADA question. I did find a request from you that went to Justice of the Peace court No. 3 earlier this year. Does this happen to be in relation to that request or something entirely different?
